Table of Contents

Foreword .............................................................................................................................................. xx

Preface ................................................................................................................................................ xxii

Section I
Information Security and Privacy: Threats and Solutions

Chapter I
A Rule-Based and Game-Theoretic Approach to On-Line Credit Card Fraud Detection ............... 1

  Vishal Vatsa, Indian Institute of Technology, India
  Shamik Sural, Indian Institute of Technology, India
  A. K. Majumdar, Indian Institute of Technology, India

Chapter II
Email Worm Detection Using Data Mining ...................................................................................... 20

  Mohammad M. Masud, University of Texas at Dallas, USA
  Latifur Khan, University of Texas at Dallas, USA
  Bhavani Thuraisingham, University of Texas at Dallas, USA

Chapter III
Information Systems Security: Cases of Network Administrator Threats ........................................ 35

  Hamid Jahankhani, University of East London, UK
  Shantha Fernando, University of Moratuwa, Sri Lanka
  Mathews Z. Nkhoma, University of East London, UK

Chapter IV
Rootkits and What We Know: Assessing U.S. and Korean Knowledge and Perceptions .............. 47

  Kirk P. Arnett, Mississippi State University, USA
  Mark B. Schmidt, St. Cloud State University, USA
  Allen C. Johnston, University of Alabama, Birmingham, USA
  Jongki Kim, Pusan National University, Korea
  HJ Hwang, Catholic University of Daegu, Korea
Section II
Privacy Preservation and Techniques

Chapter V
Privacy-Preserving Data Mining and the Need for Confluence of Research and Practice
Lixin Fu, University of North Carolina, Greensboro, USA
Hamid Nemati, University of North Carolina, Greensboro, USA
Fereidoon Sadri, University of North Carolina, Greensboro, USA

Chapter VI
A Dimensionality Reduction-Based Transformation to Support Business Collaboration
Stanley R. M. Oliveira, Embrapa Informática Agropecuária, Brasil
Osmar R. Zaïane, University of Alberta, Canada

Chapter VII
Privacy-Preserving Transactions Protocol using Mobile Agents with Mutual Authentication
Song Han, Curtin University of Technology, Australia
Vidyasagar Potdar, Curtin University of Technology, Australia
Elizabeth Chang, Curtin University of Technology, Australia
Tharam Dillon, Curtin University of Technology, Australia

Chapter VIII
Dynamic Control Mechanisms for User Privacy Enhancement
Amr Ali Eldin, Accenture, The Netherlands

Chapter IX
A Projection of the Future Effects of Quantum Computation on Information Privacy
Geoff Skinner, Curtin University of Technology, Australia
Elizabeth Chang, Curtin University of Technology, Australia

Section III
Authentication Techniques

Chapter X
On the Design of an Authentication System Based on Keystroke Dynamics Using a
Predefined Input Text
Dieter Bartmann, Universität Regensburg, Germany
Idir Bakdi, Universität Regensburg, Germany
Michael Achatz, Universität Regensburg, Germany

Chapter XI
Defeating Active Phishing Attacks for Web-Based Transactions
Xin Luo, Virginia State University, USA
Teik Guan Tan, Data Security Systems Solutions Pte Ltd, Singapore
Chapter XII
A Content-Based Watermarking Scheme for Image Authentication Using Discrete Wavelet Transform Inter-Coefficient Relations ................................................................. 173
Latha Parameswaran, Amrita University, India
K. Anbumani, Karunya University, India

Section IV
Security and Privacy Management

Chapter XIII
Privacy and Security in the Age of Electronic Customer Relationship Management .............. 189
Nicholas C. Romano, Jr., Oklahoma State University, USA
Jerry Fjermestad, New Jersey Institute of Technology, USA

Chapter XIV
The Impact of Privacy Risk Harm (RH) and Risk Likelihood (RL) on IT Acceptance: An Examination of a Student Information System ................................................................. 211
Joseph A. Cazier, Appalachian State University, USA
E. Vance Wilson, Arizona State University, USA
B. Dawn Medlin, Appalachian State University, USA

Chapter XV
Ignorance is Bliss: The Effect of Increased Knowledge on Privacy Concerns and Internet Shopping Site Personalization Preferences ......................................................... 225
Thomas P. Van Dyke, University of North Carolina, Greensboro, USA

Section V
Web Security and Privacy Issues and Technologies

Chapter XVI
Trustworthy Web Services: An Experience-Based Model for Trustworthiness Evaluation ........ 245
Stephen J.H. Yang, National Central University, Taiwan
Blue C.W. Lan, National Central University, Taiwan
James S.F. Hsieh, Ulead Systems Inc., Taiwan
Jen-Yao Chung, IBM T. J. Watson Research Center, USA

Chapter XVII
Administering the Semantic Web: Confidentiality, Privacy and Trust Management................. 262
Bhavani Thuraisingham, University of Texas at Dallas, USA
Natasha Tsybulnik, University of Texas at Dallas, USA
Ashraf T Alam, University of Texas at Dallas, USA
Chapter XVIII
An Ontology of Information Security

Almut Herzog, Linköpings Universitet, Sweden
Nahid Shahmehri, Linköpings Universitet, Sweden
Claudiu Duma, Linköpings Universitet, Sweden

Section VI
Evaluating Information Security and Privacy:
Where are We Going from Here?

Chapter XIX
Information Security Effectiveness: Conceptualization and Validation of a Theory

Kenneth J. Knapp, U.S. Air Force Academy, USA
Thomas E. Marshall, Auburn University, USA
R. Kelly Rainer, Jr., Auburn University, USA
F. Nelson Ford, Auburn University, USA

Chapter XX
A Simulation Model of IS Security

Norman Pendegraft, University of Idaho, USA
Mark Rounds, University of Idaho, USA
