I would like to acknowledge the help of all involved in the collation and review process for this book. Without their support, this project could not have been completed. A further special note of appreciation goes to the staff at Idea Group, Inc., whose contributions throughout the development of this book have been invaluable. In particular, the diligent support of Amanda Appicello is especially appreciated.

Next, I wish to thank all of the authors for their insights and excellent contributions to this book. In addition, this book would not have been possible without ongoing professional support from Mehdi Khosrowpour. Finally, I would like to acknowledge the support and very real contributions of my colleague and spouse, Professor Charlene A. Dykman of the University of St. Thomas, and my daughter, Katherine A. Davis, both of whose love and support continue to sustain and inspire me.
