Technology and Diversity in Higher Education: New Challenges

Table of Contents

Foreword............................................................................................................................vii
Preface....................................................................................................................................x

Section I: Literary Reading and Technology

Chapter I
Scanners and Readers:
Digital Literacy and the Experience of Reading................................................................. 1
Christopher S. Schreiner, University of Guam, USA

Section II: Case Studies in Technology and Diversity

Chapter II
Intergenerational Learning:
College Students and Older Adults .................................................................................... 25
Joyce McCauley, Sam Houston State University, USA
Marilyn Rice, Sam Houston State University, USA
Chapter III
Developing Technology-Based Education for Adult Learners in Micronesia:
A Case Study for Learning Engagement in Diversity ........................................42
Lucyann Kerry, University of Guam, USA

Chapter IV
Crossing the Digital Divide:
Online Portfolios in a Diverse Student Environment ......................................65
Catherine E. Stoicovy, University of Guam, USA
John Sanchez, University of Guam, USA

Chapter V
Information and Communication Technologies:
Towards a Mediated Learning Context ..........................................................81
Glenn Finger, Griffith University, Australia
Maret McGlasson, Griffith University, Australia
Paul Finger, Griffith University, Australia

Section III:
Evaluating the Role and Impact of Technology in Medical Education

Chapter VI
Technology in Physician Education ............................................................104
Michelle LaBrunda, Cabrini Medical Center, USA
Jose A. Cortes, Cabrini Medical Center, USA

Section IV:
Questionnaire Research in Technology and Diversity

Chapter VII
University Students’ Perceptions of Computer Technology Experiences:
Questionnaire Results and Analysis ..............................................................122
Yukiko Inoue, University of Guam, USA

Chapter VIII
Internet Overuse on College Campuses:
A Survey and Analysis of Current Trends ....................................................146
Mary Jane Miller, University of Guam, USA

Chapter IX
Adoption of Online Courses in Higher Education:
Evaluating the Readiness of Business Students and Faculty .........................164
Anita Borja Enriquez, University of Guam, USA
Section V:
Development and Implementation of Technology and Diversity in Learning

Chapter X
A Collaborative Learning Environment to Support Distance Students in Developing Nations ............................................. 189
Michelle Dottore, San Diego State University, USA
Steve Spencer, San Diego State University, USA

Chapter XI
Research in the Pacific: Utilizing Technology to Inform and Improve Teacher Practice ..................................................... 213
Denise L. Uehara, University of Hawaii, USA

Section VI:
Opportunities and New Challenges in Technology and Diversity

Chapter XII
Using Video to Productively Engage Learners ................................................................. 233
Nancy Schmitz, University of Guam, USA

Chapter XIII
Higher Learning in the Pacific:
Reflections on Diversity and Technology in a Capstone Course ............................................. 248
Kirk Johnson, University of Guam, USA
Jonathan K. Lee, University of Guam, USA
Rebecca A. Stephenson, University of Guam, USA
Julius C. S. Cena, University of Guam, USA

About the Authors ............................................................................................................. 274
