RNA polymerase 257
RNA sequences 23, 24
RNSC 165
rotamer free energy 69
S
“superfamily” 117
S. cerevisiae 327
Index

Index:
tandem affinity purification-mass spectrometry (TAP-MS) 2
Tandem Affinity Purification coupled with Mass Spectrometry (TAP-MS) 100
tandem mass spectra proteomics data 240
TAP-MS 4
TAP-MS method 4
TAP-MS method, principles of 4
TAP-tagged protein complex purification 4
TAP-tagged target protein 5
TAP tag 5
TAP tag fusion 5
target proteins 4
Taverna Workbench 303
technical validation 147
telomere 148
tertiary structure information 206
TNF-alpha/NF-kappa B network 7
topological approaches 185
topological graph features xii, 45
topological overlap (TO) 242
toxin 196
transcriptional network 242
transcriptional regulatory networks 313
transcription factor 148
transcription factors (TFs) 246
transcription regulatory networks 117
TRANSFAC 246
transient interaction 99
transport machinery 224
treatment 240
TREMBL 207
TrEMBL 205
trichloroacetic acid (TCA) 5
ture interaction 81
ture path rule 194
two-hybrid (Y2H) experiments 208
two-hybrid screening 289

U
underrepresented subgraphs 121
undirected graph 313
undirected graphs 123
Unified Medical Language System (UMLS) 241
Universal Description, Discovery and Integration (UDDI) 301
upstream activating sequence (UAS) 287
useful graph-based features 56
useful graph-based features, identification of 58

V
vertex weighting 152
vertex weight percentage (VWP) 152
vertices 312
virtual human 9
VisANT 58, 226, 242, 299, 339
visualization 130

W
water/octanol transfer experiments 69
water molecule 70
water molecules 72
Web applications 196
Web service 301
Web services 288
Web Services Description Language (WSDL) 301
Web services protocol stack 302
weighted cluster coefficient 153
weighted nearest-neighbours degree 153
WHISCY (WHat Information does Sequence Conservation Yield) 73
Wnt signaling 7
Wnt signaling pathway 8
workflows 301

X
X-Gal 3
X-ray crystal structure 70
x-ray fiber diffraction 205

Y
Y2H 88
Y2H experiments 83
Y2H method, principles of 2
yeast-two-hybrid (Y2H) 258
yeast-two-hybrid (Y2H) technology 81
yeast GAL4 transcription activation, principle of 3
yeast proteins 185
yeast S. cerevisiae 118
yeast two hybrid (y2h) 223
Yeast Two Hybrid (Y2H) techniques 100
yEd 299
yFiles software library 299
Y Graph software library 299
Y Graph Framework (YGF) 299
yWorks 299

Z
ZDOCK protein-protein docking 73
