About the Contributors

**Gulsun Eby** is a professor in Distance Education at the College of Open Education of Anadolu University. Dr. Eby undertook graduate studies at Anadolu University, Turkey (MA Educational Technology) and the University of Cincinnati, USA (Ed.D. Curriculum & Instruction), and also has worked a post-doctoral fellow at the College of Education at New Mexico State University, USA (2001-2002). Dr. Eby earned her B.S. degree in Computer Engineering from the College of Informatics Technologies and Engineering of Hoca Ahmet Yesevi International Turk-Kazakhstani University in the year 2012-2013. Also, she is currently a graduate student in the Department of Computer and Instructional Technologies. Dr. Eby has over 29 years of experience in focusing on the egalitarian and ecological aspects of distance education; finding new answers, viewpoints and explanations to online communication problems through critical pedagogy; and improving learner critical thinking skills through project-based online learning. She continues to manage and provide pedagogical support for distance learning programs.

**T. Volkan Yuzer, Ph.D.**, is professor in Distance Education at College of Open Education, Anadolu University. He undertook graduate studies at Anadolu University, Turkey. His research interests are new communication technologies, synchronous, asynchronous, and interactive communications and transformative learning milieus in distance and online education. He has over 17 years of experience in exploring additional distance learning media and providing communication and technological support for distance learning programs as well as develop online learning courses. Dr. Yuzer has participated in projects related to distance learning, online synchronous learning, and virtual classroom. He has been teaching courses in distance learning, communication, and information technologies.

**Alexander Andreev**, doctor of pedagogic science, is a professor at Lomonosov Moscow State University. His main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. His works are connected with determined of the links between knowledge and competition level in education area.
About the Contributors

Simber Atay was born in Gaziantep (1958). She studied at The Ege University, Faculty of Fine Arts, Department of Cinema-TV (1976-1980). Her Undergraduate thesis: “Kemal Sunal Comedy” (1980). Her Master thesis: “The Early Period of Photography and Ottoman Photographers” (1983); Her PhD Thesis: “Approaches in Turkish Film Critics” (1990). She is professor at The Dokuz Eylul University. She lectures currently at The Dokuz Eylul University, Faculty of Fine Arts, Department of Photography and Department of Film Design; Faculty of Education, Department of Painting; Institute of Fine Arts. She lectured also, between 2006 – 2011 at Anadolu University, Faculty of Communication Sciences, Department of Journalism. Her research interests: Theories of Photography, Postmodern Cinema, Philosophy of Distance Education, E-Learning Culture. Her Lessons: Theories Of Photography I-II (undergraduate), Photography Techniques (undergraduate), Theories of Postmodernism and Art of Cinema (PhD), Cultural Memory and Art of Cinema (PhD).

Bronyus Aysmontas, PhD (Education), professor, is Dean of the distant training department of the Moscow City State University of Psychology and Education, and Honorable worker of the higher professional education of RF, Laureate of the prize of Russian Federation government in the field of education. Her thematic aspect is pedagogical and educational psychology. His current interest describes various aspects of development and application of the distant technologies when training psychology for students with the limited possibilities of health (LPH). A great attention is paid to the opening of the basic directions of a psycho-pedagogical support for students with LPH, working out of a program on socio-cultural measurements when solving the matters of students’ social and professional rehabilitation.

Alexander Bershadsky, doctor of science, professor, head of Department of Computer Aided Design of Penza State University (Penza, Russia). During his research career worked as an engineer (Penza Research Institute of Computers), associate professor and full professor at the Department of Computer Aided Design of Penza State University. Since 1987, heads this Department. The area of the scientific research is connected with management and monitoring of social systems, distance and online education, computer aided design, new information technologies in Education. Main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. Also some works are connected with developing of adaptive systems to support decision-making, geoinformation technologies and systems. Member of International Academy of Informatization, Russian Academy of Natural Science, Academy of Educational Informatization, International Academy of Open Education.

Alexander Bozhday, doctor of science, professor at the Department of Computer Aided Design, Faculty of Computer Science of Penza State University. Finished the Department of Computer Aided Design of the Penza State University. During his research career worked as a developer of information-analytical and geoinformation systems, system analyst, specialist in computer-aided design. At present, the area of the scientific research is connected with to problems of management of social systems and infrastructures of the territory (including higher and postgraduate education, E/U Learning). Main science activities are related with developing of the mathematical models for the formalization of social systems, intelligent methods of data analysis, and models of heterogeneous data integration. Also some works are connected with designing the monitoring system of postgraduate education in Russia, development of wireless technologies and pervasive e-learning.
Ugur Demiray is Professor of Communication Teaching in the School of Communication Sciences of Anadolu University, Eskisehir, Turkey. His researches are dealt with distance education application of Anadolu University, Ministry of Education and by other universities in Turkey. His researches are on Communicational gaps of distance education students with their institution, also interest also lies towards the profile of DE students, and relationship of graduates and job market in Turkey. He is also interested about changing of ethical behaviors around the world by inserting technological developments to the educational field especially for distance education applications, marketing of distance education programmes and e-learning. He has an extensive experience publishing e-journal on distance education internationally under the patronage Anadolu University since 10 years, named, TOJDE-Turkish Online Journal for Distance Education. TOJDE is a peer-reviewed quarterly e-journal. He is also an editor, consultant editor, reviewer for more than 15 international journals which are deal with distance education and educational technology. In addition, he has responsibilities on advisory boards and as referee for conferences, symposiums, and panels. He has co-authored and individually contributed chapters in some Turkish and international books. Up to now he has around 15 imprint or eBooks dealt with distance education and many articles, which has been published national and international journals.

Murat Ertan Dogan (Ph.D.) is an assistant professor of communication studies in the Department of Radio, Television and Cinema, at the Cukurova University School of Communication, in Adana, Turkey. He has conducted several researches about the Network Societies and Distance Learning Theories. His main areas of interest are; distance education, new communication technologies, social networking, and distance education environment design.

Tulay Goru Dogan is an assistant professor of Information and Communication Technologies Department at the School of Communication in Cukurova University, Turkey. She holds a PhD in the field of Distance Education. She has conducted several research projects about distance learning and communication in Cukurova University. Her research interests are distance education, information and communication technologies and distance learning environment design.

Gulay Ekren is a lecturer at the department of Computer Technologies, Vocational School of Ayancik, Sinop University. She got her bachelor’s degree from the department of Computer and Instructional Technologies, Faculty of Education, Ege University. Then she got her master’s degree from the department of Management Information Systems, Institute of Informatics, Gazi University. She had five years’ experience in vocational high schools of ministry of national education and also five years’ experience in higher education in Turkey. Her research areas are distance education, distance education management, distance education leadership and glass-ceiling.

Ludmila Fionova, doctor of science, professor, is dean of Faculty of Information Science of Penza State University (Penza, Russia). During his research career worked as an engineer (Penza Research Institute of Computers), associate professor and full professor at the Department of Computer Aided Design of Penza State University. Main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. Also some works are connected with developing of adaptive systems to support decision-making, information technologies and systems.
M. Banu Gundogan is an instructor in Computer Education and Instructional Technology Department of Middle East Technical University. As an Industrial Design graduate, she started her career working on hands on science exhibits and managed Turkey’s first science centre, Feza Gürsey Science Centre project in Ankara. Working on the development, implementation and management of instructional design projects regarding interactive science education, she has developed ‘bilimce’ (science language) project and managed science school - science camp projects. While transferring ‘bilimce’ activities to the web, she started studying distance education and is continuing her studies focusing on the ecology and sustainability issues regarding open and distance learning.

Nejdet Karadag, Ph.D., works at the College of Open Education of Anadolu University. He has a BA degree from the Department of French Language Teaching and MA degree from the Department of Distance Education. He received her Ph.D. in Distance Education from Anadolu University. He has been working in the Assessment Department of the College of Open Education since 1997. He works as the vice manager of the Assessment Department. His research interests are assessment and evaluation, quality assurance, instructional design and new learning technologies in open and distance learning.

Sercin Karataş is an associate professor at the department of Computer Education and Instructional Technology, Gazi Faculty of Education, Gazi University. She undertook graduate studies at Gazi University, Turkey (MSc. Computer Education) and at Ankara University, Turkey (Ph.D. Educational Technology). Dr. Karatas has over fifteen years’ experience in focusing on the theoretical and applications of distance education. Her research area includes theories and applications of distance education, designing and developing story board and content for e-learning, instructional design, design principles for e-learning, interaction applications for e-learning, L(C)MS, and creativity for (e)learning and gamification in learning.

Eren Kesim is currently an assistant professor in Anadolu University, Faculty of Education, Department of Educational Sciences. He has a B.A. in economics. His MA and PhD degrees are in Educational Sciences with emphasis on Educational Administration, Supervision, Planning and Economics. He lists his research interests as economics, economics of knowledge, economics of education, economics of distance education, e-learning, Web 2.0, educational administration, knowledge management and technology management. Some previous courses that he has taught listed as; Introduction to Educational Sciences, Classroom Management, Turkish Education System and School Management, History of Turkish Education, Teaching Technologies and Material Design, Economics of Education and Planning, Education and Economic Development and Development of Educational Organizations.

Serpil Kocdar, Ph.D., works as an Assistant Professor at the College of Open Education of Anadolu University. She has a BA degree from the Department of Economics and MA degree from the Department of Distance Education. She received her Ph.D. in Distance Education from Anadolu University in 2011. She has been working in the Assessment Department of the College of Open Education since 2002. Her research interests are instructional design, new learning technologies, quality assurance and accreditation, evaluation and assessment in open and distance learning.
**Vardan Mkrttchian** received his Doctorate of Sciences (Engineering) in Control Systems from Lomonosov Moscow State University (former USSR). Dr. Vardan Mkrttchian taught undergraduate and graduate information and control system courses at the Astrakhan State University (Russian Federation) science 2010, where he is the Professor of the Information and Control Systems Department (www.aspu.ru). He is currently chief executive and rector and leader of the international academic scientist’s team of HHH University (Internet University of Control, Information Sciences and Technology) – Triple H Hamalsaran, Australia (www.hhhuniversity.com). He also serves as executive director of the HHH Technology Incorporation. Professor Vardan Mkrttchian has authored over 300 refereed publications. He is the author of over twenty books in information technology, control system theory, electronics, and cloud and virtual education technology. He is also has authored more than 150 articles published in various conference proceedings and journals.

**M. Yaşar Özden** is currently a Professor of Computer Education in the Instructional Technology department of Eastern Mediterranean University. He is teaching courses on Web programming, Web design, programming languages, and integrating technology into educational settings. He has published several articles in national and international journals. He is actively working on the use of multimedia on the Web and mobile devices, teacher education through Web, and distance education.

**Deniz Sahin** has been working at Gaziosmanpaşa University Faculty of Economics and Administrative Sciences as an assistant professor. She graduated from the Public Finance Department of Anadolu University in 1990. She did her Master degree at University of Anadolu in the field of public finance theory in 2004. She did her PhD degree at University of Anadolu in the field of public finance theory in 2010.

**Anne Saylor**, M.Ed. and MCT, is an employee of York College of Pennsylvania. She has worked in faculty and staff training for twelve years. She holds a bachelor’s degree in Sociology/Anthropology from Elizabethtown College and a master’s degree in Adult Education from The Pennsylvania State University. She serves on the board of directors of Kaltreider-Benfer Public Library. She is married with two children, and lives in Pennsylvania. This is her first publication.

**Libi Shen** has a Ph.D. in Instruction and Learning from University of Pittsburgh, PA, and an outstanding dissertation award in the field of college reading and study skills from International Reading Association. Libi started her college teaching career in 1989. She has designed the M.S.Ed. program in ESL for Duquesne University, PA in 2003. Currently, she is an online faculty for University of Phoenix. Libi is a contributing author for the following IGI books: (1) *Educational, Behavioral, Psychological Considerations in Niche Online Communities*, (2) *Cases on Critical and Qualitative Perspectives in Online Higher Education*, (3) *Online Tutor 2.0: Methodologies and Case Studies for Successful Learning*, and (4) *Emerging Priorities and Trends in Distance Education: Communication, Pedagogy, and Technology*. Her research interests include reading skills, classroom management, curriculum design, online instruction, distance education, and instructional technology.
About the Contributors

Mediha Tezcan, Ph.D., is an academic staff in Economics and Administrative Sciences Department at College of Open Education at Anadolu University, Turkey. The author has undergone her undergraduate, graduate, and doctoral studies on Economics at Anadolu University. By her thesis titled “Economic Structure Analysis in Distance Education: Cost-Effectiveness Comparison of Formal and Distance Education in Turkish Education”, she has received her Doctorate Degree in 2000. The author has numerous publications on distance education, education economy, educational technology, social e-enterprise, project management, research and experimental development, and economic growth and human development.

Md Akther Uddin is doing his PhD at the Moscow City State University of Psychology and Education. He has been doing research on ‘Psychology of language learning in Distance Education’ since 2009. He is a course designer and so far he has designed two different courses for the Distance Education faculty. This site has been developed for and devoted to students, teachers and researchers who are interested in English Language, Psychology, Methodology, Distance Education, and Learning Technologies.

Erman Uzun is an Assistant Professor at Mersin University, Computer Education and Instructional Technology Department, and an assistant editor in Mersin University, Journal of the Faculty of Education. He is teaching courses on instructional technology and material development and introductory courses in computer and technology for undergraduate level. Also, he is incorporating with online course management systems to support students learning in his courses. His research interests are distance education, technology enhanced learning environments, technical and vocational education, instructional design, and project management.

Natalia Vorovchenko is Head of laboratory of Distance Education at National University of State Tax Service, Ukraine. Main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. She is works are connected with determined of the links between knowledge and competition level in education area.

Ali Yildirim is currently Professor and Vice President at Middle East Technical University, Northern Cyprus Campus. His research interests include teacher education, curriculum development and evaluation, thinking skills, social studies and human resources education. He served as educational consultant to several large scale World-Bank financed education development projects in Turkey such as National Education Development Project and Preservice Teacher Education Project. His published books and articles focus on instructional planning, teacher education, thinking and learning skills, teaching of social studies and qualitative research. He has also been involved in numerous European Unions Projects that focus on active citizenship, lifelong education, climate friendly schools and validation of informal learning outcomes.

Belgin Boz Yuksekdag has been working at Anadolu University College of Open Education Testing & Research Center as a lecturer doctor. She graduated from the School of Nursing of Hacettepe University in 1990. She earned her MS degree from the Graduate School of Istanbul University (Health Sciences Department), Internal Medicine Nursing in 1995, and also the MA degree from the Graduate School of Anadolu University (Distance Education Department), in 2008. She earned her PhD degree from the Graduate School of Marmara University (Health Sciences Department), Psychiatry Nursing, in 2013.
