About the Contributors

Gulsun Eby is a professor in Distance Education at the College of Open Education of Anadolu University. Dr. Eby undertook graduate studies at Anadolu University, Turkey (MA, Educational Technology) and the University of Cincinnati, USA (Ed.D. Curriculum & Instruction), and also has worked a post-doctoral fellow at the College of Education at New Mexico State University, USA (2001-2002). Dr. Eby earned her B.S. degree in Computer Engineering from the College of Informatics Technologies and Engineering of Hoca Ahmet Yesevi International Turk-Kazakhstani University in the year 2012-2013. Also, she is currently a graduate student in the Department of Computer and Instructional Technologies. Dr. Eby has over twenty-nine years of experience in focusing on the egalitarian and ecological aspects of distance education; finding new answers, viewpoints and explanations to online communication problems through critical pedagogy; and improving learner critical thinking skills through project-based online learning. Dr. Eby is the Group Coordinator of R&D and International Relations of College of Open Education, Anadolu University. She continues to manage and provide pedagogical support for distance learning programs.

T. Volkan Yuzer, Ph.D., is professor in Distance Education at College of Open Education, Anadolu University. He undertook graduate studies at Anadolu University, Turkey. His research interests are new communication technologies, synchronous, asynchronous and interactive communications and transformative learning milieus in distance and online education. He has over seventeen years of experience in exploring additional distance learning media and providing communication and technological support for distance learning programs as well as develop online learning courses. Dr. Yuzer has participated in projects related to distance learning, online synchronous learning, and virtual classroom. Dr. Yuzer is the Head of Distance Education Department of College of Open Education, Anadolu University. He has been teaching courses in distance learning, communication, and information technologies.

Simber Atay was born in Gaziantep (1958). She studied at The Ege University, Faculty of Fine Arts, Department of Cinema-TV (1976-1980). Her Undergraduate thesis was titled, “Kemal Sunal Comedy” (1980), her Master thesis “The Early Period of Photography and Ottoman Photographers” (1983), and her PhD Thesis: “Approaches in Turkish Film Critics” (1990). She is professor at The Dokuz Eylül University. She lectures currently at The Dokuz Eylül University, Faculty of Fine Arts, Department of Photography and Department of Film Design; Faculty of Education, Department of Painting; Institute of Fine Arts. She also lectured between 2006 – 2011 at Anadolu University, Faculty of Communication Sciences, Department of Journalism. Her research interests include Postmodern Cinema, Philosophy
of Distance Education, E-Learning Culture, and Theories of Photography. Her Lessons: Theories Of Photography I-II-III-IV (undergraduate), Photography Techniques 1-II (undergraduate), Photo-Project I-II(undergraduate), Theories of Postmodernism and Art of Cinema (PhD), Cultural Memory and Art of Cinema (PhD).

Gülbīn Özdamar Akarcay received B.A. and M.Sc. in Journalism from Anadolu University. Her B.A. graduation project was titled “Faces of Prisoners” which was exhibited in IFSAK İstanbul Photography Days 2002. She studied in The Academy of Performing Arts, Film and TV School Department of Still Photography for a year in 2006. She was the curator of Intimate Revolt exhibition took place in Czech Republic, Lithuania, Slovenia and Turkey consisting 10 photographers from 10 countries. She opened “Faces of Prisoners”, “Narodni Divadlo”, “Children of Maticni” as her personal exhibitions and participated in group exhibitions “66-II”, “Spirit Of Prague”, “Six Czech School Photography”. She was the producer of “Merter Oral’in Ardından” (After Merter Oral) and “EFSAD 15. Yıl (Eskisehir Photography Art Association 15th Years)” documentaries and published a photography newspaper in Eskişehir Photography Week. She was selected World Press Photo (WPPH) Seminar organized in Turkey in 2002-2004. Her photo-story “Children of Maticni” was published in WPPH and Photojournales Connections Across A Human Planet. Her articles about photography and visual studies has been published in various magazines and books.

Burak Aycicek was born in Elazığ, Turkey. He graduated from Balakgazi Foreign Language Intensive High School, Elazığ, in 2004. He received his undergraduate degree in English Language and Literature from the Faculty of Letters at Hacettepe University, in 2009. He worked at Cappadocia Vocational College as an English instructor between 2010-2012. He currently works as an expert in International Relations Office at Osmaniye Korkut Ata University. He is currently a graduate student in Curriculum and Instruction at the University of Mersin.

Latifa Ben Arfa Rabai is a University Associate Professor in the Department of Computer Science at the Tunis University in the Higher Institute of Management (ISG). She received the computer science Engineering diploma in 1989 from the sciences faculty of Tunis and the PhD, from the sciences faculty of Tunis in 1992. Her research interest includes software engineering trends quantification, quality assessment in education and e-learning, and security measurement and quantification. She has published in information sciences Journal, IEEE Technology and Engineering Education magazine. She has participated in several international conferences covering topics related to the computer science, E-learning, quality assessment in education, cyber security.

Alexander Bershadsky, doctor of science, professor, head of Department of Computer Aided Design of Penza State University (Penza, Russia). During his research career he worked as an engineer (Penza Research Institute of Computers), associate professor, and full professor at the Department of Computer Aided Design of Penza State University. Since 1987 he heads this Department. The area of the scientific research is connected with management and monitoring of social systems, distance and online education,
computer aided design, new information technologies in Education. Main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. Also some works are connected with developing of adaptive systems to support decision-making, geoinformation technologies and systems. Member of International Academy of Informatization, Russian Academy of Natural Science, Academy of Educational Informatization, International Academy of Open Education.

**Murat Boran** was born in Kayseri on November, 25 in 1987. After receiving his Bachelor degree in English Language Teaching program from Uludag University, Bursa in 2010, he worked as an instructor of English for two and a half years at Dumlupinar University, Kutahya and Meliksah University, Kayseri. He is currently both working as a research assistant in the department of Educational Science and doing his Master’s degree in Curriculum and Instruction of Educational Sciences at Mersin University, Mersin, Turkey.

**Alexander Bozhday**, doctor of science, professor at the Department of Computer Aided Design, Faculty of Computer Science of Penza State University. Finished the Department of Computer Aided Design of the Penza State University. During his research career worked as a developer of information-analytical and geoinformation systems, system analyst, specialist in computer-aided design. At present, the area of the scientific research is connected with to problems of management of social systems and infrastructures of the territory (including higher and postgraduate education, E/U Learning). Main science activities are related with developing of the mathematical models for the formalization of social systems, intelligent methods of data analysis, and models of heterogeneous data integration. Also some works are connected with designing the monitoring system of postgraduate education in Russia, development of wireless technologies and pervasive e-learning.

**Murat Ertan Dogan** (Ph.D.) is an assistant professor of communication studies in the Department of Radio, Television and Cinema, at the Cukurova University School of Communication, in Adana, Turkey. He has conducted several researches about the Network Societies and Distance Learning Theories. His main areas of interest are distance education, new communication technologies, social networking, and distance education environment design.

**Tulay Goru Dogan** is an assistant professor of Information and Communication Technologies Department at the School of Communication in Cukurova University, Turkey. She holds a PhD in the field of Distance Education. She has conducted several research projects about distance learning and communication in Cukurova University. Her research interests are distance education, information and communication technologies and distance learning environment design.

**Ugwunwa Chinwere Esse** is presently a Librarian 1 in Centre for Learning Resources, Covenant University, a dedicated fellow, and her area of specialty and Interest is Information and Communication Technologies, and User satisfaction amongst others. She is an astute researcher who is open to development, creativity, and new innovations. She holds a Bachelor Degree in Library and Information Science/ English and a Master’s degree in Information Science. She is a Certified Librarian who has work experience and technical expertise in various aspects of the Academic library.
Mehmet Firat is assistant professor at Department of Distance Education, Faculty of Open Education, Anadolu University. Dr. Firat gained his Ph.D. in Educational Technology in July, 2012. His academic interest areas are educational hypermedia and multimedia, educational interfaces, metaphorical interface designs, metaphors in educational technology, distance education, e-learning, cyber behaviors, distance education technologies, PLE systems, instructional design, hyper system navigations, navigation performance, educational hypermedia and use of internet in education.

Alexander G. Flor is Full Professor of Information and Communication Studies at the University of the Philippines (Open University) and Chair, UPOU Doctor of Communication program. Formerly Vice Chancellor for research and development, he was founding Dean of the UPOU-Faculty of Information and Communication Studies. Professor Flor served as Chair of the Commission on Higher Education-Technical Committee on Alternative Learning Systems. He was Research Fellow at the East West Center Institute of Culture and Communication, Honolulu, under the Fulbright-PAEF program in 1989. For the past 35 years, Professor Flor has served as technical adviser to international development assistance undertakings on education in 16 countries.

Benjamina Gonzalez-Flor is Associate Professor of the University of the Philippines Los Baños-College of Development Communication. She concurrently serves as Chair of the Master of Development Communication Program of the UP Open University. Prior to joining the academe, she was chief of the Monitoring and Evaluation Division of the Commission on Higher Education under the Office of the President of the Philippines. Dr Flor has been engaged as team leader in World Bank projects in Pakistan, Lao PDR and the Philippines and program coordinator of the AusAID-funded Philippines-Australia Short Term Training Program.

M. Banu Gundogan is an instructor in Computer Education and Instructional Technology Department of Middle East Technical University. After graduating from the Industrial Design department of the same University, she has worked on the development and betterment of Intellectual Property Rights in Turkey by taking active roles in drafting the Decree Laws and Regulations of IP and by publishing articles and reports.

Shalin Hai-Jew works as an instructional designer at Kansas State University (K-State). She has taught at the university and college levels for many years (including four years in the People’s Republic of China) and was tenured at Shoreline Community College but left tenure to pursue instructional design work. She has Bachelor’s degrees in English and psychology, a Master’s degree in Creative Writing from the University of Washington (Hugh Paradise Scholar), and an Ed.D in Educational Leadership with a focus on public administration from Seattle University (where she was a Morford Scholar). She reviews for several for several publications and a number of publishers. She is editor of several IGI-Global titles. Hai-Jew was born in Huntsville, Alabama, in the U.S.

Burcin Ispir has been working in Anadolu University since 1998, and she was appointed to Assistant Professor to Radio and Television Technology program in Porsuk Vocational High school in 2012. Her education order; Anadolu University, PhD. Degree, 2008, Thesis: “Digitalization in Information
About the Contributors

Ozlem Duva Kaya is Assoc. Professor in the Philosophy department at Dokuz Eylul University, Izmir. She received her PhD from the Ege University. She works mainly on Kant and early modern philosophy and on contemporary philosophical anthropology, ethics and political philosophy. Her research on Kant has focused on the relationship between Kant’s philosophical anthropology and political philosophy on the one hand and his ethics and philosophy of Enlightenment on the other. She is interested in humanity, education and its importance on society. She is giving lectures about Enlightenment, Epistemology, Ethics, Introduction of Philosophy, etc. At the same time she is interested in visual culture, developing technologies in education and new learning methods.

Nilgun Ozdamar Keskin received her Ph.D. in Anadolu University Educational Sciences Institution, Department of Computer Education and Instructional Technologies in 2011. She served as visiting researcher at University of Central Florida (2009-2010), and as research assistant at Open Education Faculty, Anadolu University (2005-2012). She continues to serve as assistant professor at Anadolu University. She is currently working as an executive coordinator of Photography and Cameraman Associate Degree Program, an E-portfolio System Coordinator of Public Service Practice Course for Preschool Teacher Training Program, and an assistant of Erasmus Coordinator for Open Education Faculty. Also, she is managing an international project on mobile learning supported by British Council and several national projects. She has international and national articles on educational technology, mobile learning, massive open online course, and open and distance education. Over the past two years, she has co-authored research papers with colleagues in the MobiMOOC Research Team (MRT). She got a best paper award at mLearn Conference 2011 in China. Her research interests include instructional design, online learning, mobile learning, open and distance education, multi-platform system design and e-portfolios.

Figen Kilic was born in Eskişehir. She received the Bachelor and Master degree in 1994 and 1997 from the Anadolu University, Eskişehir and she received the Ph.D. degree in Curriculum and instruction of Educational Sciences from the University of Çukurova in 2007. From 1994 to 1996, she worked as a research assistant at the education faculty of Anadolu University, Eskişehir. From 2001 to 2007, she worked as a research assistant at the education faculty of Çukurova University, Adana. She was an assist. prof. dr in 2007. She is currently an Assist. Prof. Dr. in the department of Educational Science, Mersin, Turkey.

Ali Mili holds a PhD from the University of Illinois and a Doctorat es Sciences d’Etat from the Joseph Fourier University of Grenoble. He has authored ten books (four of which are in Arabic), twelve book chapters, and 200 papers in journals and conference proceedings. One of his current projects, planned in conjunction with Arabic speaking researchers, involves the design and implementation of a programming language, a specification language, an architectural description language, and a design and modeling language, all in Arabic.
Vardan Mkrtchian received his Doctorate of Sciences (Engineering) in Control Systems from Lomonosov Moscow State University (former USSR). Dr. Vardan Mkrtchian taught undergraduate and graduate information and control system courses at the Astrakhan State University (Russian Federation) science 2010, where he is the Professor of the Information and Control Systems Department (www.asp.ru). He is currently chief executive and rector and leader of the international academic scientists’ team of HHH University (Internet University of Control, Information Sciences and Technology) – Triple H Hamalsaran, Australia (www.hhuniversity.com). He also serves as executive director of the HHH Technology Incorporation. Professor Vardan Mkrtchian has authored over 300 refereed publications He is the author of over twenty books in information technology, control system theory, electronics, and cloud and virtual education technology. He is also has authored more than 150 articles published in various conference proceedings and journals.

Svetlana Muminova is doing his PhD at the Russian State University of Tourism and Service. He has been doing research on “English language learning in Distance Education” since 2010. He is a course designer and so far he has designed two different courses for the Distance Education faculty. This site has been developed for and devoted to students, teachers and researchers who are interested in English Language, Psychology, Methodology, Distance Education, and Learning Technologies.

Tatiana Noskova, doctor of pedagogic science, professor, is dean of Faculty of Information Science of Herzen Russian State Pedagogic University (St. Petersburg, Russia). Her main science activities are related with design of information and analytical systems, creation of intellectual information systems, improving the quality of Education. Also some works are connected with developing of adaptive systems to support decision-making, information technologies and systems. Her works are connected with determined of the links between knowledge and competition level in education area.

Happiness Ohaegbulam, Bsc; MLIS; CLN, is an unassuming Faculty with research interests in diverse areas of librarianship including social media librarianship, Library Administration and Organization using the most effective Software Application- Millenium. Ohaegbulam, Happiness, holds a Bachelor of Science degree (B.Sc.Hons) in Library and Information Science/Geography from the University of Nigeria, Nsukka and a Masters degree in Library and Information Science (MLIS) from the University of Ibadan, Ibadan Oyo State. She is a vibrant, unassuming Certified professional librarian with work experience and technical expertise in various sections of the Academic library, A member of Cataloguing and Classification Section of the Nigeria Library Association (NLA). Presently she is a Librarian II in the Centre for Learning Resources (University Library) Covenant University, Canaan Land Ota, Ogun State.

M. Recep Okur is an Assistant Professor in Distance Education at the College of Open Education of Anadolu University. Dr. Okur received B.S. degree in Computer Education & Instructional Technology Department at Anadolu University (2002). Dr. Okur earned his M.S. degree in Computer Engineering Department in Informatics at Anadolu University (2006). He received Ph.D. degree in Department of Distance Education at Graduate School of Social Sciences (2012). He has been working in Computer Aided Education Center at Open Education Faculty at Anadolu University since 2002. Dr. Okur has fourteen years of experience in focusing on the e-learning material design, content production, learning management systems (LMS). Dr. Okur is responsible to create online learning course on LMS for faculty members. Also he provides technological support for faculty about online learning.
About the Contributors

Davor Orlič received a MA in Digital Humanities at University College London, is the Chief Operating Officer of the Knowledge 4 All Foundation Ltd. with the goal of providing the legacy of the PASCAL2 Network of Excellence. He is also a researcher at the Center for knowledge transfer in information technologies, Jožef Stefan Institute and cofounder of the VideoLectures.NET website. This has allowed him to work closely with the Open Education and OER movements, especially MIT OpenCourseWare, OpenCast Foundation and Open Education Consortium. Davor was also the main organizer of the conference “1st Internet of Education 2013” and “OpenCourseWare Global Conference 2014”. He has created and developed OpeningupSlovenia and acts as its project lead and contact person for the UNESCO Chair on Open Technologies for OER and Open Learning. He has extensive experience in FP7 and H2020 projects, among others, FP7 COIN-IP, PlanetData NoE, transLectures STREP and traMOOC – machine translation of MOOCs.

Ozlem Ozan (Ph.D.) conducts her studies in the field of educational technology and distance education with an interdisciplinary approach. She received a B.S. degree in Electrical and Electronics Engineering Department and she has her M.A. and Ph.D. degrees in Distance Education Program of Social Sciences Institute of Anadolu University. Her research interests are digital content development and social networks besides the educational technology and distance education. She works as an Assistant Professor Dr. at Yaşar University. She teaches lessons about next generation technologies, multimedia design in education, and visual communication design software.

Yasin Ozarslan (Ph.D.) has extensive experience in educational technology management in higher education. He received a B.S. degree in Electrical and Electronics Engineering Department and an M.S. degree in Organizational Management Program. He has a PhD in Distance Education Program of Social Sciences Institute of Anadolu University. He is an Assistant Professor in the Department of Science Culture at Yasar University, Izmir Turkey. He is also director of Yasar University Open and Distance Learning Centre. His research interest is information and communication technologies. He also gives lessons about computer programming, information and communication technologies in education and learning management systems.

Neila Rjaibi is a University Common Core Professor of Computer Science at the Higher Institute of Commerce and Accountancy of Bizerte (ISCCB), University of Carthage, Tunisia, since September 2008. Neila has graduated from the University of Tunis, High Institute of Management, Computer Science in 2007. She holds a Master Diploma in Applied Informatics to management in 2010 from High Institute of Management. She is presently pursuing the Ph.D. degree in Informatics at the University of Tunis. Her areas of interests are software engineering, Cyber Security measurement, Security Risk Management, and E-learning Systems.

Tanja Urbančič is the Dean of the School of Engineering and Management at the University of Nova Gorica where she is a researcher and full professor in the field of computer science. She is also a part-time research fellow at the Department of Knowledge Technologies at the Jožef Stefan Institute in Ljubljana. Her research is mainly devoted to knowledge technologies, especially IT supported knowledge discovery and its applications to science and education. She co-authored several book chapters and journal papers
in IEEE Transactions on Systems, Man and Cybernetics, Engineering Applications of Artificial Intelligence, Knowledge Engineering Review and others. She has over fifteen years of experience with the design and implementation of study programmes and with the introduction of new teaching approaches into practice. She chairs the stirring committee for e-learning at the University of Nova Gorica and is one of the founding members of the Opening up Slovenia initiative.

İlker Usta is a Lecturer Dr. in Distance Education at the College of Open Education of Anadolu University. Dr. Usta received a B.S. degree in Primary School Teacher Training Department at Süleyman Demirel University (2006). Dr. Usta earned his M.S. degree in Educational Programme Development Department at Süleyman Demirel University (2008). He received the Ph.D. degree in Department of Distance Education at Graduate School of Social Sciences (2015). He has been working in Test Research Department and TV Production Center at Open Education Faculty at Anadolu University since 2009. Dr. Usta has nine years of experience in focusing on the programme development and evaluation, e-learning material design, content production, assessment and evaluation. Dr. Usta is responsible to create assessment tools and design TV lessons for faculty members.

Omer Uysal is an Assistant Professor in Distance Education at the College of Open Education of Anadolu University. Dr. Uysal earned his B.S. degree in Electric-Electronic Engineering from the Engineering and Architectural Faculty of Anadolu University in the year 2001-2002. Dr. Uysal undertook graduate studies at Anadolu University, Turkey. He finished the MA in the field of Educational Technology and he received his PhD from Anadolu University Educational Sciences Institute at Computer Education and Instructional Technologies. He has worked in the Department of Computer Education and Instructional Technologies for nine years. Recently, Dr. Uysal has started to work in College of Open Education of Anadolu University. He has twelve of experience in focusing on the computer ethics, quality standards and quality assurance of distance education, 21st learner skills and instructional design. He continues to research about acquisition of 21st learner skills, quality assurance of e-learning and instructional design for distance learning programs.

Gurol Yokus was born in Uşak. He received his Bachelor’s degree in field of Foreign Language Education Department in Boğaziçi University. He started his PhD in Curriculum and Instruction Department in Mersin University in 2013. He is currently a research assistant in Mersin University.

İşil Kabakci Yurdakul is associate professor in Computer and Instructional Technologies Education Department of Education Faculty, Anadolu University, Eskişehir, Turkey. She has articles published in international and national journals, papers presented at international and national meetings, published national books and chapters in international and national books about her academic interest area. She has served various projects as executive and researcher. Her academic interest areas are professional development, information and communication technologies integration, instructional design, internet and child.
