About the Contributors

**Anil K. Aggarwal** is a Professor in the Merrick School of Business at the University of Baltimore. Dr. Aggarwal is Fulbright scholar and held Lockheed Martin Research and BGE Chair at the University of Baltimore. He has published in many journals, including Computers and Operations Research, Decision Sciences, Information and Management, Production and Operation Management, e-Service, Decision Sciences - Journal of Innovative Education, Journal of Information Technology Education: Innovations in Practice, Total Quality Management & Business Excellence, eService, International Journal of Web-Based Learning and Teaching Technologies and Journal of EUC and many national and international professional proceedings. He has published three edited books web-based education (2) and one on cloud computing. His current research interests include web-based education, business ethics, big data, virtual team collaboration and cloud computing.

**Nor Athiyah Abdullah** is currently a Ph.D. student in Graduate School of Software and Information Science, Iwate Prefectural University, Japan. She received the B.S. degree of I.T (Software Engineering) from University of Malaysia Terengganu (UMT) in 2009 and M.S. degree of Computer Science from University of Science Malaysia (USM) in 2011, both in Malaysia. Her research interests include online social media, human aspect of human computer interaction and disaster communication. She is a member of IPSJ.

**Rajendra Akerkar** is a professor at Western Norway Research Institute, Norway. He is also a chairman of Technomathematics Research Foundation, India. He has authored 13 books and more than 120 research articles. His current research focuses on intelligent information management, big data analytics, hybrid computing and web mining.

**George Avirappatu** earned his doctorate from University of Wisconsin-Milwaukee under Dr. Rainer Picard. He currently is an associate professor of Mathematics at Kean University, NJ. His interests include statistics, signal processing, and pattern recognition.

**Yukun Bao** is currently a Professor at school of management, Huazhong University of Science and Technology, and a deputy director of Center for Modern Information Management, Huazhong University of Science and Technology. His research interests are computational intelligence and its applications in business, finance and engineering, evolutionary computation and optimization, business intelligence,
data mining and industrial engineering. He has published more than 50 scientific papers in national and international journals and conferences, and some of them appeared in IEEE Transactions on Cybernetics, Information Sciences, Energy, Applied Soft Computing, Energy Economics, Neurocomputing, Engineering Applications of Artificial Intelligence, Knowledge based Systems and so forth. He has been the PI for three projects funded by National Science Foundation of China and received Excellent Faculty Award from IBM in 2012. He is a councilor of the Chinese Association of Computer Simulation, senior member of IEEE and professional activity chair of IEEE Wuhan Section. He has served as Associate Editor of Neurocomputing (Elsevier), Program Committee Member for several international conferences and regular reviewer for journals such as IEEE Transactions on Neural Networks and Learning Systems, Applied Soft Computing, Knowledge based Systems, European Journal of Operational Research, Tourism Management, Electronic Commerce Research and Applications, Computers in Human Behavior and so on.

Alireza Bolhari got his bachelor of science in Industrial Engineering from Iran University of Science and Technology and masters’ degree in Information Technology Management (Advanced Information Systems) from Shahid Beheshti University in 2011 and is a member of International Association of Computer Science & Information Technology. Now he is a PhD candidate in Information Technology Management (Business Intelligence) and a lecturer at Islamic Azad University. His research interests are information technology management (behavioral and organizational aspects of information technology), business intelligence, information systems, Big Data and ethical decision making.

Kevin Carillo is an assistant professor in Information Systems at Toulouse Business School France. His research interests include big data, free/open source software communities, and online communities. He owns a PhD in Information Systems from Victoria University of Wellington, New Zealand.

Ahmad Yusairi Bani Hashim is senior lecturer in the Department of Robotics and Automation, Faculty of Manufacturing Engineering, Universiti Teknikal Malaysia Melaka. His research interests are Bioengineering, Robotics and Scientific Computing.

Md. Rakibul Hoque is an Assistant Professor of Management Information Systems at University of Dhaka, Bangladesh. His research interests include technology adoption, e-Health and ICT4D. Mr. Hoque has published number of research articles in peer-reviewed academic journals, and has presented papers in international conferences. He had the opportunity to work in a number of research projects in Bangladesh, China, Australia and Saudi Arabia. Mr. Rakibul is the member of Association for Information Systems (AIS), UNESCO Open Educational Resources Community, IEEE, Internet Society and ISACA. He is currently pursuing his PhD at Huazhong University of Science and Technology, China. Contact: Department of Management Information Systems, Faculty of Business Studies, University of Dhaka, Bangladesh.

Dhiraj Jain is an Associate Professor of Finance at Symbiosis Centre for Management Studies- Symbiosis International University, Pune. He has qualified the UGC-NET, a Ph. D and a Fellow Member of the Insurance Institute of India. He has worked for the industry for 13 years and has been into academics since the past 8 years. His areas of interest include Security Analysis & Portfolio Mgt., Financial Derivatives & Financial Planning. He has been a corporate trainer for Reliance Mutual Fund, Pru-ICICI and many other broking houses for the past 8 years and has conducted more than 100 training
sessions for various corporate, bankers, brokers and investors. He has also been associated with BSE for content development. He has 85 papers published in various National and International Journals. He has presented papers in various conferences of National & International repute. Two students have already completed their PHD under his guidance.

Jürgen Janssens is Senior Consultant at TETRADE Consulting, with a focus on Project & Portfolio Management. His experience include projects in Energy & Utilities, Press & Publishing, and Glass Manufacturing; in diverse locations: Belgium, France, Italy, Spain, Czech Republic, Brazil. Jürgen has a Master in Architectural Engineering from the KU Leuven (Belgium) and an MBA in Finance from the International University of Monaco (Monaco); and pursued Executive Education programs in Strategy & Big Data at Columbia University (USA) and MIT (USA). He has collaborated on several cross-industry newsletters & forums. His professional interests include cross-functional collaborations, Entrepreneurship, Global dynamics, Big Data & Digitalization, Finance and Writing.

Amir Manzoor holds a bachelor’s degree in engineering from NED University, Karachi, an MBA from Lahore University of Management Sciences (LUMS), and an MBA from Bangor University, United Kingdom. He has many years of diverse professional and teaching experience working at many renowned national and internal organizations and higher education institutions. His research interests include electronic commerce and technology applications in business.

Yuko Murayama is a Professor in the Department of Software and Information Science at Iwate Prefectural University, Japan. Her research interests include internet, network security, security, trust and anshin, and disaster information processing. She had a B.Sc. in Mathematics from Tsuda College, Japan in 1973 and had been in industry in Japan. She had M.Sc. and Ph.D. both from University of London (attended University College London) in 1984 and 1992 respectively. She had been a visiting lecturer from 1992 to 1994 at Keio University, and a lecturer at Hiroshima City University from 1994 to 1998. She has been with Iwate Prefectural University since April 1998. She is IFIP Vice President as well as TC-11 Chair. She serves as the Chair of the Security Committee for IPSJ (Information Processing Society of Japan) as well as a secretary for IPSJ Special Interest Group on security psychology and trust (SIG on SPT). She is a senior life member of IEEE, as well as a member of ACM, IPSJ, IEICE and ITE.

Dai Nishioka is a lecturer in the Department of Software and Information Science at Iwate Prefectural University, Japan. His research interests include human aspects of security, psychological influences on computer security and trust. He received a M.S. degree and Ph.D. in Software and Information Science from Iwate Prefectural University in 2008 and 2012. He had been a research assistant from 2012 to 2013 and a research associate from 2013 to 2014 at Iwate Prefectural University.

Yuvraj Sharma is working as a business Associate at Cognus Technology Ltd, Udaipur. He has been involving in preparing market research reports for the UK clients. He performed tasks related to retrieval and analysis of data to evaluate market perception of customers towards new and existing products as well as he also strategic recommendation to client towards adopting new IT technology. He has completed his MBA in IT from Pacific University in 2014, Udaipur and B-tech in computer science from Rajasthan Technical University, Kota in 2010. He has been worked as a software associate in Sarayu Issue Management Pvt. Ltd, Mumbai. His area of interest includes Big Data, ERP & Database
management system and research projects related to IT & its implementation into various fields. He has cleared Microsoft Certification Professional Exam [70-536] Net Framework 2.0 Core Foundation.

**N. Nawin Sona** is an officer of the Indian Administrative Service (IAS) with 15 years of service in various key positions in Urban Administration, Local Governance and Policy Implementation in Government of India, Maharashtra State. He holds a Mechanical Engineering degree from Anna University, Chennai. Has done Public Policy courses from Duke University, USA and Professional Education course from MIT, Computer Science and Artificial Intelligence Lab, on Big Data. Has passionate interest in introducing technology in Public Sector has resulted in many National and State level awards, in UID project, Smart Cities, Financial Inclusion. Also has an avid interest in GIS.

**Anne L. Washington**, PhD is an Assistant Professor in the School of Policy, Government, and International Affairs at George Mason University in Arlington, Virginia. As a digital government scholar, her research focuses on the production, meaning and retrieval of public sector information. The project was developed with John D. Wilkerson, Professor of Political Science and Kevin Shotwell of the University of Washington as part of a 2012-2015 grant that introduced political informatics. PI-NET, the Poli-Informatics Collaborative Network grant leveraged open government data and computational analysis to bring big data principles to the study of governance.

**Jyotsna Talreja Wassan** is serving as an Assistant Professor in Dept. of Computer Science, Maitreyi College, University of Delhi, India. She is teaching and training students in Computer Science subjects like Programming Languages, Operating Systems, Data Structures, Networks, and Theory of Computers etc. for the past five years. Prior to that, she worked as Software Engineer in St. Microelectronics, Greater Noida, India. She is M.Sc. in Computer Science from University of Delhi. The author has contributions to Encyclopedia of Business Analytics and Optimization compiled by Dr. John Wang, 2014. She has couple of publications in the area of Big Data Modelling.
