About the Contributors

**Umar G. Benna** has multidisciplinary background in planning, urban design and architecture. His teaching, research and professional experiences cover areas such as new towns development, large-scale urban upgrading, environmental issues in development planning, and socio-economic impacts of new technologies on urban systems. Professor Benna has taught, conducted scientific and professional research in many countries in Africa, Middle East and Europe. Through his involvement in the firm of Benna Associates and his membership on the board of many urban and regional development agencies along with his academic pursuits, he has been able to ensure that theory and practice of planning and design reinforce each other. Among these agencies in Nigeria are the Federal Capital Development Authority (FCDA), Federal Housing Authority (FHA), Sokoto Urban Development Authority (SUDA) and Kaduna Capital Development Board (KCDB). He has written many academic books and professional reports and has published widely in scientific journals.

**Shaibu B. Garba** holds a Bachelor and Master of Science in Architecture from Ahmadu Bello University Zaria, a Master of Architecture from McGill University Montreal, A Master of City and Regional Planning from Dhahran, and a Ph.D. from Newcastle University. Dr. Garba has taught at Ahmadu Bello University Zaria, King Fahd University of Petroleum and Minerals, Sultan Qaboos University, and currently at Qatar University. He holds an Adjunct Reader position at Ahmadu Bello University. His areas of teaching interest include Design, History and Theory of architecture, Urban Design and Housing. Dr. Garba has engaged in professional consulting primarily in the areas of institutional facilities design, housing, and the planning and urban design of existing or new cities and facilities. Dr. Garba is actively engaged in research in the area of urban studies with focus on Environment and Behavior Issues, Urban Management and Governance, Housing and Community design issues. Dr. Garba has written more than 25 articles and papers published in refereed international journals, or presented at peer reviewed conferences and seminars. Dr. Garba has participated in many sponsored projects.

**Adnan Abdulhamid** (PhD) is a lecturer at the Department of Geography Bayero University Kano, Nigeria. He is coordinator for MSc Natural Resources programme. He has keen interest in sustainable management of natural resources including groundwater in the drylands of Northern Nigeria.

**Antar A. Abou-Korin** Professor of Urban & Regional planning at the University of Dammam, Saudi Arabia; and Minia University, Egypt. He got his B.Sc. (1983) and M.Sc. (1988) in architecture form
Minia University. In 1992, he got the Ph.D. under joint-supervision system between Minia University and Texas A&M University in regional development. In 2004, he got another Ph.D. in urban studies from Sheffield Hallam University, UK. His area of research covers urban policy and regional development, focusing on desert development. He is a certified architect and urban planning consultant, worked as an urban consultant in many projects in Egypt and in Arab countries.

Ismaila Rimi Abubakar obtained Master of Science in Computing from The Robert Gordon University, Aberdeen UK, Master of City and Regional Planning from KFUPM, Saudi Arabia and PhD Urban and Regional Planning from Florida State University. He is currently an Assistant Professor of Urban Planning, College of Architecture and Planning, University of Dammam, Saudi Arabia. He previously taught in the department of Urban and Regional Planning, Ahmadu Bello University Zaria, Nigeria. He has over 15 years of international experience in teaching, research and professional consultancy. His main interests are: sustainable urbanization; environmental planning; urban services delivery; new town development; applications of Information Technology in the development of cities and regions. He has published and presented articles in several international journals and at conferences.

Samuel Adams is a professor in strategic management and policy. He has authored various academic papers.

Yusuf Aina teaches at the Geomatics Technologies Department of Yanbu Industrial College, Saudi Arabia. He got his bachelor degree from University of Lagos, Nigeria and two master degrees from Obafemi Awolowo University, Nigeria and King Fahd University of Petroleum and Minerals, Saudi Arabia. He is a certified GIS Professional (GISP) and a member of Association of American Geographers, International Society of Digital Earth, African Association of Remote Sensing of the Environment, International Geospatial Society and Society for Urban Ecology. Yusuf Aina has authored a number of academic publications in peer reviewed journals, book chapters and conference proceedings. His research interests include spatial analysis, remote sensing, GIS, urban sustainability and geospatial techniques.

Adenrele Awotona, PhD, Professor of Urban and Community Studies and Director, Center for Rebuilding Sustainable Communities after Disasters, McCormack Graduate School. He is a former dean of the College of Public and Community Service at the University of Massachusetts Boston. Through research, consultancy, and teaching, his professional global experience has extended to many countries of North America, Europe, Africa, Asia, the Middle East, South America, and the Caribbean. Furthermore, he has been an external reviewer/examiner of more than 200 master’s theses and doctoral dissertations internationally. He has written many books and has extensive publication in academic and professional journals.

Olatunji Babatola holds a PhD from the University of Lagos and specializes in Population/health behavioral analysis and Tourism/Recreations and Hospitality. He is recipient of several awards including the University of Lagos Post-graduate Bursary Award (1985/86 Session), Visiting Fellow, National Centre for Epidemiology and Population Health, Australian National University, ACT Canberra (Jan – June 1995) and Research laureate Union for African Population Studies, Dakar Senegal, 2004. He has several publications in national and international scientific and professional journals.
About the Contributors

Elmond Bandauko, a Graduate Planner from the Department of Rural and Urban Planning, University of Zimbabwe, Zimbabwe. He holds a BSc Honors in Regional and Urban Planning.

Aliyu Salisu Barau (PhD) is a lecturer at the Department of Urban and Regional Planning, Bayero University Kano, Nigeria. He is a research fellow with the Earth System Governance Project, Research Associate, Urbanisation and Global Environmental Change and Word Social Science Fellow (Sustainable Urbanisation). His research interest include urban ecology, population and sustainable natural resources management.

Djamel Boussaa, With a Bachelor of Architecture from the University of Algiers in 1984, Djamel Boussaa obtained his Master of Philosophy in Architecture from the University of York, UK in September 1987. He taught as an Assistant Professor at the Institute of Architecture, University of Blida, Algeria for 8 years. He joined UAE University in September 1996 and worked for ten years before moving to the University of Bahrain for three years. He finished his Ph.D in Urban Conservation from the University of Liverpool, UK in 2008. From September 2009, he is an Assistant Professor at Qatar University, Department of Architecture and Urban Planning.

Innocent Chirisa, Senior Lecturer, Environmental Planning and Urban Planning in the Department of Rural and Urban Planning at the University of Zimbabwe. He holds DPhil degree in Regional and Urban Planning.

Patrick Brandful Cobbinah is an Adjunct Research Fellow with the Institute for Land, Water and Society, Charles Sturt University, Australia. He holds a PhD in Human Geography from Charles Sturt University, and a BSc (Honours) in Human Settlement Planning from the Kwame Nkrumah University of Science and Technology, Ghana. His research interests include urban and regional planning and policy, and environmental conservation.

Peter Elias holds a Ph.D from University of Ibadan and teaches in the Department of Geography, University of Lagos. His research interests include Urbanization, Soils, and Environment. He is an alumnus of START 2011 Global Environmental Change Research in Africa and a 2014 World Social Sciences Fellow. He has several local and international scientific, professional and peer-reviewed publications.

Michael Odei Erdiaw-Kwasie is a doctoral candidate (majoring in Business & Sustainable Development) at the Australian Centre for Sustainable Business and Development (ACSBD), under the Faculty of Business, Education, Law and Arts, University of Southern Queensland-Australia. He currently serves as a research assistant at the ACSBD and a sessional tutor at the School of Commerce - where he delivers tutorial lectures in Economic Policy Analysis and Sustainable Economies courses. His research interests cover Business Ethics and Regional sustainability, Corporate Social Responsibility issues, rural studies, Sustainable business, Socio-economic impact assessment and sustainable development issues in developing countries.

Eric Gaisie is a Master student at the Faculty of Architecture, Technische Universitat Darmstadt, Germany. He holds a BSc (Honours) degree in Human Settlement Planning and Master of Philosophy in Planning from the Kwame Nkrumah University and Technology, Kumasi, Ghana.
Blanca C. Cecilia García Associate Professor. (MSc, PhD Dev. University of Manchester, UK). Is passionate about learning as a process that triggers collective development. She is an interdisciplinary Human Resources Developer dedicated to the facilitation, creation and Development Policy research of knowledge-generative networks that engage people at the city-region level. Since 2009, she worked as a Researcher (Tenure track, Assistant Professorship in 2010) in the Public Policy Department of the Northern Borderlands Research College (COLEF) in the research unit based in Monterrey, Mexico. Also, back in 2007, Blanca joined the World Capital Institute (WCI), an international think tank advancing knowledge-based development principles, in the capacity of Awards Programme Facilitator. Presently, she acts as the Executive Director of the Programme, managing the international consultation exercise known as MAKCI (Most Admired Knowledge City Awards). In such capacity, Blanca is also one of the International Executive Committee members for the Knowledge Cities World Summit series, contributing with networked relational capital and Knowledge-City case studies in the different editions of the Summit. Recently, Blanca has joined the PASCAL International Observatory initiative, a UK-based global alliance that conveys the values, commitments, and skills of experts who see the importance of place, social capital, and lifelong learning.

Yinghua Gong was born May 4th, 1992. Education: 2011.9-2015.7 Beijing Forestry University; 2015.9- University of CAS. She received a National Scholarship in 2011-2012 and 2012-2013.

Ufuk Fatih Kucukali, obtained his Bachelors degree in Landscape Architecture from Istanbul University in 2001. Then, he received his Masters degree from Yildiz Technical University, Institute of Natural and Applied Sciences in 2005, and his Ph.D. degree after completing the program of Yildiz Technical University, Institute of Natural and Applied Sciences in 2012. He has been working as a Research Assistant at Istanbul Aydin University in Istanbul since 2009. He has been working as an Assist. Prof. in the same institution since 2012. He published research papers in various academic journals in English and in Turkish on his primary research interests which include ecological planning, ecological risk assessment, water basin planning and urban planning. He gives lectures on Basic Design, Design Communication Media, Landscape Architecture and Urban Design Concepts, Technology of Landscape Architecture. Also, he gives lectures in Urban Design Master Program on Resource Inventory Analysis and Sustainable Green Urban Development: Conceptual Framework and Case Studies.

Ali Madanipour is professor of Urban Design and Director, Global Urban Research Unit at the Newcastle University, UK. He earned a Ph.D. in Town Planning and M. Sc. in Architecture. His teaching and research is organized through three overlapping themes of a) knowledge and rationality, b) public space and urban governance, and c) urban neighborhoods and social exclusion. He has published many well-received books and scientific papers in these areas.

Aaron Maphosa, Graduate, Urban Planning Honours in the Department of Rural and Urban Planning at the University of Zimbabwe. He holds BSc Honors degree in Regional and Urban Planning.

Chen Mingxing (1982–), Deputy director, PhD and Associate Professor, specialized in urbanization and regional development.
About the Contributors

**Liaison Mukarwi**, Graduate planner in the Department of Rural and Urban Planning at the University of Zimbabwe. He holds BSc Honors degree in Regional and Urban Planning.

**Ademola Omojola** is a professor of Geography at the University of Lagos. He holds a PhD from the University of Lagos specializing in Remote Sensing and Geographic Information Systems. He is recipient of several national and international wards. He has several local and international scientific, professional and peer-reviewed publications. He is on the steering committee of Urban Climate Change Research Network among others.

**Dennis Kwadwo Okyere** is a doctoral candidate (with a major in Public Policy) at the School of Economic, Political and Policy Sciences, the University of Texas at Dallas, USA. He holds a Master of Public Policy from the University of Texas at Dallas, an M.Phil. degree in Planning and a B.Sc. degree in Human Settlements Planning from the Kwame Nkrumah University of Science and Technology, Ghana. His current research interest is the interrelationship between telecommunication technologies, particularly mobile telephony, and household trip generation in developing countries. Generally, his research interests are in transport planning, as well as settlement planning and management. He is a member of the Association for Public Policy Analysis and Management (APPAM).

**Eric Evans Osei Opoku** is currently a PhD student at the Department of Economics and Finance, City University of Hong Kong, Hong Kong.

**Trust Saidi** studied MSc in Public Policy and Human Development at Maastricht Graduate School of Governance, Maastricht University. He has a BSc Honours degree in Geography from University of Zimbabwe and BSc in Geography and Environmental Studies from Zimbabwe Open University. He did his PhD at Maastricht University in the Netherlands. His research interests are on nanotechnology, and the relationship between technology and society.

**Lazarus Zanamwe**, Senior Lecturer, Population Geography at the Centre of Population Studie at the University of Zimbabwe. He holds a PhD degree in Demography from the University of Leeds.

**Hua Zhang** is currently an assistant professor at School of Geography, Beijing Normal University. He got PH.D. degree at Institute of Geographical Science and Natural Resource Research of Chinese Academy of Science in 2007. He got master and bachelor degree at Beijing Normal University in 2004 and 2001. His main research interest is population geography. His research chiefly focuses on population distribution, migration and population aging.
