About the Contributors

Manoj Sharma, SM- IEEE, Executive Committee Member IEEE India SSCS/CASS, has 11 plus years of experience in project implementation, research, development and academics in govt and private sector. He has successfully communicated over 20 research papers in International Journals and IEEE Conferences. He continues to serve the research community in various volunteer activities including as Session Chair, PC Member and Reviewer for International Journal and Conferences. He has 2 Patent applications pending in IPO. His interest areas are circuit design, low power, timing analysis, optimization, ASIC design, VLSI, SOC, Radio Frequency Identification systems, CAD systems, communication system, NFC, Algorithms for VLSI systems and tools.

Ruchi Gautam is working as Director (Technical) in MyResearch Labs, Gr. Noida, India with interest in embedded and VLSI systems. She is also Managing Editor of International Journal of Circuits, Architecture and Design, Inderscience. She is contributing to the research community by various volunteer activities.

Mohammad Ayoub Khan is working with Department of Computer Science, Sharda University, Gr. NOIDA, INDIA with interests in Radio Frequency Identification, microcircuit design, and signal processing, NFC, front end VLSI(Electronic Design Automation, Circuit optimization, Timing Analysis), Placement and Routing in Network-on-Chip etc. He has more than 15 years’ experience in his research area. He has published more than 70 publications in the reputed journals, proceedings and patents. He is contributing to the research community by various volunteer activities. He has served as Conference chair in various reputed IEEE/Springer international conferences. He is member of professional bodies of IEEE, ACM, ISTE and EURASIP society. He is also editorial member of technical committee at various journals of IEEE, Springer and Elsevier. Recently, he has also co-authored/edited three books.

Mohammad Faiz Liew Abdullah received BSc (Hons) in Electrical Engineering (Communication) in 1997, Dip Education in 1999 and MEng by research in Optical Fiber Communication in 2000 from University of Technology Malaysia (UTM). He completed his PhD in August 2007 from The University of Warwick, United Kingdom in Wireless Optical Communication Engineering. He started his career as a lecturer at Polytechnic Seberang Prai (PSP) in 1999 and was transferred to UTHM in 2000 (formerly known as PLSP). At present he is an Associate Professor and the Deputy Dean (Research and Development), Faculty of Electrical & Electronic Engineering, University Tun Hussein Onn Malaysia (UTHM).
He had 15 years’ experience of teaching in higher education, which involved the subject Optical Fiber Communication, Advanced Optical Communication, Advanced Digital Signal Processing and etc. His research area of interest are wireless and optical communication, photonics and robotic in communication (Email: faiz@uthm.edu.my).

Mohd. Samar Ansari was born in Bareilly, India. He received B.Tech., M. Tech. and Ph.D. degrees in Electronics Engineering from Aligarh Muslim University, Aligarh, India, in 2001, 2007 and 2012, respectively. He is currently Assistant Professor in the Department of Electronics Engineering, Aligarh Muslim University, Aligarh, India, on leave from NIT, Jaipur. His research interests include analog VLSI, analog signal processing and nonlinear feedback neural networks. He has published around 65 research papers in reputed international journals & conferences and authored 2 books and contributed 5 book chapters.

Nabi Sertac Artan is an Assistant Professor of Electrical and Computer Engineering at New York Institute of Technology (NYIT). He got his Ph.D. degree in Electrical Engineering from New York University (formerly Polytechnic University). Prior to joining NYIT, Dr. Artan was on the faculty of the New York University School of Engineering. He also worked as an ASIC (Application Specific Integrated Circuit) Design Engineer and designed integrated circuits for commercial, academic and military applications. Dr. Artan served in the organizing committees of the ACM Conference on Security and Privacy in Wireless and Mobile Networks (WiSec), Workshop on RFID Security (RFIDSec), IEEE Sarnoff Symposium, and ACM/IEEE Symposium on Architectures for Networking and Communications Systems (ANCS). Dr. Artan’s current research interests include low-power embedded systems and VLSI circuits for implantable medical devices and high-speed circuits for network security.

V. S. Kanchana Bhaaskaran is a Professor and Dean of the School of Electronics Engineering at VIT University Chennai. She obtained her undergraduation degree in Electronics and Communication Engineering from Institution of Engineers (India), Calcutta and her M.S. degree in Systems and Information from Birla Institute of Technology and Sciences, Pilani and Ph D from V I T University. She has more than 35 years of industry, research and teaching experience by serving the Department of Employment and Training, Government of Tamil Nadu, IIT Madras, Salem Cooperative Sugar Mills’ Polytechnic College, SSN College of Engineering and VIT University Chennai. Her specializations include Low Power VLSI Circuit Design, Microprocessor architectures and Linear Integrated Circuits. She has published around 75 papers in International Journals and conferences, and has one patent published and one filed. She is a reviewer for peer reviewed international journals and conferences. She is the Fellow of the Institution of Engineers (India), Fellow of the Institution of Electronics and Telecommunication Engineers, Life Member of the Indian Society for Technical Education and Member of the Institute of Electrical and Electronics Engineers Inc., USA.

Satish Chandra received the M.Tech degree in VLSI design from Indraprastha University, New Delhi, in 2009. He is currently pursuing the Ph.D. degree in electronics engineering at the Division of ECE, NSIT, University of Delhi. He has authored and co-authored over 11 research papers in the low power VLSI domain in various international/national journals and conferences.
Saurabh Chaudhury graduated from REC Silchar (now NIT Silchar) with Honours in Electrical Engineering in 1994. He joined as a lecturer in REC Silchar in 1997, after a brief experience in industry (one year) and teaching (one year). Subsequently he has obtained his M.Tech and Ph.D degree from IIT Kharagpur in the field of Microelectronics & VLSI design in 2001 and 2009 respectively, through QIP program, Govt. of India. He has always strived for knowledge and research and dreams big. He is working in the domain of low power VLSI design, synthesis, leakage minimization, CNTs and image processing. He has published more than 35 papers in Int. journals and Conferences. He has reviewed many papers in technical journals including IEEE, IET and other international conferences. Currently he is holding the position of Associate Professor, in Electrical Engineering.

Bhagwan Das received his Bachelor of Electronic Engineering Degree in 2008 from MUET, Pakistan. He has received his Masters of Engineering Degree (communication engineering) from QUEST, Pakistan in 2013. He is in services with Quid-e-Awam University of Engineering, Science and Technology since Jan 2011 as Lecturer in Electronic department as a regular employee. He is also professional member of IEEE. He is Registered Engineer in Pakistan Engineering council and member in Pakistan Engineering Congress. He is currently doing PhD in Electrical Engineering from Universiti Tun Hussein Onn Malaysia (UTHM) under supervision of Assoc. Prof. Dr. Mohammad Faiz Liew bin Abdullah. His research fields of interest are optical communication and signal processing and FPGAs based Energy Efficient design. He successfully published many research articles in SCOPUS, ISI, EI compendex indexed journals. He has presented more than 15 papers in IEEE index conferences held in Vietnam, Thailand, India, Malaysia, and Pakistan. He is nominated international program committee member in International Conference on Computing and Informatics (ICOCI) (ISI index). He reviewed many paper in International Conference on Soft Computing in Data Science 2015 (SCDS2015) (Springer index). Recently, he has reviewed the several articles of “Wireless Personal Communication” Impact factor Journal 0.998 (Thomas Reuters) and “Radio Engineering Journal” Impact factor Journal 0.7 (Thomas Reuters). Recently, won the Gold medal in Research and Innovation Festival 2015 held in Malaysia.

Martha Salome Lopez de la Fuente works at Universidad de Monterrey, Mexico, as a research professor for the intelligent systems and robotics programs. Her contributions in the research and education areas relate to digital systems design, application specific integrated circuits, embedded systems applications, intelligent systems, and service robots. Since 1994 she has been teaching courses on microprocessors, digital electronics, embedded systems, integrated circuit design, and hardware architectures for service robots. Martha has presented her research work in forums such as Engineering in Medicine and Biology Conference, CERMA Electronics Robotics and Automotive Mechanics Conference, Eurasian Multidisciplinary Forum, and World Forum on Internet of Things. She has also published scientific articles in the IEEE Xplore digital library, the Review of Scientific Instruments journal, and the European Scientific Journal.

From 1986 to 1988, YMCA Institute of Engg., Faridabad in 1998 and Netaji Subhas Institute of Technology, New Delhi from 1998 to 2000. She joined as Assistant Professor in Electronics & Communication Engineering (ECE) Department of the Netaji Subhas Institute of Technology in 2000, and is currently working as Professor since 2011 in the same institute. Her teaching and research interests are Switched Capacitors Circuits and Analog Signal processing. She has co-authored over 100 research papers in the above areas in various international/national journals and conferences. She got best paper award for her paper in IETE journal of Education in 2001.

Lini Lee was born in Malaysia in 1977. She received the B. E., M. Sc and Ph.D. degrees from Universiti Putra Malaysia, Malaysia in 1999, 2001 and 2008 respectively. She joined the industry working on supporting Synopsys EDA tools in 2001. Then, she came back to university to pursue her Ph.D. In 2008, she joined Freescale working as engineer. In 2010, she left the industry to join Multimedia University (MMU) and since then, she has been with Faculty of Engineering, MMU where she’s currently a Senior Lecturer. Her main areas of research interest are integrated circuit (IC) design in both digital and analog, especially at low power applications. Dr Lini is an active member of IEEE and a Chartered Engineer (CEng) with the Institution of Engineering and Technology.

Rohit Lorenzo received the B.Tech degree in electronics and communication engineering from U.P Technical University, Lucknow, India, in 2006 and the M.E degree in VLSI design from Karunya University, Coimbatore, India, in 2008. He is currently working toward the Ph.D degree under the guidance of Dr. S. Chaudhury in the department of Electrical engineering, NIT Silchar, India. During 2008-2010, he was an Assistant professor at Invertis University, Barielly, India and from 2011-2012. He also work as an Assistant professor on contract at NIT Kurukshetra, India. His research interest include low power VLSI design, synthesis, leakage power minimization, low power SRAM circuits and digital VLSI design. He is reviewer of international journal of electronics (Taylor and Francis). He is a student member of IEEE and IEICE.

Kavyashree P obtained her M.Tech in VLSI Design and Embedded Systems from Visvesvaraya Technological University Extension Center, UTL Technologies Limited, Bangalore, India. Her area of research is on VLSI Design, analog and mixed signal design, RF Integrated circuits and sensor design. She has published an international journal paper and four IEEE conference papers in these research areas.

Senthil C Pari has post-graduated in Applied Electronics and Material Science at National Institute of Technology, Tiruchirappalli. He had joined as a lecturer in AVC College, Mayiladuthurai and he elevated as a Head of the department in AdaiKalamatha College, Vallam Thanjavur. He was join as a lecturer in Multimedia University in 2005 and he obtained Ph.D. Degree from Multimedia University in 2009. He promoted as a senior lecturer in 2010 at multimedia university. Dr. C. Senthilpari had a proposed a new adder circuit in VLSI Design research. His work on the VLSI Design and simulation analysis of new hardware circuits. Dr. C. Senthilpari invited committee member in various international conference. He immersed himself in conducting research in chosen area of specialization, guiding Ph.D. projects and Master students and teaching at undergraduate and post graduate level. Over 150 B.Eng students, 1 Master students, 4 Doctorates stand testimony for his productivity in VLSI Design research. Dr. C. Senthilpari has so far published more than 47 papers in national and international journals and conferences. He has
About the Contributors

attended many international conferences. Dr. Senthipari is a Senior Member in IEEE (USA) and Member in IET (U.K). Dr.Senthilpari obtained Charted Engineer from IET (U.K).

**B Shivalal Patro** has completed his B.Tech from Trident Academy of Technology in Electronics & Telecommunication Engineering in 2010, Odisha. He then completed M.Tech in Communication Systems from KIIT University in 2012. Currently, he is a Ph.D scholar at KIIT University, Bhubaneswar, Odisha. His area of research includes high speed, low power analog and mixed signal IC design, modeling and optimization.

**Vandana B Rao** has completed her B.Tech from JNTU (Hyderabad) and M.Tech from PCU (Puducherry). She is presently pursuing PhD in KIIT University (Bhubaneswar). Her research area is Device modeling in VLSI.

**Kunwar Singh** received his B.Tech in Electronics and Communication Engineering from GGSIP University, New Delhi and M.Tech in VLSI Design from CDAC, Noida in 2006 and 2009 respectively. He served as an intern in Cadence Design Systems during Feb. 2009 – Jul. 2009 where he worked as a product validation engineer in SPB group. He is currently serving as an Assistant Professor in the Division of ECE, NSIT w.e.f Sep. 2013 and is working towards his PhD degree in the University of Delhi. Earlier, he has also served as Assistant Professor in the Department of Electrical Engineering, Delhi Technological University from Jul. 2010 – Sep. 2013. His research interests include Low power high performance digital CMOS circuits, CAD for VLSI Design, applications of artificial intelligence techniques in power-delay-area product optimization of digital CMOS integrated circuits, automated design and optimization of analog and mixed-signal integrated circuits, integrated circuit design using memristors. He has authored and co-authored over 14 research papers in the above areas in various international/national journals and conferences. He has filed one Indian and one US patent application.

**Shailendra Kumar Tripathi** was born in Kanpur, India. He has completed B.Sc. and M.Sc.(Electronics) degrees from C.S.J.M. University Kanpur, India, in 2002 and 2004 respectively. He received M.Tech., degree in Electronics Engineering from Aligarh Muslim University, Aligarh, India, in 2008. Presently, he is research scholar in the Department of Electronics & Communication Engineering, Malaviya National Institute of Technology, Jaipur, India. His research interests are analog signal processing, nanoelectronic circuits and VLSI Design. He has published 5 research papers in reputed international conferences.

**Siva Yellampalli** is currently working as a Professor with VTU Extension Centre, UTL Technologies Ltd. He obtained his MS & Ph.D from Louisiana State University. His area of research is system level design for power optimization. His area of research encompasses different research fields such as Very Large Scale Integration (VLSI), mixed signal circuits/systems development, micro-electromechanical systems (MEMS), and integrated carbon nanotube based sensors. He has published a book in the area of mixed signal design, and edited two books on carbon nano tubes. He also published about 100 International Journal papers & IEEE Conference papers in these areas of research. In addition he has delivered keynote speeches at International conferences held in Canada, Spain & Dubai. He has given many professional presentations including invited talks. He has been a consultant to a variety of industries and acts as a reviewer for technical journals and book publishers. Currently he is the Student Activities Chair, Executive Committee IEEE Bangalore Section. He is also a life member of Indian Society for Techni-
cal Education (ISTE), senior member, International Association of Computer Science and Information Technology (IACSIT), VLSI Society of India (VSI) and National Society of Collegiate Scholars (NSCS).
