About the Contributors

Vishal Bhatnagar holds a BTech, a MTech and a PhD in the engineering field. He has more than 16 years of teaching experience at various technical institutions. He is currently working as an Associate Professor in Computer Science in the Engineering Department of the Ambedkar Institute of Advanced Communication Technologies and Research (Government of Delhi), GGSIPU, Delhi, India. His research interests include: database, advance database, data warehousing, data-mining, social network analysis, and big data analytics. He has to his credit more than 80 research papers in various international/national journals and conferences.

* * *

Neethu Akkarapatty is a BTech graduate in Computer science from the Sahrdaya College of Engineering and Technology, Kodakara, affiliated to the University of Calicut. She is currently pursuing full time a MTech in Computer Science with Information Systems (CSIS) at the SCMS School of Engineering and Technology, Karukutty, Ernakulam, Kerala. Her recent publications are in the area of Machine Learning and Sentiment Analysis.

Edson M. Dela Cruz is currently a student in the Department of Computer Science at the University of Manitoba, Canada. He won a Faculty of Science Undergraduate Student Research Award (USRA) to conduct full-time research in the area of data mining under the academic supervision of Prof. Leung. Dela Cruz is interested in the research area of data mining with a focus on association rule mining and collaborative filtering.
About the Contributors

**Naveen Dahiya** received his B.E. in Computer Science and Engineering from Maharshi Dayanand University, Rohtak, Haryana, India in 2003 and a M.Tech in Computer Engineering from Maharshi Dayanand University, Rohtak, Haryana, India in 2005. He is currently pursuing a Ph.D from the Y.M.C.A. University of Science and Technology, Faridabad, Haryana, India. He is working as an Assistant Professor and Head of the Computer Science and Engineering Department at the Maharaja Surajmal Institute of Technology, C-4, Janak Puri, New Delhi, India. His research interests include: database systems, data warehousing, and data mining. He has supervised various undergraduate and postgraduate students in various research projects in data warehousing and data mining.

**Snehlata Sewakdas Dongre** received a B. E. degree in Computer Science and Engineering from Pt. Ravishankar Shukla University, Raipur, India in 2007 and a M. Tech. degree in Computer Engineering from University of Pune, Pune, India in 2010. She is currently working as an Assistant Professor the Department of Computer Science and Engineering at G. H. Raisoni College of Engineering, Nagpur, India. She has had a number of publications in reputed international conferences for the IEEE and in journals. Her research is on Data Stream Mining, Machine Learning, Decision Support Systems, ANNs and Embedded Systems. Her book titled *Data Streams Mining: Classification and Application* was published by LAP Publication House, Germany in 2010. Ms. Snehlata S. Dongre is a member of IACSIT, the IEEE and the ISTE Organization.

**Vijay Sekar Elango** is currently a student in the School of Computer Science and Engineering at VIT University, Vellore, India. He won a MITACS Globalink Research Internship award to conduct full-time research in the Department of Computer Science at the University of Manitoba, Canada, in the area of data mining, under the academic supervision of Prof. Leung. Elango is interested in the research area of data mining with a focus on collaborative filtering and data analytics.

**Lalit Mohan Goyal** has completed a Bachelor of Technology in Computer Engineering in 2002. He has done his Master of Technology in Information Technology in 2009. He has submitted his Ph.D. to the Computer Engineering department of Jamia Millia Islamia, New Delhi, INDIA in 2015. He has been teaching since 2002.

**Mahima Goyal** is pursuing her MTech in Information Security at GGSIPU, Delhi, India. Her research interests include databases, data mining, big data analysis and sentiment analysis.

**Arushi Jain** is completing her M.Tech in Information Security at the Ambedkar Institute of Advanced Communication Technologies And Research, Delhi, India. Her research interests include databases, data warehousing, data mining and big data.

**Fan Jiang** received his B.C.Sc. (Hons.) and M.Sc. degrees from the University of Manitoba, Canada. He is currently a Ph.D. candidate in the Department of Computer Science at the same university under the academic supervision of Prof. Leung. Jiang is interested in conducting research in the area of data mining with a focus on association rule mining, collaborative filtering, and social network analytics.
**About the Contributors**

**Sheng-Jhe Ke** received his M.A. degree from the Department of Information Management, National Sun Yat-sen University, Kaohsiung, Taiwan. He works as a software engineer in Kaohsiung. His research interests include data mining, social media analysis and social networking.

**Manish Kumar** received his PhD from Indian Institute of Information Technology, Allahabad, India in Data Management in Wireless Sensor Networks. He is an Assistant Professor at the Indian Institute of Information Technology, Allahabad, India. His research interest areas are databases, data management in sensor networks, data mining and Big Data analytics.

**Wei-Po Lee** received his Ph.D. in artificial intelligence from the University of Edinburgh, United Kingdom. He is currently a professor in the Department of Information Management, National Sun Yat-sen University, Kaohsiung, Taiwan. He is interested in intelligent autonomous systems, data mining, mobile multimedia, and social networking.

**Carson K. Leung** received his B.Sc. (Hons.), M.Sc., and Ph.D. degrees all from the University of British Columbia, Vancouver, Canada. He is currently a Professor at the University of Manitoba, Canada. He has contributed more than 130 refereed publications on the topics of big data analytics, databases, data mining, social network analysis, as well as visual analytics—including papers in ACM Transactions on Database Systems (TODS), Future Generation Computer Systems (FGCS), the Journal of Organizational Computing and Electronic Commerce, Social Network Analysis and Mining, the IEEE International Conference on Data Engineering (ICDE), the IEEE International Conference on Data Mining (ICDM), the SCA 2012 Best Paper on social computing and its applications, as well as four chapters for IGI Global, published in books and encyclopedias.

**Venkatesan M.** is presently completing his Ph.D in P.G. and Research, Department of Computer Science, at the Government Arts College (Autonomous), Karur, Tamilnadu, India. He has received his B.Sc (Mathematics) degree from Kongu College of Arts and science, Karur, Tamilnadu, India in 2007. He received his MCA degree from Paavai Engineering College, Namakkal, Tamilnadu, India, in 2010. He has participated in workshops and published many research papers in journals, and presented many papers in national and international conferences at various colleges.

**Renuka Mahajan** is an assistant professor of computer science at Amity University, Uttar Pradesh. She has completed her PhD (CS&E) from Amity University, UP. Her current research interests include: educational data mining, recommender systems and e-CRM. She has published in Scopus-indexed journals such as the Springer Journal EAIT, the Inderscience IJIL, IJDATS and IJLEG, JIOS, IJEEEE and a few other professional conference proceedings.

**Lateesh G. Malik** received a B. E. degree in Computer Science and Engineering from Rajasthan University, India, in 1996 and a M. Tech. degree in Computer Science & Engineering from Banasthali Vidyapith, India, in 2001. She is currently working as a Professor and the Head of the Department of Computer Science and Engineering at the G.H. Raisoni College of Engineering, Nagpur, India. She has had a number of publications in reputed international conferences like the IEEE and various journals. Her research is on Document Processing, Soft Computing and Image Processing. She received a Best
About the Contributors

teacher award and she is a gold medalist in M.Tech. and B.E. She also received a grant from AICTE of Rs. 7.5 lacs under RPS. Dr. Latesh Malik is a member of CSI, the IEEE and the ISTE Organization.

Mamta Mittal has completed her Ph.D. (Computer Engineering) from Thapar University Patiala, India, in 2015. She has done M.Tech. and B.Tech. in 2007 and 2001, respectively. She is currently working as an Assistant Professor at the G.B.Pant Govt. Eng. College, New Delhi. She has been teaching since 2001.

Anjaly Muralidharan is a B.Tech graduate in Information Technology from Viswajyothi College of Engineering and Technology, Vazhakulam, Kerala. She is currently pursuing full time a M.Tech in Computer Science with Information Systems (CSIS) at the SCMS School of Engineering and Technology, Karukuttty, Ernakulam, Kerala. Her areas of interest are in the field of Data Mining and Computer Networking.

Lediona Nishani was born in Berat where she attended the high school. She achieved a Master and Bachelor Degrees at the Polytechnic University of Tirana, Faculty of Information technology in the Telecommunication Engineering Department. Currently, she is pursuing a PhD degree in Computer Science at the University of New York in Tirana. Regarding the Doctoral Program, her research field of interests are machine learning techniques, security engineering, intrusion detection systems, outlier detections, greedy ensemble outliers, etc. Her dissertation consists of a combination between Intrusion Detection Systems (IDS) and Data Mining models and algorithms. She has worked for two years as a full time lecturer at The Planetary University of Tirana, and for a year as a full time pedagogue at Albanian University at the Engineering Department. Currently, she is full time lecturer at the Canadian Institute of Technology (CIT) in the Engineering Faculty. She has delivered various lectures in specialty courses for the Computer Engineering Study program.

Vinod P., is a Professor in the Department of Computer Science & Engineering at the SCMS School of Engineering & Technology, Cochin, Kerala. He holds his Ph.D in Computer Engineering from the Malaviya National Institute of Technology, Jaipur, India. He has also served as programme committee member for the International Security Conference like Security of Information and Networks, ICACCI, ICISSP, etc. Dr. Vinod P’s research uses feature selection and dimensionality reduction methods which is a major principle in the Machine Learning Domain as it is used in the detection of malicious application. He has more than 70 research articles published in peer-reviewed journals and international conferences. His current research is involved in the development of an offline malware scanner for mobile applications using machine learning techniques. Vinod’s areas of interest are in Malware Analysis, Data Mining, Ethical Hacking and Natural Language Processing.

Amrit Pal is pursuing his PhD degree from the Indian Institute of Information Technology, Allahabad India. He has received his M.Tech degree from the National Institute of Technical Teachers’ Training and Research, Bhopal, India, in 2014. His research interest includes data mining and big data analytics. He also has publications in similar areas.

Nisha S. Raj is a graduate from Cochin University of Science and Technology, Kochi Kerala and a Post graduate from the Anna University Coimbatore, Tamil Nadu. She has been working in the Dept. of Computer Science and Engineering, SCMS School of Engineering and Technology, Angamaly, for the
About the Contributors

past 10 years. Currently, she is a research scholar at the Cochin University of Science and Technology, Kochi. Her research interests are in the areas of Text Classification, Machine Learning Techniques and Deep Learning.

Anu Saini received her Ph. D. in computer science from the Jawaharlal Nehru University, New Delhi, India, in 2014; a M. Tech. degree in computer science from MDU Rohtak, India and B. Tech. from MDU, Rohtak, India. She has authored many national and international journal and conference papers. She is working as an Assistant Professor in the Computer Science and Engineering Department at the G.B. Pant Govt. Engineering College, New Delhi, India. Her current research interests include Service Oriented Architecture, Cloud Computing, Data warehouse and Big Data.

Neeti Sangwan received her B Tech. from Maharishi Dayanand University, Rohtak, in 2010 and a M Tech. from Banasthali University, Rajasthan, in 2012. Presently, she is working as an assistant professor (C.S.E) in Maharaja Surajmal Institute of Technology, Janak Puri, New Delhi. Her research interests include data mining, data warehousing, and databases.

Pulkit Sharma is student of Ambedkar Institute of Advanced Communication Technologies And Research, Delhi. He is currently pursuing his bachelors in technology (computer science and engineering) and his area of interest is in Big Data Analytics.

R. K. Sharma received his Ph.D. degree in Mathematics from the University of Roorkee (Now, IIT Roorkee), India in 1993. He is currently working as a Professor at Thapar University, Patiala, India, where he teaches, among other things, statistical models and their usage in computer science. He has been involved in the organization of a number of conferences and other courses at Thapar University, Patiala. His main research interests are Machine Learning and Natural Language Processing.

V.P. Singh did his M.E. and Ph.D. in Computer Science from Thapar University, Patiala, India. Presently, he is an Assistant Professor, Department of Computer Science and Engineering, Thapar University, Patiala. He has published many research papers in national and international journals and conferences. His areas of interest are soft-Computing and computer networks.

K. Thangadurai is presently working as an Assistant professor and the Head in the P.G. and Research Department of Computer Science, at the Government Arts College (Autonomous), Karur. He has fifteen years of rich teaching experience, along with ten years of Research experience in the field of Computer Science. He has worked as the HOD of PG Department of Computer Science at Government Arts College (Men), Krishnagiri. He has published many technical papers in National and International Conferences and Journals. His areas of interest are Software Engineering, Network Security, Data Mining, etc.

Rao Narasimha Vajjhalad, Doctor of Management. Assistant Professor in Computer Science and Programme Leader for the Masters Programme in Computer Science offered by the University of Greenwich, UK.
