About the Editor

M. Adam Mahmood is a professor of computer information systems, Department of Information and Decision Sciences. He also holds the Ellis and Susan Mayfield Professorship in the College of Business Administration. He is a visiting faculty at the Helsinki School of Economics and Business Administration, Finland, and the University of Canterbury, New Zealand. Dr. Mahmood’s scholarly and service experience includes a number of responsibilities. He is presently serving as editor-in-chief of the Journal of Organizational and End User Computing. He has also recently served as guest editor of the International Journal of Electronic Commerce and the Journal of Management Information Systems. Dr. Mahmood’s research interests center on the utilization of information technology including electronic commerce for managerial decision making, strategic and competitive advantage, group decision support systems, and information systems success as it relates to organizational and end user computing. On this topic and others, he has published four edited books and 87 technical research papers in some of the leading journals and conference proceedings in the IT field. These include Management Information Systems Quarterly, Decision Sciences, Journal of Management Information Systems, International Journal of Electronic Commerce, European Journal of Information Systems, INFOR — Canadian Journal of Operation Research and Information Processing, Journal of Information Systems, Information and Management, Journal of End User Computing, Information Resources Management Journal, Journal of Computer-Based Instruction, Data Base, and others. He has also presented papers in numerous regional, national, and international conferences. In recognition of his research, he has received several “outstanding research” awards from various professional organizations.
