About the Editors

Juan Ramón Rabuñal Dopico is associate professor in the Department of Information and Communications Technologies, University of A Coruña (Spain). He finished his graduate in computer science in 1996, and in 2002, he became a PhD in computer science with his thesis “Methodology for the Development of Knowledge Extraction Systems in ANNs” and he became a PhD in civil engineering in 2008. He has worked on several Spanish and European projects and has published many books and papers in several international journals. He is currently working in the areas of evolutionary computation, artificial neural networks, and knowledge extraction systems.

Julian Dorado is associate professor in the Faculty of Computer Science, University of A Coruña (Spain). He finished his graduate in computer science in 1994. In 1999, he became a PhD, with a special mention of European doctor. In 2004, he finished his graduate in biology. He has worked as a teacher of the university for more than 8 years. He has published many books and papers in several journals and international conferences. He is presently working on bioinformatics, evolutionary computing, artificial neural networks, computer graphics, and data mining.

Alejandro Pazos is professor in computer science, University of A Coruña (Spain). He was born in Padron in 1959. He is MD by Faculty of Medicine, University of Santiago de Compostela in 1987. He obtained a Master of Knowledge Engineering in 1989 and a PhD in computer science in 1990 from the Polytechnique University of Madrid. He also archives the PhD grade in Medicine in 1996 by the University Complutense of Madrid. He has worked with research groups at Georgia Institute of Technology, Havard Medical School, Stanford University, Politenechnique University of Madrid, etc. He funded and is the director of the research laboratory Artificial Neural Networks and Adaptive Systems in Computer science Faculty and is co-director of the Medical Informatics and Radiology Diagnostic Center at the University of A Coruña.
