**J. A. Ariza Montes**. PhD in Economic and Business Science as well as Principal Lecture of the Human Resources Area in the School of Business and Economic Science -ETEA- (Universidad de Córdoba). Researcher and professor, has published numerous articles in scientific magazines and is author of several books: Gestión integrada de personas. Una perspectiva de organización (in collaboration) (Desclée De Brouwer, 1999), El reto del equilibrio: Vida personal y profesional (Desclée De Brouwer, 2002), Dirección y Administración Integrada de Personas (in collaboration) (McGraw-Hill, 2004).

**Andrea Bikfalvi** is Lecturer in the Business Administration and Product Design department at the University of Girona. She has a degree in Business Administration and a PhD in the same area. She
About the Contributors

regularly cooperates with researchers at the Fraunhofer Institute for Systems and Innovation Research in Karlsruhe-Germany where she spent a one-year research stay in 2005 in the Department of Industrial and Service Innovations. Dr. Bikfalvi participated in considerable projects at regional level, conceded by the Catalan Regional Development Agency, on the topic of entrepreneurial success, industrial competitiveness, spin-off creation and regional development. Her experience also covers areas belonging to the public administration sector, participating in two competitive projects awarded by the Public Administration School of Catalonia. Her regular activities include both teaching and research having in common the topic of innovation. She coordinates networks for conducting research related to innovation in teaching among regional, national and international higher education institutions.

Ayse Bilgin is a lecturer in the Department of Statistics at Macquarie University. She teaches undergraduate and postgraduate students in various topics such as Operations Research, Data Mining and Decision Support Systems. Her research interests include statistics education and applied statistics especially in health sciences.

Roman Boutellier is since 1st October 2008 Vice President Human Resources and Infrastructure of ETH Zurich. He is professor and leads the Chair for Technology and Innovation Management at the Department of Management, Technology, and Economics (D-MTEC) at ETH Zurich since 2004. Since 1999 Prof. Dr. Boutellier is titular professor at the University of St. Gallen (HSG). In 1979 he received his PhD in mathematics and worked as postdoctoral fellow at the Imperial College in London. His works appeared in R&D Management, Harvard Business Manager, ZFO and Drug Discovery Today. Roman Boutellier has held several leading positions in the industry and he is member of the board of directors of several Swiss large-scale enterprises. The focus of his research is the management of technology driven enterprises with a specific focus on innovation.

Simon Brach (brach@uni-koblenz.de) is a Ph.D. candidate at the Institute of Management and Marketing of the University of Koblenz. He graduated in Psychology from the Friedrich-Schiller-University Jena. In his research he is interested in the intersection of psychology and marketing research.

Malte Brettel is University Professor for Business Administration and Sciences for Engineers and Scientists at RWTH Aachen University, Germany. He received his doctoral degree and his postdoctoral qualification from WHU Otto Beisheim School of Management. He has worked as a management consultant and is co-founder of JustBooks (today ABEBooks). His areas of research interest include entrepreneurial management and development, entrepreneurial marketing, entrepreneurial finance and innovation management. He has published his work in various books and journals and has presented his research at leading international conferences including the AMA Summer Marketing Educators’ Conference, the AOM Annual Meeting, the FMA Annual Meeting, and the Babson Entrepreneurship Conference. He has published in prominent marketing journals such as Journal of International Marketing.

Peter Busch is a senior lecturer in the Department of Computing at Macquarie University. His areas of teaching include databases, information systems, IT project and systems management and enterprise systems integration. His research area focuses on knowledge management, organizational learning, knowledge capital and the knowledge economy. He is particularly interested in the knowledge management implications of tacit knowledge diffusion.
About the Contributors

Kathryn Cormican lectures in the College of Engineering & Informatics at the National University of Ireland, Galway. Her research interests lie in the areas of enterprise integration and technology management. Kathryn leads a number of funded research projects in these areas. She has published widely at international conferences and in peer reviewed journals. Kathryn also works with many leading organisations helping them to design, develop and deploy new processes and systems.

David Deakins holds a Chair in enterprise Development and is Director of Dumfries Campus at the University of the West of Scotland. He is now responsible for strategic development at the Dumfries campus whilst maintaining his research interests and conferences connected with enterprise development and entrepreneurship. David’s research interests include the finance of small firms, rural enterprise and ethnic minority enterprise. He co-authors a successful textbook on Entrepreneurship and Small Firms, published by McGraw-Hill and now in its 5th edition which was published in February 2009. He will take up a Chair in Small Business Management and Entrepreneurship at Massey University, NZ from 1st September 2009 and retain a Visiting Professorship at UWS.

Andreas Engelen works as a post-doc student at the chair “Business Administration and Sciences for Engineers and natural Scientist” at RWTH Aachen University, Germany. He received his master degree and his doctoral degree in business administration from RWTH Aachen University. His areas of research interest include international marketing and entrepreneurial marketing. He has presented his research at leading international marketing and entrepreneurship conferences and published in prominent marketing journals such as Journal of International Marketing.

Markus Eurich works as a scientific collaborator at the Swiss Federal Institute of Technology Zurich (ETH Zurich). He belongs to the research group of Prof. Dr. Roman Boutellier at the Department “Management, Technology, and Economics” (D-MTEC). He is a PhD candidate with a research focus on business models for information and communication technology (ICT) innovations. He received his “Dipl. Wirtsch.-Inf.” (Business Informatics) from the University of Mannheim. As research associate, Markus Eurich also works in the Smart Items Research Program at SAP Research in Zurich. He joined SAP in 2001 and mainly worked in research and in the fields of Internal Business Consulting and Customer Relationship Management in Germany and India. He is involved in the European research project SENSEI (Integrating the Physical with the Digital World of the Network of the Future) in which he is leading the task “Business Modeling - Value Creation”.

Laura Galloway is a lecturer in entrepreneurship at Heriot-Watt University, Edinburgh. She recently introduced a new undergraduate degree in Management with Enterprise to the university, and leads and teaches various modules on entrepreneurship and enterprise. Her research interests include rural entrepreneurship, electronic business, entrepreneurship education and minority entrepreneurship. She publishes in a variety of peer reviewed journals and books on entrepreneurship and enterprise.

Antonia Mercedes García-Cabrera. PhD in Economic and Business Sciences and Senior Lecturer at the University of Las Palmas de Gran Canaria (Spain). She heads the doctoral program New Strategic Tendencies in Business Management and is the head of the “Strategy and International Businesses” research group. Her areas of academic interest include organizational identity, cross-cultural studies, and entrepreneurship. Her research works on issues of entrepreneurship include studies of the personal
characteristics of the individual and the national cultural dimensions as factors influencing the decision to create a venture, taking into account the existence of cultural differences within a single country. Her works have been published in books (i.e., Cases on Information Technology Entrepreneurship, IGI Publishing) and national and international journals, (i.e., Entrepreneurship & Regional Development, Journal of Entrepreneurship, Revista Europea de Dirección y Economía de la Empresa, Psicología del Trabajo y de las Organizaciones, etc.).

**María Gracia García-Soto.** PhD in Economic and Business Sciences and University Master in Tourism Enterprise Management, she is a lecturer at the University of Las Palmas de Gran Canaria (Spain). She is a member of the “Strategy and International Businesses” research group and as such, her lines of research have been corporate governance, cross-cultural studies, and entrepreneurship. Her research in the field of entrepreneurship has centred on the study of the psychological and sociological variables that determine entrepreneurial behaviour from a dual perspective: a technological approach and a national culture view. Her works have been published in books such as Cases on Information Technology Entrepreneurship (IGI Publishing) and in national and international journals, including Entrepreneurship & Regional Development, Journal of Entrepreneurship, Corporate Ownership & Control, Revista Europea de Dirección y Economía de la Empresa, Psicología del Trabajo y de las Organizaciones, Investigaciones Europeas, etc.

**Simrn Kaur Gill** is a researcher working towards her PhD in the College of Engineering and Informatics at the National University of Ireland, Galway. Her research interests lie in the area of technology innovation. Simrn has contributed to EU funded R&D projects in the area of ambient intelligence for manufacturing SMEs.

**Matthias Häsel** is a Senior Product Manager at XING, the leading social network for business contacts in Europe. He received his Ph.D. at the E-Business and E-Entrepreneurship Research Group at the University of Duisburg-Essen, Germany, with his research focused on product development and founder competencies in Internet-based ventures. He holds a B.Sc. in Computer Science from the Osnabrück University of Applied Sciences, and a M.Sc. in Multimedia Management from the University of Kiel, Germany.

**Cecilia Hegarty** is a Lecturer in Entrepreneurship with the Northern Ireland Centre for Entrepreneurship at the University of Ulster and specialises in enterprise development and entrepreneurship education policy. Dr Hegarty has consulted on many EU research projects and conducted a pioneering investigation in Ireland into small and micro-scale ventures, their growth and competitiveness. She holds a PhD from Dublin and studied in Ulster and Indiana, USA. She has published peer-reviewed articles in a number of leading journals of entrepreneurship, business, education, tourism and geography and sits on editorial boards of the same.

**Florian Heinemann** is Assistant Professor at the Chair of Business Administration and Sciences for Engineers and Scientists at RWTH Aachen University, Germany. He received his doctoral degree from RWTH Aachen University and was Visiting Scholar at the Snider Entrepreneurial Research Center at the Wharton School. His areas of research interest include innovation management and entrepreneur-
About the Contributors

ial marketing. He has published his work in various journals and has presented his research at leading international conferences including the AMA Summer Marketing Educators’ Conference, the AOM Annual Meeting, and the Babson Entrepreneurship Conference.

Patricia Hurschler works as research associate at the Chair of Technology and Innovation Management at the Department of Management, Technology, and Economics (D-MTEC) at ETH Zurich since 2005. She is PhD candidate in Management with focus on Business Innovation. Her research focuses on strategic procurement decisions in the triangle Switzerland, Eastern Europe and Asia based on criteria related to the procurement item, the branch, as well as the company with its business model. Patricia Hurschler gained her MSc in managerial and production sciences at ETH Zurich with emphasis on integrated product development and technology and innovation management.

Andreas Kessell is managing director of the GFIU mbH and antikoerper-online.de in Aachen, Germany. He received his master degree from the WHU Otto Beisheim School of Management and his doctoral degree from RWTH Aachen University. His research interest cover entrepreneurial marketing and organizational culture related topics.

Tobias Kollmann holds the Chair for E-Business and E-Entrepreneurship at the University of Duisburg-Essen, Campus Essen—Germany. He received his doctoral degree in 1997 from the University of Trier with a thesis on the acceptance of innovative telecommunication and multimedia systems. His main research interest is ‘E-Entrepreneurship’ – that is, all aspects of company founding and development in electronic business environments.

Harald F. O. von Kortzfleisch received his diploma doctoral degree in business management from the University of Cologne and currently holds the Chair for Information Management, Innovation, Entrepreneurship and Organization Design (Mi2EO) as a tenured full professor at the University of Koblenz-Landau, Campus Koblenz, in Germany. Before, he was a senior lecturer, project manager, and assistant professor at the University of Kassel, the Cologne Business School, the Euro-Business-College Bonn, as well as Kassel International Management School. He is also managing partner of VonKor GmbH in Bonn, a business and venture management consulting company, since 2006. Mr. von Kortzfleisch wrote, co-authored and edited seven books and numerous research articles. Currently, his research focus is on scientific entrepreneurship, innovation, knowledge and collaboration management as well as the organizational design relevance of information and communication systems.

Andreas Kuckertz is an assistant professor (‘akademischer Rat’) teaching and researching management at the University of Duisburg-Essen, Germany, where he is a member of the e-business and e-entrepreneurship research group. The group focuses on high-technology entrepreneurship in TIMES industries. Moreover, he is an associate member of the strategy, networks, and enterprise research group at the University of Vaasa, Finland. He is Associate Editor of the International Journal of E-Entrepreneurship and Innovation (IJEEI) and serves as the Country Vice President Germany for the European Council for Small Business and Entrepreneurship (ECSB). He holds a master’s degree from the University of Leipzig, Germany, and received his doctoral degree with a thesis on venture capital finance from the University of Duisburg-Essen in 2005.
**Carina Lomberg** is a post-doctoral researcher at the École Polytechnique Fédérale de Lausanne in Switzerland. She pursued her doctoral studies at the E-Business and E-Entrepreneurship Research Group at the University of Duisburg-Essen, Germany. Her thesis deals with entrepreneurial creativity of employees. She received a master’s degree in Business Administration from the University of Duisburg-Essen with an award-winning thesis on incentives schemes in entrepreneurial growth companies.

**Michael Luger** is Dean of the Manchester Business School (UK) and Professor of Innovation, Management and Policy. He formally was Professor of Public Policy, Business and Planning and Director of the Center for Competitive Economies at UNC-Chapel Hill. He has published widely in the areas of regional economic development, technology policy, and public finance and infrastructure. He holds a Ph.D. (Economics) and MRP from UC-Berkeley, and an AB and MPA from Princeton.

**Philipp Magin** finished his study of Information Management at the University of Koblenz-Landau, Campus Koblenz, Germany, in Spring 2009 with a Bachelor of Science degree with distinction. In August 2007, Mr. Magin joined the research group “Management of Information, Innovation, Entrepreneurship and Organization Design” (Mi2EO), headed by Prof. Dr. Harald F.O. von Kortzfleisch as a research assistant. In Autumn 2008, Mr. Magin already started with preliminary research for his doctoral thesis. Under the supervision of Prof. von Kortzfleisch, he became a Ph.D. student at the University of Koblenz-Landau in spring 2009 in the entrepreneurship research field. Currently, Mr. Magin works for McKinsey & Comp. as a junior fellow consultant. Since June 2005, Mr. Magin is managing partner of his own company “pm-climbing”, the exclusive distributor for eXpression holds and usteto climbing in Austria, Germany and Switzerland. Furthermore, he is engaged in two other start-up companies as foundation partner.

**Nick Maynard** is an Associate Policy Researcher at the RAND Corporation where he focuses on information technology, S&T policy, and economic development. He is currently working at the FCC as the manager for economic analysis on the National Broadband Taskforce. Prior to RAND, Dr. Maynard was a Program Manager with Yankee Group, where he was awarded Analyst of the Year for his research on network infrastructure in developing countries. Dr. Maynard received his BA and MA from the University of Chicago in Political Science and he completed a Public Policy PhD in 2008 at University of North Carolina at Chapel Hill. His dissertation research on national ICT strategies was supported through a National Science Foundation grant.

**Aaron McKethan** is a research director at the Engelberg Center for Health Reform at the Brookings Institution where he focuses on payment and delivery system reforms, including health IT. He is currently assistant professorial lecturer of health policy in the Department of Health Policy at the George Washington University Medical Center, School of Public Health and Health Services. He received his PhD in Public Policy Analysis from the University of North Carolina at Chapel Hill, where he also received a Bachelor of Arts in political science.

**Avi Messica** is a former Hi-Tech entrepreneur and businessman who is currently with the finance department at the school of business administration of the college of management (Israel) where he also acts as the director of the entrepreneurship and innovation management center (EIM). Dr. Messica served at senior managerial positions in companies like Tower Semiconductors (TSEM) and ShellCase.
About the Contributors

(SCSEF) and co-founded and served as the CEO of several Hi-Tech companies. His research interests include entrepreneurship, innovation management in a global context, finance (with emphasis on risky projects/ventures), strategic management, R&D management and marketing, all at the focal point of high technology ventures and firms. Dr. Messica holds a PhD in nano-technology and solid-state physics from the Weizmann Institute of Science, M.Sc. in applied optics and B.Sc. in physics from the Tel-Aviv University. He spent a Post-Doctorate specializing in financing of risky ventures at the Ben-Gurion University. Dr. Messica is also a staff member of the prestigious Acton MBA program in entrepreneurship (Austin, Texas).

Vincent-Wayne Mitchell (v.mitchell@city.ac.uk) is Professor of Consumer Marketing at CASS Business School, City University London. His research focuses on consumer decision-making, complaining behavior and risk taking. He has won eight Best Paper Awards and has published over 200 academic and practitioner papers in journals such as Harvard Business Review, Journal of Business Research, British Journal of Management, Journal of Economic Psychology. He sits on the Editorial Boards of six international journals, is an Expert Adviser for the Office of Fair Trading and is Head of Marketing at CASS.

Debbie Richards is an Associate Professor in the Computing Department at Macquarie University in Sydney. Prior to joining academia in 1999 she worked for 15 years in industry in a range of IT related roles which probably accounts for her focus on finding solutions that people need and want. Many of the challenges facing organizations and society require interdisciplinary work and thinking outside the square of the discipline one has been trained in. The work in this paper crosses a number of disciplines seeking to provide some answers to the problem of identifying individuals with the potential to become entrepreneurs, which is important first step in nurturing such individuals who will play such an important role in the global knowledge economy.

Josep Lluís de la Rosa i Esteva is Associate Professor at the University of Girona (UdG) and the founding director of EASY Innova - TECNIO, and president of Strategic Attention Management S.L. He received his Ph.D. in Computer Engineering from the Autonomous University of Barcelona (UAB) in 1993, and a MBA in 2002. In 1993, he became assistant professor to the UAB, and in 1997 post-doc fellow at Laboratoire d’Architecture et d’Analyse des Systèmes (LAAS-CNRS) in Toulouse, France. His is interested in the application of intelligent agents to a variety of fields ranging from marketing and e-commerce to robotics and industrial applications. Dr. de la Rosa is a member of the Catalan Association of Artificial Intelligence ACIA (ECCAI). He is author of over one hundred scientific publications and four patents. He is now visiting Prof. Szymanski at Rensselaer Polytechnic Institute (RPI) in New York, USA, for the subject of citation auctions, an application of complementary currencies to science. He is available at peplluis@eia.udg.edu, http://eia.udg.edu/~peplluis.
About the Contributors

**John Sanders** is a lecturer in strategic management in the School of Management and Languages at Heriot-Watt University. He teaches strategic management courses to both undergraduate and postgraduate students. In addition, he teaches a small business management course to final year undergraduate students. Previously he held a lecturing position at Massey University, New Zealand, and taught International Business and General Management courses. His research efforts focus on organisational alignment, small firms and innovation management. His PhD investigated strategic fit within a University setting. Beyond research and teaching, he provides academic and administrative support for Heriot-Watt University’s distance-learning and International Management and Languages (IML) programmes.

**Mario Schaarschmidt** holds a German diploma in computer sciences from the University of Koblenz-Landau and is currently a research and teaching assistant as well as a PhD candidate at the Management, Innovation, Entrepreneurship and Organization group of Prof. von Kortzfleisch. Mr. Schaarschmidt worked as an intern for various firms in the software and telecommunication industry. He also was a visiting doctoral student at Harvard Kennedy School. Furthermore, he is involved in several research projects, partly funded by the German Federal Ministry of Education and Research. His research focus is on technology and innovation management, open innovation networks as well as the role of firms in open source software development.

**Karsten Jörn Schröder** is working as a business consultant in Berlin, Germany. He graduated with a diploma in business management from the University of Duisburg-Essen, Germany, after training as an industrial manager at Wilhelm Geldbach AG, Gelsenkirchen, Germany. During his studies he specialized in strategic management, controlling, and information management and wrote his diploma thesis about market positioning methods for innovative ventures. After completing his studies he worked as a business consultant at AMConsult in Bonn, Germany, focusing on purchasing and procurement strategies and developing training and coaching events.

**Anthony Scime** is a graduate of George Mason University with an interdisciplinary doctorate in Information Systems and Education. Currently he is an Associate Professor of Computer Science at The College at Brockport, State University of New York. Prior to joining academia, he spent over 20 years in industry and government applying information systems to solve large-scale problems. His work has been published in Expert Systems with Applications, Computer Science Education, the International Journal of Business Intelligence and Data Mining, the International Journal of Information and Communication Technology Education, and the Journal of Electronic Commerce Research and Applications. Idea Group Publishing has published his book Web Mining: Applications and Techniques. His research interests include the World Wide Web as an information system and database, information retrieval, knowledge creation and management, decision making from information, data mining in the social and behavioral sciences, and computing education.

**Anthony C. Seime** is a doctoral candidate in strategic management at Purdue University’s Krannert School of Management. He has received an MBA from the University of Rochester, William E. Simon Graduate School of Business Administration, and a BA from Franklin & Marshall College. His work has been presented at the Academy of Management and Strategic Management Society annual conferences. His current research interests include the origin of resource advantages, particularly through strategic factor market activity, and the intersection of strategic management and information technology.
About the Contributors

**Christian Serarols Tarrés** is an Associate Professor within the Business Economics Department at the Universitat Autònoma de Barcelona and director of the Research Group in “Local environment and technology-based entrepreneurship in Spain”. Research interests include technology entrepreneurship and small business management, spin-off creation, technology transfer, e-business and electronic commerce. He has industrial engineering background, a PhD in business economics (entrepreneurship), with industrial experience in technical research, consulting and management. He has founded a high-tech enterprise in the field of content aggregation. He is also vice-president for Spain of the European Council for Small business. He has been visiting professor in several European Universities (Politecnico Milano, Montpelier, Liencheinstein, etc.) and he is a member of the editorial board of several international journals (International Journal of Entrepreneurial Venturing, International Journal of Technoentrepreneurship, etc.).

**Christoph Stöckmann** is a post-doctoral researcher at the University of Duisburg-Essen, Germany, where he is a member of the e-business and e-entrepreneurship research group. He holds a master's degree in Business Administration and Information Science and received his doctoral degree with a thesis on exploratory and exploitative innovation and their effects on the EO-performance relationship in ICT-Ventures from the University of Duisburg-Essen, Germany.

**Doug Thomson** (PhD, MBA, MIE(Aust), CPEng, MCIPS) has been with the RMIT University, Melbourne, Australia since 2002. From Sep 2005 to Sep 2007 he was the MBA Programs Manager for the Graduate School of Business and is currently a Lecturer and Course Coordinator. He has extensive global experience in the application of e-business in the private and public sectors, and worked in Vietnam for four months in 2007 at the RMIT IUV’s Ha Noi campus. He has more than 20 years international experience and published extensively in ICT and e-business policy development, public and private sector e-business management, e-entrepreneurship project management, and ERP.

**Gianfranco Walsh** received his M.Phil. degree from UMIST (England) and Ph.D. (2001) and Habilitation (2004) degrees from Hanover (Germany). His research focuses on strategic management, service management, corporate reputation, and e-commerce. His work has been published in, amongst others, Academy of Management Journal, British Journal of Management, Journal of the Academy of Marketing Science, Journal of Business Research and International Journal of Electronic Commerce. He is a professor for marketing and electronic retailing at the University of Koblenz-Landau and a visiting professor at the University of Strathclyde Business School in Glasgow (UK). In addition, Gianfranco Walsh teaches at GISMA Business School, Germany.
