About the Contributors

**Dr. Christopher G. Reddick** is an associate professor and chair of the Department of Public Administration at the University of Texas at San Antonio. Reddick’s research and teaching interests are in public administration and e-government. Reddick recently edited and authored two books—Handbook of Research on Strategies for Local E-Government Adoption and Implementation: Comparative Studies, and Homeland Security Preparedness and Information Systems: Strategies for Managing Public Policy.

***

**Dr. Leonidas Anthopoulos** studied computer science at Aristotle University of Thessaloniki, Greece. At his previous job positions, as an Expert Counselor at the Hellenic Ministry of Foreign Affairs in e-Government and e-Diplomacy areas, as an IT researcher and manager at the Research Committee of the Aristotle University of Thessaloniki (Greece), Municipality of Trikala (Greece), Administration of Secondary Education of Trikala (Greece) and Information Society S.A. (Greece), he designed and supervised multiple major IT projects. Currently, Dr Leonidas Anthopoulos is an Assistant Professor at the Project Management Department of the Technological Education Institute of Larissa, School of Business and Economics, Project Management Department (Greece). He is the author of several articles published on prestigious scientific journals, books and international conferences. His research interests concern, among others, e-Government, Enterprise Architecture, Social Networks, etc. He is also a member of evaluator committees for the Greek General Secretariat of R&D and for the Greek Information Society.

**Dr. Ari-Veikko Anttiroiko** is an Adjunct Professor in the Department of Regional Studies, University of Tampere, Finland. Anttiroiko’s academic contributions include in a nutshell some 30 monographs, about 70 chapters and articles, and a number of conference/seminar papers. These include a special issue of IJTM on global competition of high-tech centres (IJTM, Vol. 28, Nos. 3/4/5/6, 2004) and co-edited works such as eTransformation in Governance (IGP 2004), e-City (TUP 2005), and the Encyclopedia of Digital Government (IGR 2007). He is also the editor of Electronic Government: Concepts, Methodologies, Tools, and Applications (ISR 2008), a comprehensive six-volume reference book on e-government.

**Dr. Sudha Arlikatti** has a Bachelor's in Architecture, Pune (1989), a Master's in City Planning, IIT Kharagpur, India (1999); and a PhD from Texas A&M University, USA (2006). She has worked as an Architect for eight years and is currently an Assistant Professor in the Department of Public Administration at the University of North Texas, Denton, Texas USA.
James Backhouse is Reader in Information Systems in the Information Systems and Innovation Group of the Department of Management at the LSE. His teaching and research focuses on the social study of information risk and security and he has publications in journals such as the Management of Information Systems Quarterly (MISQ), the European Journal of Information Systems (EJIS), and the Information Systems Journal (ISJ). He is active in standards and professional best practice, and a member of the Accreditation Committee of IISP (the Institute of Information Security Professionals). Since 2003 he has led EU-funded research at the LSE in both anti-money laundering and also in identity, security and privacy: he is a founder member of FIDIS, the 5-year EU research network of excellence. In 2007 he completed a review of ENISA, the European Network and Information Security Agency. He is the founder editor of the Springer journal Identity in the Information Society.

Dr. Martin Beer is a Principal Lecturer in the Communications and Computing Research Centre at Sheffield Hallam University. His research and teaching activities centre around the use of Multi-Agent Systems to provide more effective means of providing information and services to potential users of all types. His particular interests are currently in the use of advanced knowledge sharing techniques to allow much more focused and personalised delivery of information so that services can be provided efficiently and with minimal waste. Examples of applications where such techniques can be used effectively are in the delivery of community care, collaborative e-learning and the delivery of citizen information services.

John Carlo Bertot, Ph.D., is Professor and Director of the Center for Library and Information Innovation (http://www.liicenter.org/) in the College of Information Studies at the University of Maryland. Bertot is the Editor of Government Information Quarterly and of Library Quarterly. He has extensive research and grant management experience, having received grant funding from the Government Accountability Office, U.S. Institute of Museum and Library Services, the Bill & Melinda Gates Foundation, the American Library Association, and the Florida State Library and Archives, among others. Bertot also has conducts research in the areas of e-government and information policy, as well as public library management, technology planning, and program evaluation. His most recent book is Public Libraries and the Internet: Roles, Perspectives, and Implications (Libraries Unlimited, 2009) with Paul T. Jaeger and Charles R. McClure. Bertot currently serves as a board member of the Digital Government Society of North America, Chair of the International Standards Organization (ISO) 11620 standard working group for Library Performance Indicators, and member of the member of the American Library Association’s E-government taskforce.

Dr. Manuel Pedro Rodríguez Bolívar is an Associate Professor at the Granada University (Spain). His research interests center on online financial information disclosures, the conceptual framework of accounting, the use of BSC and on environmental accounting. He is the author of articles in international journals, including the Government Information Quarterly, Public Administration and Development, Public Money & Management, International Review of Administrative Sciences and American Review of Public Administration. He has also contributed chapters to books, including one published by Kluwer Academic Publishers.
**About the Contributors**

**Salah Brahimi**, Grey Matter International Ltd, will be a keynote speaker at the upcoming Gulf Petroleum Association annual conference. In addition, he is often invited to speak in the area of Emergency Management and Preparedness, particularly with regard to the economic impact of incidents and business continuity. Mr. Brahimi has also just received a mandate from SABIC (Saudi Arabia's Government backed petrochemicals giant) to advise on restructuring its massive private equity acquisitions special situations portfolios and to advise on foreign currency transactional policies. In January he served as the advisor to the Saudi G-20 preparatory Committee on the global financial crisis and has been involve in these issues from his time at the World Bank.

**Mark K. Cassell** is Associate Professor of Political Science at Kent State University where he teaches courses in public policy and administration, comparative public policy, and urban politics. His scholarship is mainly concerned with understanding public sector transformations. His work includes How Governments Privatize: The Politics of Divestment in the United States and Germany (Georgetown University Press, 2003). The book received the 2003 Charles H. Levine Award for the best book in public policy and administration. Dr. Cassell's work has also appeared in Public Administration Review, International Public Management Journal, Social Science Quarterly, and Governance: An International Journal of Policy. He currently has a book forthcoming from SUNY Press (with Susan M. Hoffmann) on mission expansion in the Federal Home Loan Bank System. Dr. Cassell holds a Ph.D., MPA, and MA in Political Science from the University of Wisconsin – Madison.

**Dr. Don-yun Chen** is a research fellow at the Taiwan e-Governance Research Center, which is sponsored by the Research, Development and Evaluation Committee (RDEC) of the Executive Yuan in Taiwanese central government. He is also an associate professor of Department of Public Administration, National Chengchi University, Taipei, TAIWAN. His areas of specialization are e-Governance, democratic governance, bureaucratic politics, policy analysis and management. He worked as a deputy director of Public Management Consulting Center at Shih Hsin University, a member of e-Governance committee of TASPAA (Taiwan Association for Schools of Public Administration and Affairs), policy consultant on e-government for the Taipei City Government, and a principle evaluator on e-government applications for the National Service Quality Award issued by the RDEC of the Executive Yuan.

**Pin-Yu Chu** is a Professor of the Department of Public Administration at National Chengchi University and the Director of Taiwan Electronic Governance Research Center, Taiwan. Dr. Chu’s research interests include technology development and management, digital governance, and environment and conflict management. Her publications can be found in Government Information Quarterly, Omega, The International Journal of Management Science, Journal of Management & Organization, Public Performance and Management Review, Journal of Applied Social Psychology, International Journal of Technology Management, International Journal of Management and Decision Making, Electronic Government: An International Journal, etc. Dr. Chu teaches applied statistics, advanced research methodology, negotiation and ethics, project evaluation and decision-making, etc. She serves on the Personnel Policy Council, Central Personnel Administration of Taiwan, the Committee of Government Technology Program Review, the Review Expert Board of Higher Education Evaluation & Accreditation Council of Taiwan, the Committee of Public Advisory Panel for Taiwan Responsibility Care Association, etc.
Dr. Soon Ae Chun received her Ph.D and MBA from Rutgers University, and MS in Computer Science from SUNY Buffalo. She is currently an assistant professor of Information Systems in College of Staten Island, City University of New York. Dr Chun’s research areas include Workflow Management, Information Security and Privacy, Policy-based Web Service Composition, the Semantic Web and Geospatial Database systems. Dr. Chun has served as an organization member for many conferences, including the annual conference of the digital government research, and served as reviewer for many journals and conference papers, including IEEE TSC, IEEE TKDE, IEEE Transactions of Information Technology in Biomedicine, IEEE Intelligent Systems, and International Journal of Information Security. She is a member of the IEEE Computer Society, the Association for Computing Machinery (ACM), the Association of Information Systems (AIS), and the Beta Gamma Sigma National Business Honor Society.

Magiswary Dorasamy, having earned her Bachelor of Arts in Economics from University of Malaysia and a Master of Science in Information Technology from University Putra Malaysia, is currently a faculty member with the Faculty of Management, Multimedia University in Malaysia. She teaches IT subjects such as Information Systems, Management Information Systems, E-commerce and Management subjects. To date, she has had a distinguished corporate career in ICT industries and academia career spanning over 13 years and has established herself with extensive experience in research and development. She is also a member of Malaysian Economic Association (MEA) and Association of Information Systems (AIS). She has provided consultations / trainings on Technology Management in various companies such as MARTRADE and SKF Bearings Malaysia. Her particular area of expertise is Information Systems. Her areas of research interest are ICT outsourcing, e-Government, and Knowledge Management Systems for Disaster Management. Her research has been accepted and published in several international and national journals including WSEAS Transactions on Systems Journal, Accountancy Business and Public Interest Journal, Journal of Public Procurement (JoPP), International Journal of Electronic Government Research (IJEGR), International Business and Economics Research Journal (IBER) and Public Sector ICT Management Review. She has also presented her works at several international and national conferences in China (2007), Turkey (2007), India (2006), Thailand (2006), Malaysia (2006, 2007 2008), Greece (2009) and New Zealand (2009).

Yudi Fernando is currently pursuing his PhD at Universiti Sains Malaysia, Penang, Malaysia. He has an MBA from the School of Management in the same university. His research interest is on service marketing, supply chain relationships and has participated in many international conferences.

Prof. Panos Fitsilis studied computer engineering at Patras University, Greece. He received his PhD (1995) in Software Engineering. He worked, as software engineer and as business unit manager at large software development companies, and he was responsible for the development, deployment and operation of a number of prestigious IT systems for European Commission. Since 2003 he has been Professor at Technological Education Institute of Larissa, School of Business and Economics, Project Management Department. Currently, Prof. Panos Fitsilis is Head of Project Management Department and Deputy Director at Technological Research Center of Thessalia, Greece. He is the author of three books and author of many articles published on scientific journals and magazines. Further, he was member of the development team of Hellenic Standard on managerial capability of public organization, ELOT-1429. His research interests include: Project Management, Software Engineering, e-Government Systems, Business Process Reengineering, etc.
About the Contributors

**Dr. Vassilis C. Gerogiannis** holds a Diploma and a PhD in Software Engineering from the University of Patras, Greece. At present, Dr. Gerogiannis is a fulltime Assistant Professor at the Project Management Department in the Technological Educational Institute (TEI) of Larissa, Greece. He is also a Lecturer at the Greek Open University and a Module Leader in a Post Graduate Program of Studies in Management Science, organized by TEI of Larissa in cooperation with the Staffordshire University, UK. Dr. Gerogiannis has been participating as a technical consultant and project manager in several EU funded R&D projects. Up to now, he has published more than 45 papers in international journals and conference proceedings. His research interests include Project Management, Software Project Management and Software Engineering.

**Sarah Gregory** is a senior at the University of North Texas in the College of Public Affairs and Community Service. Currently, she is working on a Bachelor of Science, majoring in Emergency Administration and Disaster Planning and minoring in Applied Anthropology.

**Dr. Ruth Halperin** holds a PhD in Information Systems from the London School of Economics and Political Science, where she is a Research Fellow in the Information Systems and Innovation Group of the Department of Management. Her current research interests are in information risk; security and privacy; digital identity and systems design and implementation. She is a member of the EU Network of Excellence FIDIS (Future of Identity in the Information Society) since its inception in 2004 and has published in the areas of risk perceptions, interoperable identity management systems and Profiling. Prior to joining the LSE in 2002, she was a Project Manager of a leading software development company specializing in E-learning and KM technologies.

**Marvine Hamner** is an Assistant Professor at George Washington University in Washington, DC, USA. Dr. Hamner is also a co-founder of a women-owned small business, LeaTech LLC. Dr. Hamner has over 20 years experience working and managing a variety of projects from research grants to multi-million dollar commercial programs and holds patents in the U.S. as well as several other countries. Dr. Hamner is an Associate Editor for the Journal of Homeland Security and Emergency Management. In addition, she reviews manuscripts for the Institute of Physics, Measurement Science and Technology Journal, Computers and Industrial Engineering, as well as Personality and Individual Differences. Dr. Hamner is currently an Associate Fellow with the American Institute of Aeronautics and Astronautics and a member of the International Association of Emergency Managers. She is a member of the MIT Club of Washington, the Women's Business Center in Washington, D.C., and the Philosophical Society of D.C.

**Laurence Hauttekeete** received her Ph.D in Communication Sciences from Ghent University, Belgium, in 2004. In her Ph.D she looks at tabloidisation tendencies in the Flemish press, the development of a measurement model. Her research interests include the printed and audio-visual media, media economics, new media and qualitative and quantitative research methods. She joined MICT (media and ICT) in 2005 as a senior researcher. Most of the projects she works upon are situated in a few domains: ‘digitisation’, ‘culture and media’, ‘technology and youngsters/education’, and ‘ICT and government authorities’.
Antonio M. López Hernández, Ph. D. in Accounting, is Professor of Accounting at Granada University (Spain). His research interests center on management systems and financial information in federal and local government. He has published in journals such as International Journal of Public Sector Management, Government Information Quarterly, American Review of Public Administration, International Review of Administrative Sciences and is the author of chapters in several books, such as Innovations in Governmental Accounting (Kluwer Academic Publishers) or International Trends and Experiences in Government Accounting (Cappelen Akademisk Forlag).

George E. Higgins is an Associate Professor in the Department of Justice Administration at the University of Louisville. He received his Ph.D. in criminology from Indiana University of Pennsylvania in 2001. His most recent publications appear in Criminal Justice Studies, Deviant Behavior, Criminal Justice and Behavior, Youth and Society, and American Journal of Criminal Justice.

John Hoornbeek teaches and conducts research on public policies in the United States. He has more than twenty years of experience working in and around the local, state, and federal levels of American government. His research has appeared in both peer reviewed public policy journals and in edited books. He currently serves as director of Kent State University’s (KSU) Center for Public Administration and Public Policy, and as an Assistant Professor in KSU’s Department of Political Science. He earned his Bachelor’s Degree at Beloit College, his Master’s Degree at the University of Wisconsin – Madison, and his Doctorate at the University of Pittsburgh.

Dr. Lung-Teng Hu is a research fellow at the Taiwan e-Governance Research Center, which is sponsored by the Research, Development and Evaluation Committee (RDEC) of the Executive Yuan in Taiwanese central government. He is also an assistant professor of the Department of Public Policy and Management at Shih Hsin University in Taipei, TAIWAN. He currently serves as the vice executive director of the Transparency International’s national chapter in Taiwan as well. He received his Ph.D. from the School of Public Affairs and Administration at Rutgers University at Newark, USA. His research interests include e-government and e-governance, knowledge management in the public sector, government performance measurement and management, as well as government transparency.

Tong-yi Huang received his Ph.D. from the Department of Government of the University of Texas at Austin. He is currently Associate Professor of the Department of Public Administration at National Cheng-chi University in Taipei, Taiwan. His recent research interests include deliberative democracy, e-government and bureaucracy. Professor Huang serves as a research fellow of Taiwan e-Government Research Center, on the advisory board of the Election Study Center of Cheng-chi University and Taipei University and on the executive board of Transparency International Taiwan.

Paul T. Jaeger, Ph.D., J.D., is Assistant Professor and Director of the Center for Information Policy and Electronic Government (www.cipeg.umd.edu) in the College of Information Studies at the University of Maryland. His research focuses on the ways in which law and public policy shape public access to information. Dr. Jaeger is the author of more than seventy journal articles and book chapters, along with six books. He is the Associate Editor of Library Quarterly. His research has been funded by the National Science Foundation, the Institute of Museum and Library Services, the American Library Association, and the Bill & Melinda Gates Foundation. His most recent books are Information Worlds:
About the Contributors

**Dr. Michael J. Jensen** is a Beatriu de Pinós fellow at the Autonomous University of Barcelona Institute of Government and Public Policy (IGOP). He completed his Ph.D. at the University of California, Irvine in fall 2007 while working at the Center for Research on Information Technology and Organizations. He has since been a postdoctoral fellow in the Department of Political Science at Irvine as well as Visiting Professor at the Internet Interdisciplinary Institute at the Open University of Catalunya in Castelldefels, Spain. Dr. Jensen is currently working on the Politics and Internet in Spain (POLNET) project at IGOP where his primary interests include electronic government, electronic participation, governance practices, and political communication.

**Dr. Ronnie L. Korosec** is the Interim Associate Dean of Graduate Studies and Technology and an Associate Professor of Public Administration in the College of Health and Public Affairs at the University of Central Florida. She received her Ph.D. from the State University of New York at Binghamton, where she was a Clifford D. Clark Fellow. Her areas of interest include public policy and analysis, privatization, strategic planning and management, and state and local government issues. Dr. Korosec can be reached at rkorosec@mail.ucf.edu.

**Ooh Kim Lean** has an MBA from Universiti Sains Malaysia (USM). She has worked experience in manufacturing & service industry.

**Chung-pin Lee** is Ph.D. Candidate in the Department of Public Administration at National Chengchi University, Taiwan. He is also a Fulbright visiting researcher (August 2007- June 2008) at the Askew School of Public Administration and Policy, Florida State University. His research interests include e-government, e-democracy, citizen participation, and technology and society.

**Xia Li Lollar** is an associate professor at the University of Wisconsin-Whitewater. She received her Ph.D degree in political science from the University of Alabama at Tuscaloosa and a master degree of public administration from Iowa State University. Her teaching areas are public policy and administra-
About the Contributors

tion, comparative politics and international relations. Her publications include articles on economic and political development and Internet use in China. She has also published a book titled China’s Transition toward a Market economy, Civil Society and Democracy.

Kristina M. Lopez is a graduate student in the Department of Criminal Justice at the University of Texas at San Antonio. She previously served as the Managing Editor of the Journal of Criminal Justice Education and as a research assistant on a Texas Department of Criminal Justice funded evaluation of an in-prison alcohol recovery program. Currently, she is examining the effects of self-control on delinquency across Hispanic subgroups.

J. Mitchell Miller is a Professor in the Department of Criminal Justice at the University of Texas at San Antonio. The current President of the Southern Criminal Justice Association and a Fellow of Academy of Criminal Justice Sciences, his recent works include Crime & Criminals by Oxford University Press and Criminological Theory: A Brief Introduction by Prentice Hall.

Dr. Miquel Montaner, M.Sc. and Ph.D. in Computer Engineering and MBA by the University of Girona (UdG), Girona, in 1999, 2003 and 2008 respectively. His thesis focused on the application of intelligent agents to recommender systems. Part of this thesis was carried out at the Carnegie Mellon University (USA). The implementation of his thesis (the IRES/GenialChef project) was awarded with the Special Prize to the best system deployed in the Agentcities network in 2003 and the Prize to the Best University Project in the e-Tech’03. In 2003, after finishing his Ph.D., he joined Agents Inspired Technologies S.A as R+D manager. From July 2006 to June 2007, he was the business developer of the EASY transference center TECNIO-CIDEM (Government of Catalonia) at the University of Girona. From July 2007, he is working for Strategic Attention Management, S.L. as R+D manager. He currently holds a research fellowship from the Catalan Institution for Research and Advanced Studies (ICREA). He is available at mique@isac.cat

Ronnie Park is Information Systems (IS) Project Manager for the City of Los Angeles. While serving as an IS consultant in the field, he has been a scholar in academia. He has provided IS consulting services to various companies, such as PricewaterhouseCoopers, BlueCross, Southern California Edison and Great Western Bank. He has published e-government related papers in IEEE Computer Society and other peer-reviewed publications. He has presented his research at the Hawaii International Conference on System Sciences (HICSS, 2008), IS World (2007), Chinese Computer Association conference in Los Angeles (CCA, 2008) where he chaired the e-government sector, Korean Management Information Systems (KMIS, 2005). Dr. Park also serves as a reviewer for scholarly conferences, such as HICSS, and various publications. Dr. Park received his doctorate in IS at the Nova Southeastern University and masters degree in IS at the California State University, Los Angeles.

Carmen Caba Pérez, Ph. D. in Governmental Accounting, is Associate Professor at the Department of Accounting and Finance at the University of Almería (Spain). Her research interests are focused on the financial information disclosures on the Web (e-government), on the management system and financial information in the federal and local governments. She is author of numerous articles in national and international journals, including The International Journal of Public Sector Management, Government
About the Contributors

**Willem Pieterson** works as an assistant professor in the Center for e-Government Studies at the University of Twente. He holds a PhD. Cum Laude in communication on a dissertation on channel choice decision making by citizens. He specializes in citizens’ channel behavior, multi-channel management and e-Government. He has published various book chapters, conference papers and journal articles on these topics in journals such as Government Information Quarterly and the International Review of Administrative Sciences.

**Dr. Murali Raman** received his PhD in Management Information Systems from the School of IS & IT, Claremont Graduate University, USA. Dr. Murali is a Rhodes Scholar and a Fulbright Fellow. His other academic qualifications include an MBA from Imperial College of Science Technology and Medicine, London, an MSc in HRM from London School of Economics. Dr. Raman is currently an academician attached to Multimedia University Malaysia, where he teaches and conducts research in the area of Management Information Systems, Project Management and E-Business Models. He has published in more than fifty papers in International Journals and Conference proceedings. His corporate experience includes working with Maybank Malaysia (2 years) and Accenture Consulting (5 years) before embarking on an academic path. He has consulted with numerous companies including several based in the USA (Claremont University Consortium), Ghana (GIMPA), Singapore (AsiaOne, Kepple bank), Australia (Monash Supply Chain and Logistics Center), and Malaysia (Panasonic, OUM, RHB Bank, Intan, MAKPEM, Malaysian Association of Social Workers, CDC Consulting among others). His research interests are mainly in the area of Knowledge Management Systems and its application in an institutional context. He is currently an Associate Professor of Management Information Systems a Multimedia University. He is also a Visiting Professor at the Asia-Europe Institute (University Malaya).

**T. Ramayah** has an MBA from Universiti Sains Malaysia (USM). Currently, he is an Associate Professor at the School of Management in USM. He teaches main courses in research methodology and business statistics and has also conducted training courses for the local government (research methods for candidates departing overseas for higher degree, Jabatan Perkhidmatan Awam). Apart from teaching, he is an avid Researcher, especially in the areas of technology management and adoption in business and education. Thus far, he has published in several journals such as Information Development, Direct Marketing, WSEAS Transactions on Information Science & Applications, International Journal of Learning, the International Journal of Knowledge, Culture and Change Management, Asian Journal of Information Technology (AJIT), International Journal of Services and Technology Management (IJSTM), International Journal of Business Information Systems (IJBIS), etc.

**Josep Lluís de la Rosa i Esteva** is Associate Professor at the University of Girona (UdG) and the founding director of EASY Innova - TECNIO, and president of Strategic Attention Management S.L. He received his Ph.D. in Computer Engineering from the Autonomous University of Barcelona (UAB) in 1993, and a MBA in 2002. In 1993, he became assistant professor to the UAB, and in 1997 post-doc fellow at Laboratoire d’Architecture et d’Analyse des Systèmes (LAAS-CNRS) in Toulouse, France. His is interested in the application of intelligent agents to a variety of fields ranging from marketing and
About the Contributors

Dr. de la Rosa is a member of the Catalan Association of Artificial Intelligence ACIA (ECCAI). He is author of over one hundred scientific publications and four patents. He is now visiting Prof. Szymanski at Rensselaer Polytechnic Institute (RPI) in New York, USA, for the subject of citation auctions, an application of complementary currencies to science. He is available at pepluis@eia.udg.edu, http://eia.udg.edu/~pepluis

Mercè Rovira is visiting scientist to the University of Girona, Catalonia, Europe, and founder and former head of the I&R of the city of Girona. MSc in Management of Quality in services, and PhD candidate in Innovation in organizations, a PhD program in the University of Girona. Fulbright Scholar in USA (1993-94), specializing in Public Policy Management and Evaluation. At present, she is member of ARLab research team in the University of Girona, and project leader for knowledge transference projects (3Helix work) on Innovation in Local Administration. She is accessible to merce@isac.cat

Dr. Peter Shackleton gained his PhD in Local eGovernment from Monash University in 2006. He is currently a Senior Lecturer In Information Systems at Victoria University, Melbourne. He has over 20 years experience in teaching, consultancy and research in electronic government, programming and project management. He is a Certified Practitioner in PRINCE2 and ITIL Service Management Essentials. He has worked with the local government sector on research projects during sabbaticals. His current research has concentrated on local eGovernment service delivery maturity models.

Dr. Doaa Taha is an independent consultant in Washington, DC in the areas of Business Management and Emergency Management. Dr. Taha earned her doctorate through George Washington University’s Institute for Crisis, Disaster and Risk Management. Her research in Emergency Management is highly regarded. She has several articles on Emergency Management in the area of Business Continuity and Continuity of Operations.

Dr. Kuan-Chiu Tseng is an assistant professor of the Department of Public Administration at the Tamkang University in Taipei, TAIWAN. His areas of specialization are e-Governance, government innovation, cross-boundary management and public bureaucracy. He works as a research fellow at the Taiwan e-Governance Research Center sponsored by the RDEC (Research, Development and Evaluation Committee) of the Executive Yuan.

Pieter Verdegem is a Ph.D. student and researcher at the Research Group for Media and ICT (MICT-IBBT), Ghent University (UGent) and the Interdisciplinary Institute for Broadband Technology (IBBT). His research focuses on ICT acceptance, e-government, information society, ICT policy and e-inclusion. He holds a master’s degree in Communication Sciences and E-communications Studies. He is preparing a Ph.D. on government strategies particularly e-government and e-inclusion.

David Wachira is a doctoral student in Public Administration at the University of North Texas, Denton, TX. He has a B.A. in History and Political Science from the University of Mary Hardin-Baylor, Belton, TX (2005); and a M.A. in History from Tarleton State University Stephenville, TX (2008).
Janice Warner, PhD is an assistant professor at Georgian Court University, located at the New Jersey shore. Her research focuses on e-commerce – technical innovation, security and implications for society, including governments. Her doctorate from Rutgers University was in support of secure, ad-hoc collaboration. She also completed her MBA at Rutgers. Previously, she was a systems engineer with BS and MS degrees from Columbia University in Electrical Engineering. She worked with telecommunications corporations in developing their data networks as a consultant with Telcordia and Bellcore and spent two years working for Siemens in Munich, Germany. She is a member of the Association for Computing Machinery (ACM), the Beta Gamma Sigma National Business Honor Society and the Delta Mu Delta Business Honor Society.

Dr. Ross Wolf is an Assistant Professor of Criminal Justice and Research Fellow in the College of Health and Public Affairs at the University of Central Florida. His areas of research interests include police administration and training, police management, international policing, and tourism policing. Dr. Wolf has over eighteen years of experience as a law enforcement officer and has worked various assignments including Patrol, Criminal Investigations, and with a plain-clothed tactical unit. He continues to serve as a Police Academy Instructor and as Chief with the Orange County (Florida) Sheriff’s Office Reserve Unit. Dr. Wolf can be reached at rwolf@mail.ucf.edu.

Shang-Ching Yeh is currently Assistant Researcher of the Division of Collections and Research at the National Science and Technology Museum, Taiwan. He is also a research fellow at the Taiwan Electronic Governance Research Center. Dr. Yeh’s research interests include electronic governance, government information technology management, and digital collection. His publications have appeared in Electronic Government, An International Journal, and The Journal of Solid Waste Technology and Management.

Suhaiza Zailani graduated from Lancaster University, Lancaster, UK for MSc in Operational Research and PhD in Management Science. Currently, she is an Associate Professor attached to the School of Management, Universiti Sains Malaysia, Penang. Her teaching areas are operations management, productivity and quality control and management science. Her current areas of interest are supply chain management, benchmarking, new product development, and quality and productivity in organisations in general. She has also jointly produced many articles published in a local journal and international journal such as International Journal of Information Management, Benchmarking, Supply Chain Management: An International Journal, International Journal of Productivity and Quality Management, International Journal of Value Chain Management, International Journal of Operations and Supply Chain Management, International Journal of Services and Operations Management, etc.
