Index

A

accident and emergency departments (A&E) 242
active server pages (ASP) 46
activity diagram 278, 279, 281, 282, 283, 284
Act on Specialized Medical Care 95
acute ischemia , 302, 303, 304, 305, xv
acute physiology and chronic health evaluation (APACHE) 85, 163, 167, 173, 178, 181, 183
administrative support 56
agent language mediated activity model (ALMA) 200
American Health Information Management Association 67, 71
American Library Association 15, 32
American Telemedicine Association 1
anaesthetization stages 97
analytical hierarchy process (AHP) 1, 2, 3, 4, 5, 8, 9, 10
antipathetic behaviour 258
application program interfaces (API) 46
Area Under the Roc Curve (AUC) 305
arrhythmia 303, 304, 305
artificial intelligence (AI) 157
artificial-joint surgery 95, 97, 98, 99
artificial neural networks (ANN) 84, 85, 86, 88, 90, 91, 92
association mining 257, 259, 262
Association of County Councils in Sweden 130, 131, 136
asynchronous transfer mode (ATM) 36
attendings 153, 154, 156
attribute-value-class-set (AVC-set) 291, 292
attribute-value-square-set (AVS-set) 291

B

basic e-Medicine service (BEMS) 44, 45, 46, 47, 48, 49, 50, 51, 52
Basic Health Unit (BHU) 167
Bayesian networks 305, 310
big five model 156
binary splitting 290
body mass index (BMI) 106
broadband multimedia network (BMN) 36, 37, 41, 42, 43, 44
business process reengineering (BPR) 94, 96

capacity limits 131
categorical dependent variable 290
causality 259, 260, 263, 265, 270, 271
Centre for Evidence Based Medicine 16
class diagram 276, 279, 280, 281, 282, 284
classification and regression trees (CART) 289, 290, 292, 293, 300
clinical data , 302, xv
clinical pathways 247
command response protocol 203
composite linked birth file 87
computer-base patient records system (CBPR) 177
computerised physician order systems 278
computerized physician order entry (CPOE) 68, 76, 82
Consumer Health Informatics 126, 128, 129, 140
continuous dependent variable 290
cost-benefit analysis 238
customer relationship management (CRM) 127
D

database management system (DBMS) 45, 291
data mining 114, 256, 258, 289, 290, 299, 300
decision-support 55
decision trees , 288, 289, 290, 291, xiv, 299, 300
diabetes 106, 107, 110, 111
diffuse symptom 236, 238
digital data network (DDN) 41, 42
disease management , 102, 103, 104, x, 106, 107, 108, 109, 110, 111
dynamic causal mining (DCM) 257, 258, 259, 260, 261, 262, 265, 266, 267, 269, 270
dynamic causal rule 257, 262, 263, 266

E

ebusiness 163
e-commerce systems 198
economic development 162
