Edwin I. Achugbue is a lecturer in the Department of Library and Information Science, Delta State University Abraka, Nigeria. He holds a Diploma in Library science, BSc (Ed) in Library Science, MSc in Library and Information Science. He is currently a PhD student in the Department of Library and Information Science, Delta State University, Abraka, Nigeria.

Benson Oghenevwogaga Adogbeji, BSc (Computer Science) from University of Ibadan, and MSc (Library and Information Science) from Delta State University, Abraka, both Nigeria. He has published over twelve journal articles in international journals in the areas of Internet, library automation, computer networking, chapters in edted books. He can be contacted at benadogbeji@yahoo.com.

Blessings Amina Akporhonor had her university education at the Edo State University (Currently Ambrose Ali University) where she obtained BSc in Biochemistry. She proceeded to the University of Ibadan where she obtained MAS degree in Library Archival and Information Study. She is currently running a PhD programme in Library Science in Delta State University, Abraka. She commenced her professional career as an assistant Librarian in 1994 at the Delta State University Library. She worked in both technical and reader services division before proceeding to the department of Library and Information science in 2005 as a lecturer in the University. She is currently running a PhD programme in
Library Science in Delta State University, Abraka. Blessings Amina Akporhonor has published articles in reputable journals and scholarly textbooks.

**Sharifah Mariam Alhabshi** is a development planner whose activities have focused on teaching, researching, consulting, policy writing for national and international clients on problems and issues of development spanning from regional economics, e-government, e-society, e-land and various strategies and policies in land-related matters. She began her professional career in 1981 and concentrated on writing structural planning policies for the Department of Federal Town and Country Planning Malaysia. She is also active in applied research that develops debates regarding access to information within the processes of globalization. She is the author of several publications: Information Technology and Development, 2000; ICT in Rural Development: An Overview, 2007, and Case Studies on Government Policies, 2008. Currently she is the Deputy Director at the International Institute of Public Policy, University of Malaya. She obtained her BSc and MSc from the University of Southern California, USA, and PhD from Durham University, United Kingdom.

**Udo Averweg** is employed as an Information Technology (IT) Research Analyst at eThekwini Municipality, Durban, South Africa. He entered the IT industry during 1979 and holds a Masters Technology degree in Information Technology (cum laude), a second Masters degree in Science from the University of Natal and a third Masters degree in Commerce from the University of KwaZulu-Natal, South Africa. As an IT practitioner, he is a professional member of the Computer Society of South Africa. He has published more than 100 research outputs: some of them have been delivered at local conferences, some have appeared as chapters in textbook and some research findings have been presented at international conferences on all five continents. Udo has recently been appointed as an Honorary Research Fellow at the University of KwaZulu-Natal. South Africa. During January 2000 Udo climbed to the summit of Africa’s highest peak, Mount Kilimanjaro (5,895 metres), in Tanzania.

**Ihumoa Sandra Babatope** holds a Bachelors degree in Library Science from Delta state University, Abraka Nigeria and Masters Degree in Library and Information Science from Delta State University, Abraka Nigeria. She is an Associate member of Chartered Institute of Library and Information Professionals (CILIP) United Kingdom. She has worked in special libraries such as the Nigerian Navy Engineering College (NNEC) Library and Nigerian Stored Products and Research Institute (NSPRI). Her interest is in library automation, cyber security, library consortium, database management system, application development, surveillance system technology, networking, knowledge management, information and communication technology (ICT) and its application to the library and modern society.

**Kelvin Joseph Bwalya** Mr. Bwalya holds a Bachelors of Science and Technology in Electrical Engineering (Moscow) and a Masters in Computer Science (KAIST-Korea). He is currently pursuing his PhD in Information Systems (Univ. of Johannesburg). He started his career in 2003 as a Researcher at Samsung’s Image and Video Systems lab in Daejon, South Korea. During this time, he wrote and presented several research papers at international fora. One of his papers, ‘A heuristic approach for simulation of time-course visual adaptation for high dynamic image streams’, won the best award at the 27th Korea Information Processing. In 2007, Mr Bwalya joined the University of Zambia where he worked as a lecturer – Information Systems. He is now at the University of Botswana as a lecturer and teaches in the areas of Database Systems Design, Business Process Modeling, Distributed Systems, etc.
About the Contributors

Hopestone Kayiska Chavula, is currently an Economist with the Economic Commission for Africa (ECA) in the ICT, Science and Technology Division (ISTD) after being a Lecturer in both Economics and Computer Sciences at Chancellor College - University of Malawi. He has also been a Researcher and Consultant on various socio-economic issues in Malawi. He also held various Project and IT management roles. Worked as the Project Manager for the Malawi Socio-Economic Database Project under the Malawi Government/United Nations, a project designed to monitor progress towards the achievement of the Millennium Development Goals (MDGs) in Malawi and the Malawi Poverty Reduction Strategy goals, as a Research Associate for the Institute of Policy Research and Analysis for Dialogue (IPRAD), as Systems Administrator for the Foundation for International Community Assistance (FINCA) Malawi, as Assistant Information Systems Technology (IST) Manager for Société Générale de Surveillance (SGS) Malawi, and as an IT Consultant for Business and Management Systems (BUMAS) International. Mr. Chavula has a Bachelor of Social Sciences degree majoring in Economics and Computer Sciences, a Master of Arts (MA) degree in Economics and a PhD in Economics.

Abele Chekol Huegnaw has an MSc in Information Science from Addis Ababa University, and has a postgraduate certificate in Development Management from the Open University. He has over ten years of technical and managerial experience in the ICT for Development field. Until September 2007, he has worked as Assistant Director Governance at the British Council in Ethiopia and he was instrumental in the development and implementation of several national and regional partnership projects in ICTs, governance and development fields. With his strong IT background, Mr. Abebe initiated and managed a number of ICT4D projects which include the introduction of the first telecentres in Ethiopia, and establishment of a web-based gateway for development information for civil societies in Ethiopia (www.devinet.org). He is one of the founding members of the Ethiopian Free and Open Source Software Network (EFOSSNET) and served as Coordinator of the same from 2006 to 2008 – www.efossnet.org. Mr. Abebe is currently working as ICT for Development Expert at the United Nations Economic Commission for Africa (UNECA).

Natasha Elangbam is an Assistant Professor in the Department of Mass Communication, Manipur University, Canchipur, Manipur, India. She has a Masters Degree in Communications from Victoria University, Melbourne, Australia. She did her BA (Hons.) in English Literature from Lady Shri Ram College, Delhi University, India. She graduated from Woodstock School, Mussoorie, India. She has worked as a Senior Content Manager with the online news service of Doordarshan, New Delhi and as a Content Editor of Britannica India. She has to her credit brilliant and rich teaching experience. Besides, she is an ardent researcher and has participated in many seminars and conferences in India on ICT, gender issues and media studies. Her e-mail is natashaelangbam@yahoo.com.

Tega Rexwhite Enakrire is a lecturer in the Department of Library and Information Science, Delta State University, Abraka, Nigeria. He holds BSc and MSc in Library and Information Science. His interests lie in ICTs and knowledge management.

L. Ogbah Enovwor attended Delta State University, Abraka, Nigeria and had BA in French and MSc in Library and Information Science. She is a librarian at Delta State University Library Abraka where she is a cataloguer. She is a member of the Nigeria Library Association. She is married with children.
Chijioke J. Evoh completed his PhD at the Milano School of Management and Public Policy, the New School University. He is a Teaching Fellow with the New York City Department of Education and an adjunct instructor at the College of New Rochelle, New Rochelle, New York, and St. Thomas Aquinas College, Sparkill, New York. His scholarship connects various complementary issues in collaborative partnerships, Information and Communication Technologies (ICTs) in development, environmental policy/advocacy, educational leadership and public policy analysis.

Mercy A. Eyitemi is a graduate assistant in the Department of Library and Information Science, Delta State University, Abraka, Nigeria. She holds a BSc in Library and Information Science (Delta State University). She is currently studying for MSc degree in Library and Information Science at the Delta State University, Abraka, Nigeria.

Haluk Geray is currently head of Journalism Technologies Department in Ankara University, Faculty of Communication. Mr. Geray joined the faculty in 1995 after working as practicing journalist between 1982 and 1995 for several media organizations including the Associated Press, Visnews Newsfilm Agency. Professor Geray took part in a number of government projects on ICT policy formation. Geray also coordinated Turkey’s first foresight exercises on science and technology policy formation after joining the academy. He represented Turkey on OECD working group on telecommunication and information society policies between 1997 and 2000. Geray has been dean of Communications Faculty of Ankara University since 2006.

Basil Enemute Iwhiwhu is a lecturer in the Department of Library and Information Science, Delta State University, Abraka, Nigeria. He holds a BSc Ed honours (Chemistry) and a Master degree in Library, Archival and Information Studies from the University of Ibadan, Ibadan, Nigeria. He also holds a Diploma in Computer Science. His area of research interests are Archives and Records Management, Information Management, Knowledge Management, ICT Application to Information Resources and Services. He is a member of the Nigerian Library Association (NLA) and the current Public Relations Officer of the Delta State Chapter of this professional body.

Segomotso Masegonyana Keakopa holds a Bachelors of Humanities (History and English-University of Botswana); Master of Arts in Archives and Records Management (and PhD in Electronic Records Management- both from University College London). In addition to archival and records management training, she has certificates in Human Resource Management (BIAC), Customer Relations (Institute of Development Management, IDM). Her career started in 1993 as an Archivist with Botswana National Archives and Records Services and joined the University of Botswana in 1997 as a lecturer, a position she holds to date. Dr. Keakopa teaches in the areas of Archives Administration and Electronic Records Management. She has also been involved in consultancies in Records Management and is currently in the editorial board of the Eastern and Southern African Regional Branch of the International Council on Archives (ESARBICA) Journal.

Alan Katerinsky is a recipient of the National Science Foundation’s Scholarship for Service grant at the graduate School of Management of the State University of New York at Buffalo. He has a Bachelor’s degree in History, and undergraduate certification in Information Systems Security. Mr. Katerinsky has worked extensively in the telecommunications and graphic arts industries, teaching courses in desktop
About the Contributors

publishing and design at the post-secondary level. He has also done industrial training in Microsoft products and call center operations. Recently he served an internship at the Department of Housing and Urban Development Office of the Inspector General, working in the Information Systems Audit Division. Currently enrolled in a multidisciplinary program that includes courses in Management, Law, Computer Science and Communications, Mr. Katerinsky expects his MS in Management Information Systems and graduate level certification in Information Assurance in May of 2010.

**Nkoyo B. Edem** is Librarian I in the University of Calabar Library, Calabar, Nigeria. She holds a BSc (Fisheries) from the University of Uyo, MLS from the University of Ibadan, and a PhD from the University of Uyo. Her research interest centers on the ICT. She has been certified by the Librarian's Registration council of Nigerian (LRCN).

**Ulf-Daniel Ehlers** is an Adjunct Associate Professor of the Graduate School for Management and Technology of the University of Maryland University College, and an Assistant Professor in the Department for Business Information Sciences of the University of Duisburg-Essen, Germany. He holds degrees in English Language, Social Sciences and Educational Sciences from the University of Bielefeld, where he finished his PhD with honours in the field of Technology Enhanced Learning in 2003. He has worked as coordinator of many European and national projects and is currently Vice-president of the European Foundation for Quality in E-learning. Ulf has developed the Learners’ Quality Model for e-learning, which is a basis for learner centred quality development in. He is working as advisor to governments and non-governmental organisations in the field of learning and development cooperation and is member of several advisory boards and editorial committees. Ulf is the author/publisher of several international books on quality and organisational innovation and culture and more than 70 articles and book chapters, has been a featured speaker at numerous international conferences.

**Ogochukwa T. Emiri** is an assistant librarian at the Delta State University Library, Abraka, Nigeria. He obtained an MSc in Library and Information Science in Delta State University in 2007 and has published more than 3 international articles and is an associate lecturer at the Department of Library and Information Science, Delta State University. His research interests include knowledge organization, knowledge management and information management.

**Kgomotso Gertrude Garegae** has a PhD in Mathematics Education from the University of Manitoba, Canada. She is currently with the University of Botswana in the Department of Mathematics and Science Education. The focus of her teaching, research and publication has been on contemporary issues including equity, language, ethnomathematics, ICT in education, and also on teacher education. Dr. Garegae reviews for both national and international journals of education, particularly mathematics education. She subscribes to various associations and research groups both in and outside Africa.

**Saïda Habhab-Rave** undertook her doctoral studies at Jean Moulin University – Lyon 3 where her thesis focused on fuzzy logic and decision making. She’s currently an Assistant professor at the Business School of La Rochelle and is an associate member of CEREGE – University of Poitiers. Her research interests include knowledge management, decision making, TIC and innovation.
About the Contributors

Dorcas Ejemeh Igberaese is a lecturer in the Department of Library and Information Science, Ambrose Alli University, Ekpoma-Edo State, in Nigeria. She holds a master’s degree in Computer and Information Science from Ambrose Alli University, Ekpoma-Edo State. From 2003 to 2008, she taught Computer and Information Science courses in various institutions in China. In recent years, her research works have centered mostly on Knowledge Management as a tool for social integration and sustainable economic development. A drive for spirituality and self expression has inspired in her a keen and sustained interest in Information Science and Philosophy. This paper is one of many that will yet emerge in her efforts to make significant scholastic contributions in the field of Information Science, one in which she intends to build a lasting career.

Stella E. Igun holds B.LS and MLS degrees from the University of Maiduguri, Maiduguri, Nigeria and a PhD degree in Library and Information science from Delta State University, Abraka Nigeria. She is the reader’s services librarian, Delta State University Abraka, Nigeria. Her research interest lies in ICT development and applications. She can be contacted at akustella@yahoo.com.

J. R. Ikoja-Odongo (PhD) is a graduate of Makerere University Uganda, Delhi University India, Stirling University Scotland and Zululand University South Africa. He holds various library and Information science qualifications majoring in publishing studies. He is a lecturer at the East School of Library and Information Science Makerere University and has published several papers and presented in many conferences. His main interests are in politics of information, women in information work and indigenous knowledge. Currently he is the Director, of the Institute of Psychology.

Violet E. Ikolo had her university education at the Delta State University, Abraka, Nigeria where she obtained a Bachelor of Library Science (BLS) and a Master of Science (MSc) in Library and Information Science, and is currently studying for a PhD degree in library science at the same university. She commenced her professional career as a graduate assistant librarian in 2005 at the Delta State University Library, Abraka. Presently, she is an assistant librarian working in the Special Collection Division of the Library where she is involved in Cataloguing of special materials such as government publications, Africana and Nigeriana. She is a member of the Nigerian Library Association (NLA).

Joseph W. Irivwieri had his university education at Delta State University, Abraka, Nigeria where he obtained BLS, MSc Library/Information Science and Diploma in Information Technology. He commenced his professional career as librarian II in 2002 at Delta State Library Board, Asaba, Nigeria. He worked in reader services divisions of the library, and presently the central reference librarian. Mr. Joseph W. Irivwieri has published articles in reputable international journals. He is secretary to the Delta State Library Board Senior Staff Association and a member of Delta State Library Board Management Staff. He is happily married with children.

Normalini Md Kassim was a system engineer for Maybank Berhad in year 1999 to 2001. Her experience in banking industry for 3 years handling loan processing programming. She obtained her first degree in Computer Science from University Technology of Malaysia at year 1999. She was joining Hewlett Packard Singapore at end of year 2001 as a Project Manager in Communication System Section. Her experience in communication programming and supporting the system for a few communication companies in a Philippines and Singapore. She completed her Master in Business Administration (MBA)
About the Contributors

in University Science Malaysia at year 2005. She is a consultant in risk management for AIA Berhad for 4 years which specific to Islamic financial planning. She started her career in lecturing with School of Distance Learning, USM in year 2007. Currently, she is an academic scholar with School of Management, University Science Malaysia on year 2008 and enrolled for PhD research program. With experience in banking, manufacturing, communication and financial industry, she would like to collaborate and share her experience in technology management and risk management area.

Majority Oji teaches mass communication at Delta State University, Abraka…Nigeria. He holds first and second degrees in mass communication from the University of Lagos, Lagos, Nigeria. Though a development communication scholar, Oji has written extensively on different areas of communication and has contributed scholarly articles to both local and international journals. The scholar is equally at home with ICTs issues having gained ICTs knowledge in PhD course works, seminar discussions and other practical exposures. He is currently a doctorate degree student at the Department of Mass Communication, Nnamdi Azikiwe University, Awka, Nigeria.

Lucky Madikiza works in the Communications Unit at the Development Bank of Southern Africa, Johannesburg, South Africa. Lucky trained in journalism at Rhodes University, South Africa and pursued postgraduate studies in Telecommunications and in International Communication at the University of South Africa. He lecturers on a part-time basis at the same university and has also served as an external moderator for postgraduate certificate courses in Telecommunications Regulation and Management, at LINK Centre, Graduate School of Public and Development Management, Wits University in South Africa. He has presented papers in international conferences and also published journal articles in the fields of ICT Policy and Regulation as well as Media Studies.

Dawn B. Medlin is the Chair of the Department of Computer Information Systems and Director of the Center for Advanced and Emerging Technologies, John A. Walker College of Business, Appalachian State University in Boone, NC. Her teaching and research activities have mainly been in the area of security, privacy, health care informatics, international studies, and gaming. She has published in journals such as The Journal of Information Systems Security, Information Systems Security, International Journal of Electronic Marketing and Retailing, and the International Journal of Healthcare Information Systems and Informatics. She has also published several invited book chapters as seen in the IT Outsourcing Concepts, Methodologies, Tools, and Applications and ICT Law, Protection, and Access Rights: Global Approaches and Issues. Her most recent international teaching experience was at Addis Ababa, Ethiopia in the PhD IT program.

Lawan A. Mohammed is currently an Assistant Professor in Computer Science and Engineering Technology Department at King Fahd University of Petroleum and Minerals (HBCC Campus), Saudi Arabia. His main research interests are in the design of Authentication Protocols for both wired and wireless networks, Wireless Mobility, Group Oriented Cryptography, Smartcard Security, and Mathematical Programming.

Stefan Mertens studied Political and Social Sciences in the Communication Science section at the University of Antwerp and Social and Cultural Anthropology at the Catholic University of Leuven. Afterwards he obtained a grant from the “FWO-Vlaanderen” Fund for scientific research Flanders. He
About the Contributors

finished his PhD on football and intercultural mediacommunication at the Catholic University of Brussels in 2004. Currently, he is working as a postdoctoral researcher at the Catholic University of Brussels on the project “Digital citizenship among ethnic minorities in Brussels: a multimethodical approach”, funded by the regional government of Brussels.

**Shadreck Moalosi** Shadow is a High School Mathematics teacher at Naledi Senior Secondary School in Gaborone City, Botswana. He has a Masters degree in Mathematics Education from the University of Botswana. Mr. Moalosi has taught in both junior and senior secondary schools for 17 years. His research interests include teacher knowledge and ICT in education. He subscribes to local associations such as Botswana Educational Research Association and Mathematics Association of Botswana.

**Lauren Movius** is a doctoral student at Annenberg School of Communication at the University of Southern California. At USC, she has been the USC Graduate School Endowed Oakley Fellow and the Wallis Annenberg Graduate Research Fellow to Professor Manuel Castells. Her broad areas of research include international communications policy, communication rights, and communication and social change. Her research has been published in the Journal of Communication, the International Journal of Communication, and the Global Media Journal. Lauren graduated from the University of California at Los Angeles with a BA in Communication Studies. She received a MSc in Global Media and Communications from the London School of Economics and Political Science and an MA from the University of Southern California.

**Kashif Munir** joined King Fahd University of Petroleum & Minerals (Hafr Al-Batin Campus) as a Lecturer in September 2006. Prior to joining KFUPM, Kashif worked at Stamford College in Malaysia for four years. His main research interests are in pervasive computing, databases, human computer interaction, and interface design.

**Mohen Naorem** is pursuing MA in Mass Communication in the Department of Mass Communication, Manipur University, Canchipur, Manipur, India. He is also the Editor of a bimonthly magazine named, *The Manipur Journal* which promotes world’s culture, language and identity. In 2003, he obtained the Specialized Diploma in Mass Communication from Delhi School of Journalism, India (affiliated to London Chambers of Commerce and Industries, UK). He has worked as Copy Editor in Techbook International and as Assistant Editor of F&B magazine in Delhi. His email is mailtonaorem@yahoo.com

**Muesser Cemal Nat** is a senior lecturer and PhD candidate for a degree in Computer Science at the University of Greenwich. Her area of research is personalized e-learning and interest is in Web development and Web technologies. She was holding senior lecturer position in Cyprus International University for three years. In this position, she supervised a student team for IBM’s Software Academy 2008 Competition and the team placed 9th out of 175 teams. After deciding to improve her academic career, she has started her Ph.D in 2007 and she is looking forward to complete in 2010. She attended several conferences and presented her study in E-Learn 2008 conference. She also worked as a web developer and then took up project manager position in a web development company. She is passionate in teaching, and enjoys sharing and collaborating with others.
About the Contributors

Aniebiet Ntui is Librarian I in the University of Calabar Library, Calabar, Nigeria and also teaches in the University of Calabar library school. She holds BSc {Ed}, MLS and a PhD in library and information science. She has practiced Librarianship for fifteen years and has been involved in the education and training of professional librarians for the same period of her professional experience. She has been certified by the Librarian’s Registration council of Nigerian (LRCN). Her research interest centers on the promotion of access to information and dissemination to User Groups. She is an Internal examiner to library Schools in Nigeria.

Gabriel Aine Obinyan lectures at the department of Library and Information Science, Ambrose Alli University (AAU), Ekpoma. Obinyan had a fairly long stint teaching Information Services to Target Group, Africana, Introduction to Book Publishing, Indexing and Abstracting, and Book Distribution and Marketing to undergraduate students at the University of Ibadan before joining AAU in 2007. Obinyan holds BSc, MSc ( Geography) and M. Inf. Sc from the University of Ibadan and PGDE, University of Calabar. Before switching to Information science, the author taught geography in many schools across the country, e.g. Sacred Heart College, Ubaija 1980-1983; Mercy Juniorate, Amapu Ntigha, 1987-1988; Girls Science Secondary School, Jahun, 1988-1990; and the International School, UI, 1994-2004. Obinyan is happily married to Mrs Frances Oluwatoyin amidst looking up to Joy and Courtney, the joy of the family. The author’s areas of interest include Publishing, Research methods, ICT, IK, Knowledge and Information Management and Library Services.

Alex Ozoemelem Obuh holds a Bachelors degree in Computer Science, Masters degree in Library and Information Science plus professional certification in database management system. He attended University of Benin, Benin City, Nigeria and Delta State University, Abraka, Delta State, Nigeria. He has published book chapters and several articles in both national and international journals. He has participated as lead lecturer in seminars and workshops. He has worked in several IT firms and is currently a Programmer with the Department of Library and Information Science, Delta State University, Nigeria. His interest is in database management system, application development, system security, web technology, networking, management information systems and artificial intelligence. Wole Michael Olatokun holds master and doctorate degrees in Information Science obtained from the University of Ibadan, Nigeria. He is currently a Senior Lecturer at the Department of Library and Information Studies, University of Botswana, Gaborone. His research interests include: National ICT policy issues, social informatics, e-governance, and indigenous knowledge. He can be contacted on email at: wole. olatokun@mopipi.ub.bw or woleabbeyolatokun@yahoo.co.uk

Azizah Omar is presently a senior lecturer and specializing in marketing and wellness management at School of Management, Universiti Sains Malaysia (USM). She has been teaching and supervising undergraduate and postgraduate (MBA, MA, PhD and DBA) students especially in the area of marketing, web-based marketing and wellness management. She has published several articles in international journals, proceedings and conferences in various countries such as Canada, United Kingdom, Africa and India. She also involves in various researches at university and community levels. Currently, she holds several positions at School and University levels (such as Chairman of Industrial and Community Division; President Alumni School of Management, Consultant for USAINS - strategic management and business communication). She obtained her doctoral of philosophy from Monash University, Melbourne, Australia; Master of Business Administration, USM and Bachelor of Health Sciences from Curtin University, Perth, Australia.
Chukwunneike Gracious Omede is the unit head of the ICT Department of Delta State University, Abraka, Nigeria. His first and second degrees are in computer science. His major area of interest is software engineering and is presently undergoing a PhD programme in software engineering at the University of Benin, Nigeria.

Josephine Eruterio Onohwakpor (Ph.D) obtained BA(Ed.) in Adult Education from University of Lagos, MLS from University of Ibadan and PhD in Library and Information Science from Delta State University, Abraka all in Nigeria. She is currently Head of Collection Development Division at Delta State University Library, Abraka, Nigeria. E-mail: ordejoe@yahoo.com

Mary Chineny Osondu is a Librarian at The Library, Federal University, Technology Owerri, Nigeria. Have worked in the Serial and circulation Units of the Library respectively, and currently attached in (ICT Unit) of the same Library. Holds Bachelor of Science Degree in Accountancy from Abia State University, Uturu in the year 1999; PGD; and Master of Library Science in 2007 both obtained from the Imo State University, Owerri. Currently pursuing her Doctorate programme, at Beyaro University, Kano with research interest on Information Management; specializing in (ICT user satisfaction in Academic Libraries); member Nigerian Library Association (NLA); member Reading Association of Nigeria. Above all an energizing servant of my establishment and my community Ahiazu Mbaise Local Government Area of Imo State, Nigeria, married with children.

Funda Başaran Özdemir is an Associated Professor at the Faculty of Communications in Ankara University. Her research interests include telecommunications policy, innovation and technological changes, science and technology policy, political economy of information and communication technologies, ICT, internet diffusion and policy, information society policies and development economics and policy. She is the author of two books on the political economy of telecommunications in Turkey and strategies of privatization in the telecommunication sector and the co-editor of one book on economy of communications networks. She also has published various articles on new information technologies, telecommunications and communication policies in EU and Turkey.

Alex Pantaleev acquired his BA from the American University in Bulgaria, and his M.S. and Ph.D. from the Ohio State University—all degrees in Computer Science. His interests lie in the areas of Computer Game Design and Development, Computer Science Education, Software Engineering, Programming Languages, and Artificial Intelligence. Dr. Pantaleev is the creator of the first Bulgarian Massively Multiplayer Online game, Imperia. He has also participated in the design and development of numerous Free Libre/Open Source projects, such as the Google Web Toolkit. Dr. Pantaleev is currently employed as an Assistant Professor of Software Engineering at the State University of New York at Oswego.

Marian Pelletier has a Masters Degree in International Development from Saint Mary’s University in Halifax Nova Scotia. She is a part-time Instructor at both Saint Mary’s University and Dalhousie University where she teaches courses on gender. Marian’s earlier travels with volunteer groups have given her an appreciation and respect for other cultures. As a result of these earlier experiences, she has worked and done research in East Africa. At the moment Marian is currently enrolled in a PhD program and has devoted her research to the advancement and empowerment of African women.
About the Contributors

Krassie Petrova is a senior research lecturer (Research) at the School of Computing and Mathematical Sciences, Auckland University of Technology, and a Postgraduate Programme Leader. Krassie has published and presented in New Zealand and internationally in the areas of mobile business - including mobile applications, adoption, and business models, eLearning and information technology facilitated learning, information security and information technology education and curriculum development, information technology and information systems student skills and capabilities building, and postgraduate curriculum development. Krassie has researched and published on the adoption of mobile gaming, mobile banking, mobile learning, and just in time learning. Her present work and research interests are related to theory building in the area of mobile services and applications development and adoption form a multi-paradigm research perspective and applying a multi-stakeholder approach to service evaluation.

Veena Raman is a lecturer in the Departments of Communication Arts and Sciences, and Science, Technology and Society at the Pennsylvania State University. Dr. Raman teaches courses on globalization, new information technologies, the cultural implications of new media technologies and ethical issues surrounding them, and the role of information technologies in facilitating democratic participation and deliberation. Dr. Raman’s research focuses on political impacts of communication technologies, digital governance, participatory and deliberative democracy, and civic engagement in the context of globalization. Dr. Raman was a post doctoral research scholar with the Berkeley Center for Globalization and Information Technology prior to moving to Penn State.

T. Ramayah has an MBA from Universiti Sains Malaysia (USM). Currently he is an Associate Professor at the School of Management in USM. He is an avid researcher, especially in the areas of technology management and adoption in business and education. His publications have appeared in Computers in Human Behavior, Direct Marketing: An International Journal, Information Development, Journal of Project Management (JoPM), Management Research News (MRN), International Journal of Services and Operations Management (IJISOM), Engineering, Construction and Architectural Management (ECAM) and North American Journal of Psychology. He also serves on the editorial boards and program committees of many international journals and conferences of repute. In 2006 he was awarded the “AGBA DISTINGUISHED ASEAN SCHOLAR” for his contribution to research and publication in the ASEAN region. He was a Visiting Professor at the National Taiwan University for a month in 2007. His profile can be accessed from http://www.ramayah.com

Raghav H. Rao graduated from Krannert Graduate School of Management at Purdue University. His interests are in the areas of management information systems, decision support systems, e-business, emergency response management systems and information assurance. He has chaired sessions at international conferences and presented numerous papers. He also has co-edited four books of which one is on Information Assurance in Financial Services. He has authored or co-authored more than 150 technical papers, of which more than 75 are published in archival journals. His work has received best paper and best paper runner up awards at AMCIS and ICIS. Dr. Rao has received funding for his research from the National Science Foundation, the Department of Defense and the Canadian Embassy and he has received the University’s prestigious Teaching Fellowship. He has also received the Fulbright fellowship in 2004. He is a co-editor of a special issue of The Annals of Operations Research, the Communications of ACM, associate editor of Decision Support Systems, Information Systems Research and IEEE Transactions in Systems, Man and Cybernetics, and coEditor-in-Chief of Information Systems Frontiers
