3G wireless systems 234

A

accountability 61
accounting information systems 151
adoption 43
age of cybernetics 4
alliances 94
analytical model 159
automated processing 157
automated product ordering 221
automation 177
automotive industry 240, 247

B

B2B 172, 247
B2C 172
banking 170
benchmark model 204
Bluetooth 217
broadband wireless technology 235
business alliance formation 183
business alliances 186
business cycle 195
business expansion 53
business goals 116
business intelligence 114, 242
business process improvement 30

business process reengineering 30, 79
business processes 28, 59, 67, 241, 265
business system 29
business transactions 67, 87, 172, 220
buy-side model 243

C

calibration error 207
capability evaluation 183, 185
capital expenditure 72
change management 184, 285
cluster identification 183
cluster revenue models 183
cluster-based e-transformation 168, 181
collaborative usage 173
common object request broker architecture 103, 176
communication technologies 103
communications channels 51
comparative analysis reports 117
competition 79, 83
competitive advantage 141
competitiveness 138
computer virus 288
computer-aided system development 11
computer-based applications 115
computer-based systems 120
corporate business 59
cost effectiveness 53
cost-benefit analysis 58
critical risk factors 49
cross-cultural issues 110
cultural backgrounds 103
cultural changes 229
cultural problems 123
cultural significance 105
cultural values 101
culture 6, 51
customer relationship management 242, 266
customer service enhancement 97
customization of software 87

data layer 144
data mining 142, 145
data mining query language 142
data society 1
data transformation 157
data warehouse development 160
data warehouses 149
data warehousing 159
database-oriented DSS 118
decision layer 144
decision making authority 125
decision support systems 114
decision support tools 150
decision-making culture 154
decision-making process 196
deployment dynamics 72
diffusion 43
diffusion stage 61
digital nervous system 266
disaster recovery plan 137
distributed component object model 176
distributed computing object model 103
dynamic decision making 135

e-auction 241
e-business 61
e-business alliances 94
e-business strategy 241
e-cluster design 184
