Tong-Yi Huang, Ph.D., is an Associate Professor of the Department of Public Administration at National Cheng-chi University in Taipei, Taiwan, where he teaches public administration, survey research methods, and citizen participation at undergraduate and graduate levels. Dr. Huang also serves as a Research Fellow of Taiwan e-Government Research Center. Dr. Huang received his Ph. D. from the Department of Government of the University of Texas at Austin. His recent research interests include e-government evaluation, e-democracy, and deliberative democracy. Dr. Huang’s recent research publications can be found in journals such as Public Administration and Development and International Journal of Public Administration.
About the Contributors

**Tomasz Janowski** is a Senior Research Fellow at United Nations University - International Institute for Software Technology in Macao (UNU-IIST) where he founded and heads the Center for Electronic Governance. His expertise is in foundations and frameworks for electronic governance, tools and applications of formal techniques, and rigorous development of enterprise systems, particularly systems for the public sector. He founded and coordinates a series of International Conferences on Theory and Practice of Electronic Governance (ICEGOV), and serves as an Editorial Board member and Programme Committee member and chair at various journals and conferences. As part of his contribution to international development, he assists several governments including Afghanistan, Argentina, Cameroon, China, Colombia, Costa Rica, Ecuador, Egypt, Jordan, Republic of Korea, Kyrgyzstan, Macao SAR, Maldives, Mongolia, Nepal, Nigeria, and Palestine on how to design and implement Electronic Governance programmes based on the rigorous framework EGOV that he developed in the Center. He has a PhD in Computer Science from the University of Warwick, UK.

**Chung-pin Lee**, Ph.D., is an Assistant Professor of the Department of Public Administration at Tamkang University in Taiwan, and also a research fellow of Taiwan E-Governance Research Center. In 2007-8, he was a Fulbright visiting scholar in the Askew School of Public Administration and Policy at Florida State University. His research interests are public innovation and diffusion, e-governance, and deliberative democracy. Dr. Lee’s recent research publications can be found in journals such as Public Administration Review, Journal of Public Administration (published in Taiwan), and Public Administration & Policy (published in Taiwan).

**Frank Leyman** is the manager of international relations, FEDICT (the Federal Public Service for ICT). He holds a Master degree in Marketing and in Applied Economics from the University of Mons in Belgium. He started his career with IBM Belgium as a telecom Marketing specialist. After 6 years he joined the Belgian national Telecom operator BELGACOM where he was in charge of setting up the Corporate Services Sector. After 3 years he was appointed as Distribution Channels Director for the Belgacom Group. In 1999, Frank left Belgacom for a more international career by joining the company PROTON WORLD. This company is specialized in large scale smartcard based projects. He was in charge of business development in the Middle-East and African Region and co-developed the complete government offering. Since mid-2005, he has worked for FEDICT where he has managed international relations as well as the relations with European Commission, UN, and OECD. He was the Chairman (2009-2010) of the International Council for IT in Government Administration (ICA).

**Jin Lo** is a Ph. D. Candidate in Public Administration at National Chengchi University in Taiwan. He is a part-time Lecturer at both the Department of Public Management and Policy and the Department of Political Science Department at Tunghai University. His areas of expertise include e-government, deliberative democracy, and e-governance. In 2010, he obtained a Doctoral Dissertation Grant and Award of National Science Council.

**Antonio M. López-Hernández** is a Full Professor of Accounting at Granada University, Spain. He is a founding member of the Spanish Association of Accounting University Teachers and a member of the European Accounting Association. He teaches Public Sector Management and Control. His research interests are focused on the financial information disclosures on the Web (e-government), on the manage-
ment system and financial information in the federal and local governments. He is an author of numerous articles in national and international journals indexed at the ISI/JCR including *International Public Management Journal*, *Government Information Quarterly*, *Online Information Review*, *International Review of Administrative Sciences*, *American Review of Public Administration*, *Public Administration and Development*, *Public Money & Management*, and *Public Management Review*. Also, he has written some chapters to books edited by prestigious international publishers (Kluwer Academic Publishers; IGI Global; Springer) on different topics related to e-government.

**Forrest V. Morgeson III** is a Research Scientist at the American Customer Satisfaction Index (ACSI) in Ann Arbor, Michigan. He received his Ph.D. in Political Science from the University of Pittsburgh. His recent research focuses on citizen satisfaction with U.S. federal government services, electronic government, and the financial impact of private sector consumer satisfaction, and has recently been published or is forthcoming in journals such as *Public Administration Review*, *Journal of Public Administration Research and Theory*, *Electronic Government: an International Journal*, *Journal of Marketing*, *Marketing Science*, and the *International Journal of Research in Marketing*. In addition to his research activities, Dr. Morgeson has consulted with dozens of corporations and government agencies on customer and citizen satisfaction over the past decade, and has delivered lectures and presentations on a variety of topics in more than a dozen countries.

**Adegboyega Ojo** is a Research Fellow at the United Nations University – International Institute for Software Technology (UNU-IIST) located in Macao. At UNU-IIST, he belongs to the Electronic Governance Programme. Before joining UNU-IIST in May 2004 as a Postdoctoral Fellow, he was Senior Lecturer at the Department of Computer Sciences at the University of Lagos in Nigeria. His expertise lies in the domains of Electronic Governance, Technology Strategy and Architectures, Software Technology, and Computational Intelligence. His academic and professional career spans about two decades of teaching, research and capacity building in computing, e-governance, and related subjects. He has published several peer-reviewed papers as journal articles, book chapters, and contributions to conference proceedings. He currently serves as program committee member and chair of several international conferences in the area of e-governance and Information Systems. Adegboyega holds Ph.D. and B.Sc. degrees in Computer Science from the University of Lagos, Nigeria.

**Ching-Heng Pan** is currently an Assistant Professor at the Graduate Institute of National Policy and Public Affairs at National Chung Hsing University in Taiwan, and a research fellow at the Taiwan E-Governance Research Center. Dr. Pan received his MPA from Columbia University and earned his Ph.D. in Public Administration from the University of Southern California. His current research interests involve various aspects of e-governance, including Web 2.0 applications in the public sector, e-government evaluation, and reuse of public sector information. He teaches the courses in e-governance, organizational theory and behaviors, regulatory policy, public policy analysis, and public administration theories.

**Jeannine E. Relly** is an Assistant Professor in the School of Journalism at the University of Arizona, where she also is an affiliated faculty member with the Center for Latin American Studies. Her research largely focuses on political, cultural, legal, and economic institutions in developing nations with access-to-information legislation. Her recent research has examined the global diffusion of access-to-information legislation and e-governance in developing nations with and without access-to-information laws.
About the Contributors

Manuel Pedro Rodríguez Bolívar is an Associate Professor at the University of Granada (Spain). He is a foundational member of the Spanish Association of Accounting University Teachers and of the European Accounting Association. His research interests are focused on e-government, the conceptual framework of accounting, the use of BSC in public administrations and public agencies, and on environmental accounting. He is the author of numerous articles in national and international journals indexed at the ISI/JCR list, including the Government Information Quarterly, Public Administration and Development, Public Money & Management, Online Information Review, International Review of Administrative Sciences, and American Review of Public Administration.
