A

Academic Library
   as a collaborative system 223
   subsystems 228
academic market 217
AIML - See Artificial Intelligence Markup Language.
AJAX (Asynchronous JavaScript and XML) 152
algorithmic information theory 43, 48, 64
Application Sharing Systems 148
archival database 190
archival descriptions 185-186, 189-194
archival documentation 185, 188
Archival Practice 186-188
archival staff 185
Aristoscience 83
Artificial Intelligence Markup Language (AIML) 171, 179
Asynchronous JavaScript and XML - See AJAX.
Audio Conferencing Systems 150
automated indexing 96, 117
automated library - See Library automation.

B

Basic Support for Collaborative Work - See BSCW.
Beer, Stafford 217
Beer’s Viable System Model 227
bibliometrics 88, 122-124, 127
Bibliotecology 8, 10
bioinformation 83
BSCW (Basic Support for Collaborative Work) 145, 151

C

Chat activity 174
Chatbot agents 172
chatbots 170-172, 184
Chat Systems 147-148, 150
CIS - See collaborative information seeking.
CIS System 243-244, 246, 248-249, 254-256
classical cybernetics 49
client autonomy 96
Coagmento
   Deployment 254
   Design Phase I 248
   Design Phase II 254
   Development 249
   Enhanced Version 253
   Field Study 254
   Laboratory Study 250
   Pilot Runs 247
   Preliminary Design 244
   walkthroughs 246
Co-Authoring Systems 149
Collaboration Role 141
Collaborative Association 141
Collaborative Community Networks 210
collaborative information seeking (CIS) 210, 242-244, 246, 248-249, 253-257
collaborative information systems 34, 86-87, 120, 196, 198, 200, 206, 208-210
Collaborative Setting 141
collaborative systems 124, 134, 139-140, 142-145, 148-149, 151, 155-156, 166, 202, 207, 211
collaborative technologies 88, 210
Collaborative Virtual Environments 149, 157
collective culture 233-234, 240
Community of Practice (CoP) 219
   and Activity Theory (AT) 221
   characteristics of 220
   in libraries 221
   in organizations 221
   complementarity 41
Computer Supported Cooperative Work - See CSCW.
Comte, August 81
concept of collaboration 219
concept of literacy 93, 110
Conferencing Systems 140, 145, 147, 150
conscious information 75
Context-Aware 163, 179-180, 183
Contextual Help Systems 170
Contextual Information Retrieval 161-164, 167-169, 175, 178
   Adaptive Information Retrieval 161-162, 164, 166
   Personalized Information Retrieval 164, 166-167, 174, 182, 184
Control activity 173
cosmic information 77
Cosmovision 43, 71, 82
CSCW (Computer Supported Cooperative Work) 140, 144-145, 156-159, 242, 257
Cultural Management 234
   and social networks 237
   guidelines for 237
cyberculture 218
   Cybernetics of the Second Order 49, 68-69
cybersemetics 49, 61, 63, 69, 83

D

DACS standard (Describing Archives: A Content Standard) 188, 193
Database Management System (DBMS) 202-203, 207
Dendrograms 127
digital culture 2.0 234
digital library 197
DIKW hierarchy 18
Direct assistance activity 174
documentary language 190
Documentation 29
documentation science 76
Document Management Systems 150-151
Dretske, Fred 75, 79
dynamics of logics 50
dynamic system 218

E

EAM - See Mediated Learning Experience.
ECA - See Embodied Conversational Agents.
EIES (Electronic Information Exchange System) 145
electronic administration 191
Electronic Meeting Systems 148, 158
electronic repositories 191

Embodied Conversational Agents (ECA) 167, 171-172, 180
Ethology 25, 28, 32
Euclidian distance modeling 129

F

first order cybernetics - See classical cybernetics.
folksonomies 131, 198, 210, 234
Froelich, Thomas 79

G

Generalized Recall and Precision - See GRP.
   General Theory of Information (GTI) 43-44, 50-51, 61, 69
genetic structuralism 101-102
globalism 219
Gödel’s theorem of incompleteness 40
Graphical User Interface (GUI) 162, 172, 200, 210
Grounded Theory 124
Group Planning Systems 150
groupware systems 139-140, 142
GRP (Generalized Recall and Precision) 169
GTI - See General Theory of Information.
GUI - See Graphical User Interface.

H

HCI - See Human-Computer Interaction.
Helmholtz equation 54-56
Henrich, Norbert 80
holism - See globalism.
holons 4, 8
Human-Computer Interaction (HCI) 122, 124, 132, 135-137, 139-140, 143-144, 148, 151, 157, 179-181, 248, 254, 257
Human-information interaction 121-122, 124, 133-134, 136
hybrid library 197
