## Index

### A
- abstract conceptual model 86
- action research 211
- action researcher 102
- activation error 78
- Actor Network Theory 19
- analog conceptual model 86
- analysing communication patterns 127
- autopoiesis 205

### B
- bi-polar description 51
- black-boxing 19
- bottom-up strategy 64
- business process 133

### C
- capture error 78
- change agents 68
- change management 133
- client-led design 7
- cognitive mappings 161
- cognitive policy evaluation 52
- collaborative venture 124
- communication flow 125
- community development 211
- computer-aided learning 199
- computer-based information systems 4
- computer-based systems 175
- computer-mediated communication 121, 125, 145, 148
- conceptual component 67
- constrained variety 2
- constructivist approaches 183
- critical awareness 179
- critical content 92
- critical systems heuristics 62, 217
- critical systems thinking 9, 179
- Customer, Actors, Transformation process 5

### D
- data collection 140
- data collection method 15
- data quality 166
- Data warehousing 159
- data-as-knowledge 171
- data-driven error 79
- debugging program code 150
- deduction 62
- description errors 78
- distinction 212

### E
- easy-to-use interface 91
- efficient interactions 199
- electronic mail 20, 120
- emergent properties 73
- enabled by information technology 1
- end-user computing system 166
- end-user error 76, 81
- end-user training 88
- error management 84, 86
- error message 82
