About the Contributors

**A.V. Senthil Kumar** obtained his BSc Degree (Physics) in 1987, P.G.Diploma in Computer Applications in 1988, MCA in 1991 from Bharathiar University. He obtained his Master’s of Philosophy in Computer Science from Bharathidasan University, Trichy during 2005 and his Ph.D in Computer Science from Vinayaka Missions University during 2009. To his credit he had industrial experience for five years as System Analyst in a Garment Export Company. Later he took up teaching and attached to CMS College of Science and Commerce, Coimbatore. He is currently working as Director in the Department of Post Graduate and Research in Computer Science, Hindusthan College of Arts and Science, Coimbatore, India. He has published more than 30 research articles in refereed international conferences and journals as well as book chapters. He has edited a book and serving as Editor-in-Chief for an international journal. He is an Editorial Board Member and Reviewer for various international journals. He is also a committee member for various international conferences.

**Hakikur Rahman**, PhD., is the Founder-Principal of Institute of Computer Management and Science (ICMS) and President of ICMS Foundation. He is currently serving as a Post-Doctoral researcher at the University of Minho, Portugal. He is an Adjunct Faculty of the Bangabandhu Sheikh Mujibur Rahman Agricultural University, Bangladesh (a public university) and a former faculty of the International University of Business Agriculture and Technology, Bangladesh (a private university). He served Sustainable Development Networking Foundation (SDNF) as its Executive Director (CEO) from January 2007 to December 2007, the transformed entity of the Sustainable Development Networking Programme (SDNP) in Bangladesh where he was working as the National Project Coordinator since December 1999, and the South Asia Foundation Bangladesh Chapter as the Coordinator-Secretary during 2001-2008. SDNP is a global initiative of UNDP and it completed its activity in Bangladesh on December 31, 2006. Before joining SDNP he worked as the Director, Computer Division, Bangladesh Open University. Graduating from the Bangladesh University of Engineering and Technology (Electrical & Electronics Engg.) in 1981, he has done his Master’s of Engineering (Electrical Engg. with Computer specialization) from the American University of Beirut in 1986 and completed his PhD in Computer Engineering from the Ansted University, UK in 2001. He has contributed over 25 book chapters, authored/edited over 20 books, and published over 50 articles/papers on ICT for Development (knowledge management, e-governance, e-learning, data mining applications and Internet governance). He is the Chairman of SchoolNet Foundation Bangladesh; the Founder-Chairperson of Internet Society Bangladesh Chapter (2000-2010); Head Examiner (Computer), Bangladesh Technical Education Board (1996-2008); Editor, the Monthly Computer Bichitra; and Executive Director, BAERIN (Bangladesh Advanced Education Research and Information Network) Foundation.
Jemal H. Abawajy is a faculty member at Deakin University, Australia. He is actively involved in funded research in robust, secure, and reliable resource management for pervasive computing (mobile, clusters, enterprise/data grids, Web services) and networks (wireless and sensors) and has published more than 150 research articles in refereed international conferences and journals as well as book chapters. He is currently the principal supervisor of 13 PhD and co-supervisor of 3 PhD students. Dr. Abawajy has guest-edited several international journals and served as an associate editor of international conference proceedings. In addition, he is on the editorial board of several international journals. Dr. Abawajy has been a member of the organizing committee for over 200 international conferences serving in various capacity including chair, general co-chair, vice-chair, best paper award chair, publication chair, session chair, and program committee.

Raja Aljaljouli is a PhD student in Science and Technology Faculty at Deakin University and a holder of Master’s Degree in Software Engineering, University of New South Wales. She is currently in the stage of submitting PhD thesis. Her Master’s Degree Thesis was on the security of data gathering mobile agents. She has published conference papers, technical reports, and a book chapter. She served as a reviewer of book chapters for publication. Her research interests are in multi-agent systems, security of mobile agents, security protocols, negotiation strategies, utility function in e-commerce application, e-negotiation, and formal verification methods.

Arhatha B graduated from Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore in the year 2010. Her special interests lie in embedded, Web, and mobile technologies.

Harish Raddi C S graduated from Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore in the year 2011. He is currently working as Associate Solution Architect at Akamai Technologies, Bangalore. His special interests lie in cloud, Web, and mobile technologies. He has contributed to MSRIT Linux Association as Chairman for the year 2010-2011 and initiated several co-curricular and extra-curricular activities.

Lars Frank has, for 20 years, been a Database Consultant for both private companies and organizations in the public sector. Since 1994 he has been Associate Professor at the Department of Informatics in Copenhagen Business School. His research areas are system integration, data warehousing, ERP architectures, Distributed health records, E-commerce, Mobile databases, Transaction models, Work flow management, multidatabases, and data modeling. In 2008 he received Dr. Merc. Degree from Copenhagen Business School for a dissertation about integration of heterogeneous IT-systems.

Marivi Higuero obtained her BSc and MSc degrees in Electrical Engineering in 1992 and her Ph.D. degree in 2005, all from UPV/EHU. She currently works as an Assistant Professor in the Department of Electronics and Telecommunications in the Faculty of Engineering of Bilbao in UPV/EHU, teaching telematics lab and fundamentals, as well as doctorate courses on Advanced Networks and Services and
Srinivasa K G received his B.E. degree in Information Science and Engineering from M S Ramaiah Institute of Technology, Bangalore University in the year 2000, and M.E. degree in Computer Science and Engineering from University Visvesvaraya College of Engineering, Bangalore University in the year 2003 with distinction. He obtained the PhD in Computer Science and Engineering at Department of Computer Science and Engineering, Bangalore University. He is now working as a Professor in the Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore. He is the recipient of All India Council for Technical Education - Career Award for Young Teachers, Indian Society of Technical Education – ISGITS National Award for Best Research Work Done by Young Teachers, Institution of Engineers (India) – IEI Young Engineer Award in Computer Science and Engineering, IEEE, USA – Best Paper Award, and IMS Singapore – Visiting Scientist Fellowship Award. He has published more than fifty research papers in international conferences and journals. He is the author of the book File Structures using C++, TMH, and Soft Computing for Data Mining Applications by Springer. He has been invited by many universities in India and abroad to deliver expert talks. He is also the recipient of BOYSCAST Fellowship from DST, Govt. of India for the year 2009-10.

Anil Kumar M graduated from Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore in the year 2011. He is currently working as Systems Engineer at Texas Instruments, Bangalore. His special interests lie in cloud, Web, and mobile technologies. He has contributed to MSRIT Linux Association as Treasurer for the year 2010-2011 and initiated several co-curricular and extra-curricular activities.

Natarajan Meghanathan is currently working as an Assistant Professor of Computer Science at Jackson State University, Jackson, MS. Dr. Meghanathan has published more than 100 peer-reviewed articles (more than half of them being journal publications). He has also received federal education and research grants from the U. S. National Science Foundation and the Army Research Lab. Meghanathan has been serving in the editorial board of several international journals and in the technical program and organization committees of several international conferences. More information about Natarajan Meghanathan can be found at http://www.jsums.edu/cms/nmeghanathan

Korbinian Moegele received a Bachelor’s degree in Computer Science at Technische Universitaet Muenchen (TUM). His areas of interest include distributed applications, mobile computing, and recommender systems. While obtaining practical experience implementing the mobile city guide described in this chapter, he is continuing his studies with the Master’s degree in Computer Science at TUM until 2011.

Sunil Kumar N graduated from Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore in the year 2010. Presently he is working as a Member of the Technical Staff at Netapp Pvt. Ltd, Bangalore. His special interests lie in embedded, Web, mobile, and cloud technologies. He has contributed to IEEE MSRIPT Student branch as Chairman for the year 2009-2010 and initiated several co-curricular and extra-curricular activities.
Saptarshi Purkayastha is a Research Fellow at the Department of Computer & Information Science at the Norwegian University of Science & Technology, Norway. His research interests include health information systems, bioinformatics, mobile computing, virtual machines, GPGPU computing, artificial intelligence, & robotics. He has worked in different research positions in the software industry and teaches electronics and programming as visiting faculty at college-level. A key current research focus is design, development, and implementation of integrated health Information Systems in developing countries.

Vivian Prinz received her Diploma degrees in Media Informatics at Ludwig-Maximilians-University Munich (LMU). Now, she is Research Assistant at the Chair for Applied Informatics and Cooperative Systems at Technische Universitaet Muenchen (TUM). Her research interests include distributed systems, vehicle-to-vehicle communications, information management in vehicular networks and active safety, and deployment applications based on V2V communications.

Vijayendra R graduated from the Department of Computer Science and Engineering, M S Ramaiah Institute of Technology, Bangalore in the year 2009. His special interests lie in Web and mobile technologies. He has contributed to Association of Computer Engineers, MSRIT Chapter as Co-ordinator for the year 2008-2009, and initiated several co-curricular and extra-curricular activities.

Harsha R graduated from Department of Electronics and Engineering, M S Ramaiah Institute of Technology Bangalore, in the year 2010, and is currently working as Research Fellow at National Center of Biological Sciences, Bangalore. His special interests lie in robotics, Web, and mobile technologies.

Abhishek S C graduated from R V College of Engineering, Bangalore in the year 2010. His special interests lie in embedded, Web, and mobile technologies.

Bernhard Schandl is a Researcher and Entrepreneur in the field of semantic technologies. He received his Doctoral degree in Computer Science from University in Vienna in 2009, where he has carried out research on the Semantic Desktop and the Semantic Web and has been actively involved in several research projects. He is co-founder and CTO of Gnowsis.com, designing social productivity and collaboration software. Contact him at bernhard.schandl@gnowsis.com.

Nerea Toledo received her BSc and MSc degrees in Telecommunication Engineering in 2007 from the University of the Basque Country (UPV/EHU). She received another MSc in Information and Communication Systems in Wireless Networks in 2008 from the UPV/EHU. She is a PhD student in the Department of Electronics and Telecommunications in the Faculty of Engineering of Bilbao in UPV/EHU, holding a grant funded by UPV/EHU. She currently works as a Lecturer in the same department. Her research interests include wireless networking, mobility management, and security applied to the ITS scenario.

Wolfgang Woerndl obtained Diploma degrees in both Computer Science and Business Administration at Technische Universitaet Muenchen (TUM) and Fernuniversitaet Hagen. After working in the industry for several years, he returned to Technische Universitaet Muenchen as a Doctoral candidate and completed his dissertation on privacy in decentralized user profile management in 2003. Since then, he
is a Senior Researcher and Lecturer at the Chair for Applied Informatics and Cooperative Systems at TUM. His current research interests include user modeling, personalization and recommender systems, and mobile and context-aware applications.

**Stefan Zander** is a Doctoral candidate and Research Associate at the Multimedia Information Systems’ research group of the Faculty of Computer Sciences at the University of Vienna. His research interests cover the fields of context-aware and mobile computing, Semantic Web technologies for mobile platforms, and knowledge representation on the Semantic Web. He received a Master of Science degree from the University of Central Lancashire, UK, and a Master of Information Technology degree from the Department of Computer Science of the University of Applied Sciences Würzburg, Germany. Contact him at stefan.zander@univie.ac.at.
