## Index

| A | actor-network theory (ANT) 153 |
|   | AIRSTD structure 303 |
|   | applied multi-case research 120 |
| B | bisco Office™ 183–196 |
|   | bisco Office™, experiment 187 |
|   | bisco Office™ product, usability testing 186 |
|   | BI system vs. operational system 251 |
|   | Building Integration Software Company Limited (bisco) 186 |
|   | Bunge-Wand-Weber (BWW) model 210 |
|   | business intelligence (BI) systems 247 |
| C | case studies in education, industry, and research 136 |
|   | case studies in mixed-method research 133 |
|   | case study database 129 |
|   | case study protocol 128 |
|   | case study report 129 |
|   | case study research, multiple vs. single 134 |
|   | CCU conclusions 132 |
|   | changes temporal index (CTI) 301 |
|   | coupon marketing 334 |
|   | critical success factors (CSFs) 247 |
|   | cross-company data set, empirical studies 320 |
|   | CSF reviewed, BI systems 255 |
| D | deemed knowledge 45 |
|   | design science 210–224 |
|   | design science, concepts 211 |
|   | design science approach, application 212 |
|   | design science research 22 |
|   | dialectical materialism 76 |
|   | diffusion of innovations (DOI) theory 36 |
| E | e-commerce 273 |
|   | e-commerce in Singapore 274 |
|   | Earth geography history 294 |
|   | EDI, development and evolution 275 |
|   | EDI, globally 279 |
|   | EDI, regionally 279 |
EDI, study 282
EDI, VAN-based 276
EDI, XML-based 277
EDI adoption 281
EDI adoption by SME size 285
EDI communication links 277
EDI definition 276
EDI in Singapore 279
EDI standards 277
EDI status 278
electronic data interchange (EDI) 272
electronic data interchange (EDI) adoption 272–293
empirical studies 316
empirical studies, on estimation techniques 319
engineering asset management organisations (EAMOs) 248
enterprise systems implementation, study 58–72
epistemology 38
epistemology, understanding 43
estimation techniques 313

G
game theory 344
geographical information systems (GIS) 294
globalization 76
Google Earth 294
Google Earth, sample queries 297–300
Google Earth, user solution 296
grounded perspective 61
grounded theory methodology (GTM) 61
GTM application 62
GTM in practice 67

H
hermeneutics 19
historical studies, research methodology 143
human-computer interaction (HCI) 183

I
ICT company study, research process 167
inconsistency threats, resolving 50
information and communication technology (ICT) 225
information system field, historical research 140–161
information system process innovation (ISPI) 153
information systems field 7
information systems in logistics industry 225–246
information systems maintenance 197–209
information systems re-engineering, case study 210–224
information systems research 1–34
information systems research, interpretive approaches 15
information technology transfer (ITT) 73
information technology transfer (ITT) to the developing world 73–87
interdisciplinarity 90
interorganizational systems (IOS) 275
interpretivism 60
IS maintenance, problems 198
IS research 91
IT in Singapore 274

K
keitai 329, 330
knowledge 44
knowledge, diversity 45
knowledge transfer 184

L
linear regression (LR) 313
literature review 107
logistics and ICT 226
logistics services 226
logistics services, case study 233

M
maintained assumptions critique 79
marketing, four Ps 333
micro and macro contexts 93
Mikropolis platform 93
mixed-method research, case studies 133
mixed-method research project 120–139
mobile marketing 328–341
mobile technologies, characteristics 329
multiple case study research 120
MULTIVIEW method 202

N
non-disclosure agreements, guide 104–119
nondisclosure agreements (NDAs) 104

O
online transactional processing (OLTP) systems 251
ontology 37
ontology, dominant logic 43
ontology, understanding 40
Index

P
positivism limitations 11
PoTree 302
principle of abstraction and generalization 16
principle of contextualization 16
principle of dialogical reasoning 16
principle of multiple interpretations 16
principle of suspicion 16
principle of the hermeneutic circle 16
protocol to theory 131
public and private sector sources 104–119

R
“Real-Time” marketing 330
R-tree 301
relativism and information systems 14
reputation systems 343
research in information systems 1–34
retaliatory feedback problem 342–349
retaliatory feedback solution 346

S
self-organizing maps (SOMs) 140
small to medium sized business (SMEs) 272
SMEs adopt EDI, why? 286
SMEs in Singapore 280
soft systems methodology (SSM) 197–209
soft systems methodology, applications 200
software organization study 162
spatial indexing, R-tree 301
spatio-temporal indexing 300
SSM analysis-form for IS maintenance 203
Sumitomo Forestry case 336
systems development in a software organization 162–182

T
temporal indexing 301
textual analysis (hermeneutics) 19
Tokyu Home case 338
transdisciplinarity 90
transdisciplinarity in information systems research 88–103
transdisciplinarity in practice 94
trust systems 343

U
usability evaluation methods (UEM) 183

W
Web effort estimation, empirical studies 311–327
