About the Contributors

**Aroon Manoharan** is an Assistant Professor of Public Administration at the Department of Political Science, Kent State University, USA. His research focuses on e-governance, performance measurement and reporting, and public management. He received his Ph.D. from the School of Public Affairs and Administration, Rutgers University-Newark and MPA from Kansas State University. As Associate Director of the E-Governance Institute at Rutgers-Newark, he directed major initiatives including the Digital Governance in Municipalities Worldwide Survey, the U.S. States E-Governance Survey and the U.S. Municipalities E-Governance Survey.

**Marc Holzer**, Dean of the Rutgers School of Public Affairs and Administration, is a leading expert in performance measurement, public management, and e-governance. He is the founder and director of the National Center for Public Performance, a research and public service organization devoted to improving performance in the public sector. He also developed the E-Governance Institute, created to explore the on-going impact of the Internet and other information technologies on the productivity and performance of the public sector, and how e-government fosters new and deeper citizen involvement within the governing process. His recent publications include Performance Measurement; Citizen-Driven Government Performance; the Public Productivity Handbook; Restoring Trust in Government: The Potential of Digital Citizen Participation, and Building Good Governance: Reforms in Seoul. He has published well over one hundred books, monographs, chapters, and articles. He is a Fellow of the National Academy of Public Administration and of the World Academy of Productivity Science.

**Lucienne Abrahams** is Director of the LINK Centre, University of the Witwatersrand, Johannesburg, South Africa. The Centre conducts research in the broad field of ICT policy and regulatory change, covering themes including information society emergence and e-governance. Luci’s research interests include institutions and economic sectors in the emerging network economy. Luci has served on the boards or councils of many public sector agencies, including serving as Council Member of the National Advisory Council on Innovation and Board Member of the National Research Foundation. She currently serves as Council Member for the Financial and Fiscal Commission.

**Mohammad Nabil Almunawar** Ir. IPB Indonesia, MSc UWO Canada, Ph.D. UNSW, Australia is a Senior Lecturer at Faculty of Business, Economics and Policy Studies, Universiti of Brunei Darussalam (UBD), Brunei Darussalam. Dr. Almunawar has published many papers in refereed journals as well as
international conferences. He has many years of teaching experience in the area of computer and information systems. He was a respected consultant in developing information systems for United Nations (WHO) projects, Central Bank of Indonesia and some private companies. His research interests include application of IT in Management and Electronic Commerce, object-oriented technology, databases, and multimedia retrieval.

**Hisham Alsaghier** is a Research Fellow at Griffith University in Australia. His research expertise includes electronic government, electronic commerce, and usability, and security of Information Systems.

**Argyris Arnellos** is an Adjunct Lecturer in the Department of Product and Systems Design Engineering, in the University of the Aegean in Syros, Greece. He received his Ph.D. in Complex Systems Design Engineering (March 2008) from the Department of Product and Systems Design Engineering of the University of the Aegean, an MSc in Data Communication Systems from the Department of Electronic and Computer Engineering of Brunel University (UK) and a BSc in Electronic Engineering from the Department of Electronics of the Technological Educational Institution of Athens. Since 1998, he has been involved in various national and European research projects. He has published in several scientific journals and participated in numerous international and national conferences, in the areas of complex systems theory, 2nd-order cybernetics, autonomous systems, philosophy of science, artificial intelligence, design theory, biosemiotics, and human-computer interaction. Dr. Arnellos is also on the editorial board of the journals *Cybernetics and Human Knowing* and *Biosemiotics*, and he is a regular member of the International Board of Biosemiotic Studies.

**Daniel Bromberg** is an Assistant Professor of Public Administration at Western Carolina University. He received his Ph.D. from Rutgers University School of Public Affairs and Administration. His research interests focus around business/government relations, performance measurement, and citizen participation.

**Mark Burke** is currently the Managing Partner of Development@Work and Associate Researcher with the LINK Centre, based at the University of the Witwatersrand. Mark has worked in the public sector for more than 10 years in government and as a development consultant. His consultancy work focuses on organizational and program performance improvement in the small enterprise, local economic development, education and training, and e-governance sectors. He has been involved in numerous performance improvement consulting assignments, focusing on organizational transformation, program design, and project implementation. Mark’s research interests are organizational development and transformation, performance improvement, and the impact of ICT on governance strategies, structures, and systems. Mark holds a law degree from the University of the Western Cape, as well as an Honors Degree in Development Studies.

**Kelvin Joseph Bwalya** is a Ph.D. candidate at the Department of Information and Knowledge Management (University of Johannesburg). He has a Master’s in Electrical and Computer Science from Korea Advanced Institute of Science and Technology, and Bachelor’s Degree in Electrical Engineering from Moscow. Kelvin has over 30 peer-reviewed publications and has presented at over 20 conferences worldwide. His research interests lie in information systems (e-government, databases, business process modeling, semantic information retrieval, and analysis).
About the Contributors

Étienne Charbonneau is an Assistant Professor of Public Management at the École nationale d’administration publique, Montreal, Canada. He is an alumnus of the School of Public Affairs and Administration at Rutgers University, campus at Newark. His research focuses on performance measurement and citizen satisfaction.

Neil Coleman is a transparency advocate in NJ and former President and current Board Trustee of the NJ Taxpayers Association. He has over 20 years experience in the mortgage banking and real estate finance field. Neil is a graduate of both Holy Cross College (BS) and Babson College (MBA).

Ubaldo Comite is a Professor of Budget and Business Organization at the Faculty of Economy, Department of Business Sciences, University of Calabria. He is also a Professor of Business Administration at the Faculty of Economy, University E-Campus (Novedrate – Como). He received his degree in Law (1994) and then in Business Administration (1996) and in Economic and Bank Sciences (1998) at the University of Messina (Italy), and earned his Ph.D. in Public Administration at the University of Calabria, Rende (Cs) Italy, in 2005. His research interests include private and public management, non-profit organizations, and accounting.

Ibrahim Ahmed Elbadawi is a practitioner and a researcher in the field of e-governance and transformation in public sector. He is a member of the team that is leading the e-Government transformation in UAE federal government. Prior to that, he had been working in the strategic planning division at Dubai e-Government where he was responsible for key initiatives and programs. Mr. Ibrahim holds a Master in Public Administration (MPA) degree from Dubai School of Government. His areas of interest include leadership, e-governance, ICT and economic development, social media, and citizen participation. He is a member of the international jury of the Gulf Cooperation Council e-Government award 2009/2010.

Lauri Elliott is Chief Executive Officer of Conceptualee, Inc., a strategy and innovation think-tank and new venture incubator, as well as Director of Afribiz Media, a “new” media company focused on business in Africa. Lauri’s areas of expertise include human performance technology, organizational design, technology, strategy, and entrepreneurship. Her research areas include the application of network science to economic development and business, new/alternative media, leadership, and new breed business models and organizational forms. Lauri sits on the Board of Advisors for the Center for Global Entrepreneurship and Enterprise Management at Morgan State University. She holds a Master of Arts in Education, focusing on Instructional Design, from Regent University.

Marc Fudge is an Assistant Professor at California State University, San Bernardino. His research focuses on e-governance, performance management and reporting, and the impact of information and communication technologies on public-sector performance and improvement. He is the Associate Director of The E-Governance Institute at Rutgers - Newark, where he manages several research projects including the forthcoming U.S. Municipalities E-Governance Report.

Sherri Greenberg is the Interim Director of the Center for Politics and Governance at the LBJ School of Public Affairs at the University of Texas at Austin. She is also a Lecturer and Fellow of the Max Sherman Chair in State and Local Government. Her current teaching and research interests are public
finance and budgeting, e-governance, and campaigns and elections. Her recent publications include “Texas Financial Transparency: Open and Online,” and “State E-Government Strategies: Identifying Best Practices and Applications.” Greenberg served from 1991-2001 as a member of the Texas House of Representatives. Prior to that she served as the Manager of Capital Finance for the City of Austin and as a Public Finance Officer at Standard & Poor’s Corporation. Greenberg received her M.Sc. in Public Administration and Public Policy from the London School of Economics and her B.A. in Government from the University of Texas at Austin.

Dimitris Gouscos is an Assistant Professor with the Faculty of Communication and Media Studies of the University of Athens and a research fellow of the Laboratory of New Technologies in Communication, Education and the Mass Media, where he contributes to co-ordination of two research groups on Digital Media for Learning and Digital Media for Participation. He holds a BSc (1990) and a Ph.D. (1998) from the Dept. of Informatics and Telecommunication of the University of Athens. He has co-ordinated the development of the Magic Potion digital game for learning, which received the Comenius Edumedia Medal (2009), and participated in development of the TAXISnet service, which was awarded the eEurope Good Practice label (2001). He has published more than 50 research papers in international conferences, journals, and edited volumes. His research interests include applications of digital communication in electronic governance, social media, interactive storytelling, and digital games.

Warren Hero is Head of E-government in the Department of Finance of Gauteng Province. In this role, he led the completion of a new region wide e-government blueprint, as well as completed a 10-year strategy. Warren’s department manages the Gauteng broadband project (GLink), which aims to provide access to affordable broadband to 95% of Gauteng households. Another project, Gauteng Online Schools, seeks to imbue the entire learning experience with ICT. The new model of delivery has been successfully piloted and is being elaborated. Warren holds a Bachelor of Science from WITS University.

Rahim Hussain is Assistant Professor of Marketing and Chair of Department of Marketing at the University of Dubai, Dubai, United Arab Emirates. Dr. Rahim obtained his Doctoral degree in Marketing from Griffith University Australia in 2007. He obtained his MBA in Marketing from University of New Haven, Connected, USA, Bachelor of Computer Science from Cyprus College, Nicosia, Cyprus, and Bachelor of Science from Karachi University, Karachi, Pakistan. His research interest includes online advertising, search engine advertising, mobile phone advertising, e-government, and branding. Dr Rahim’s research has been presented in numerous conferences around the world including USA, Australia, France, New Zealand, and the United Arab Emirates.

Kavita Karan is an Associate Professor in the School of Journalism, College of Mass Communication and Media Arts, Southern Illinois University, Carbondale, IL, USA. She received her Ph.D. from the London School of Economics and Political Science. Dr. Karan has extensively investigated issues in political communication, new media technologies, advertising, Indian cinema, and women’s magazines. She teaches courses in Marketing and Advertising and Research Methods. She has presented papers at various international conferences and contributed scholarly papers for journals and chapters for books. Her edited and co-edited books include Cyber Communities in Rural Asia: A Study of Seven Asian
Ewa Krzątała-Jaworska is a Ph.D. Candidate in the Department of Political Science at the University of Paris 1 Panthéon-Sorbonne, France. She is a member of the Research Network “Electronic Democracy” (DEL), composed of researchers who, irrespective of their status or their field of research, devote their work, either in full or part to the study of the various aspects of e-democracy. She is also a member of the Digital Government Society of North America. Her research interests include Internet and political engagement, citizen participation and e-participation in policy-making, and social capital.

Younhee Kim is an Assistant Professor of Political Science at East Carolina University. Her research interests focus on performance management, public entrepreneurship, and Information Technology and e-governance.

Mateja Kunstelj received a Master’s degree in 2002, from the Faculty of Computer and Information Science, University of Ljubljana. She works at the Faculty of Administration of the same university as Senior Lecturer for the studies in Information Technologies in Public Administration. In addition to teaching, she researches various aspects of e-government, its development, and implementation. Currently, her research activities mainly focus on the working of a one-stop government framework and roadmap, the measurement and evaluation of e-government development, and the reengineering of administrative processes.

Sonia Lara is an Associate Professor of Instructional Design and Vice-Chair of the Department of Education at the University of Navarra, Spain. Her research focuses on the study of innovation in teaching through new methodologies, the use of ICT in both schools and universities, and the influence of social media among young people. She has been a research scholar at Boston University and Northwestern University.

Dimitrios Lekkas holds a Ph.D. in the area of Information Systems Security, an M.Sc in Information Technology and a B.Sc in Mathematics. He is a Lecturer in the Department of Product and Systems Design Engineering of the University of the Aegean, Greece. He has participated in many research projects funded nationally and by the European Union and published several papers in international journals and conferences. He is a member of the Greek National Educational Network (EDUnet) technical committee and coordinator of the e-School and the e-University Public Key Infrastructure (PKI). His current research interests include design of information infrastructures, computer security, incident response, public key cryptography and digital signatures, and database management systems.

Sami Leppimäki has a Master’s degree in Economics from the University of Turku in Finland. From 2000 to 2009, he worked as a researcher at the Åbo Akademi University in Finland. Sami Leppimäki has participated in several research projects commissioned and funded by ministries, governmental organizations, industry associations, and companies (e.g. Ministry of Education, Finnish Technology Agency TEKES, Technology Industries of Finland and several Finnish origin multinational companies). The main part of his work has been industry foresight, R&D and product development, strategic planning
About the Contributors

and scenario planning projects. His main research question has been to enhance the organizations’ ability to foresee the future changes of their operational environment and how to be better prepared. Sami Leppimäki has worked with these themes in close cooperation with the forest, mechanical engineering, and ICT industries. He has also written several conference articles and co-authored books.

Sik-Liong Ang, B. Sc. (Hon. London), M. Phil. (London), MBA has more than 30 years of experience in Petroleum Engineering & Chemistry, Education, and Chinese culture. He has many years of experience in transforming and reorganizing a company unit into an effective and efficient outfit towards an ISO standard. He is currently pursuing his Ph.D. in Confucian Leadership and Management and is a research assistant for an e-government project at the Universiti Brunei Darussalam.

Patrick Kim Cheng Low, Ph.D. (South Australia), Chartered Marketer, Certified MBTI Administrator, Chartered Consultant & Certified Behavioral Consultant (IML, USA), has more than 25 years of combined experience in diverse sectors such as electronics, civil service, academia, banking, human resource development, and consulting. The once Visiting Professor, Graduate School of Business, the University of Malaya (2007), Prof. Dr. Low, the Deputy Dean, Postgraduate Studies & Research (2009), is teaching in Universiti Brunei Darussalam. An academician-practitioner, a prolific author (author of several books including bestsellers: Strategic Customer Management, 2006, 2002, 2000 – one of Borders’ top ten in 2001/2, Sales Success, 2006, 2003; Team Success, 2003 and The Power of Relationships, 2001) and a business coach, Prof. Dr. Low is also the founder of BusinesscrAFT™ Consultancy and an associate of UniSA. His most recent books are Successfully Negotiating in Asia, Springer (2010) and Corporate Culture and Values, VDM-Verlag (2009).

Vildan Mahmutoğlu is a Research Assistant at the Communication faculty in University of Galatasaray. She is interested in global and local cultures, hybrid identities, and minorities and her Ph.D. thesis focuses on local television and hybrid cultures. Her recent study “Global Media Entertainment: Star Search” was published in “From Here to Diversity: Globalization and Intercultures Dialogues” (Cambridge Scholars Publishing, 2010).

Deborah Mohammed-Spigner is an Adjunct Professor at the Department of Communication and Public Administration, Kean University, Union, NJ and The School of Public Affairs and Administration (SPAA), Rutgers, Newark, NJ. Her research focuses on transparency, accountability, and open government. She is an active board member of Common Cause New Jersey, the Foundation for Open Government, the Y of Metuchen, Edison, Woodbridge and South Amboy (Y of MEWSA) and the Community Access Unlimited. She has done work on strategic planning, community organizing, legislative liaison, as well as various academic related endeavors including presentations of papers at political and public administration conferences. She has also chaired several panels on open government and political science. She has directed many initiatives including a Health and Wellness committee for the Y of MEWSA. Dr. Mohammed-Spigner received her Ph.D. from SPAA, Rutgers University, Newark, NJ and an MPA from Kean University, Union, NJ. She is currently involved in several writing endeavors on open government including the submission of two chapters for a book on E-Government.
About the Contributors

Fadzliwati Mohiddin, BA Management Studies (Universiti Brunei Darussalam); MBA (Lancaster University, UK); Ph.D. Information Systems (Curtin University of Technology, Western Australia), is a Lecturer at the Faculty of Business, Economics and Policy Studies, UBD. She lectures in ICT, management of Information Systems and business statistics, and is also an Examiner to MBA theses. Her current research interests include Information Systems success, knowledge management, and e-government. Currently, she is involved with several ICT projects, which include knowledge management systems and e-learning systems for the Ministry of Education.

Francesco Molinari holds an MSc and an MA in Local Public Management (Siena University, 2007 & 2005) and a BSc in Social and Economic Disciplines (Milan “L. Bocconi” University, 1990). Currently an independent researcher and project manager for several public and private organizations in Europe, from 2009 on he has been associated with the London headquartered 21C Consultancy firm and Director of the Cyprus based SmartIntuitions, one of the founding members of the European network of eParticipation practitioners PEP-NET. Between 2007 and 2008, he joined the International Research Unit at ALTEC SA, the second largest ICT Company of Greece for R&D expenditure, holding responsibility for e-government research. Between 2003 and 2006 he was a Contract Professor at Pisa University, designer of the e-government module at the Political Science Faculty. His background includes a 5-year service as strategic advisor of a middle-sized Italian City Mayor.

Taewoo Nam is a Ph.D. candidate at Rockefeller College of Public Administration and Policy, the University at Albany, State University of New York. He is working on two research projects (investigating service integration in smart cities, and assessing mobile technology use of child protection service caseworkers) in the Center for Technology in Government, the University at Albany, SUNY. He has actively participated in key e-government conferences such as dg.o, ICEGOV, and e-government track of HICSS. His publications involve both empirical and conceptual studies on recent issues regarding digital government and online citizen participation.

Concepción Naval is a Professor of Theory of Education and Vice-President of the University of Navarra, Spain since 2001. She is also the Editor of the Journal Estudios sobre Educación (Studies on Education), member of the editorial board of the Journal of Social Sciences Education, and the journal Citizenship, Teaching and Learning, among others. Her research focuses on the foundations of education for citizenship, social participation, and family; the social impact of Information Technologies on young people; and educational innovation in higher education.

Angela Newell is a University of Texas Continuing Fellow and Candidate for the Doctorate in Public Policy at the LBJ School of Public Affairs at The University of Texas at Austin. Her research focuses on government Information Systems, decision-making groups, and the implementation of interactive Internet tools. Ms. Newell is an author in the forthcoming book Everyday Information: The Evolution of Information Seeking in America, edited by William Aspray and Barbara Hayes and published by the MIT press. Ms. Newell received her Master of Science in Public Policy and Information Systems Management from Heinz College at Carnegie Mellon University, where she was a Cooper Scholar and a recipient of the Lauble Fellowship. As a Lauble Fellow, Ms. Newell co-founded the flagship Computer Clubhouse of Pittsburgh. She is also the co-creator of an e-budget system for the Pittsburgh School District. Ms. Newell
has directed community development initiatives and served as a National Service Fellow. She received two national awards, including the Josten’s Our Town Award, for her work in community development.

**Erkki Patokorpi** has worked as an Information Systems Researcher, Historian of science, and science studies researcher. He received his Ph.D. from the University of Oulu, Finland in 1996, majoring in the History of Science and Ideas. In 2006, he received his DSc (BA) degree from the Department of Information Technologies, the Faculty of Technology at the Åbo Akademi University, Finland. His main research interests include technology philosophy, digital culture, human-computer interaction, the epistemology of advanced information and communication technologies, foresight studies, mobile learning, and the rhetoric of science.

**Tanya du Plessis** is a Lecturer at the Department of Information and Knowledge Management, University of Johannesburg, and specializes in legal research, competitive intelligence tools and techniques, and virtual learning and research environment content integration. She is involved in CI projects of the Centre for Information and Knowledge Management. She holds a Ph.D. (Rand Afrikaans University, South Africa), with a focus on information and knowledge management in support of legal research in a digital information environment.

**George Poluse** is a second year Ph.D. student at the Department of Political Science, Kent State University, USA. His research interests are international political economy, state development, collective action problems, and the international expansion of e-governance. He received his Bachelor of Arts from Notre Dame College of South Euclid, Ohio in both Accounting and Mathematics. Currently, he is a Research Assistant for the Department of Political Science at Kent State University.

**Pietro Previtali** is an Assistant Professor of Business Organization at the University of Pavia. He received his Ph.D. in Management and Business Administration from Bocconi University. He teaches and conducts research on managerial issues surrounding the introduction of Information Technologies in public agencies and private companies.

**Mohammad Habibur Rahman** received his Ph.D. from the University of Wales in U.K. Currently with the Faculty of Business, Economics, and Policy Studies in the University Brunei Darussalam, Dr. Rahman has previously taught in the areas of Public Administration, Political Science, and Development Studies in universities in Bangladesh (Dhaka and National), Canada (Lakehead) and Fiji Islands (South Pacific). He was a Senior Fulbright Scholar at Syracuse University, USA and a Visiting Fellow at York University, Canada. He has worked with leading think tank bodies such as the Research Triangle Institute (USA), Associates in Rural Development (USA) and the International Institute for Democracy and Electoral Assistance (Sweden). He has extensively published in referred international and regional journals as well as in edited volumes. His current teaching and research interests include public policy, governance, public sector reform, e-governance, public sector human resource management, and urban governance.
About the Contributors

Chris Rensleigh is a Senior Professor in the Department of Information and Knowledge Management, University of Johannesburg, and specializes in Internet information infrastructures and related technologies. He has a Ph.D. in commerce, with specialization in informatics.

Charlene M. L. Roach currently serves as a faculty member at The Department of Behavioral Sciences, in the Faculty of Social Sciences, at The University of The West Indies, St. Augustine Campus in Trinidad and Tobago. She earned her undergraduate degree in history and postgraduate diploma in public administration at The UWI, St. Augustine Campus. She was awarded a Fulbright Scholarship to pursue her graduate education in Arizona. She earned her Master’s and Doctorate degrees in Public Administration from Arizona State University. Her research and teaching interests are in the areas of public management, organizational behavior, leadership, and e-government.

Salem Al Shair Al Suwaidi is the Director General of General Information Authority in United Arab Emirates (UAE), the entity that runs the Federal e-Government program in the country. Prior to that, Mr. Salem had been the Director of eServices at Dubai e-Government since its establishment in 2000 till 2008, where he had led the e-Governance transformation in Dubai government and contributed in raising the community’s e-literacy level to facilitate a new knowledge-based society in Dubai. Mr. Salem’s achievements and successes are recognized by the various awards and honors received. In April 2009, he received The Feigenbaum Leadership Excellence Award which is dedicated to honor men and women in the Arab World for their exemplary leadership in driving their organizations to fulfill their role in business and society. In 2005, he was awarded The Arab Technology Awards for his “Outstanding Contribution to e-Government” by ITP. In 2006, he was honored with the title of “Young CEO of the Year” at the Middle East CEO of the Year Awards. Mr. Salem is an active blogger and has participated in several research activities. He has been a keynote speaker and has addressed numerous IT and e-government conferences around the world.

Djoko Sigit Sayogo is a Ph.D. candidate at the Rockefeller College of Public Administration and Policy, the University at Albany, State University of New York. He is a Fulbright Presidential Scholarship grantee for 2008-11. Currently, he is working for the Center for Technology in Government, the University at Albany, SUNY. His research interests include e-government, e-democracy, and Internet financial reporting.

Alicia Schatteman, Ph.D. is an Assistant Professor in the Division of Public Administration and the new Center for NGO Leadership and Development (NGOLD) at Northern Illinois University. She had 12 years of experience working in the nonprofit and public sector before completing her Ph.D. in 2009. She has taught at Rutgers University and John Jay College before coming to NIU (2010). She also holds a Master’s degree in Communications Management from the Newhouse School at Syracuse University. Her research interests address volunteerism, nonprofit resources management, and the use of technology by nonprofit organizations.

Françoise Simon (Ph.D., University of Strasbourg) is an Associate Professor of Marketing at Haute-Alsace University in France where she teaches Consumer Behaviour, Relationship Marketing, and Integrated Marketing Communications. Before joining academia, Dr. Simon worked for over 10 years in
public and private sector organizations in managing several aspects of marketing and communications. She is an expert in customer service management and currently advises the French Customer Service Association. Dr. Simon’s research focuses on organizations’ interactional performance and consumers’ new media behaviour. Dr. Simon has published in both national and international refereed journals such as *Systèmes d’Information et Management, Revue Française du Marketing, Revue Internationale de Communication Sociale et Publique, The International Journal of Research in Marketing,* and *Canadian Journal of Administrative Sciences.*

**Eleni-Revekka Staiou** holds a BSc in Communication and Media Studies from the University of Athens (2007) and an MSc in Communication, Information and Society from LSE (2008). She is currently a Doctoral Researcher in the Laboratory of New Technologies Laboratory in Communication, Education and Mass Media, Faculty of Communication and Media Studies, University of Athens. Her research interests on new media, eparticipation, egovernment, edemocracy, and Web 2.0 focus on social networks, their potential use by individuals, groups, and organizations and the cultural, literacy, and other obstacles encountered when using the Internet.

**Malathi Subramanian** holds a Ph.D. in Political Science and is former Principal of Daulat Ram College, University of Delhi, India. She has taught Political Science courses to undergraduate and postgraduate students for more than four decades and supervised students pursuing research in the postgraduate and doctoral degree programs at the University of Delhi, India. She has participated in many national and international conferences and has a number of publications in national and international journals. Her current research interests are gender studies, political participation of women, the social dimensions of information and communication technologies and associated equity issues, and e-governance. She is currently working with Amity University, Uttar Pradesh, India, in the School of Engineering & Technology.

**Jakob Svensson** is a Junior Researcher at Karlstad University with a Ph.D. in Media and Communication Studies. Dr. Svensson is also an Assistant Professor in Media and Communication Studies at Karlstad University and is the director of the research network HumanIT (www.kau.se/en/humanit). His research interests revolve around political participation and digital media, identification and sociability online.

**Franck Tétard,** Ph.D., Docent, is a Senior Lecturer in Information Systems at Åbo Akademi University. His research interests include usability, user experience, social media, mobile ICT, and learning and ICT.

**Ljupčo Todorovski** received his Ph.D. in Computer Science from the University of Ljubljana in 2003. He is currently an Associate Professor at the University of Ljubljana, Faculty of Public Administration. He was a post-doc fellow at the Stanford University (2004-2005) and Osaka University (2003). His research interests include information science, artificial intelligence, machine learning, and applications of methods from these three areas to real-life problems in ecology, life sciences, and public administration.

**Mbako Vaka** is currently pursuing his Bachelors’ Degree in Information Systems (Information Management) from the University of Botswana. His research interests include e-Government and various aspects of Information Systems.
Laura Wesley is one of a growing number of professionals working towards a results-based collaborative culture in the Canadian public service. Trained as a business analyst, she has a decade of experience identifying practical performance metrics for websites. Much of her work promotes a user-centered design approach in which user research and testing are used to inform continuous improvements to online services. In her current position at Canada’s national department of industry, she measures the extent to which the organization’s services are client-centric. She also co-leads the federal government’s User Experience Working Group, developing Canada’s first set of federal guidelines on Web usability. In her spare time, Laura blogs about performance measurement and improvement in the public sector.

Qin Ying is an Internet analyst of the China Internet Network Information Center (CNNIC), a leading non-government organization in China that focuses on Internet survey and research. She received her Master of Management Science from Beijing University of Posts and Telecommunications, where her research focused on public information management. Mrs. Qin has served in CNNIC since April 2009 and is responsible for surveys on search engine, online media, and Internet usage in rural areas. She has composed a series of Survey Report on the Internet Usage in Chinese Rural Area, the Survey Report on Behavior of Search Engine Users in China (2008-2010), the Survey Report on Online Videos Application in China (2010), the Survey Report on Significant Social Events and the Impact of Online Media, etc. She has also been involved in composing the semiannual Statistical Reports on the Internet Development in China. She has published in journals and newsletters such as Management Observer (Guanli Guancha), and Newsletter on Chinese Internet Development (Zhongguo Hulianwang Fazhan Xinxi Dongtai).

Jian-Chuan Zhang is currently a Ph.D. student of e-government and public management in the Division of Public Administration at Northern Illinois University. He received his Master of Public Management from Renmin University of China, Beijing, China. His research interests include international and comparative e-government and global Internet governance. He used to serve as an Analyst and later Department Director in the China Internet Network Information Center (CNNIC), a leading non-government organization in China that focuses on Internet survey and research. Mr. Zhang is a member of the American Society for Public Administration, Phi Beta Delta, Zeta Gamma Chapter, NIU, and Internet Society of China.

Dimitrios Zissis holds a BSc in Computer Science, an MSc in Computing and Information Systems, an MBA in General Management and is currently pursuing a Ph.D. in Information and Communication Security at the University of the Aegean in Greece. He has been involved in a number of EU funded research projects, mostly in the research area of IT Security, involving the development of e-governance solutions and deploying key public infrastructures cryptography.
