About the Contributors

Ndubisi Ekekwe, a regular blogger at Harvard Business Review, holds two Doctoral and four Master’s degrees, including a PhD in Electrical and Computer Engineering from the Johns Hopkins University and MBA from University of Calabar, Nigeria. During this MBA and Doctor of Management program, he specialized on Technology Management and Competitiveness. He founded First Atlantic Semiconductors & Microelectronics Ltd, African Institution of Technology, and Ultinet Systems. Dr. Ekekwe edited *Nanotechnology and Microelectronics: Global Diffusion, Economics and Policy*, which received IGI Global 2010 “Book of The Year” Award. He is also an author of two books on electrochemistry and microelectronics. An Adjunct Professor of Engineering with Babcock University, Nigeria, he is a player in the U.S. semiconductor industry where he develops innovative microchips; he invented a microcontroller for medical robots. A recipient of 17 fellowships/scholarships, he graduated top of his class with BEng in Electrical and Electronics Engineering (Aug. 1998) from Federal University of Technology, Owerri, Nigeria. He last held the title of Banking Executive with Diamond Bank Lagos and served in the United States National Science Foundation ERC/CISST E&D Committee for four years. Prof Ekekwe has been invited as a speaker in Wharton Business School, Harvard Business School, Brown University, among others. He currently advises five African governments on technology and entrepreneurship.

Nazrul Islam is a Lecturer in Innovation and Operations Management at the School of Management and Business, Aberystwyth University and a Visiting Lecturer at Middlesex University Business School, London, UK. He has previously been appointed and taught in Cardiff University, Tokyo Institute of Technology, and University of Dhaka. He received his Doctorate in the area of Innovation Management focusing Nanotechnology. Dr. Islam teaches Research Methods, Innovation, and Operations Management to MBA and Undergraduate students. His areas of research interest include the management of emerging and disruptive technology innovations (e.g. nanotechnology, consumer electronics, and hydrogen production technologies), systems of innovation, technology forecasting and roadmapping, and assessment of technology readiness. Dr. Islam serves as a peer-reviewer to the UK research council (EPSRC) and for many international journals. He has authored over 30 refereed journals and conference papers including several books on the topic and his works have been published in *Technovation, Technological Forecasting and Social Change, Science and Public Policy*. Dr. Islam’s publications have received academic awards including the ‘Pratt & Whitney Canada Best Paper Award’ in Innovation Management. In recognition of his academic excellence, he featured in *Marquis Who’s Who in the World* (26th Ed. 2009) and has won the Channel S Award 2010 from London in the category of Achievement in Education, Research and Teaching in the UK. Dr. Islam has frequently delivered keynote speech, given
invited talks, and presented papers in international conferences worldwide. He is an associate member of Institute of Nanotechnology, a member of International Association of Management of Technology (IAMOT), and a member of International Society for Professional Innovation Management (ISPIM).

Adebayo Abayomi-Alli holds a B.Tech degree in Computer Engineering from Ladoke Akintola University of Technology, Nigeria and M.Sc. in Computer Science from the University of Ibadan, Nigeria. He is a chartered information technology practitioner (CITP) by the Computer Professional Registration Council of Nigeria (CPN). He has published extensively in the areas of energy efficiency, spam filtering, and cyber security. He is currently a Lecturer in the Department of Electrical and Computer Engineering at Igbinedion University Okada, Nigeria, and presently a Doctoral candidate in Computer Science. His research interest includes but not limited to cyber security, microprocessor based system, and biometrics.

Boladale A. Adebowale is a Principal Research Officer with the National Centre for Technology Management (NACETEM), Obafemi Awolowo University, Ile-Ife, Nigeria. She holds a PhD in Technology and Innovation Policy. She specializes in industrial and economic development, innovation policy, urban industrial clusters, small and medium enterprises (SMEs), agro-industrial, health, and biotechnology policies. Dr. Adebowale has coordinated several research projects for The World Bank, UNIDO, IDRC, ATPS, and UNU-MERIT. She has written scholarly articles as technical papers, chapters in books, journal articles, and books. Her authored books include Managing Technology on Small Ruminants Production System (2010), Innovation Biotechnology and Organizational Change (2010), and she co-authored two books on SMEs and Clusters (2007), and University-Industry linkage (2010) on SMEs and Clusters.

Caleb M. Adelowo is a Research Officer in the department of Technology Innovation and Enterprise Studies of the National Centre for Technology Management, Obafemi Awolowo University Ife. He holds a Master Degree in Intellectual Property, a scholarship jointly sponsored by World Intellectual Property Organisation (WIPO), Africa Regional Intellectual Property Organisation (ARIPO), and African University in 2010. He is a first class accounting graduate of the department of Management and Accounting, Obafemi Awolowo University Ile-Ife Osun State in 2008. He also obtains National Diploma in Accountancy from the Federal Polytechnic, Ede, Osun State with the grade of Distinction in 2004. He is currently running another M.Sc. programme in Technology Management at Technology Planning and Development Unit, Obafemi Awolowo University Ile-Ife.

Davide Aloini is an Assistant Professor at the faculty of Engineering, University of Pisa. His main research interests concern innovation and ICT for innovation.

Yves Ekoué Amaïzo is the Director of a Think Tank Afrology and author of several papers and books. He is presently an international consultant on strategic project management and international business affairs. With 20 years experience with a United Nations specialized organization and four years as an independent consultant, he advises high-level officials of governments, private sector, and financial institutions. He is presently working on three key themes: project management, entrepreneurship in emerging economies; productive capacity and capabilities’ development for weak influential economies;
About the Contributors

and mutability management, technology diffusion, and competitive advantages. He was the chairman of a group of experts for the Africa Union on the establishment of three financial institutions, a member of the African union eminent experts as well as the Other Canon, a group of alternative economists. He is also a Member of the Board of Directors of First Atlantic Semiconductors & Microelectronics Ltd and a Visiting Professor with Hult International Business School in London.

Neslihan Aydogan-Duda is a graduate of Bilkent University Economics department in Ankara, Turkey. She completed her Master’s degree in Economics at the University of British Columbia, Vancouver Canada after which she continued her Doctoral studies at University of California Irvine. She received her PhD degree in Economics from University of California Irvine in the year 2001. She worked at Indiana University-Kelley School of Business, Maastricht and Duquesne Universities as a faculty member. She is now affiliated with the Walker Center on Global Entrepreneurship as a Research Associate. She has edited and authored three books by Springer, NY along with authoring several articles and chapters at economics and business journals and books. Her main areas of interest are innovation, entrepreneurship, high-tech industries, and strategic management.

Tamar Chachibaia is a Medical Doctor, an initiator of responsible nanotechnology development in Georgia since 2005. She graduated from the Tbilisi State Medical University with a general practitioner’s diploma in 1989. Currently she is a university teacher and is involved in innovative curriculum development in medical faculty. Her research interests are broad and not limited to nanotechnology education implementation in medicine and health care sectors. In 2011, Tamar was awarded Fulbright Scholarship in faculty curriculum development, which she successfully completed in Georgia State University, Atlanta, USA.

Bobbe Cummins Colburn works as a Doctoral and Graduate Mentor for online students in education and psychology. Her experience ranges from leadership to teaching roles in Europe, the Middle East, and Canada. Professional interests are human and civil rights, foreign language and diversity, research, foundations and theory, assessment and standards, policy related to practice, social media, and e-learning. Publications have been in politics, law, education, psychology, communication, social media, research and e-learning, with several books and numerous chapters. Dr. Cummins Colburn has received her advanced degrees in Heidelberg and the USA and currently resides in Canada.
About the Contributors

Simon Columbus studies Psychology and Economics at Amsterdam University College. His research interest includes the use of social media for social change and the impacts of digitally networked communication technologies in developing countries. As a journalist, he has written about Internet policy for several German and international online publications.

Ahmed Driouchi is a Professor of Applied Economics and Dean of the Institute of Economic Analysis & Prospective Studies at Al Akhawayn University, Ifrane, Morocco. He holds a PhD from the University of Minnesota, USA.

Uchenna R. Efobi is a Doctoral Candidate and a Lecturer in the Dept. of Accounting, Covenant University. He also holds MSc and BSc in Accounting, and he is a qualified Chartered Accountant. His research focus is on corporate finance, international finance, stock market analysis, and financial economics. He has won some research awards and grants. He has participated in several conferences and workshops within and outside Nigeria. He has several publications in referred journals and book chapters.

Abiodun A. Egbetokun is currently studying for a PhD in Economics at the Friedrich-Schiller University, Jena, Germany. He also works as a Senior Research Officer in Technology Innovation and Enterprise Studies at the National Centre for Technology Management (NACETEM), Nigeria. His research is concentrated in the economics of innovation and entrepreneurship, and science, technology, and innovation indicators.

Bellarmine Ezumah is an Assistant Professor in the Department of Journalism and Mass Communication at Murray State University, KY, where she teaches undergraduate and graduate courses including International Communications, New Technologies, Mass Media Effects, Mass Communication Theory and Contemporary Mass Media. She graduated from Howard University as a Frederick Douglass Scholar in August 2010 with a dual degree of PhD in Mass Communication and Media Studies and a Graduate Certificate in International Studies. She has conducted research both in the United States and internationally including Ghana and Nigeria. Some of her research interests comprise effective design and implementation of emergent technologies in classrooms, international/intercultural communications/cross-cultural research, monitoring and evaluation of educational technology programs, social media, and participatory action model. Dr. Ezumah has published book chapters and articles as well as presented numerous papers at national and international conferences and is active in various professional associations.

Ugo Finardi holds an MSc in Industrial Chemistry and a Ph.D. in Materials Sciences and Technology, discussing a thesis on “Best practices in Technology/knowledge transfer and innovation: the case of nanotechnologies and nanosciences.” He is at present Research Assistant at the Department of Inorganic, Physical, and Materials Chemistry at the University of Torino and Fellow of Ceris-CNR, the Research Institute on Enterprise and Development of the National Research Council of Italy. He performs research in the fields of innovation studies, with a focus on nanotechnologies, research and industrialization of new materials, technology transfer, regional systems of innovation, and management of research.

Ying Guo is a faculty member in the School of Foreign Languages, Beijing Institute of Technology of China. She was in Georgia Institute of Technology from 2008 to 2009 as a visiting scholar. Working
with Prof. Alan Porter and other colleagues, she has published about 20 articles. Her current specialty is technology management and assessment, particularly focusing on how to forecast the likely innovation pathways for emerging nano-related technologies and applications.

**Oghogho Ikponmwosa** holds a B.Eng degree in Electrical and Electronic Engineering from Ambrose Alli University, Nigeria and an M.Eng degree in Electronic and Telecommunications Engineering from the University of Benin Nigeria. He is presently a Ph.D. student at the University of Benin. He was the Acting Head of the Department of Electrical and Computer Engineering Department at Igbinedion University Okada for over two years. He is registered with the Council for the Regulation of Engineering in Nigeria (COREN) and is presently engaged in teaching and research at Landmark University, Nigeria. His research interests include large and small scale fading effects on GSM signal propagation, wireless transmission of electricity, renewable energy development, and embedded systems.

**Mathew O. Ilori** is a Professor of Technology Management at the African Institute for Science Policy and Innovation (AISPI) formerly known as Technology Planning and Development Unit (TPDU), Faculty of Technology, Obafemi Awolowo University (OAU), Ile-Ife, Nigeria. He holds his B.Sc. and M.Sc. degrees from OAU in 1979 and 1992, respectively. He obtained his PhD. from University of Ibadan, Nigeria in 1990. He was two times the Director of AISPI, an M.Sc. and Ph.D. degrees in Technology Management degrees-awarding-institute of OAU. His research interest is in the areas of food processing, technology management and industrial technology management. He has published several papers in these fields.

**Oluseyi O. Isola** earned his first degree in Industrial and Production Engineering (with honors) from the University of Ibadan, Nigeria, in 2000. He later worked in an extrusion firm as a Production Supervisor. His quest for higher learning made him proceeded to the University to study Information Science at the University of Ibadan in 2003. Isola Oluseyi later bagged another Master’s degree in Technology Management from the Obafemi Awolowo University, Ile-Ife, Nigeria, where he emerged the best in his class. He presently studies for his Ph.D. in Technology Management at the Obafemi Awolowo University. He is a Senior Research Officer at NACETEM where he closely studies the nation’s R&D system, R&D productivity in public and private institutions, as well as knowledge management in the informal sector. As a researcher he has published papers in reputable local and international journals. He has also attended many national and international conferences and workshops.

**Olalekan. A. Jesuleye** holds a PhD in Technology Management from Obafemi Awolowo University, Ile-Ife, Nigeria. He is an executive member of the Solar Energy Society of Nigeria. His research interests are in energy policy analysis and management, and entrepreneurship. He has published several articles in local and international journals. He is currently the Project Manager of a World Bank project on Technological Entrepreneurship being executed by the National Centre for Technology Management, Ile-Ife, Nigeria (NACETEM) under the Science and Technology Post-Basic (STEP-B) Education Project. He also heads the Training and Research Department of NACETEM.

**Johnson A. Kamalu** is a tenured Associate Professor in the Department of Family and Consumer Sciences, School of Agricultural and Environmental Sciences at Alabama A&M University, Normal,
About the Contributors

Alabama. He received his B.S. and M.S. degrees from Tuskegee University and a doctorate from Howard University. Dr. Johnson Kamalu served as Quality Assurance Manager of Mash’s Food Products, Landover Maryland. He was also Research Associate at the Human Nutrition Laboratory, Beltsville, Maryland. In adjunct capacities, Dr. Kamalu taught at Campbell University, Buies Creek, North Carolina and Oakwood University, Huntsville, Alabama, respectively. Prior to joining Alabama A&M University, Dr. Johnson Kamalu taught for several years at North Carolina A&T State University in Greensboro, North Carolina. Dr. Kamalu’s recent articles have appeared in several peer-reviewed journals, including but not limited to Journal of International Studies and Development, Journal of Sustainable Development in Africa, The Western Journal of Black Studies, and Global Development Studies.

Ngozi C. Kamalu is a tenured Full Professor of Political Science in the Department of Government and History, and the Director of the M.A. Program in Political Science at Fayetteville State University. He is the Founder and Managing Editor of the Peer-Reviewed Interdisciplinary Publication, Journal of International Studies and Development (JISD). Dr. Kamalu holds B.A. and M.P.A Degrees from Texas Southern University and a Ph.D. in Political Science from Howard University. A Former Graduate Research Intern at the City of Houston, Dr. Kamalu, also served as Research Assistant at the Woodrow Wilson International Center for Scholars in Washington, DC. Before joining Fayetteville State University, Professor Ngozi Kamalu taught at Howard University and North Carolina Agricultural and Technical State University, respectively. In adjunct capacities, Professor Kamalu has also taught at Guilford College, Shaw University, Central Texas College, North Carolina Central University and Methodist University. Dr. Kamalu’s articles have appeared in several peer-reviewed journals, including but not limited to: Journal of International Studies and Development; Journal of Sustainable Development in Africa; The Western Journal of Black Studies; Global Development Studies; African Journal of Criminology and Justice Studies; Encyclopedia of Race and Racism; Journal of Third world Studies; Interdisciplinary Social Work Journal; Journal of North Carolina Association of Historians; Towson State University Journal of International Affairs; Scandinavian Journal of Development Alternatives and Area Studies; African Journal of Languages and Linguistics; Journal of Research Methodology and African Studies; Research Review; The Sierra Leone Review; Comparative State Politics; Conflict: An International Journal; Coexistence: An International Journal on East–West and Development Issues, and India Quarterly.

Louis Klamroth is a German student and actor. He had his breakthrough playing the lead role in “The Miracle of Bern” for which he won numerous awards, including the Goldene Kamera for best shooting star. In 2010 Klamroth volunteered in Guatemala for the charity organization SOS Children’s Villages and was part of their Emergency Response Team in Port au Prince during and after the earthquake in Haiti. In late 2010 Klamroth shot his latest movie and then decided to lay his acting career at rest to pursue studies in social sciences at the Amsterdam University College. He is currently on the board of the student association and advises the university’s dean in academic questions.

Kunal is doctoral candidate in area of finance at Department of Industrial and Management Engineering, Indian Institute of Technology Kanpur, India. His Ph.D. thesis title is Selective Intervention Policy towards Foreign Direct Investment and its Impact on the Economy (An Empirical Investigation of Indian Firms and Markets). He has been awarded gold medal for securing first rank in PGDM course
About the Contributors

Zhi.-Qing Lin is an Associate Professor in the Department of Biological Sciences and the Environmental Sciences Program at Southern Illinois University at Edwardsville in Illinois, USA. Dr. Lin received his BS degree in Environmental Biology from Liaoning University in China, MS degree in Pollution Ecology from the Chinese Academy of Sciences, and Ph.D. degree in Renewable Resources from McGill University in Montreal, Canada. He was a post-graduate researcher on phytoremediation at the University of California at Berkeley. His research is related to the biogeochemistry of environmentally important trace elements, with a special focus on biological accumulation and transformation processes of trace elements in the water-soil-plant system. He is the author/coauthor of over 50 refereed journal and review articles, proceedings, and book chapters.

Iuan-Yuan Lu is a Professor at the Institute of Business Management, National Sun Yat-Sen University, Taiwan. He has been employed at NSYSU since 1986. Dr. Lu received his Ph.D. and M.S. with major in Managerial Engineering from Keio University, Japan in 1978 and 1975, and holds a B.S. with major in Industrial Engineering from Chung Yuan Christian College of Science and Engineering, Taiwan in 1969. His teaching and research interests include industrial engineering, management, and technology management. His publications appear in journals such as the International Journal of Technology Management, International Journal of Manufacturing Technology and Management, Service Industries Journal, Information Sciences, Journal of Organization Change Management, Total Quality Management & Business Excellence, and others.

Tingting Ma is a Ph.D. candidate in Management Science and Engineering, Beijing Institute of Technology of China. Now, she is also a visiting scholar in the School of Public Policy at Georgia Institute of Technology. Her specialty is science and technology management, particularly the study of technology forecasting and assessment. She is focusing on research on emerging science and technology topics.

Karim Malki is Research Assistant at the Institute of Economic Analysis & Prospective Studies (IEAPS) at Al Akhawayn University, Ifrane, Morocco. He holds a Master’s of Finance from the School of Business Administration, Al Akhawayn University, Ifrane, Morocco.

Antonella Martini is an Associate Professor at the faculty of Engineering, University of Pisa where she teaches Business Economics and Organisation. Her main research interests concern knowledge management and continuous innovation; she is actively involved in national and international researches on the fields and member of the international board of the Continuous Innovation Network (CINet) and responsible for the Italian Innovation Lab. She is an author of more than 70 publications at the international level and holds a doctorate degree.
About the Contributors

Steve McGuire is Professor of Management and Director, Centre for International Business and Public Policy (CIBaPP) at Aberystwyth University, U.K. His research interests are in the areas of international political economy, international business and corporate political activity. He has written extensively on technology policy in Europe and the United States. His publications have appeared in management studies and political science journals, including *Journal of Common Market Studies, Journal of European Public Policy, Management International Review, Organization Studies* and *World Economy*. He was previously a Senior Lecturer in International Business at the University of Bath, and in 2009 he was a Visiting Professor at the College of Europe. He has also taught on degree and executive development programmes at the Audencia Nantes Management School, the University of Bath, and the Vlerick Leuven Gent Management School. He serves on the editorial boards of two journals, *Business and Politics* and *European Journal of International Management*.

Ackmez Mudhoo obtained his Bachelor’s degree (B.Eng. (Hons.)) in Chemical and Environmental Engineering from the University of Mauritius in 2004. He then successfully read and earned a Master of Philosophy (M.Phil.) degree by research in Chemical Engineering from the Department of Chemical and Environmental Engineering in composting research in 2011. His research interests encompass the bioremediation of solid wastes and wastewaters by composting, anaerobic digestion, phytoremediation, and biosorption. He has 56 international journal publications and book chapters, 4 conference papers, 3 co-edited books, and a number of monographs to his credit. Ackmez serves as peer reviewer for *Waste Management* and *Journal of Hazardous Materials* and as Handling Editor for *International Journal of Environment and Waste Management* and *International Journal of Environmental Engineering*. He is presently a Lecturer in the Department of Chemical and Environmental Engineering, University of Mauritius. Ackmez Mudhoo is the Co-Editor of *A Handbook of Applied Biopolymer Technology: Synthesis, Degradation & Applications* (Royal Society of Chemistry); *Handbook on Applications of Ultrasound: Sonochemistry for Sustainability* (CRC Press, Taylor and Francis Group LLC), *Green Chemistry for Environmental Sustainability* (CRC Press, Taylor and Francis Group LLC), and *Adsorption of reactive red 158 dye by chemically treated Cocos Nucifera L. shell powder* (Springer).

Bruce Mutsvairo teaches Journalism and Mass Communication at Amsterdam University College in the Netherlands. His research focuses on the role of new media technologies in fostering political and social participation. In 2011, he was a Visiting Assistant Professor in Journalism at the University of Mississippi’s Meek School of Journalism and New Media. He earned his MA in International Journalism at Cardiff University and is writing a thesis for his PhD in International Studies at the University of Hull in the UK.

Julie Nolin is Communications Faculty at the British Columbia Institute of Technology. Prior to receiving a Graduate degree in 2010, she worked as a journalist for nearly 20 years in Canada – beginning as a newspaper reporter, photographer, and editor. She made the transition to television news, winning several national and international awards for her work. After extensive studies in Japan and China, she began work on various books and chapters in academic areas such as journalism, intercultural communication, social media, mobile technology, e-learning, online English Language Learning, and psychology. Nolin resides in Vancouver, Canada.
Mohammad Nurunnabi is a Senior Lecturer in Accounting at Edge Hill University, Lancashire, UK and pursuing PhD at University of Edinburgh, UK. He has published in academic journals including *International Journal of Managerial and Financial Accounting*, *International Journal of Critical Accounting*, and *Journal of Business Economics and Management*. He has also presented papers in international conferences including British Accounting Association (BAA), Irish Accounting and Finance Association (IAFA) and The Institute of Chartered Accountants of Scotland (ICAS). His current research focuses on IFRSs implementation issues, corporate governance, and Islamic accounting.

Dickinson C. Odikayor is a practicing and registered Engineer, as well as a Chartered IT professional with a Bachelor’s Degree in Electrical and Electronic Engineering and a Master’s Degree in Electronics and Telecommunication. He has published articles in various journals including *Advanced Materials Research Journal* and *IEEE Nigeria Section E-Bulletin*. A member of Institute for Electrical and Electronic Engineers (IEEE), his current research interest is on mobile broadband capacity constraints and optimization. He is presently a Lecturer in the Department of Electrical and Information Engineering, Landmark University Nigeria.

Olamuyiwa O. Olamade obtained his first degree in Economics in 1988, graduating at the head of his class, and subsequently proceeded to obtain a Master’s degree in International Economics at the University of Ibadan in 1988. He later obtained Master and Doctorial degrees in Technology Management at Obafemi Awolowo University. Dr. Olamade began his career as a university Lecturer and taught in universities in Nigeria for over a decade before joining the National Centre for Technology Management in 2006. He presently heads the Centre’s North Central zonal office in Abuja with focus on science, technology, and innovation policy research and governance. He has authored books in economics and production management and published widely in reputable international journals.

Evans S. Osabuohien is a Lecturer in Dept. of Economics and Development Studies, Covenant University, Nigeria. He holds B.Sc, M.Sc and Ph.D in Economics. His research focus include: Development Economics, International and Institutional Economics. He has participated in several conferences and workshops in Africa, Asia, and Europe. He has over 25 scholarly publications in journals and book chapters and has won several awards and grants. He is a member of Nigerian Economic Society, Royal Economic Society, Council for Development of Social Science Research in Africa (CODESRIA), and African Economic Research Consortium (AERC). He also has consultancy experiences for international agencies and serves as a reviewer/editorial member for international journals.

Sercan Ozcan is a PhD candidate in the field of Innovation Management at Aberystwyth University, Wales. His research interests are strategy innovation, disruptive innovation, and Blue Ocean Strategy, focusing on consumer electronics. He achieved a post graduate degree in MSc Management and Marketing with Merit at Bournemouth University, England. He is a qualified Electronics and Telecommunication Engineer, and he graduated with an Honors Diploma from the National Technical University of Ukraine KPI. His previous job was with Logitech in Belfast, Northern Ireland as a Service Delivery Manager. He managed a team who gave technical support to customers. He worked in a cross cultural environment with employees from different nations.
Ella Pereira is a Senior Lecturer at Computing and Information Systems at Edge Hill University, Lancashire, UK. She received her PhD in Computing - Software Engineering from Liverpool John Moores University, Liverpool, UK. She has published in academic journals including *Journal of Simulation Modelling Practice and Theory*, *International Journal of Simulation, Systems, Science and Technology*, and *Journal of Computer and Systems Science*. Her current research focuses on computer networks/distributed systems: distributed middleware services, distributed applications and services, component based software and autonomic computing: self-healing systems performance evaluation for self-healing systems.

Alan L. Porter is Director of R&D for Search Technology, Inc., Norcross, GA. He is also Professor Emeritus of Industrial & Systems Engineering, and of Public Policy, at Georgia Tech, where he continues as Co-Director of the Technology Policy and Assessment Center. He is author of some 220 articles and books, including Tech Mining (Wiley, 2005). He and co-authors are preparing a second edition of Forecasting and Management of Technology (Wiley). He is pursuing ways to exploit science & technology information to generate and visualize intelligence on emerging technologies.

Güera M. Romo is a Business Change and Optimisation Consultant with 22 years experience in disciplines associated with business optimisation and expansion in the banking, government, and telecommunication industries. Her clients include ABSA Bank, Nedbank, African Banking Corporation, Telkom SA (LTD), Cell C, and MTN South Africa. Her career focus is business integration management (people, system, and processes), specifically the design and implementation of sustainable accountability practices in managing the increasingly complex business environment. Much of the consulting assistance is rendered in project recovery or departmental objective re-alignment initiatives. She is also an academic researcher with interest in human competency development in highly technical industries. The research interest considers the theoretical foundations underpinning the creation of new business roles and functions and the changes required in current business practices in an effort to manage changing business conditions. Her current PhD study at the University of Johannesburg in South Africa focuses on factors negatively influencing the successful application of known practices and principles such as project management and human resource management and implications for revisiting current and popular management theories. She holds both a BCom and BCom Honours degree in Industrial and Organisational Psychology from the University of South Africa and a Master’s of Philosophy in Engineering Management degree from the University of Johannesburg. She is also co-author of the recently published book titled Revenue Assurance: Expert Opinions for Communications Providers, available from CRC Press.

Lydia Rose is a tenure-track Assistant Professor in the Department of Sociology at Kent State University, East Liverpool. She earned a Ph.D. in Sociology from Purdue University. She worked in the Academic Senate Office at San Jose State University in California and then served as a Professor at DeVry University in Long Beach California from 2001-2010. In August of 2010, Dr. Rose joined the faculty at Kent State University, East Liverpool. Currently, Dr. Rose teaches Introduction to Sociology, Social Problems, and Wealth, Poverty, and Power. She has produced scholarly works in the areas of
social inequality, diversity, culture, the environment, and technology. She is currently involved in studying experiential learning and service learning.

**Natalia Serenko** is a Lecturer in the School of Social Work, Lakehead University, Canada. She holds an H.B.A. in Psychology, H.B.S.W., and M.S.W. degrees. Natalia also holds the Graduate Diploma in Health Services and Policy Research provided by the Ontario Training Center. Her research interests pertain to privacy in healthcare.

**Willie. O. Siyanbola** holds a PhD in Solid State Physics from the University of Sussex, Brighton, UK. He is a Fellow of the Materials Society of Nigeria, a Fellow of the Solar Energy Society of Nigeria and a member of the National Business Incubation Association of America, among other prestigious professional associations. He is the Director-General/CEO of the National Centre for Technology Management (NACETEM), Nigeria where he oversees policy research activities for science, technology, and innovation (STI), and is a regular speaker at local and international STI policy debates.

**Samuel T. Wara** holds the B.Eng, M.Eng, and Ph.D. degrees in Electrical Engineering from the University of Benin, Nigeria. He is a chartered Electrical Engineer, a fellow of the Nigerian Society of Engineers (FNSE), a fellow of the Institution of Engineers, Tanzania (FIET), Member of the South African Association for Energy Efficiency (MSAEE), and Member of the International Association of Science and Technology for Development (MIASTED). At present he is a Professor Electrical and Computer Engineering and Dean of the Gen. Abdusalami A. Abubakar College of Engineering, Igbinedion University, Okada, Nigeria. He is the Director of Product development/Energy centres, serves as the Director of Academic Planning, and has acted severally as Vice Chancellor of Igbinedion University, Okada.

**Chao-Ching Wei** is a Technology Manager in ADEG Technology Ltd., Taiwan. He is currently a Ph.D. candidate in Business Management at Institute of Business Management, National Sun Yat-Sen University in Taiwan. He holds a M.B.A. in General Management from National Sun Yat-Sen University, Taiwan in 2005 and a B.A. in Chemical Engineering from National Taiwan University of Science and Technology, Taiwan in 1998. His expertise includes Solar-PV/ Passive Component MLCC/ PCB/ FPC manufacturing & technology, specializing in R&D innovation project management, production-marketing balance management, and the establishment of quality systems. His research interests focus on technology management and innovation strategy including disruptive innovation, business strategies in technical fields, marketing, and new product diffusion of innovation strategy.

**Nada Zouag** is a Research Assistant at the Institute of Economic Analysis & Prospective Studies (IEAPS) at Al Akhawayn University, Ifrane, Morocco. Nada holds a Master’s degree in Corporate Finance, from The George Washington University, Washington DC, USA.
