About the Contributors

Abel Usoro lectures in the School of Computing, University of the West of Scotland, UK. His current research interests are information systems which include knowledge management, e-learning and tourism. He has published book chapters, in refereed international conferences and journals (such as International Journal of Global Information Management and International Journal of Knowledge Management). His academic work and research have taken him to countries in Africa, Europe, Asia, North and South America. He is Editor-in-Chief of Computing and Information Systems Journal, Associate Editor of JEDMIFM, and member of editorial boards of other international journals. He is a member of scientific committees of many international conferences and chairs one of them (Conference on Information Technology and Economic Development). He is also a member of the British Computing Society and the lead editor of Leveraging Developing Economies with the Use of Information Technology published by IGI Global. Contact: abel.usoro@uws.ac.uk or Web: http://cis.uws.ac.uk/abel.usoro/index.htm

Grzegorz Majewski holds an MSc degree awarded by the Warsaw School of Economics and another by the University of the West of Scotland. He has worked for the telecommunication and finance industry. He is active in the research field presenting his papers at international conferences and publishing in refereed journals. His current research focuses on Knowledge Management, Innovation, Social Networks, e-Learning and Immersive Virtual Worlds.

Princeley Ifinedo is an Associate Professor in the Shannon School of Business at Cape Breton University, Canada. He holds a doctoral degree in Information Systems from the University of Jyväskylä (Eximia Cum Laude Approbatur) and master’s degrees from the University of London and Tallinn University of Technology. He has presented research at various international IS conferences (including a Best Track Paper at the 2008 AMCIS), contributed chapters to several books/encyclopedias, and published in several reputable peer-reviewed journal including JCIS, DATABASE, JSS, CHB, JOCEC, JITM, IMDS, EIS, IJITDM, JITD, JITM, JGTIM, EG, JISP, and Internet Research. He has authored (and co-authored) more than 80 publications. Dr. Ifinedo’s current research interests include ERP system success measurement, global IT management, IT adoption in SMEs and healthcare, cross-cultural issues in IS, IS security and privacy issues, and the diffusion of IS in transiting and developing economies. He is affiliated with AIS, ISACA, and DSI.
**About the Contributors**

**Iwara I Arikpo** teaches Computer Science at the University of Calabar, Nigeria. His current research interests are software engineering which includes software project management, agile software development and software process improvement. He also researches in computer information systems, computer architecture, health informatics, among others. He has published papers, in refereed international conferences and journals (such as Global Journal of Mathematical Sciences, Computing Information System Journal, Scientia Africana, International Journal of Natural and Applied Sciences, International Journal of Global Business). His academic work has taken him to a number of African countries and some parts of Europe. He is a Local Chair of the international Conference on Information Technology & Economic Development (CITED); a member of professional bodies such as Computer Professionals Registration Council of Nigeria, Nigeria Computer Society; and an editor of Leveraging Developing Economies with the Use of Information Technology: Trends and tools published by IGI Global. Contact: iiarikpo@gmail.com

**Bridget Abiagam** obtained her BA(Ed) an MSc in Management. She is currently one of Dr Abel Usoro’s final year PhD research students. Her current research interest is in e-hospitality and e-tourism. She has also acted as a research assistant and co-authored journal and conference publications in areas that include e-learning quality in higher education (you can find her name among co-author at http://cis.uws.ac.uk/abel.usoro/Papers). With 3 years’ practical experience in the tourism and hospitality she is very enthusiastic in knowledge contribution to these industries in developing economies. She has been funded by South Scotland Business Solutions, UK, through University of the West of Scotland to assist Dr Usoro in various e-tourism consultancies in Scotland. She co-authors a book chapter in Leveraging Developing Economies with the Use of Information Technology published by IGI Global. Contact: bridget.abiagam@uws.ac.uk

**Oluwatosin Akinyede Ajayi** graduated from the Department of Business Administration College of Management and Social Sciences NOVENA University, Ogume, Nigeria. He has published with major contributions in human resources management and ICT in the public sector domain.

**Boluwaji Akinnuvesi** obtained a BSc (Computer Science) in 1998 and M.Tech in Computer Science in 2003 and PhD (Computer Science) in 2011. He is the Director of Computer Centre of the Bells University of Technology, Ota, Nigeria. He was a visiting Research Scholar in ICITD, Southern University, Baton Rouge, Louisiana in 2010. He has published in a number of reputable journals and conferences. His research interests include: user involvement issues, simulation and performance evaluation, expert systems, and software engineering.

**Rosemary Chiaka Akuchie** is a lecturer at the University of Abuja, Nigeria. She is currently the Head of Department of Educational Management of the University. She has published articles in reputable journals, book chapter and proceeding in the area of educational administration and planning. She is a member of international and national professional bodies such as: Commonwealth Council for Education Administration and Management, National Association of Educational Administration and Planning, Teachers’ Registration Council of Nigeria. She is a member of the Editorial Boards of Journals like:
Dr. Rosemary Akuchie has been a significant contributor to the development of educational policies and practices in Nigeria. She has made substantial contributions to the improvement of education in Nigeria, particularly in the areas of primary and secondary school teachers' training. Her efforts have been instrumental in attaining the Millennium Development Goal in education. Dr. Akuchie is highly reliable in activities towards the improvement of education in Nigeria.

Samuel Amaele earned his Ph.D. in Philosophy of Education. He is currently a Senior Lecturer in the Department of Educational Foundations and Management, Faculty of Education, University of Education, Port Harcourt, Nigeria. Dr. Amaele's research effort focuses on epistomological issues, school effectiveness, teacher effectiveness, ICT in education and method courses. Amaele have published widely in different international journals, chapters in books and conference proceedings.

Charles K Ayo holds a B.Sc. M.Sc. and Ph.D in Computer Science. He is a Professor of Computer Science and the Director of Academic Planning Unit of Covenant University, Nigeria. His research interests include: Mobile computing, Internet programming, eBusiness, eGovernment and Software Engineering. He is a member of the Nigerian Computer Society (NCS) and Computer Professionals (Registration Council) of Nigeria (CPN). He is a member of such international research bodies as the Centre for Business Information, Organization and Process Management (BIOPoM). He is on the Editorial Boards of Journal of Information and communication Technology for Human Development (IJICTHD), International Journal of Scientific Research in Education (IJSRE) and African Journal of Business Management (AJBM), amongst others. Prof. Ayo is an External Examiner to a number of Nigerian universities and has supervised about 200 postgraduate projects at Masters and Ph.D levels. He has published in several scholarly journals and academic conferences.

Pattarin Chumnump is currently pursuing her Ph.D in Management at The York Management School, University of York (UK). She is also the Director of Professional Training & Development at IKI-SEA and a full-time instructor at the department of International Business Management, School of Business Administration, Bangkok University. She holds an MBA from Fairleigh Dickinson University (USA) in Global Business Management as well as a Bachelor of Business Administration - 1st class Honours from Chiang Mai University (Thailand). She has worked as a Human Resources and Training Coordinator at the Hilton Hua Hin Resort and Spa, and as a secretary to the Director of Sales and Marketing at the Sukhothai Bangkok Hotel. For the past years she has been involved in conducting research in the field of Knowledge Management, provided training and being involved with various KM projects at Bangkok University.

Daniel Elemchukwu Egbezor is currently a Senior Lecturer in the Department of Educational Foundations, Faculty of Education, University of Port Harcourt, Nigeria. His research focuses on sociological principles, institutional management and leadership, education effectiveness, teacher effectiveness and quality improvement, ICT in education and research methodology. Dr. Egbezor have published in various international journals, chapters in books and leading international conference proceedings.
**Idongesit Efaemiode Eteng** Nee Idongesit Fidelis Essien has been a lecturer in the Department of Computer Science, University of Calabar, for five years having previously served in the same University as a programmer/systems analyst. She has served the University in a number of committees including one that inaugurated the International Journal of Pure and Applied Sciences. She has a BSc (Hons) (Computer Science) Degree, an MSc (Computer Science) from the University of Ibadan, Nigeria. She is currently tidying up her PhD (Computer Science) University of Ibadan under the supervision of Prof (Mrs) Adenike Osofisan. She is a member of NCS (Nigerian Computer Society) and CPN (Computer Professionals of Nigeria) and an author of several books and journal articles. Her primary interest areas are Software Engineering, Internet Computing, Cloud Computing, Artificial Intelligence, Database Management Systems, Web Security and Programming. She is a Christian and married with children.

**Uyinomen O Ekong** received an M.Sc. in Management Information Systems (MIS) with specialization in mobile computing from Covenant University, Ota, Nigeria in 2006. She obtained a B.Sc degree in Computer Science from Ambrose Alli University, Edo State Nigeria in 2002. She is currently working towards the Ph.D degree in the Department of Computer Science, University of Benin, Benin City Nigeria. Her current research interests include that application of Artificial Intelligence methods and techniques for network security, human interactive proofs, mobile computing, E-commerce, and E-government. She is a member of Nigeria Computer Society (NCS), Computer Professionals of Nigeria (CPN) and Institute of Electrical and Electronic Engineers (IEEE). Uyinomen O Ekong has published in scholarly journals and academic conferences.

**Ray Hackney** is Chair in Business Systems, Director of the Doctoral Programme and Head of the Information Systems Evaluation research group at Brunel University, UK. He has contributed extensively to research in information systems and management with publications in numerous national and international conferences and journals. He has taught and examined Doctoral and MBA programmes including Manchester Business School and the Open University. He is Associate Editor of the JGIM, JEUC, JLIM, ACITM, EJIS and case editor for IJIM. His research interests: the strategic management of information systems within a variety of organisational contexts, with an increasing speciality in government sectors; and has contributed to several EPSRC and European funded research projects. He was President of the Information Resource Management Association (IRMA) 2001/2002 and is now an Executive Member of the Information Institute www.information-institute.org; and serves on the European Doctoral Association for Management & Business Administration (EDAMBA) Executive Committee.

**Airi Ifinedo** works as an IT Consultant for a US-based, Enterprise Resource Planning (ERP) solutions provider. She holds six professional certifications in Microsoft Business Solutions (NAV) applications. She received her BBA from Oulu Polytechnic (Oulu University of Applied Sciences), Finland and an MBA from Tallinn University of Technology, Estonia. She is familiar with the business and IT climates in the Baltic and Nordic countries. Her current areas of interests include e-business development, ERP systems use in organizations, EDI, logistics, Global IT issues, and project management. Airi Ifinedo has published in scholarly journals such as Computers in Human Behavior (CHB), Baltic Journal of Management (BJM), and International Journal of Business and Systems Research (IJBSR). She is affiliated with APICS.
Ernest G Kitindi is currently a Senior Lecturer in the Department of Accounting at the University of Dar Es Salaam. He has held positions as Senior Lecturer and Lecturer at that University and, for about ten years, was with the University of Botswana both as Senior lecturer and Head of Department. Dr Kitindi is a prolific scholar and has more several scholarly publications in international and local journals and conference proceedings. His research interests are: agency theory and its applications, corporate governance in public entities, SMEs and microfinance issues/SACCOS, gender issues in accounting, and personnel issues.

Peter James Kpolovie is a Senior Lecturer and current acting head of the Department of Educational Psychology, Guidance and Counselling, Faculty of Education, University of Port Harcourt. He earned his B.A (Ed) 2; 1, M.Ed with 4.44 CGPA and PhD with 5.00 CGPA from University of Port Harcourt in 1991, 1996, and 2002 respectively. Kpolovie is a specialist in test and measurement and in research. His PhD dissertation, titled “validation and standardization of culture fair intelligence test for use in Nigeria”, in 2002 won NUC’s best doctoral thesis award which is the highest academic award in Nigeria. Other awards include common wealth scholarship award of excellence at the University of Port Harcourt Graduate School Silver Jubilee Celebration. Kpolovie have researched and published widely with major contributions in intelligence testing application of information technology (SPSS in particular) in data analysis, better ways of human learning, educational statistics and research method.

Klodwig Venant Mgaya is a senior lecturer in Business Information Systems at the Faculty of Business, University of Botswana. He also taught at the University of Botswana and worked as a Systems Librarian at the Michael Somare Library, University of Papua New Guinea. His main research interests are in the areas of corporate information systems, systems security, information systems personnel, business process management and accounting information systems. Klodwig holds a BCom(Accounting) degree from University of Dar es Salaam, MSc (Information Systems) from University of London (London School of Economics) and is currently a PhD researcher at the Department of Informatics, University of Pretoria in South Africa.

Aniebiet Ntui lectures in the Department of Educational Foundations Guidance and Counselling, University of Calabar, Nigeria. Her current research interests are information use and users studies. She has published over twenty five articles in reputable national and international journals and book chapters, in refereed texts. She is also a chartered librarian and a member of the Nigerian Library Association

international conference proceedings. You can contact him via his email(s): ololubeprince@yahoo.com, ololubenp@gmail.com, ololube@ololube.com, and access his profile via his website: www.ololube.com.

Aderonke A. Oni holds B.Sc. and M.Sc.in Management Information System from Covenant University. She is currently a PhD student in the Department of Computer and Information Sciences, Covenant University, Ota, Nigeria. Her current research interests are in the following areas: e-commerce, e-business, e-government, theoretical investigation of users’ acceptance of information system, design theories for information system, and software engineering. She also lectures in the Department of Computer and Information Sciences, Covenant University.

Adenike Oyinlola Osofisan (FNIM, FNCS) was a pioneer student of Computer Science, University of Ile-Ife and the first Nigerian woman PhD holder in Computer Science after a Master’s degree at Atlanta in 1979. She had unprecedented nine distinctions in MBA (Finance & Accounts). She joined University of Ibadan as a Senior Lecturer and in 2006 became the first female black Computer Science Professor in Sub-Saharan Africa. She presided over the Computer Professional Registration Council of Nigeria; is a Board member, Nigeria Internet Registration Association and OMATEC Computers; Coordinator of four Nigerian universities and France Collaboration Programmes; and Director of Computerise Nigeria Project. She holds many prizes, scholarships and fellowships in UK, USA, Australia and India. She is a Fellow, Nigerian Institute of Management and Nigeria Computer Society; Life Member, Nigerian Economic Society; Member, Computer Society of IEEE; Member, ACM; and authors over 70 publications in journals and conference proceedings.

Eno Joseph Ottong teaches Library and Information Science at the University of Calabar, Nigeria. She is also heads the Department. Her current research interest is in Library and Information Science, which include organization of resources, user-instruction and information literacy, and information dissemination to user groups. She presents at various national and international conferences, recently the International Federation Library Association Conference at Puerto-Rico. A local chair on the conference on Information Technology and Economic Development a Conference jointly organized by University of West of Scotland and University of Calabar, she educates and trains Librarians as well as is involved in consultancies. She is a Chartered Librarian (LRCN), a Council member of the Nigerian Library Association (NLA), and the current Chair of NLA Cross River State Chapter. She is also in the Editorial Boards of the Library and Information Practitioner Journal, Heartland Journal and the Information Science Journal.

Alice Phiri Shemi is a senior lecturer in Business Information Systems at University of Botswana, Faculty of Business. Her research and publication areas are in E-commerce in small firms, ICTs and financial inclusion in marginalized communities, E-learning, IS/IT outsourcing, Strategic information systems and Career orientations of IS personnel in developing countries. Alice is a member of the Association for Computing Machinery (ACM). Alice is currently a PhD researcher at Salford Business School, University of Salford, Greater Manchester, UK.
Dimitrios I Tseles is professor of Automation Department of Technology Education Institute (TEI) of Piraeus, Athens. He has a B.Sc in Physics, M.Sc in Electronic Control, M.Sc in electronics and Communication Systems and a PhD in Control Systems. He is the chair and founder of the annual eRA (International Scientific conference for the contribution of Information Technology to Science, Economy, Society and Education. He is the publisher of two scientific books (CAD/DAM and Data Acquisition Systems) for tertiary education, several books about technical subjects and notebooks for postgraduate students. He has also published widely in international scientific journals. He has also presented and published in many scientific conferences. He has led many inter-institutional collaborations including with University of the West of Scotland (when it was University of Paisley). Contacts: infotech@teipir.gr dtsel@teipir.gr.

Faith-Michael E Uzoka is a faculty member in the Department of Computer Science and Information Systems, Mount Royal University, Canada. He obtained MBA (1995), MS (1998) and PhD (2003) in Computer Science with focus on Information Systems. He also conducted a two-year postdoctoral research in the University of Calgary (2004–2005). He is on the editorial/review board of a number of information systems and medical informatics journals/conferences. He is currently the president of the Canadian Institute for Medical and Organizational Informatics. His research interests are in medical decision support systems, evaluation systems using soft-computing technology, organizational computing and personnel issues, and technology adoption/innovation.

Vasileios (Billy) Yfantis holds a BA honours degree in Marketing from the Technological Education Institute of Athens and an MSc in Information Technology with Web Technology from the University of the West of Scotland. Mr. Yfantis is currently employed within the Greek Government in a position that is related to the use of ICT for the citizen’s service. He has also been a freelance journalist for more than 15 years by contributing content to both electronic and printed media. As a conference speaker, he in 2011 presented innovative research on the reduction of “Digital Divide in the Music Industry” at the International Scientific Conference eRA. The main areas of his research interests feature: Information Communications Technology, e-Tourism, Digital Divide in Developing Countries, e-Government and in the Digital Entertainment Industry.
