About the Contributors

Muhammad Muinul Islam teaches Public Administration in Jahangirnagar University. Prior to this, he worked for Asian University of Bangladesh and a non-profit organization. His research interest includes different issues of public policy and governance, public budgeting and finance, and public service ethics. He graduated from University of Dhaka and attended the MPA program in Georgia State University with a Fulbright scholarship. He contributed encyclopedia entries, book chapters, and journal articles in local and international journals. He was a co-editor of the book *Bangladesh: Politics, Public Administration, and Governance* from VDM, Germany.

Mohammad Ehsan is an Assistant Professor of Public Administration at the University of Dhaka, Bangladesh. He has attained academic degrees from University of Dhaka, Bangladesh; University of Bergen, Norway; and Carleton University, Canada. He is scheduled to defend his doctoral dissertation at the Department of Political Science, Dalhousie University, soon. He also taught at Shahjalal University of Science and Technology, Bangladesh, as well as at Dalhousie University, Canada. He has worked for the NGO sector and donor community in various capacities as well. So far, he has published three books, a few book chapters, encyclopedia entries, and several articles in refereed international journals. His current research interests include public sector management, public sector ethics, and anti-corruption policy and program evaluation, e-governance, and higher education. His primary research focus is on South and Southeast Asia. He has memberships in several academic and professional associations, and is the recipient of, among many others, NORAD Fellowship and IDRC Doctoral Research Award.

Mohammad Nabil Almunawar Ir. IPB Indonesia, MSc UWO Canada, Ph.D. UNSW, Australia, is a Senior Lecturer at Faculty of Business, Economics, and Policy Studies, Universiti of Brunei Darussalam (UBD), Brunei Darussalam. Dr. Almunawar has published many papers in refereed journals as well as international conferences. He has many years of teaching experiences in the area of computer and information systems. He was a respected consultant in developing information systems for United Nations (WHO) projects, Central Bank of Indonesia, and some private companies. His overall research interest is application of IT in Management and Electronic Commerce. He is also interested in object-oriented technology, databases, and multimedia retrieval.

**Sik Liong Ang,** B. Sc. (Hon. London), M. Phil. (London), MBA, has more than 30 years of experience in Petroleum Engineering and Chemistry, Education, and Chinese Culture. In business, he has some good experience in transforming and reorganising a company unit into an effective and efficient outfit toward an ISO standard. He has also a sound knowledge of contract management and leadership training. Ang, a Ph.D. executive candidate, is currently pursuing his Ph.D. programme on Confucian Leadership and Management, and he is also a research assistant for an e-Government research grant project at the Universiti Brunei Darussalam.

**Alberto Asquer** is Lecturer of Business and Corporate Strategy at the Faculty of Economics of the University of Cagliari, Italy. His research is mainly focused on the political economy of liberalization, privatization, and re-regulation processes, and occasionally related to other fields such as management, strategic management, public policy, and regulatory reform. Recent publications of his include: “Implementing Fiscal Decentralization: A Case Study of a Regional Tax Agency in Italy” in *Governance, 23*(4), 609-621; “The Regulatory Reform of Water Infrastructure in Italy: Overall Design and Local Variations” in *Water Policy, 12*(s1), 66-83; and “Regulatory Reform and Industrial Restructuring: The Cases of Water, Gas, and Electricity in Italy” in *Competition and Regulation in Network Industries, 11*(1), 85-117.

**Amlan Bhusan** is a transnational management consultant with a decade of experiences undertaking several highly successful consulting projects in diverse geographic and economic settings. From strategy to diversification, from consolidation of inefficient business units to effective manpower management, recruitment and other core knowledge management functions, Amlan is active across several portfolios. In the recent past, Amlan has been a strategy and diversification specialist running his consulting firm in New Zealand, successfully delivering on several high profile projects within the education, tourism, and applied skills development sectors, before establishing his current consulting practice, Bhusan Taylor Ltd., in London. Amlan has successfully led and managed several multimillion-dollar consulting assignments within strategic diversification, assisting many organizations in UK, Scandinavian EU, Switzerland, Italy, USA, and India, among other South Asian countries. Amlan is a graduate in Public Policy from the School of Government, Wellington, New Zealand, and has a research Masters degree in Business and Economics from Lund University, Sweden. In 2006, he was also nominated to a Doctorate of Letters Honoris Causa. Amlan spends his time between India and the UK, consulting to several global organizations within the education and training sector and is also active in the traditional terrains of consulting work, like technology, people, and resources.
**About the Contributors**

**Maya Daneva** is an Assistant Professor at the Information Systems Group at the University of Twente, The Netherlands. Her research is focused on business-IT alignment, maturity models, requirements engineering, cost estimation of large systems, and the application of qualitative research methods. Maya also serves as a liaison to the Dutch IT industry. Prior to this, Maya spent 9 years as a Business Process Analyst in the Architecture Group of TELUS, Canada’s second largest telecommunication company in Toronto, where she consulted on ERP requirement engineering processes and their evaluation as well as on ERP-supported coordination models and business process design. Maya has authored more than 70 research and experience papers.

**Carlotta del Sordo**, BA Business Economics, University of Bologna, Italy, Ph.D. Management of the Public Sector, University of Salerno, Italy, visiting scholar at Boston University, US, Accounting Department, Lecturer in Business Economics, Department of Management, University of Bologna, Italy. His current research interests are management accounting theory and management control in the public sector.

**Md. Gofran Faroqi** graduated from Dhaka University, Bangladesh, in Sociology and started a career in Public Service of Bangladesh and served in both field and secretariat administrations in different capacities. He has been promoted as a Senior Assistant Secretary, and lastly, he was serving as a Upazila Nirbahi Officer (UNO) in Lakhai Upazila of Habiganj District. He completed his Master of Public Administration degree from Flinders University, Australia, in 2009. Currently, he is enrolled in Flinders University, Australia, as a PhD Candidate in the Department of Politics and Public Policy. **Keith Hales**. Following a successful career in the military and in the private sector, he joined Bond University as an Assistant Professor in the School of Information technology at Bond University. He has published papers in IT Governance, Emergency Management, and Strategic Alignment in the Public Sector. His ongoing research interests are in the deployment of IT in the SME business sector, IT in developing countries, and in supply chain management.

**Evanthia Hatzipanagiotou** holds a Master Degree in Human Resources Management from Athens University of Economics and Business and a B.Sc. in Economic Science from the Department of Law, Economics, and Political Science of the University of Athens. Evanthia is employed at the Greek Ministry of Finance, in the General Secretariat of Tax and Customs Affairs—General Division of Taxation, as a Director of the Public Revenue Collection Division. Previously, she has worked as Operational Manager of the TAXIS project for the implementation, training, and installation of the first IT taxation system in Greece. Evanthia participates to the Fiscalis EU Program, representing the Greek Ministry of Finance, which aims at enhancing the fight against tax fraud, improving administrative procedures, and ensuring the exchange of information between national tax administrations and traders, through trans-European tax IT projects. Furthermore, Evanthia is the author of many articles about human resource management, tax legislation, and public reform.
Kathryn Kloby is an Assistant Professor in the Department of Political Science at Monmouth University and is the Director of the Public Policy Graduate Program. She teaches undergraduate and graduate courses in public policy, public administration, public management, and research methods. Dr. Kloby’s research interests include public sector performance measurement, citizen engagement, and e-governance.

Wolter Lemstra is Senior Research Fellow at the Department Technology, Policy, and Management of the Delft University of Technology, and Senior Lecturer at the Strategy Academy, Rotterdam, in The Netherlands. He thereby links his academic interests to 25 years of experience in the telecom sector. He occupied senior management positions in system engineering and product management at Philips, marketing and business development for Eastern Europe at AT&T. Most recently, he was Vice President at Lucent Technologies, responsible for marketing and business development in the Europe, Middle East, and Africa region. His current research is focused on sector governance, industry structure developments, firm strategic behaviour, and innovation trajectories. He has been a (co)author in projects for the Ministry of Economic Affairs and for the European Commission. His most recent co-authored and co-edited book is *The Innovation Journey of Wi-Fi – The Road to Global Success*. He is a co-founder of the Cognitive Radio Platform NL.

Patrick Kim Cheng Low, Ph.D. (South Australia), Chartered Marketer, Certified MBTI Administrator, Chartered Consultant and Certified Behavioral Consultant (IML, USA), brings with him more than 25 years of combined experience from sectors as diverse as the electronics, civil service, academia, banking, human resource development, and consulting. The once Visiting Professor, Graduate School of Business, the University of Malaya (2007), Prof. Dr. Low, the Deputy Dean, Postgraduate Studies and Research (2009), is teaching in Universiti Brunei Darussalam. An academician-practitioner, a prolific author (author of twelve books, including bestsellers: *Strategic Customer Management*, 2006, 2002, 2000 [one of Borders’ top ten in 2001/2]; *Sales Success*, 2006, 2003; *Team Success*, 2003; and *The Power of Relationships*, 2001), and a business coach, Prof. Dr. Low is also the founder of BusinesscrAFT™ Consultancy and an associate of UniSA. His most recent books are *Successfully Negotiating in Asia*, Springer (2010), and *Corporate Culture and Values*, VDM-Verlag (2009).

Evangelia Mantzari is currently a PhD Candidate at Athens University of Economics and Business, in the Department of Management Science and Technology, and a Research Officer in the ELTRUN e-Business Research Center. Evangelia holds an International MBA from Athens University of Economics and Business and a B.Sc. in Economic Science from the University of Piraeus. Evangelia has participated in several European and National projects concerning issues of e-business and e-government in several sectors, while she is a Rapporteur for the Greek forum for Interactive Digital TV. In parallel, Evangelia is employed as an Executive of the National Bank of Greece S.A. and as a Designated Instructor for the Program of Continuous Training Institute. Previously, she has worked as a Financial and Insurance Consultant in the ASPIS Group and as an Assistant in the Public Relation Office of the General Secretariat of Information Systems of the Greek Ministry of Finance.

Durga Shankar Mishra, B. Tech in Electrical Engineering, Post Graduate Diploma in Human Resource Management, MBA in International Business, and Post Graduate Diploma in Governance, Democratization, and Public Policy, is an officer of Indian Administrative Service, and is posted as
About the Contributors

Principal Secretary to Hon’ble Chief Minister, Principal Secretary, Urban Development and Principal Secretary-Cum-Director General, Civil Aviation in State Government of Uttar Pradesh in India, at present. His administrative experience spans over 27 years serving India’s largest state and federal governments. He has published several articles/research papers in Indian and foreign journals; has participated in many national/ international seminars/ conferences; and has delivered lectures in training institutions and universities. He has been a visiting faculty at the University of Guelph, Canada.

Fadzliwati Mohiddin, BA Management Studies (Universiti Brunei Darussalam); MBA (Lancaster University, UK); PhD Information Systems (Curtin University of Technology, Western Australia), is a lecturer at the Faculty of Business, Economics, and Policy Studies, UBD. She lectures in ICT, Management of Information Systems, and Business Statistics, and is also the examiner to MBA’s theses. Her current research interest includes Information Systems Success, Knowledge Management, and E-Government. Currently, she is involved with several ICT projects, which include Knowledge Management Systems and E-Learning Systems for the Ministry of Education.

María de Miguel Molina has a Law Degree from Universitat de València and a PhD on Management from the Universitat Politècnica de València – UPV (Spain). Currently, she is Associate Professor at the Management Department of the UPV. She is Lecturer in different subjects, such as Computer Ethics and Law and Public Management. She is the Director of an MBA at the Business Administration and Management Faculty of the UPV (joined international degree with Ansbach University, Germany). Her research field centers on the relation between regulation and organizational social responsibility and has several publications in international journals, mainly related to self-regulation in different sectors as mobile telephony, Social Network Sites (SNS), public administration, and environmental protection. She is a member of the European Business Ethics Network (EBEN) and of the DerechoTICs Network.

Rebecca Levy Orelli, BA Business Economics, University of Bologna, Italy, Ph.D. Management of the Public Sector, University of Salerno, Italy, visiting scholar at London School of Economics, Accounting Department, UK, Lecturer in Business Economics, Department of Management, University of Bologna, Italy, is affiliated with EBEN. Her current research interests are new public management and public services changes in local governments, management accounting, and management control in the public sector.

Emanuele Padovani BA Business Economics, University of Bologna, Italy, Ph.D. Business Administration, University of Ferrara, Italy, Associate Professor of Management Control and Auditing in Public Sector Organizations in the Faculty of Economics and Department of Management at the University of Bologna, Forli Campus, Italy. Has been invited as guest lecturer at the undergraduate, graduate, and executive levels in different Italian universities and abroad (University of Valencia, Spain; Methodist University of Sao Paulo, Brazil; Aarhus Business School, Denmark; Michigan State University, East Lansing, MI; University of Washington, Seattle, WA). His research interests are public management with specific reference to management control systems, performance measurement for management and auditing, benchmarking, and management of outsourcing.
Jong Sou Park received the M.S. degree in Electrical and Computer Engineering from North Carolina State University in 1986, and he received his Ph.D. in Computer Engineering from The Pennsylvania State University in 1994. From 1994 – 1996, he worked as an Assistant Professor at The Pennsylvania State University in the Computer Engineering Department, and he was President of the KSEA Central PA Chapter. He is currently a full Professor in Computer Engineering Department, Korea Aerospace University. His main research interests are information security, embedded system, e-government, and hardware design. He has published many papers in international journals and in conferences. He is a member of IEEE and IEICE, and he is an executive board member of the Korea Institute of Information Security and Cryptology and Korea Information Assurance Society.

Manish Pokharel obtained his Bachelor of Engineering in Computer Science from Karnataka University, India. He received his Master of Engineering in Software System from Birla Institute of Technology and Science, Pilani, India. He is currently a Ph.D. student in Korea Aerospace University, since September 2007. His research interests are in e-government, enterprise architecture, software technology, fault tolerance, and cloud computing. He was involved in making e-government master plan in Costa Rica as an International Consultant. He has published various research papers in international conferences and in journals.

Mohammad Habibur Rahman received his Ph.D. from the University of Wales in UK. Currently serving as Senior Lecturer in the Faculty of Business, Economics, and Policy Studies at the University Brunei Darussalam, Dr. Rahman previously taught graduate and undergraduate students in the areas of public administration, political science, and development studies in universities in Bangladesh (Dhaka and National), Canada (Lakehead), and Fiji Islands (South Pacific). He was a Senior Fulbright Scholar at Syracuse University in USA and a Visiting Fellow at York University in Canada. His current teaching and research interests include public policy, governance, public sector reform, e-governance, public sector human resource management, and urban governance. Dr. Rahman has served UNDP, World Bank, Asian Development Bank, USAID, NORAD, JICA, Ford Foundation, and Asia Foundation on several governance and development projects in Bangladesh, India, Sri Lanka, and Nepal, as well as conducted independent research in USA, Canada, Fiji, and Brunei.

Leila Sadeghi, Ph.D., is an Assistant Professor with the Department of Educational Leadership in the Nathan Weiss Graduate College, Kean University. Dr. Sadeghi’s research interests include Web 2.0 and social media, utilizing new media in the classroom, and citizen participation via technology. She has written numerous articles, chapters, and blogs on these topics, and regularly provides training sessions for state and local public administrators on the effective utilization of social media in government.

Mehdi Sagheb-Tehrani is an Associate Professor of CIS/MIS at the College of Business, Technology, and Communication at Bemidji State University (BSU), USA. Dr. Tehrani teaches System Analysis, Computer Business Application, E-Commerce and Web Development, and Corporate Information Systems, as well as Structured Application Development. Before joining BSU, he taught Business Network Systems Management, Virtual Business, Management Information Systems, Expert Systems, and Advanced Topics at the graduate level, and Technology Management and Systems Analysis, Project Management, Internet Applications, Introduction to Computers, C++, Visual Basic, and COBOL pro-
gramming at the undergraduate level. He received his PhD in Informatics (old name, Information and Computer Science) from Lund University, Sweden, in 1993. He has published over 48 papers in various international journals and proceedings, and he has also published a book, Management of IT. He has publications in *International Journal of Applied Systematic Studies, International Journal of Management in Education, The Journal of Knowledge Engineering, ACM/ Computer and Society, ACM/SIGSOFT, ACM/SIGART, Journal of AICOM, IEEE-IRI, and The IS Education Journal*. He was an IT Manager as well as a Consultant in a number of organizations, including IRISL, Cutting Tools Manufacturing, NI Register Organization, IDP Company (formerly IBM), and others.

**Noore Alam Siddiquee** is Senior Lecturer at Department of Politics and Public Policy, School of Social and Policy Studies, Flinders University. He holds PhD in Public Administration from the University of Manchester, UK. In the past, he taught in the University of Dhaka, International Islamic University, Malaysia, and Universiti Brunei Darussalam for over 15 years. Between 2001 and 2004, he served as Associate Professor and Head of the Department of Political Science, International Islamic University, Malaysia. He has published widely in internationally refereed journals. His current research interests include public sector management and reform, e-government, local governance, and development focusing on South and Southeast Asian countries. He has also undertaken consultancies for government, NGOs, and international donors.

**Carlos Ripoll Soler** is Industrial Engineer by Universitat Politècnica de València (Spain). Currently, he is Director of the UPV International Campus of Excellence (VLC/CAMPUS). He is Vice President of the Euro-Latin American Network for Continuing Education and Secretary of the Working Group for Continuing Engineering Education at the European Society for Engineering Education. He has coordinated several European projects, and he is also a frequent speaker at various international forums about higher education management and has publications on the field of continuing education management. He has been Director of the Marketing Department at the Lifelong Learning Centre from UPV, with a high specialization in the areas of marketing 2.0 and on the development of Customer Relationship Management (CRM) systems applied to continuing education.

**Zdeněk Struska** received his MSc (Ing.) in Strategy Management from the University of West Bohemia, Pilsen, in 2004, and Ph.D. degree in Information Management from the Czech University of Life Sciences, Prague, in 2008. His present professional position is a Consultant in the area of Technology Integration in Deloitte Advisory, Czech Republic (since 2005), and Assistant Professor of Information Management, Department of Information Engineering, Faculty of Economics and Management, Czech University of Life Sciences in Prague (2007-2009).

**Roberto Santana Tapia** currently works as Information Analyst at the Ministry of Security and Justice, The Netherlands. He received his PhD in Information Systems (December 2009) after completing his thesis: “Assessing Business-IT Alignment in Networked Organizations.” He also received a MSc degree in Information Technology Management from the Tecnológico de Monterrey (ITESM, Mexico) in 2002, and a MSc degree in Information Systems from the Universidad de Tamaulipas (UAT, Mexico) in 1999. He has also five years experience working as a System Analyst and an IT Advisor in the government and education sectors in Mexico. His main research interests are business-IT alignment, inter-organizational collaborations, and e-government.
Pascal van Eck received his MSc degree in Computer Science from Vrije Universiteit Amsterdam in 1995. From 1995 until January 2000, he worked as a Research Assistant at the Artificial Intelligence Department of Vrije Universiteit. In 2001, he successfully defended his PhD thesis on a formal, compositional semantic structure for the dynamics of multi-agent systems. Starting February 2000, he works at the Information Systems Group of the Department of Computer Science, University of Twente, as an Assistant Professor. His research interests include IT governance and alignment of business and IT architectures at the enterprise level.

Jiří Vaníček received his MSc in Mathematics from Charles University in Prague, his PhD in Computer Science from the Czech Technical University in Prague, is a member of the Czechoslovak Academy of Sciences, and is a Professor in Information Management at the Czech University of Life Sciences in Prague. He was a Head of the Software Research Division in the Czechoslovak Research Institute for Computers (1965-1989), Director of the Government Institute for Informatics in Education (1990-1994), Associate Professor for Computer Science at the Czech Technical University in Prague (1994-1997), Professor for Information Management in Department of Information Engineering (deputy head), Faculty of Economics and Management at the Czech University of Life Sciences in Prague (1997-present), and has served as President of the Czech National Technical Standardization Committee for Information Technology since 1990. His research is oriented to mathematical backgrounds of computer science.

Marcus Vogt holds a Master of Information Technology, a Bachelor of Arts in Business Administration, a Diploma in Information Systems, and has recently submitted his PhD thesis in the area of IT-Governance and Emergency Management at Bond University, Australia. Before his academic career, Marcus Vogt has worked as an IT Manager and Business Consultant for several years. He is currently employed as a Research Assistant and Lecturer at Heilbronn University in Germany, where he is involved in multiple European Union funded research projects. In addition, he is working as a Visiting Lecturer for IT-Management at the Baden-Wuerttemberg Cooperative State University. His research interests lie in the application of IT-Governance methods in public administrations and emergency management organizations, as well as the development of domain specific information systems.

Ivan Vrana received his MSc, PhD, and DrSc degrees in Radio Electronics from the Czech Technical University in Prague. Since 1990, he has been a Full Professor and Head of the Department of Information Engineering, Faculty of Economics and Management, at the Czech University of Life Sciences in Prague. His research is oriented to systems engineering and projecting of information systems. Recently, his research priority is group decision making in conditions of ambiguity. He is a Founder and a President of the EUNIS-CZ (European University Systems Organization in Czech Republic).

Roel Wieringa is Chair of Information Systems at the University of Twente, The Netherlands. His research interests include value-based requirements engineering, business process modeling, conceptual modeling, and research methodology for requirements engineering. He is Scientific Director of the School for Information and Knowledge Systems (SIKS) that provides advanced education to all Dutch Ph.D. students in information and knowledge systems. He has been Associate Editor in Chief of IEEE Software for the area of requirements engineering, and serves on the board of editors of the Requirements Engineering Journal and of the Journal of Software and Systems Modelling.
