Index

5.8 GHz circular patch tag 277
3 bits to 2 ternary digits (3B2T) conversion 146

A
adaptive query splitting (AQS) 159
Advanced Design System (ADS) simulation environment 87
agriculture 348
alcoholic beverage industry 229
Aloha-based protocol 134
amplitude shift keying (ASK) 190
analog-to-digital converter (ADC) 273
antenna 223
antenna gain 278
application program interface (API) 104
artificial neural network (ANN) 44
asset management 123
authentication 24
  lightweight 24
  ultralightweight 25
automatic identification and data capture (AIDC) 221
automatic vehicle identification (AVI) 190

B
backend server 3
Backlog estimation 162
bandpass filter 302
Basic Frame Slotted Aloha (BFSA) 161
Bayesian network 43
binary search (BS) 30, 158
binary tree (BT) 134
binary tree splitting (BTS) 159

cancer treatment 346
Centralized Intelligent Healthcare Systems (CIHS) 11
certificate of authenticity (CoA) 80
clausal defeasible logic (CDL) 45
cloning 22
clothing 227
cloud computing 131
collision tree (CT) 138
command dictionary 9
communication tree 22
confidentiality 19
counterfeiting 75, 233
cryptography 34

data acquisition system 339
Data Model for RFID Applications (DMRA) 63
decisive programming language (DPL) 45
defected ground-plane structure (DGS) 274
Denial of Service (DoS) 23
desynchronization 5
diagonistic degradation 333
dipole antenna 317
discovery, configuration, and initialization (DCI) 8
distribution 229
Dynamic Frame Slotted Aloha (DFSA) 29

eavesdropping 21
edgware 102
Effective Isotropic Radiated Power (EIRP) 190, 192, 205
electromagnetic compatibility 212
electromagnetic scattering 78
energy consumption 265
Enhanced Dynamic Frame Slotted Aloha (EDFSA) 162
Enterprise Resource Planning (ERP) 102
enterprise software 101
enzyme-linked immune-sorbent assay (ELISA) 345
Index

EPC number 21
ERN16QT protocol 143
excitation system 336

F
false negative 46
false positive 56
Faraday cage 4
food supply chain 228
Framed Slotted Aloha (FSA) 29
frame-size 185
free space propagation 278, 282
frequency division multiple access (FDMA) 27
frequency modulation unit (FMU) 312
Friis transmission 192, 278
fusion 67

G
general identifier (GID) 166

H
healthcare and pharmaceuticals 231
cell culture 249
drug potency 247
follicle-stimulating hormone (FSH) 243, 248, 263
insulin 247
molecular damage 250
potential RF risks 245
high voltage (HV) 308
hybrid query tree (HQT) 160

I
identification, friend or foe (IFF) transponder 265
inductive-match feed loop 200
information management system (IMS) 18
information privacy 20
integrated circuit (IC) 112, 223
integrated classifier 66
intelligent sensor network 105
intelligent sensors 353
inter-digitated transducer (IDT) 113

J
jamming 21
joined Q-ary tree 169

K
kill command 4

L
line-of-sight (LOS) 190
logistical control and data acquisition (LCADA) 105
low level reader protocol (LLRP) 8

M
malware 6
Manchester code 140
manufacturing 231
Manufacturing Resource Planning (MRP) 102
micro-controller unit (MCU) 83
microstrip 112
middleware 104
monolithic microwave integrated circuit (MMIC) 316
multichannel communication 118
Multiple Input Multiple Output (MIMO) 302
mutual authentication 5

N
nanometrics 224
near field 77
near field (NF) fingerprint 81, 99
non-monotonic reasoning (NMR) 45

P
partial discharge (PD) 305
partial discharge (PD) source 324
patch antenna 302
perfect splitting 168
physical unclonable function (PUF) 76
planar electromagnetic type sensors 353
plausible logic (PL) 45
polymerase chain reaction (PCR) 345
power industry 305
privacy 20
probabilistic cluster-based technique (PCT) 157, 171
proof of concept 107
Pure Aloha (PA) 28

Q
query tree (QT) 159
Index

R
radiation pattern 282
radiation properties (RF) 106
radio frequency identification (RFID) 16, 133
  chip-based 156
  chipless 111
  grouping 33
  middleware 3
tags 2
radiometric detection 309
radio telemetry 303
random splitting 168
ray tracing 209
reader-talk-first (RTF) 28
realttime spectrum analyzer (RSA) 85
replay attack 23
returnable transit item (RTI) 229
return loss 303
RF exposure 242

S
SASI protocol 25
seafood inspection tool (SIT) 346
secured system 19
security properties 2
security threats 3, 16, 20-21
sensors 334
service-oriented architecture (SOA) 131
service sector 232
side channel analysis (SCA) 22
sleep apnea 264, 266, 270, 272, 297
Smart Grid 305
smart sensing systems 340
  food inspection 345
  leather quality 342
  meat quality 340
space division multiple access (SDMA) 27
space time block code (STBC) 303
spoofing 22
stepped impedance resonator (SIR) 312
super high frequency (SHF) 83
supervisory control and data acquisition (SCADA) 105
supply chain 6
Surface Acoustic Wave (SAW) 113, 226, 307

T
tag collision 27, 134, 157
tag information server/base station (TIS/BS) 17
tag sensitivity 192
tag stream 48
tag-talk-first (TTF) 28
task manager (TM) 17
temperature sensing spiral resonator 316
terminals 103
ternary query tree (TQT) 146
thin-film-transistor circuit (TFTC) 112
time division multiple access (TDMA) 28
time domain reflectometry (TDR) 112, 224, 226
T-match 199
transceiver 303
tree splitting (TS) 30, 159

U
ultraviolet (UV) absorbance 250

V
voltage controlled oscillator (VCO) 85, 339

W
warehousing 230
WhereX middleware 111, 120
wireless body sensor network (WBSN) 266
wireless remote PD sensor 311
Wireless Sensor Network (WSN) 183, 305
worst-case splitting 168

X
XMPP protocol 131
