Goran Trajkovski is an assistant professor of computer and information sciences at Towson University (Towson, MD). He holds a bachelor’s degree in applied informatics, a master’s degree in mathematical and computer sciences, and a PhD in the computer sciences from the University of SS Cyril and Methodius in Skopje, Macedonia. As the founder and director of the Cognitive Agency and Robotics Laboratory at Towson University, he advises a number of graduate and undergraduate students in research in learning, agency, developmental robotics, and multi-agent systems. He is an affiliate of the Institute for Interactivist Studies at Lehigh University, and a member of the organizing committee of the biannual Interactivist Summer Institutes. He is chairing the 2006 AAAI (American Association of AI) symposium “Interaction and Emergent Phenomena in Societies of Agents” to be held in October 2006 in Alexandria, VA.
