Index

4-dimensional multiple resources model 128

A
Activity Theory 5, 61, 75, 150, 178, 180, 185, 191-192, 198, 218
affordances of web 2.0 196
andragogy 202-204, 209, 212, 214
Android 213
apps (applications) 220
attitudes 43
Audio Notes 115-116, 118-120
Audio vignettes 96, 98-99, 102, 107
authentic learning 2, 173, 201, 217

B
blended quantitative techniques 44

C
Caerus 27, 63, 75, 110
CAGE system 101, 104
cargo cults 5
central bottleneck 127, 135
chat rooms 285, 288
cloud computing 4
co-creation of knowledge 141
computer-assisted learning 286
Computer supported collaborative learning (CSCL) 179
Computer Supported Collaborative Work 15
correct maps 288, 303, 305
content-centric curriculum 114
defined learning 2
defined-rich authentic settings 77
Contextualised information 97
defined contextual learning environments 215

contingent mobile learning 2
CXC mathematics examination 302

D
Dead-time learning 113
dedicated sensors 82
design of field activity 71
didactic lectures 138
digital divides 4-5, 12
Digital gameplay 255-257
digital literacy practices 254, 257, 268, 280, 283
digitally-aware learners 114
digital natives 30, 139, 144-145, 220, 236-237
divided attention 127-129, 132

E
early academic adopters 117
EdLitLib (AACE) databases 34
educational ‘multitaskers’ 126
English as a foreign language (EFL) 148, 150
environmental independent research 21
evaluation methods 43
experiment studies 16, 18, 20-23

F
formal learning activities 62, 67
for Pedagogic Purposes Special Interest Group 118

G
game-based learning 2, 192, 254-257, 265, 267-268, 270, 301, 314-315
gaming spaces 255, 257
genome-learning activities 61-62, 64, 67
global educational outcomes 144
GoogleDocs 285
GPS receiver 82, 102, 164
grounded theory 318, 320, 333
### Index

**H**
