M. Cecilia C. Baranauskas is Professor at the Institute of Computing, UNICAMP, Brazil. She received a BSc and MSc in Computer Science and a PhD in Electrical Engineering at UNICAMP, Brazil. She spent a sabbatical year as Honorary Research Fellow at the Staffordshire University and as a Visiting Fellow at the University of Reading, UK, working in the Applied Informatics with Semiotics Lab. She also received a Cátedra Ibero-Americana Unicamp-Santander Banespa to study accessibility issues on software engineering at Universidad Politécnica de Madrid, Spain. Her research interests have focused on human-computer interaction, particularly investigating different formalisms (including Organizational Semiotics and Participatory Design) in the analysis, design and evaluation of societal systems. She is leading several projects investigating the use of these formalisms in design contexts of e-Citizenship and e-Inclusion. Former IFIP TC13 representative, currently she is member of the BR-CHI (an ACM SIGCHI local chapter) Executive Council and member of the Special Committee for HCI at SBC (Brazilian Computing Society). Publications and the complete curriculum vitae can be accessed at http://lattes.cnpq.br/1750385790843118.

Benedetta Bellò earned a PhD in psychology of organizations. She currently has a temporary research contract with the department of economic and business science at the University of Cagliari, Italy, financed by Sardinia Region. Her research interests include mentoring in the workplace, organizational socialization process, organizational and individual performance evaluation.
**About the Contributors**

**Nitesh Bharosa** received his PhD from the Delft University of Technology where he currently works as a research associate. His research interests include standard business reporting and information quality assurance in networks. His work has appeared in several journals including Decision Support Systems, Information Systems Frontiers and the Journal of Cognition, Technology and Work.

**Jaijit Bhattacharya** is an Adjunct Faculty at Department of Management Studies, Indian Institute of Technology (IIT) Delhi. He heads the Oracle-HP E-Governance Centre of Excellence at Oracle Corporation, which is a joint initiative of Oracle India and HP India in partnership with PricewaterHouseCoopers, Red Hat, NIC, CMC, Sify and IIIT Bangalore. The center focuses on E-Governance issues of South Asia and South-East Asia. He also advises governments on E-Governance strategies and has conducted workshops to enable government departments create their own E-Governance roadmap. Prior to this he has been the Country Director (Government Strategy) at Sun Microsystems, India. He did his Ph.D. in Computer Science from India Institute of Technology, Delhi prior to which he obtained his MBA from Indian Institute of Management, Calcutta and B. Tech in Electrical Engineering from Indian Institute of Technology, Kanpur. Jaijit is co-author of the book ‘Government On-line - Opportunities and Challenges’, published by Tata McGraw Hill. The book focuses on providing E-Government decision makers the information they need to architect a roadmap for the implementation of E-Governance projects. He has authored numerous papers and books on e-Governance and is an e-Governance Advisor to Government of Sri Lanka and to Government of Karnataka.

**Andres Dijkshoorn** is trainee Research Assistant and Ph.D. candidate in the Faculty of Social Sciences (Comparative Public Service Innovation research group) at Erasmus University Rotterdam. His research focuses on the diffusion of personalization in Dutch municipal e-government initiatives. Dijkshoorn has contributed to various books and research reports and has published various papers in national and international conference proceedings.

**Yogesh K. Dwivedi** is a senior lecturer in information systems and e-business at the school of business and economics, Swansea University, Wales, UK. He obtained his PhD and MSc in Information Systems from Brunel University, UK. He has co-authored several papers which have appeared in international referred journals such as CACM, DATA BASE, EJIS, ISJ, ISF, JCIS, JIT, JORS, and IMDS. He is Senior Editor of DATA BASE, Assistant Editor of TGPPP, Managing Editor of JECR and member of the editorial board/review board of several journals. He is a member of the AIS and IFIP WG8.6. He can be reached at ykdwivedi@gmail.com.

**Ramzi El-Haddadeh** is a full time faculty in the Business School at Brunel University, UK. He holds a PhD in data communication and information technology and has a multi-disciplinary research background in this field. His current research interests include electronic-government implementation, adoption and diffusion and information-security management. He currently serves as the Managing Editor for the International Journal of Electronic Government Research. He is currently an investigator in several European Commission-funded research projects on technology usability and adoption.

**Kostas Ergazakis** is a Senior Researcher at the School of Electrical and Computer Engineering, National Technical University of Athens, Greece.
**Gisela Gil-Egui** is an Associate Professor of Communication at Fairfield University (Connecticut, U.S.A.), where she teaches courses on mass media, new information technologies, and international communication. She obtained her Master’s (1999) and Ph.D. (2005) degrees from Temple University in Philadelphia, PA. She also holds a Bachelor’s degree in Journalism from Central University of Venezuela (1992). Her research focuses on telecommunications policy, e-government, international media, and institutional regimes for the governance of information and communication technologies, with an emphasis on issues related to universal access and the boundaries between private and public domains. Her scholarly work includes a number of book chapters and articles in prestigious communication journals, including *New Media & Society, International Communication Gazette*, and *Information, Communication & Society*.

**Doug Goodman, PhD** is an associate professor of public affairs in the School of Economic, Political, and Policy Sciences at the University of Texas at Dallas. Prior to relocating to the University of Texas at Dallas he was an associate professor and the graduate coordinator for the Department of Political Science & Public Administration at Mississippi State University. His articles appear in such journals as: *American Review of Public Administration, Review of Public Personnel Administration, Human Resource Development Quarterly, Political Research Quarterly, and Public Budgeting & Finance*.

**M. P. Gupta** is Professor and Chair-Information Systems Group & also Coordinator-Centre for Excellence in E-gov at the Department of Management Studies, Indian Institute of Technology Delhi (IIT Delhi), India. His research interests lie in the areas of IS/ IT planning and E-government. Prof. Gupta has authored the acclaimed book ‘Government Online’ and edited two others entitled ‘Towards E-Government’ and ‘Promise of E-Government’, published by McGraw Hill, 2005. His research papers have appeared in National and International Journals/Conference Proceedings. He was the recipient of the prestigious Humanities & Social Sciences (HSS) fellowship of Shastri Indo Canadian Institute, Calgary (Canada) and a Visiting Fellow at the University of Manitoba. He supervised e-government portal ‘Gram Prabhat’ which won the IBM Great Mind Challenge Award for the year 2003. He has steered several seminars and also founded the International Conference on E-governance (ICEG) in 2003 which is running into its seventh year. Under the umbrella of ICEG, more than 11 edited volumes have been released which are now available freely at www.iceg.net/2009/. He has guided several policy making committees on ICT in the Centre and State Governments in India. He is on the jury of Computer Society of India (CSI) E-gov Awards and also a member of Program Committee of several International Conferences. He is life member of Global Institute of Flexible Systems Management (GIFT), Systems Society of India (SSI) and Computer Society of India (CSI).

**Vincent Homburg** is Associate Professor in the Faculty of Social Sciences (Comparative Public Service Innovation research group) at Erasmus University Rotterdam, the Netherlands. Homburg edited *The Information Ecology of E-Government* (IOS Press, 2005, together with Victor Bekkers) and *The New Public Management in Europe* (Palgrave MacMillan, 2007, together with Christopher Pollitt and Sandra van Thiel) and published *Understanding E-Government* (Routledge, 2008). He has furthermore published over forty book chapters and articles in national and international journals (among others *The Information Society, International Journal of Public Administration, Information Polity*) focusing on electronic government and public management.
Heiko Hornung is currently a PhD candidate at the Institute of Computing in the University of Campinas, UNICAMP, Brazil. He holds a diploma in business informatics from Darmstadt University of Technology, Germany, and a master’s degree in computer science from UNICAMP. His research interests span topics such as e-government, e-inclusion, interaction design, electronically-mediated human-human interaction, and universal access to information and knowledge. Publications and the complete curriculum vitae can be accessed at http://lattes.cnpq.br/ 5675803251363596.

Mark J. Hughes is head of collections at Swansea University’s ‘information services and systems’ department. He has significant experience of implementing RFID projects in libraries, and is co-author of the ‘Tendering for RFID Systems: A Core Specification for Libraries’ paper jointly published by BIC and the NAG. He has also authored numerous journal articles on both RFID and Open Source systems for libraries. He can be reached at m.j.hughes@swansea.ac.uk.

Joris Hulstijn received his PhD from the University of Twente. He has published about natural language processing, multi-agent systems, artificial intelligence and law, and e-government. He is coordinating the Compliance Management master’s programme at Delft University of Technology. His current research is concerned with the development of information systems to support compliance management.

Vikas Jain completed his Ph.D. from The George Washington University and is a graduate from Indian Institute of Technology, New Delhi, India. Vikas currently serves as Assistant Professor at the ITM department of The University of Tampa. His research interests include business value of information systems, post-adoptive information systems use, enterprise systems, and electronic government. He has worked for nearly 12 years in IT industry in different areas ranging from software development, IT market research and consulting, and e-learning. He has served as a special issue guest editor for Electronic Government: An International Journal, Journal of Global Information Technology Management (JGITM), and Journal of Organization and End User Computing. He also serves as an editorial review board member for International Journal of Electronic Government Research.

Marijn Janssen is an associate professor within the information and communication technology section and director of the interdisciplinary SEPAM master programme of the faculty of technology, policy and management (TPM) at Delft University of Technology. He serves on several editorial boards (including International Journal of E-Government Research, International Journal of E-Business Research, Government Information Quarterly and Information Systems Frontiers), has conducted and managed several research projects and is involved in the organization of a number of conferences. His research interests are in the field of e-government, business process management infrastructures, design, orchestration and shared services. He was ranked as one of the leading e-government researchers in 2009 and published over 200 refereed publications.

Shivraj Kanungo is currently Associate Professor in the Decision Sciences department at George Washington University’s School of Business. His research interests include evaluating Information System value, IT for social development, decision support systems, software engineering and process improvement, and organizational culture. Prof. Kanungo holds a Ph.D. from The George Washington University and his masters and bachelors degree are from Southern Illinois University and Birla Institute
of Technology and Science respectively. Dr. Kanungo is a successful consultant and has published four books. His latest book, CMMI Implementation: Embarking on High Maturity Practices, was co-authored with Asha Goyal from IBM.

**Kawal Kapoor** is a PhD candidate in the school of business and economics at Swansea University, Wales. She has her bachelor’s in industrial engineering and management from JSSATE, India. She is a master of business administration and has her MBA degree awarded from Swansea University, Wales. Her ongoing PhD research is on the Diffusion of Innovations. She carries three years of work experience in the IT industry, as a software engineer with Accenture Services Private Limited, India. She can be reached at kawalkap@gmail.com.

**Banita Lal** is a lecturer in the Nottingham Business School, Nottingham Trent University, UK. She obtained her Ph.D. and M.Sc. in Information Systems from the School of Information Systems, Computing and Mathematics, Brunel University. Her research interests involve examining the individual and organizational adoption and usage of ICTs and technology-enabled alternative forms of working. She has published several research papers in internationally refereed journals such as Industrial Management and Data Systems, Information Systems Frontiers, Electronic Government, International Journal of Mobile Communications, and Transforming Government: People, Process and Policy, and has presented several papers at several international conferences. She can be reached at banita.lal@ntu.ac.uk.

**Drakoulis Martakos** is an Associate Professor at the Department of Informatics and Telecommunications at the National and Kapodistrian University of Athens. He received his B.Sc. in Physics, MSc in Electronics and Radio Communications, and Ph.D. in Real-Time Computing from the same university. Professor Martakos is a consultant to public and private organizations and a project leader in numerous national and international projects. He is author or co-author of more than 100 scientific publications and a number of technical reports and studies.

**Alissa M. Mebus** is a Marketing and Communications Associate at Symmetry Partners, LLC, a turn-key asset management program provider located in Glastonbury, Connecticut. She has also conducted research surrounding the relationship between the natural environment and big business. As an undergraduate student, her submission “Corporate Social Responsibility and the Fortune 100: Evidence for Environmental Themes” was accepted to the National Communication Association (NCA). Alissa graduated Magna Cum Laude from Fairfield University in 2009 with a Bachelor of Arts in Communication and English.

**Nigel Martin** is a Senior Lecturer in the School of Accounting and Business Information Systems within the College of Business and Economics at the Australian National University, and specialises in the theory and practice of corporate strategy, e-Government, IT innovation, enterprise systems architecture, and operational business management. He obtained his PhD in the area of enterprise architectures from the Australian National University in 2005.

**Kostas Metaxiotis** is Assistant Professor at the Department of Informatics, University of Piraeus.
Jeremy Millard is senior consultant with the Danish Technological Institute and associate research fellow at Brunel University, UK. He consults and teaches on technology and society in Europe and globally, and has worked with governments, regional agencies, and private and civil sectors worldwide. His clients also include the European Commission, the UN, the OECD and the WB. In addition to Europe, he works in Asia, the Middle East and Africa. Recent assignments for the European Commission include the European eGovernment annual benchmark, leading an impact assessment of the European eGovernment 2010 Action Plan, leading a large scale Europe-wide survey and analysis of eParticipation, and developing the eGovernment 2020 Vision Study on Future Directions of Public Service Delivery. He is currently working as an expert for the UN on the global eGovernment development survey, and for the OECD on back-office developments in support of user-centred eGovernment strategies.

Andreea Molnar is a Research Fellow at Brunel Business School. Prior to joining Brunel University, she has been a Research Associate at City University London, School of Health Sciences. She holds a PhD from National College of Ireland and MSc. in Modelling and Simulation from Babes-Bolyai University, Cluj-Napoca, Romania.

Amitabh Ojha is a senior civil servant with Government of India and currently on study leave to Indian Institute of Technology Delhi for his doctoral studies. He has held various important positions on Indian Railways, in the areas of electrical engineering, information systems, and general administration. In addition, he has had tenures as a Second Secretary at High Commission of India, London and as a Director with Ministry of Development of North Eastern Region, New Delhi. Mr Ojha holds a bachelors in electrical engineering (with gold medal) and a masters in software engineering from National Institute of Technology, Allahabad, India. His current research interest is in the areas of e-government adoption, effect of e-government on citizens’ trust in government agencies, and administrative reforms through e-government. His research has appeared or is forthcoming in Transforming Government: People, Process and Policy and in edited volumes of International Conference on E-Governance.

Craig P. Orgeron, PhD currently serves as the Director of Strategic Services for the Mississippi Department of Information Technology Services (ITS). He has participated in numerous government information technology task forces and committees, such as the Digital Signature Committee, the Electronic Government Task Force, and the Governor’s Commission on Digital Government, which led to the implementation of the enterprise electronic government in Mississippi. Dr. Orgeron holds a Ph.D. in public policy and administration from Mississippi State University. Dr. Orgeron is a certified public manager and a graduate of the Senator John C. Stennis State Executive Development Institute, as well as the Institute on International Digital Government Research, and the Harvard University, John F. Kennedy School of Government Executive Education Series, Leadership for a Networked World.

Nripendra P. Rana is a PhD candidate at school of business and economics, Swansea University, UK. He holds a BSc in Mathematics (Hons.), an MCA, an MTech, and an MPhil degree from Indian universities. He also holds an MBA with distinction from Swansea University, UK. He is currently working in the field of e-Government adoption and diffusion as a part of his PhD research. He has varied work experience of teaching in the area of computer engineering and applications at undergraduate and postgraduate levels. He also possesses a good experience in the field of software development. He can be reached at nrananp@gmail.com.
About the Contributors

Subhajyoti Ray is an Associate Professor at the Xavier Institute of Management, Bhubaneswar, India. Dr. Subhajyoti Ray has done his master in Statistics at the Indian Statistical Institute and obtained PhD from Indian Institute of Management, Ahmedabad. His main area of research is eGovernment in developing countries. Prior to joining the academic profession he has worked for nearly 10 years in the central bank of the country.

John Rice is the Chief Researcher at the National Centre for Vocational Education Research in Australia. Dr Rice is a recognised expert and academic in the field of management, and specialises in the theory and practice of corporate strategy, innovation, and telecommunications services development. Dr Rice has a Bachelors degree in Business from QUT, Masters degrees from QUT and Griffith University in Brisbane and a PhD from Curtin University in Perth. His PhD investigated the emergence of alliance strategies by the multinational high technology firms Nokia and Ericsson.

G. P. Sahu is working as an Assistant Professor at the School of Management Studies, National Institute of Technology, Allahabad, India and has more than ten years of teaching and research experience. He obtained his PhD degree from Indian Institute of Technology (IIT) Delhi. His research interests are in the areas of MIS and E-Government. His research has appeared or is forthcoming in *International Journal of Electronic Governance, International Journal of e-Government Research (IJEGR), Transforming Government: People, Process and Policy*, and in edited volumes of various conference proceedings. He has coordinated several international conferences such as “5th International Conference on E-governance (ICEG 2007) at Hyderabad Central University, Hyderabad”, “ICEG 2006 at IIT Delhi”, an International Conference on “Integrating World Market-Living Excellence through Technology and Beyond...” (January 5-6, 2002). He has also edited books on “Integrating World Market” in 2002, “Delivering E-Government” in 2006, and “Adopting E-Governance” in 2008. He was the Program Chair of the 6th International Conference on E-Governance, ICEG 2008 (18-20 December, 2008) at New Delhi, India. Dr. Sahu is a member of the Editorial Review Board of IJEGR and has guest edited international journals. He is also on the jury of CSI – Nihilent E-Governance Award. Email: gsahu@mnnit.ac.in.

Mohamad Hisyam Selamat is a lecturer in the College of Business, Universiti Utara Malaysia. He obtained his doctorate degree (PhD) on ‘Developing Individuals for Developing Learning Based Systems’ from Brunel University. He is the principal of student residential hall and a member in the university’s research, postgraduate, publication, and administration committees. His current research encompasses the diffusion and adoption of broadband technology, the usability of electronic government web sites, the social aspects of information systems, knowledge management, organisational learning, outsourcing and electronic commerce. He has more than 30 papers in academic journals and international conferences on these topics. He can be reached at hisyam@uum.edu.my.

Sarah C. Sherrier graduated Cum Laude from Fairfield University in May 2009. She majored in Communication: Media Studies with a Minor in Mathematics. She is a member of the Communication Honors Society, Lambda Pi Eta, and Mathematics Honors Society, Pi Mu Epsilon. Sarah used her skills from both areas of her studies to research and compile organizational charts needed for this project. She began her professional career at a media agency in Manhattan, OMD, as an Assistant Print Analyst managing the media plans for various clients. Sarah is now working as an Account Executive for the OMD marketing agency, Green Room Entertainment.
Mohini Singh is professor of information systems at the school of business information technology at RMIT University in Australia. She earned her PhD from Monash University and has published widely in the areas of E-Business and New Technology and Innovation Management. Her publications comprise books, book chapters, journal and conference papers. She serves as a member on the editorial boards of a number of journals and co-chairs tracks on e-government and IT diffusion at a number of international conferences. The focus of her current research is on the diffusion of Web 2.0 technologies in business organisations, mobile technologies and e-government. She can be contacted at mohini.singh@rmit.edu.au.

Maddalena Sorrentino researches in organization theory and eGovernment at the department of economics, business and statistics at the University of Milan, Italy. She has written and edited several books and her articles have been published in a number of international journals and conference proceedings. She is also advisor to public institutions on themes related to organizational development.

Alessandro Spano is associate professor of public sector accounting and management at the department of economic and business science at the University of Cagliari, Italy. His research interests include management control systems, information systems, and performance measurement and evaluation.

T. Stamati has obtained a Degree in Computer Science from National and Kapodistrian University of Athens (Greece) in 1998. She also holds an MPhil Degree in Enterprise Modelling Techniques from University of Manchester Institute of Science and Technology (UMIST) (UK) and an MBA Degree from Lancaster University Business School (UK). She has extensive experience in top management positions in leading IT companies of the Greek and European private sector. She is currently Research Fellow at the Department of Informatics and Telecommunications of National and Kapodistrian University of Athens. Her current research interests include information systems, electronic government, systems migration, design and evaluation of methodological approaches for electronic services evolution and IT security.

Rakhi Tripathi is currently a Doctoral student at School of Information Technology, Indian Institute of Technology Delhi (IIT Delhi). Her specific area of research is ‘Achieving Interoperability for a One-stop Government Portal in India’. She has previously worked as a Project Scientist for two years under the project ‘Establishment of Nation-wide QoS Test-bed’ at Department of Computer Science, Indian Institute of Technology Delhi. Prior to that, she obtained MS (Computer Science) in 2003 from Bowie State University, (University of Maryland, USA).

Tassos Tsitsanis is a PhD Student at the School of Electrical and Computer Engineering, National Technical University of Athens, Greece.

William F. Vásquez is an Assistant Professor of Economics at Fairfield University (Connecticut, U.S.A.), and specializes in development and environmental economics. He holds M.A. and Ph.D. degrees in Economics from the University of New Mexico. He has worked as a consultant for the International Food and Policy Research Institute (IFPRI), the United Nations Development Program (UNDP), the United Nations Economic Commission for Latin America and the Caribbean (ECLAC), and the Central American Institute of Fiscal Studies (ICEFI). His research interests include provision of public services (e.g. education, drinking water, e-government, and agricultural services), and their connection with environmentally sound policies. His research has been published in several economic and policy journals.
**Remco van Wijk**, Msc, graduated from the University of Greenwich. He is research and innovation coordinator at Thaurus and is conducting a PhD research on quality assurance in lawmaking processes. He published a book research on the lawmaking process of the Dutch government. He published papers in the proceedings of several international conferences including AMCIS, ICEGOV, DGO and EGOV.

**Janet Williams** is a senior lecturer at the University of Glamorgan Business School. She holds BSc (Econ) and MSc (Econ) from Cardiff University. Her research interests are focused upon the social, economic and organisational implications of technological change, and utilisation of the internet.

**Michael D. Williams** is a professor in the school of business and economics at Swansea University in the UK. He holds a BSc from the CNAA, an MEd from the University of Cambridge, and a PhD from the University of Sheffield. He is a member of the British Computer Society and is registered as a chartered engineer. Prior to entering academia Professor Williams spent twelve years developing and implementing ICT systems in both public and private sectors in a variety of domains including finance, telecommunications, manufacturing, and local government, and since entering academia, has acted as consultant for both public and private organizations. He is the author of numerous fully refereed and invited papers within the ICT domain, has editorial board membership of a number of academic journals, and has obtained external research funding from sources including the European Union, the Nuffield Foundation, and the Welsh Assembly Government. He can be reached at m.d.williams@swansea.ac.uk.

**Niels de Winne**, Msc, graduated from the faculty of technology, policy and management (TPM) at Delft University of Technology. He also holds an EMITA (IT-auditing) degree. He is conducting his PhD research on public-private information exchange on the edge of technology, organization and governance. He has published papers in the proceedings of several international conferences including ICEGOV, DGO and EGOV.
