About the Contributors

Mehdi Khosrow-Pour (DBA) received his Doctorate in Business Administration from the Nova Southeastern University (FL, USA). Dr. Khosrow-Pour taught undergraduate and graduate information system courses at the Pennsylvania State University – Harrisburg for 20 years where he was the chair of the Information Systems Department for 14 years. He is currently president and publisher of IGI Global, an international academic publishing house with headquarters in Hershey, PA (www.igi-global.com). He also serves as executive director of the Information Resources Management Association (IRMA) (www.irma-international.org) and executive director of the World Forgotten Children’s Foundation (www.world-forgotten-children.org). He is the author/editor of over twenty books in information technology management. He is also the editor-in-chief of the Information Resources Management Journal, the Journal of Cases on Information Technology, the Journal of Electronic Commerce in Organizations and the Journal of Information Technology Research and has authored more than 50 articles published in various conference proceedings and journals.

***

Asem Abdul-Malak is a Professor of Engineering Management at the American University of Beirut. He earned a BS in Civil Engineering from Beirut Arab University, and Master and PhD in Construction Management from University of Texas at Austin in 1986 and 1990 respectively. His research interests include Construction management, decision support tools for project and construction management, construction planning and scheduling, cost estimating and bidding for construction, administration and resolution of construction claims and disputes, materials management for large construction projects, and work process design for engineering and construction enterprises.

Amit Agrahari is an Assistant Professor of Information Systems at the Indian Institute of Management, Lucknow. Before joining IIM Lucknow, he worked with
Infosys Technologies Ltd for over two years as a member of its research lab and worked on Business Process Management. He is a Fellow of XLRI Jamshedpur, India. He has published in *Journal of e-Commerce in Organization, Journal of Internet Commerce* and has co-edited a book titled “e-Procurement in Emerging Economies: Theory and Cases” published by Idea Group Publishing, USA.

**Tushar Agrawal** is a management graduate from Shri Shankaracharya Group of Institutions, India.

**Sami Akabawi** is a professor of Information Systems in the Management Department, School of Business at the American University in Cairo, Egypt, since 1983. Akabawi has been active participant in the local and regional business community in the capacity of ICT consultant and advisor to many institutions. During his career, he has provided extensive professional consultancy services to many Egyptian and regional industrial and trading organizations for the development, use, and adoption of ICT and information systems within their management and operational business processes. Akabawi’s current research interests cover the architecting, design, development, and implementation of ICT infrastructures; adoption and institutionalization of enterprise systems; impacts of the use of ICT artifacts on the human agency’s behavior particularly in developing countries environment. He holds a Ph.D. in Computer Science from the City University, London (1977), a Master of Science in Computer Science from London University (1973), and a Bachelor of Science in Industrial Engineering from Cairo University (1967).

**Ramazan Aktas** is Professor and Chair of Business Administration Department at TOBB University of Economics and Technology. He has over 25 years’ experience teaching graduate and undergraduate business courses including financial management, financial analysis, entrepreneurship, and introduction to business. He has taught many seminars to businesspeople on subjects like financial statement analysis, financial mathematics, risk management, SMEs, entrepreneurship, et cetera. He is also the director of the Continuing Education Center of TOBB University of Economics and Technology. His interest areas are corporate finance, financial markets and institutions, investment and portfolio analysis, and SMEs analysis. Prof. Aktas holds a B.S. in Business Administration from Military Academy, Ankara-Turkey, a Master’s degree in Middle East Technical University, Ankara-Turkey, and a Ph.D. in Business Administration from Ankara University, Political Science Faculty. He has written 7 books and many articles in business publications.

**Mustafa Al Shawi** is a Professor of IT in Construction at the University of Salford. He holds many international advisory posts in various countries and a consultant to
the World Bank. He is also the Editor in Chief of the international journal *Construction Innovation: Information, Process, Management* and the author of more than hundred publications in fields such as integrated computer environments, databases, object oriented databases, IT strategies, CAD, planning automation, and IS success factors. Professor Alshawi is the founder of five innovative postgraduate courses ranging from PG Diploma, MSc, Master of Research, and PhD (without residence). His leading work in management of information in collaborative environments, integrated databases in construction and computer integration are internationally known. His computer environments, such as SPACE and WISPER, have set up a vision for future work practices, which enable different professionals to share and exchange project information.

**Tanja Arh** graduated of Computer Science at the Faculty of Organizational Sciences, University of Maribor. She obtained her Master’s degree at the Faculty of Organizational Sciences, University of Maribor. She is a PhD candidate at Faculty of Economics, University of Ljubljana. She works in Laboratory for Open Systems and Networks at Jožef Stefan Institute as a researcher in the field of e-learning and organizational learning. Her current research is performed mostly for European-wide research programmes (GLOBAL, iCoper, e4VET, etc.) with focus on e-learning, applications of ICT in education, education and transfer of knowledge, human resource development and organizational learning. Tanja Arh is member of Executive Board of Slovenian Project Management Association. She is Technical editor of Slovenian scientific journal Project Management Review.

**Aliaa Bassiouny** holds a BBA as well as an MBA, both with a specialization in finance from the American University in Cairo. She is currently a PhD candidate at ESADE Business School. Ms. Bassiouny has played a variety of roles at AUC. She has delivered several training modules in executive financial training programs as well as teaches undergraduate finance courses. Ms. Bassiouny is also involved with a variety of financial research and has worked as research associate in the finance unit on research papers as well as case studies.

**Borka Jerman Blažič** is working as a head of the Laboratory for Open Systems and Networks at Jožef Stefan Institute, Slovenia and as a full professor at the University of Ljubljana, Faculty of Economics in Slovenia. The main field of applications and research are computer communications, internet technologies, security in networking, privacy and internationalisation of Internet services, etc. She is a member of many professional associations and is appointed expert to UNECE UN (Economic Commission for Europe), appointed member of UNECE/CEFAT Team of specialist on Internet enterprise development, appointed member of eTEN
management committee of EU, member of FP7 PC on security, chair of the Execom
of the Internet Society of Europe (www.isoc-ecc.org), member of New York Acad-
emy of science 1999, IEEE, ACM, distinguished member of Slovene Society for
Informatics, member of IEEE on Computers, ACM. She is also chair of Slovenian
Standardisation Committee on ICT as well as chair of the Slovenian chapter of
Internet Society and a member of the European ICT Standardisation Board. She is
holding Plaque of appreciation of Thai branch of IFIP and ACM for her services in
Internet development. She has published more than 80 papers in refereed journals,
154 communications scientific meetings, 15 chapters in scientific books, 6 books
and other 142 non-classified contributions.

Linda L. Brennan is a professor of management at Mercer University in Macon.
She conducts research and consults in the areas of technology impact assessment,
process and project management, and instructional effectiveness. Her most recent
book, Computer-Mediated Relationships and Trust: Organizational and Manage-
rial Implications, was published by IGI Global in 2008. Dr. Brennan’s prior work
experience includes management positions at The Quaker Oats Company and mar-
keting and systems engineering experience with the IBM Corporation. A licensed
professional engineer, she received her Ph.D. from Northwestern University, her
MBA from the University of Chicago, and her B.I.E. from the Georgia Institute of
Technology.

Alessio Maria Braccini (1977, Italy) is a PhD Research Fellow at the CeRSI
research center of the LUISS Guido Carli University in Rome, and he teaches Infor-
mation Systems Management at the Faculty of Economics of the same University.
In the past years he has been actively involved in research activities managed by
the CeRSI research center. As author or co-author, he has published research papers,
books, and book chapters (the full list is available at http://www.cersi.it/abracci-
cini). His research appeared on the Communications of AIS, VINE – The Journal
of Knowledge Management Systems, and the International Journal of Electronic
Commerce Studies. His current research interest, besides information systems for
archaeology, concerns the assessment of IT business value, and the impact that ICT
might have on organizational behaviour of digital natives.

Vlado Dimovski is a full professor of management and organizational theory
at the University of Ljubljana, Faculty of Economics in Slovenia. He holds B.A.
degrees in Economics and Philosophy, M.A. in Economics, and Ph.D. in Manage-
ment and Finance. As an academician Dimovski has taught and researched at various
universities and institutions, and has published numerous articles in recognized jour-
nals. His academic research interests cover learning organization, competitiveness,
corporate strategy, developing knowledge-based organizations, and labor markets. Besides his university position, professor Dimovski was the State Secretary for Industry (1995–97), the president of the Center for International Competitiveness (1997–2005), and Minister for Labor, Family and Social Affairs (2000–2004).

**Ibrahim El-Khatib** is the head of the Structural Engineering Department at XYZ and has a PhD in Structural Engineering.

**Nourhan El-Mougi** works in the Marketing Research field, passionate of analyzing figures to identify innovative market opportunities. She holds great enthusiasm in helping others learn and grow. She started her career as a Teaching Assistant in Statistics, Calculus and other related topics while working on her MBA degree. She joined TNS Global, Marketing Research Agency, in 2008 for 2 years. In that time, attained TNS Special Award for excellent performance, and was nominated for TNS Research Knowledge Box (TKB) among a group of TNS worldwide nominees. Recently, she joined Vodafone as a Consumer Insight Senior Specialist focusing on the understanding, analysis and opportunity identification of the Consumer segment. Nourhan holds a Bachelor degree in Statistics from Cairo University with grade of Very Good with honors, and an MBA from AUC with GPA 3.52. She is passionate of horse-riding, traveling and embracing new experiences.

**Anna Filipi** at the time of writing, was a Senior Research Fellow at the Australian Council for Educational Research and Project Director for the Assessment of Language Competence certificates. Her research interests include the application of the findings and methods of Conversation Analysis to the study of language acquisition (both First and Second) and spatial language as well as her more recent interest in online interactions in a work setting. She is also interested in bilingualism and teacher education. She is currently living in Switzerland where she continues to work as a Consultant for ACER.

**Tommaso Federici** (1960, Italy) is adjunct professor of Information Systems Management and Organization Theory at the University of Tuscia, in Viterbo, Italy. He has also taught at other universities (University “La Sapienza” and LU-ISS G.Carli University, in Rome, Italy) and Schools of management. As author or co-author, he published papers, articles and books (a list of them is available at: www.tommasofederici.it). He is fascinated by the innovation process, particularly when a new IT artifact is introduced for the first time into a class of organizations. This is a frontier territory to be understood according to multiple perspectives and by following a multi-disciplinary approach. Beside the innovation in the archaeological sector, other recent research domains are: e-procurement and FLOSS, both
regarded as boosters to foster organizational change in the public sector, and the ERP introduction in the SMEs segment.

**Harald Fardal** is an Assistant Professor Vestfold University College. His research focuses on the processes involved in IT/IS strategy development and in IT/IS projects, and especially on how the competence of end users can strengthen these processes. Fardal teaches courses in IS-management and methodology.

**Ahu Genis-Gruber** is Assistant Professor in Business Administration Department at TOBB University of Economics and Technology where she teaches organizational theory, organizational behavior, management theories, cross cultural management, and human resource management. Her interest areas are international management, cross cultural management, merger and acquisitions, and e-commerce. Dr. Genis-Gruber holds a B.S. in Labor Economics and Industrial Relations from Ankara University, Political Science Faculty, a Master’s degree (Mag.rer.soc.oec.) in Social and Economic Sciences from Johannes Kepler University, Linz-Austria and a Ph.D. (Dr.rer.soc.oec.) in Social and Economic Sciences from Johannes Kepler University, Linz-Austria.

**Fabian Gruning** studied computer science at the University of Oldenburg, Germany. From 2005 on he started to work as a research assistant at the OFFIS - Institute for Information Systems both in third party founded projects as well as teaching. He currently finishes his PhD-Thesis “Data Quality Management for the Utility Domain” which contains a process model for data quality management that is adjusted to meet the requirements companies of the utility domain have for efficient application of a data quality management in the specific domain. It is accompanied by a supporting tool that automizes the steps of the process model.

**Sumeet Gupta** is heading the Department of Business Administration at Shri Shankaracharya Institute of Technology and Management, India. He received PhD (Information Systems) as well as MBA from National University of Singapore. He also worked as a research fellow with The Logistics Institute – Asia Pacific, Singapore, where he worked on consultancy projects with SAP A.G., DFS Gallerias, ASEAN secretariat, and EDB Singapore. He has published several papers in top tier international journals (*Decision Support Systems, International Journal of e-Commerce, European Journal of Operations Research, Information Resources Management Journal, Information and Management, Psychology and Marketing, Electronic Markets, and Omega-An International Journal of Management Science, International Journal of Electronic Business*) and Conferences (International Conference of Information Systems, AMCIS, ECIS, AOM and POMS. He has re-
About the Contributors

cieved Accredited Management Teacher Certification from All India Management Association, India. His research interests are in supply chain management, virtual community, Internet security and privacy, as well as technology adoption.

**Bogdan Hoanca** is Associate Professor of Management Information Systems at the University of Alaska Anchorage (UAA). Before that, he co-founded, started up and sold a company that builds components for fiber optic communications. He also helped start and consulted with a number of other startup companies in optical fiber communications. Bogdan received a Ph.D. in Electrical Engineering from the University of Southern California in 1999. Prof. Hoanca authored and co-authored two case studies, two patents, ten journal papers, eight book chapters and more than thirty conference papers. His current research interests include information security, e-learning and societal implications of technology.

**Inge Hermanrud** holds an Associate Professor position at Hedmark University College, Norway where he teaches courses in Strategy, IT, Communication and Innovation. His research focuses on ICT use in knowledge sharing and organizational learning.

**Heba Hodeeb** was born in November 1st, 1983. She graduated with highest honors from the American University in Cairo with major in Business Administration, concentrating in Marketing and a minor in Economics. During her undergraduate studies, she participated as a delegate in the International Student Leadership Conference. After her graduation, she started her career in a multinational beverage company located in Cairo and worked as a Sales Analyst and Project Coordinator for three years. She was then chosen to be an elected pioneer of Mohammed Bin Rashid Al Maktoum scholarship in order to pursue her MBA studies at the American University in Cairo. She is currently married and has children.

**Bo Hu** is a researcher in SAP Research (CEC Belfast). He received his PhD in Computer Science from the Robert Gordon University, Aberdeen in 2004. Between 2002 and 2008, He worked as a Research Fellow in the Intelligence, Agent, Multimedia Group (IAM), School of Electronics and Computer Science, University of Southampton. His main research interest is in knowledge management, Semantic Web, context modelling and context awareness, and the application in e-learning and e-healthcare.

**Dolly Jaisinghani** is a management graduate from Shri Shankaracharya Group of Institutions, India.
**About the Contributors**

**Saket Jhunjhunwala** is a management consultant working with Accenture, Mumbai in their retail vertical. Before joining Accenture, he worked with Reliance Retail Limited (RRL), one of the leading and biggest retailers in India. In RRL he was responsible for creation of standard operation procedures for store operations used across the formats of Reliance Retail India. He has more than six years of experience, overall eight years, on Business Process Management and Process Reengineering and has worked with Ernst & Young India Limited and Infosys Technologies Limited among others. He holds a masters degree in management and a bachelors in science.

**Yannis Kalfoglou** is a Technology Innovation Consultant with RICOH Europe Plc, and a Visiting Senior Research Fellow with the University of Southampton. He has published extensively in the field of semantic interoperability and integration and he is a pioneer in ontology mapping technology. He holds a PhD in Artificial Intelligence from the University of Edinburgh and several years post doctoral experience in the field of Artificial Intelligence, Knowledge Engineering and Management and the Semantic Web. He participated in national and international funding programmes on the use of AI technologies on the Web. He led industrially funded projects on the provision of services in the field of semantic interoperability. He participates in several programme committees for national and international research consortia and he has consulted venture capitalist funds on the use of semantic technologies.

**Aundrea Kell** attended the University of Alaska Fairbanks, earning a BA in sociology. She will graduate with an MBA from the University of Alaska Anchorage in 2009. Ms. Kell is an MIS business systems analyst with one of the largest federal credit unions in the country. Her previous professional experience has been in the airline and utility industries. She is active in Toastmasters International and the Alaska Chapter of the Project Management Institute.

**Mohamad Khaled**: BS in Civil Engineering from Beirut Arab University in 2001 and Master of Engineering Management from the American University of Beirut in 2006. Working for XYZ firm as a Structure Engineer since 2001. Currently, I am a project engineer working on many projects including high rise buildings in Dubai.

**Suryadeo Vinay Kissoon** has about 15 years practical work experience in general management. Corporate member and chartered quality professional with Chartered Quality Institute (U.K). Accredited trainer for training in field of quality management and finance in industry and tertiary education. Previously worked as operations manager in a major manufacturing company for about 12 years administering about 150 employees. He has been working in some major Australian organizations in
About the Contributors

fields of banking and finance, customer service and railway industries. Five nominations and quality awards nationally and internationally as operations manager. One nomination in quality award and one employee excellence award in Australia. Best paper award by a Ph.d candidate in 2007 in the international Association of Qualitative Research conference. Author has been involved as part-time consultancy and lecturer for nearly ten years in fields of HRM, quality management, service quality, financial management, strategic management, marketing management, supply chain management, logistic system analysis and production management. Author has been working extensively with quality circles (PDCA), kaizen teams (application of Six Sigma DMAIC methodology), workplace improvement teams, process improvement team and virtual teams. Author has also been working on TQM, Continuous Improvement, ISO 9000, EMS, HACCP, Information Quality Systems and some other quality management principles and methodologies. He has also been involved in research project works and written about 20 papers in various fields of management.

Sophie Lissonnet has a Masters in Information Management and a Masters in Indigenous Studies. She works as an indexer and digital repository officer at the Cunningham Library (Australian Council for Educational Research) in Melbourne. In 2008, she was invited by the ALC team to set up and support the ALC wiki for the purpose of test development.

Ivan Magdalenić is assistant at the University of Zagreb, Faculty of Organization and Informatics in Varaždin, Croatia. He received his B.S. and M.S. degrees in Electrical Engineering with a major in Telecommunications and Information Science from the University of Zagreb, in 2000 and 2003, respectively. The research topic of his Master thesis was “Business Documents Interchange”. He has been working as a research assistant at the Faculty of Electrical Engineering and Computing, University of Zagreb from 2000 to 2003. He received his Ph.D. degree in Computer science 2009. The thesis title was “Dynamic generation of ontology supported Web services for data retrieval”. His research interests are in e-Business, Web technology, Semantic Web technology and generative programming. He is leader of technical committee in project of Introduction of e-Invoice in Croatia and he is a member of National council for electronic business. He is author and coauthor of many scientific and technical studies and research papers.

Toufic Mezher is a Professor of Engineering Management at the American University of Beirut. He earned a BS in Civil Engineering from University of Florida, and a Master and ScD in Engineering Management from George Washington University in 1988 and 1992 respectively. His research interests include Sustainable
About the Contributors

Shari Pierre is an MBA student at the University of Alaska Anchorage. Her undergraduate degrees are in Marketing and Management, and she currently works at Fed-AK. At Fed-AK, she is a Budget Analyst, and is responsible for the management of millions of dollars annually. When not working, Ms. Pierre volunteers in her church and local community. She is a member of the Phi Kappa Phi Honor Society, Golden Key Honour Society, and Alpha Kappa Alpha Sorority, Inc. Ms. Pierre is scheduled to graduate from the MBA program in Spring 2009.

Ritika Rathi is a management graduate from Shri Shankaracharya Group of Institutions, India.

Sebastian Rohjans has joined the OFFIS - Institute for Information Systems in late 2008. He holds a computer science degree from the University of Oldenburg with a minor in business and wrote his thesis about ontology-based integration. He is now working in industrial setting projects having the same scope. His research interests include semantic web services, the OPC unified architecture and ontology based mediation.

Hafez Salleh is a Deputy Dean(Undergraduate)/Senior Lecturer in the Faculty of Built Environment, University of Malaya, Malaysia. He obtained a BSc, MSc and PhD Degree from School of the Built Environment and top rated, 6* Research Institute for the Built and Human Environment, University of Salford, United Kingdom. He has 15 years experience in both academia and industry practice and has been an active researcher and research supervisor. He has supervised and supported a wide range of post graduate research students in various research themes. His main research interests are IT/IS performance evaluation and management, project management and sustainable design. His previous research was the development of IT/IS Readiness Model that focuses on evaluation of organizational readiness prior IT/IS investment. He is currently working on the theme of IT/IS evaluation in construction with a particular interest in the links between ‘hard’ and human issues. He is also the technical committee member of Malaysian Construction Industry Master Plan (CIMP) 2005-2015, Strategic Thrust 6: Leveraging Information Technology and Editorial Board Members, Journal of Surveying, Construction and Property.

Jan Oddvar Sørnes (PhD Norwegian University of Science and Technology, 2004) is an Associate Professor and Vice Dean of research at Bodø Graduate School of Business in Norway. His research focuses on organizational communication,
About the Contributors

cross-cultural communication, and on stakeholder dialogue in the energy industry. He teaches doctoral courses in qualitative methods and several undergraduate and graduate courses related to his research interest.

Cheryl A. Tibus is an assistant professor of management at Mercer University in Macon, Georgia. She conducts research and consults in the areas of leadership, strategy, and human resource management. Dr. Tibus spent over 25 years in corporations including roles of Vice President in both public and private organizations. Most recently she was the executive in charge of a key system implementation project and the senior human resources executive of a privately held firm. She received her doctorate at the George Washington University.

Eskandar Tooma is an associate professor of finance and holds the British Petroleum endowed chair with the Department of Management at The American University in Cairo. He is a member of the American Economic Association (AEA), the American Finance Association (AFA), and also is the Secretary General of the African Finance Association. Professor Tooma obtained his B.A. in Business from The American University in Cairo and Adelphi University. Dr. Tooma holds two M.S. degrees, the first in Finance and the second in International Economics from Adelphi and Brandeis Universities, respectively. Finally, he holds a Ph.D. in Finance from Brandeis University. Professor Tooma is a specialist in financial economics. His writings focus on volatility dynamics and forecasting in emerging stock markets as well as market microstructure. Subsequent research is in the areas of asset pricing, portfolio theory, and stock market regulations. Currently, he is focusing on research in the area of agent based modelling and stock market simulations as well as writing finance case studies that are used worldwide as teaching aids in both graduate and undergraduate courses. Professor Tooma combines academic experience with practical exposure through assuming a variety of public and private professional posts. He was senior advisor to the Capital Market Authority for 2.5 years, as well as a member of a variety of committees including the EGX30 Index Committee, Market Advancement Committee at the Egyptian Stock Exchange, an advisor and member of the Derivatives and Commodities Exchange Committee with the Ministry of Investments, and an advisor to the Ministry of International Cooperation on Egypt’s Debt Swap Experience. Privately, he has advised leading institutions including but not limited to: Citadel Capital, Beltone Financial, EFG-Hermes, AAIB, and Osoul Fund Management. Dr. Tooma is a co-owner and board member of Premium International for Credit Services as well as a board member of Orascom Housing Communities, Orascom Investment Fund, Egyptian Resorts Company, Roward Tourism, and Regina Food Industries, among others. Professor Tooma is currently advising leading real estate and development groups on financial and restructuring...
issues. He sits on the boards of one of the largest real estate funds in the region and is a financial advisor to Orascom for Hotels and Development (OHD).

Mathias Uslar  Since 2004, after having finished his studies of informatics with a minor in legal informatics and business, Mathias Uslar joined the OFFIS –Institute in Oldenburg Germany where he is working in the Utility Informatics branch. His main interests are standardization and utility EAI. He also brings in his expertise to both national and international standardization boards. He is also the director of the Center for It Standards in the Energy Domain, abbreviated CISE (http://www.ccise.de).

Neven Vrček  is full professor at the University of Zagreb, Faculty of Organization and Informatics, Varaždin, Croatia. His area of research and professional interest are Software Engineering and Electronic Business. He is member of various professional and scientific associations related to wide aspects of ICT use and organizational development. Occasionally he works as business and ICT consultant.

Michael Workman  received his Ph.D. from Georgia State University, and has over 50 reviewed research publications. He came to academic life in 2001 with nearly thirty years of experience in the computer industry where he began as a software engineer, then moved into management. Reflecting on problems he faced, his research area investigates how to exploit technologies, tasks, and human factors to improve how well people work. Prior to coming to Florida Tech, Michael was an assistant and associate professor of information systems at the Florida State University.
