About the Contributors

Eldon Y. Li (eli@nccu.edu.tw) is the University Chair Professor of Management Information Systems at National Chengchi University in Taiwan. He is also professor emeritus of MIS in the College of Business at California Polytechnic State University, USA. He was a professor and Dean of the College of Informatics at Yuan Ze University in Taiwan, as well as a professor and the coordinator of the MIS Program at Cal Poly, and also a professor and Founding Director of the Graduate Institute of Information Management at National Chung Cheng University in Chia-Yi, Taiwan. He holds a PhD (1982) from Texas Tech University. His current research interests are in service science, entrepreneurship and technology management, electronic business, research methods, and information systems management. He is the editor-in-chief of several international journals.

Stanley Loh (sloh@terra.com.br) is a professor at the Lutheran University of Brazil and in the SENAC Faculty of Technology. He has a PhD in Computer Science (2001), a Master’s degree in Computer Science (1991) and a Bachelor’s degree in Computer Science (1988). He also works as consultant in IT companies (Invenio, InText Mining, and ADS Digital). His interests include recommendation systems, text mining, Web search, business intelligence, competitive intelligence, and knowledge management.

Cain Evans (cain.evans@bcu.ac.uk) is the Academic and Research Leader for Computer Science and Information Systems. He completed a Computer Science degree at Bristol University, UK, focusing on client/server systems and Internet technologies. After graduating he worked at EDS in various roles, including Systems Development and IT Project Management. He has lived and travelled widely in the Far East, teaching MIS and IT at undergraduate and postgraduate levels. He returned to the UK to read for a PhD at Birmingham University. His current research interests are service engineering, electronic business, intelligent systems, e-health informatics and decision support systems. He has published in a number of journals, books, and conferences, and is a reviewer for a number of journals and conferences in computer science and e-commerce.

Fabiana Lorenzi (fabilorenzi@gmail.com) has a PhD in Computer Science from the Federal University of Rio Grande do Sul (UFRGS), Brazil, and is a professor at the Lutheran University of Brazil. She works as a consultant at Invenio Software Inteligente and her interests include recommendation systems, case-based reasoning, and multi-agent systems.

About the Contributors

Vandana Ahuja (vandana.ahuja@jiit.ac.in) is an assistant professor at Jaypee Institute of Information Technology (JIIT), India, where she teaches Internet Marketing and E-Commerce and Customer Relationship Management. She has earlier worked with JILIT—the IT division of the Jaypee Group, which she joined after having worked as a Business Manager with the software giant NIIT and Elbee Express. She has research interests in the domain of contribution of the collaborative Web to diverse areas of marketing and CRM.

Erkan Akar (akar@aku.edu.tr) is an Associate Professor of Marketing, and is currently lecturing on internet marketing, e-commerce and new marketing approaches in the Department of Production Management and Marketing at the University of Afyon Kocatepe, Turkey. His research interests focus on social media and the Internet. He is the author of Blogla Pazarlama (Tiem Yayincilik, 2006) and Sosyal Medya Pazarlamasi (Efil Yayinevi, 2. Baski, 2011). His two books are about social media. His article has drawn attention which was published by the Journal of Internet Commerce in 2011, namely “An Examination of the Factors Influencing Consumers’ Attitudes Toward Social Media Marketing.” He was the Vice Manager of the Institute of Social Sciences between 2007 and 2010 at the University of Afyon Kocatepe, Turkey.

María-del-Carmen Alarcón-del-Amo (mcarmenalarcon@gmail.com) received a degree in Business Administration and European PhD in Business Strategic and Marketing from the University of Castilla-La Mancha, Spain. Her main research line is focused on the analysis of online consumer behaviour in the context of social networking sites, electronic commerce, and Web 2.0. Her work has been presented in national and international conferences, and has been published in several journals, such as Cyberpsychology, Behavior and Social Networking, Social Behavior and Personality, Journal of Research in Interactive Marketing, and International Journal of Internet Marketing and Advertising. She is a member of the editorial board of the Internet Research. Due to her research work, she has received several awards: CajaMurcia research award, Junior AEDEMO (Spanish Association of Market Research, Marketing and Opinion) Award, and Second QUANDO Young Research Award for the Doctoral Dissertation.

Caroline Graham Austin (caroline.austin@montana.edu) is a marketing professor at Montana State University, where she teaches Freshman Seminars, Principles of Marketing, and Consumer Behavior. Her research centers on consumer perceptions of market initiatives, brand strategy, peer-to-peer communication, and the impact of social networks on consumer decision-making. She has worked as a consultant and research partner with such diverse groups as the National Park Service, the Montana Brewer’s Association, and the Greater Gallatin Watershed Council. Dr. Austin received her PhD in Marketing in 2008 from The University of Georgia, USA. She has an M.A. in American studies from the University of Notre Dame, USA, and a B.A. in History from Mercer University, USA.
Ingrid Bachmann (ibachman@uc.cl), PhD, is an assistant professor in the Faculty of Communications at the Pontificia Universidad Católica de Chile. A former reporter and blogger, her research interests include gender, political communication, and the public sphere, with emphasis in cross-national comparisons and electoral politics. She also focuses on the role of the news media in the definition of identities and meanings in public discourse. Her recent research has been published in the International Journal of Communication, Journalism Studies, Journalism & Mass Communication Quarterly, Howard Journal of Communication, and others, and includes works examining activists’ use of social networking sites, media coverage of female politicians, dissenting voices on the Iraq War in news dialogue, and how minority youth use media for political purposes.

Barbara A. Bickart (bickart@bu.edu) is Associate Professor of Marketing at Boston University School of Management. Her research focuses on how situational factors influence consumers’ judgment and decision-making processes. She has examined these issues as they relate to retail displays, the design of consumer surveys, and salesperson and online word-of-mouth communication.

Frederic A. Brunel (brunel@bu.edu) is Associate Professor of Marketing at Boston University School of Management. His research interests include consumers’ perceptions of product design and visual aesthetics, consumer relationships, and socio-cultural, gender, and personality issues in marketing.

Shu-Hsun Chang (98356504@nccu.edu.tw) is a PhD candidate in the Department of Management Information Systems at the National Chengchi University, Taiwan. He received his B.S. from Yuan Ze University, Taiwan, and his M.S. from the National Chengchi University, both in Management Information Systems. His research interest lies in social networking, virtual community, technology acceptance, user behaviors, and business analytics.

Efthymios Constantinides (e.constantinides@utwente.nl) received a degree in Economics in Athens and followed postgraduate studies in Economics of European Integration in Amsterdam. He received his PhD in Marketing in Virtual Environments. After a corporate career of 10 years, he worked for 10 years as Senior Lecturer Marketing for the International Agricultural College Larenstein, The Netherlands, and since 2001 has worked as Assistant Professor E-Commerce in the School of Management and Governance at the University of Twente, The Netherlands. His research interests include consumer behaviour and marketing strategy in virtual environments, particularly on utilizing the social Web environment as a source of market intelligence and as an active marketing instrument.

Teresa Correa (teresa.correa@udp.cl), Ph.D (University of Texas at Austin), is assistant professor in the School of Journalism, Diego Portales University, Chile. Her areas of research are new technologies, digital media access, and media sociology. Specifically, she is interested in digital media access and the social, cultural, and psychological factors that affect the usage of information and communication technologies. Her research has been published or is forthcoming in Journal of Computer-Mediated Communication, Journal of Broadcasting and Electronic Media, Computers in Human Behavior, Information, Communication, & Society, Journalism & Mass Communication Quarterly, Journalism: Theory Practice and Criticism, International Communication Gazette, and Newspaper Research Journal, among others.
**Sharon Cox** (Sharon.cox@bcu.ac.uk) is a Professor of Information Systems and the Associate Head of School with responsibility for research for the School of Computing, Telecommunications and Networks at Birmingham City University, UK. She has over 20 years of experience as an information systems researcher and practitioner. Professor Cox has worked with companies in the manufacturing industry such as IMI Computing, Jaguar Cars, and Britvic Soft Drinks. She attained her PhD at Aston University and developed a framework for aligning IS/IT with the strategic information needs of an organization. She has contributed to a number of funded projects and is currently collaborating on a European funded project relating to the management of information in smart cities. Her research has been published in international conferences and journals, in addition to contributing chapters to a number of books in the areas of e-business and knowledge management. Her current research interests focus on the contextual analysis of information and IS, with particular emphasis on organizational transformation.

**Anna Farmery** (anna@theengagingbrand.com) A.C.A, LLB (Hons), has a First-Class Honours degree in Law and is presently researching a PhD in the School of Management at the University of Bradford, UK, on the Social Business Model of the Future, looking at how law and business need to develop to allow for value creation with the customer part of the process. She was qualified as a Chartered Accountant with KPMG before joining the printing industry as a financial controller and was later promoted to managing director. She continued in the industry, working for FMCG companies for 20 years latterly as a Group HR/finance director for a major worldwide brand before establishing her own company--The Engaging Brand. She now is a regular speaker and renowned coach on social media and developing the social business of the future. She also produces The Engaging Brand podcast--nominated five years running for the Best Business Podcast. The podcast show interviews a wide range of people looking at social business and interviews the leading thought leaders on social media, branding, and leadership.

**Harshavardhan Gangadharbatla** (harsha@uoregon.edu) is an assistant professor in the School of Journalism and Communication at the University of Oregon, USA. His research focuses on new and emerging media, social and economic effects of advertising, and environmental communication. His publications have appeared in (or are forthcoming in) the *Journal of Current Issues and Research in Advertising, Creativity Research Journal, International Journal of Advertising*, the *Journal of Interactive Advertising*, *Journal of Computer-Mediated Communication*, and various other conferences.

**Ronald E. Goldsmith** (rgoldsmith@cob.fsu.edu) is the Richard M. Baker Professor of Marketing at Florida State University. Dr. Goldsmith received his PhD in European History from Michigan State University, USA, in 1979 and his PhD in Marketing from the University of Alabama, USA, in 1983. He has taught marketing at Florida State University since 1981 and has published over 150 journal articles and edited three books in marketing and consumer behavior. His major research areas are diffusion of innovations, personality in consumer behavior, and the marketing of information products. His interest in online consumer behavior, especially its social aspects, motivated this book chapter.
Flavius da Luz e Gorgônio (flavius@ufrnet.br) is an associate professor at the Department of Exact and Applied Sciences of the Federal University of Rio Grande do Norte, Brazil, where he acts as a researcher and leader at the Laboratory of Computational Intelligence Applied to Business. His research interests include applied research in information systems, artificial intelligence, data mining, and social networks. He received his PhD in Electrical Engineering and Computer Science (2009) from the Federal University of Rio Grande do Norte. He also holds a Master’s degree (1999) and a Graduate degree (1995) from the Federal University of Campina Grande, Brazil. Previously, he worked as a professor for several years in other educational institutions in Brazil.

Goetz Greve (goetz.greve@hsba.de) has been a professor and head of Department Marketing and Sales at HSBA Hamburg School of Business Administration, Germany, since 2007, and serves as a visiting professor to the School of Business, Economics and Social Sciences at the University of Hamburg, Germany. He holds a diploma and PhD of Business Administration from Christian-Albrechts-University at Kiel, Germany. In his research, Professor Greve focuses on the areas of customer relationship management, sales management, and online marketing. In particular, he explores the fundamental drivers of CRM performance. His research findings have been published in international and German journals such as *International Journal of Research in Marketing* and *Marketing Review St. Gallen*. Prof. Greve published three books in the field of CRM, customer management, and online targeting. He is on the editorial board of the *International Journal of Marketing Studies* and serves as an ad-hoc reviewer for other journals, such as *European Journal of Marketing* and *Journal of Marketing Theory and Practice*. Before returning to academia, Goetz Greve worked as a strategy consultant for Accenture and OC&C Strategy Consultants from 2001 to 2007. He conducted marketing strategy and CRM implementation management projects for numerous clients, particularly in financial services, consumer, and media industries.

Michael Haenlein (haenlein@escpeurope.eu) is a Professor of Marketing at the Business School ESCP Europe and Editor-in-Chief of the *European Management Journal* (EMJ). His research interests and expertise deal with the subjects of customer relationship management (CRM), marketing research, and social media. In particular, he works on the best methods to manage unprofitable customers and divest undesirable client relationships. More recently, his research analyzes the relationship between social networks and customer profitability and specifically the concept of consumption assortativity and its implications for customer relationship management (CRM) practices. Furthermore, he is an expert in quantitative marketing research, particularly structural equation modeling, and has co-authored several articles in the area of social media. Professor Haenlein has published extensively in journals such as the *Journal of Marketing*, *International Journal of Research in Marketing*, *Marketing Letters*, *European Management Journal*, and *Business Horizons*. Furthermore, he is a member of the editorial boards of the *Journal of Marketing*, *Journal of Marketing Research*, *Recherche et Applications en Marketing*, and *Business Horizons*. As a consultant, he has worked with a large number of international companies in a variety of industry sectors such as telecommunications, financial services, technology, and private equity. He holds a PhD from the WHU, Otto Beisheim School of Management, Germany.
Kristina Heinonen (Kristina.heinonen@hanken.fi) is the Hanken Foundation Assistant Professor (tenure) in the Department of Marketing at Hanken School of Economics, Finland. She is also the Director of the Centre for Relationship Marketing and Service Management (CERS), a knowledge and research centre associated with the Department of Marketing at Hanken. Heinonen’s research interests concern service value, social media, dynamics of customer relationships, and marketing communication. Her work has been published in several academic journals and books, including *Journal of Service Management, Management Decision, European Business Review, Managing Service Quality, International Journal of Mobile Communications, International Journal of Electronic Business*, and *International Journal of Internet Marketing and Advertising*.

Amber Hinsley (ahinsley@slu.edu) is an assistant professor in the Department of Communication at Saint Louis University, USA. Her research focuses on issues in media management, as well as the use of new media/social media by journalists and the public. In addition to several book chapters, her research has been published in journals including *Journalism, Newspaper Research Journal*, and *Computers in Human Behavior*. She is co-editor of the book *The Future of News: An Agenda of Perspectives*. She is an officer in the Media Management and Economics Division of the Association for Education in Journalism & Mass Communication. Prior to entering academia, she was a reporter and city editor for community sections of the Los Angeles Times.

Tobias Hopp (hopp@uoregon.edu) is a PhD student in the School of Journalism and Communication at the University of Oregon, USA. His research interests lie at the intersection of communication and technology. He has presented at various conferences such as ICA and NCA.

Andreas Kaplan (mail@andreaskaplan.eu) is Professor of Marketing at ESCP Europe where he currently serves as the Director of Brand and Communication Europe. Previously, he acted as head of the Marketing Department. Before joining ESCP Europe, Andreas started his career as Marketing Professor at the ESSEC Business School and Sciences, France. Professor Kaplan did his Habilitation (French post-doctoral qualification for PhD supervisor) at the University of Paris 1 Pantheon-Sorbonne and his PhD at the University of Cologne in cooperation with HEC School of Management, France. He holds a Master of Public Administration (MPA) from the Ecole Nationale d’Administration (ENA; French National School of Public Administration), an M.S. from ESCP Europe, and a B.S. from the University of Munich. Additionally, Andreas was a visiting PhD at INSEAD and participated in the International Teachers Programme (ITP) in the Kellogg School of Management at Northwestern University, USA.

Mete Karayel (mkarayel@aku.edu.tr) is an Assistant Professor of Business Administration. He earned his PhD in Business Administration at the University of Suleyman Demirel, Turkey. His doctoral thesis’ title is “Past, Present and Future of Corporate Governance in Turkey: A Corporate Governance Rating Study On Istanbul Stock Exchange 100 Companies.” He had been in the Mihaylo College of Business and Economics at California State University Fullerton, USA, as a visiting scholar for nine months in 2011. Currently he is lecturing on organizational change management, human resources management, and management and organization courses in the Department of (English) Business Administration at the University of Afyon Kocatepe, Turkey. His research interests focus on social media marketing, Internet marketing, corporate governance, corporate social responsibility, corporate ethics, and organizational change management.
Sarah N. Keller (skeller@msubillings.edu), PhD, has developed a service learning curriculum that has been well attended by students and enthusiastically received by the community at Montana State University Billings, USA. The curriculum allows her to apply professional experiences from overseas entertainment education and health communication campaigns with Population Communication International, USAID, and Family Health International. Her students have produced diverse social marketing campaigns over the past eight years to promote issues such as HIV testing, physical activity and nutrition, and the awareness of domestic violence. Each campaign has been supported by external grants and in-kind services from area broadcast and media professionals. Dr. Keller’s ongoing research agenda centers on examining the use of mass media to promote health behavior and attitude change on a variety of public health topics.

Soyean (Julia) Kim (sokim@bu.edu) is a PhD candidate at Boston University School of Management, USA and will be joining Kyung Hee University, Korea. Kim’s research focuses on providing insights into social media strategies. Specifically, she examines how online communicators reveal themselves in their messages and how such self-disclosures are perceived and processed by their audiences in different types of relationships.

Jeff Linkenbach (jwl@coe.montana.edu), EdD, is a Senior Research Scientist and Director for the Center for Health & Safety Culture at Montana State University, USA. In this role, he also leads the National MOST Of Us® Project for Positive Community Norms. Dr. Linkenbach is known for founding The Science of the Positive and the National Conference on the Social Norms Model. Jeff has a Doctorate in Adult and Community Education and a Master’s degree in Counseling with over 25 years of experience focusing on transformation and change strategies.

Carlota Lorenzo-Romero (Carlota.Lorenzo@uclm.es) received a degree in Business Administration and PhD in Business Administration from the University of Castilla-La Mancha, Spain. She is an assistant professor at the University of Castilla-La Mancha. Her main research line is focused on electronic commerce, social Web environments, store atmosphere, e-merchandising, consumer behaviour, marketing research, experimental designs, and quantitative analysis. She has participated in several international and national conferences and she has published some papers in international and national journals such as Cyberpsychology, Behavior and Social Networking Sites, Social Behavior and Personality, Internet Research, International Journal of Internet Marketing and Advertising, International Retail and Marketing Review, and several international and national book chapters. She is a member of the editorial board of the Internet Research.

Selena Xiaojing Lu (selenalu@sjtu.edu.cn) is a PhD candidate in Economics at Shanghai Jiao Tong University, China. Her specialty is two-sided markets, which she studies from a variety of perspectives, including the econometric, social, and psychological. She spent the academic year 2011-2012 studying at Florida State University, USA, with Dr. Ronald Goldsmith, during which she completed several projects related to her major focus of study. On her return to China she will complete her PhD and teach at a comprehensive university in her country while continuing to research the important phenomenon of two-sided markets in China and around the world.
About the Contributors

Jay Otto (jayotto3@gmail.com) is a Research Scientist and Managing Director for the Center for Health and Safety Culture at Montana State University. Otto holds a Master’s degree and works for the Center assisting with research design, research projects, and data analysis. His areas of interest are in substance abuse prevention, comprehensive community development, and child wellness. His research interests involve applying the Positive Community Norms approach to impact community systems to improve health and wellness. He lives on a small farm in rural West Virginia with his wife, Lynette, two dogs, three horses, and a cat.

Margherita Pagani (Margherita.pagani@unibocconi.it) is Associate Professor of Marketing at Bocconi University, Italy. She earned her Bachelor’s degree in Business Administration from Bocconi University and earned advanced degrees from the Massachusetts Institute of Technology. She has taught marketing at Bocconi University since 2006. She has been a visiting scientist at the MIT Sloan School of Management (2008) and a visiting scholar at the same institution (2003). She has published over 17 articles in international journals and has made presentations at a variety of international conferences. Most of her research is in the field of electronic commerce, where she specializes in strategic issues.

Seema Pai (seemapai@bu.edu) is Assistant Professor of Marketing at Boston University School of Management, USA. Her research interests include buzz marketing, online word-of-mouth, econometric models of consumer behavior, and formation, as well as maintenance of corporate reputation.

Moez ur Rehman (moez.rehman.gcu@gmail.com) has been an assistant professor in the Computer Science Department at Government College University at Lahore, Pakistan, since 2009. While studying for his Computer Science M.S. at International Islamic University, Pakistan, he joined Netsol Technologies Pakistan as a software engineer in 1998. At Netsol he worked on several software projects that include projects on leasing, logistics, and accounting. In 2002 he joined the Chair of Computer Science 5 (Information Systems & Databases) at Aachen University, Germany, as a research assistant and worked on intelligent agents to assist human negotiators in electronic negotiations. This research was part of the SEWASIE project funded by the European Commission. He moved to Chair of Information Systems I at the University of Hohenheim, Germany, in 2004, where he received a PhD (2008). His PhD work was on the integration of negotiation support and automated negotiation models to enable human-agent negotiations. The research mainly focused on a comparison of decision making and communication components of two models. Currently, Dr. Rehman teaches software engineering, software quality assurance, and Semantic Web at undergraduate and graduate levels, and is working on the implementation of components for the Hybrid Negotiation System to enable hybrid (Human-Agent) negotiation.

Nosheen Riaz (nosheen.riaz@yahoo.com) received a Master’s degree in Information Technology from the Computer Science Department at the University of Punjab at Gujranwala Campus, Pakistan, in 2008, and an M.S. in Computer Science from the Computer Science Department at Government College University, Pakistan, in 2012. Her main area of research is to study the usefulness of Semantic Web technology (Ontologies) to enhance Natural Language Processing semantically. In her M.S. thesis, she has focused on communication between a human and a software agent in hybrid electronic negotiation using the GATE framework and Ontologies. She is determined to resolve Natural Language Negotiations by Software Agent for E-business and Semantic Web. Her research interests are HCI (Human Computer Interaction) and software engineering.
Kim Sheehan (ksheehan@uoregon.edu) is currently Professor of Advertising at the University of Oregon and Director of the Master’s Program in Strategic Communication. Before she joined academe, she worked for more than a dozen years at ad agencies in Chicago, Boston, and St. Louis. She holds a Bachelor’s degree in Radio-TV-Film from Northwestern University, USA, the MBA from Boston University, USA, and the PhD from the University of Tennessee, USA. Her research involves culture and new technology, and she has published extensively about privacy and the Internet, and about direct-to-consumer prescription drug advertising. She currently serves as Associate Editor of the Journal of Advertising and on the editorial boards of several other publications.

Eric Shiu (e.c.shiu@bham.ac.uk) achieved an M.A. with Distinction at Lancaster University, UK. Afterwards, he underwent a doctoral research training programme through which he was awarded an M.S. by Research degree, and then accomplished a Doctorate at the University of Edinburgh, UK. Prior to joining the University of Birmingham Business School, UK, Eric taught at the University of Edinburgh. He has received a Certificate of Award after a successful completion of the International Teachers Programme organised by the International Schools of Business Management. Eric has accumulated more than 10 years of research experience across academic, governmental, and industry domains, which earned him a number of research excellence awards. Additionally, an adapted paper of his PhD research has assisted him in receiving the first prize research award from the UK Online User Group. More recently, he has been awarded a grant from the European Science Foundation, allowing him to carry out research collaboration with like-minded academics at continental European universities. He has also successfully completed a high-tech product research consultancy project funded by Advantage West Midlands.

Gilson Gomes da Silva (admgilsong@gmail.com) is currently working as substitute professor in the Department of Exact and Applied Sciences of Federal University of Rio Grande do Norte, Brazil. His research interests include administration, information technology, information systems, and IT governance. He graduated in Business Administration (2004), and he has an Educational Specialist degree with emphasis in Management of Information Technology (2010) and holds a Master’s degree in Business Administration from Federal University of Rio Grande do Norte (2009). He has been working as a professor in several educational institutions for undergraduate and postgraduate degrees in the areas of: business, engineering, health sciences, and humanities in Rio Grande do Norte, Brazil.

Huliane Medeiros da Silva (hulianefrn@gmail.com) is an Information Systems undergraduate student, currently attending the eighth semester in Federal University of Rio Grande do Norte, Brazil. She works as technical support at Centro de Ensino Superior do Seridó and she is also a researcher at the Laboratory of Computational Intelligence Applied to Business. Her interest areas include artificial intelligence, data mining, education, and social networking.
Homero Gil de Zúñiga (hgz@austin.utexas.edu) has a PhD, in Politics at the European University of Madrid (2006) and a PhD in Mass Communication at the University of Wisconsin at Madison, USA (2008), and is an associate professor at the University of Texas at Austin, USA, where he heads the CJCR: Community, Journalism and Communication Research unit within the School of Journalism. In 2010 he was appointed Nieman Journalism Lab Research Fellow at Harvard University. His research focuses on all forms of new technologies and digital media and their effects on society. In particular, he investigates the influence of Internet use in people’s daily lives as well as the effect of such use on the overall democratic process. He has published over 30 articles and book chapters in a diverse number of peer-reviewed journals illustrating his research framework, including Journal of Communication, Journal of Information Technology & Politics, Communication Research, International Journal of Public Opinion Research, New Media & Society, Journalism: Theory, Practice & Criticism, Mass Communication & Society, Computers in Human Behavior, Human Communication Research, Journalism & Mass Communication Quarterly, and Journal of Computer Mediated Communication, among others.
