## Index

### A
- access point (AP) 304
- ad-hoc wireless service provision 135, 153, 163, 166, 169
- advanced encryption standard (AES) 108, 109, 114
- analytic hierarchy process (AHP) 52, 53, 54, 56
- applets 104, 114
- application programming interface (API) 120, 122, 123, 133, 134, 340
- authentication 35, 36, 37, 39, 42, 43, 44, 306
- auto-identification technologies, mobile 1, 2, 12

### B
- belief-revision function (BRF) 289
- believe-desire-intention (BDI) 285
- BDI conceptual model 288
- Bluetooth wireless protocol 102, 109, 112, 113, 114, 305, 333, 338
- broker agent cluster 295
- brokering phase 293
- business communications, emotional content in 201, 202, 204, 215, 216
- business models 29, 30, 31, 32, 33, 39, 40, 42, 43, 44, 49, 50, 51, 52, 53, 318, 55, 56, 57, 58, 60, 61, 62, 333
- business models, customer oriented 50
- business model framework 29, 32
- business to business (B2B) initiatives 240
- business to consumer (B2C) initiatives 226, 235, 240

### C
- call centers 293
- cell phones 305
- collaboration-session agents 296
- collaboration task 291
- commuting agent cluster 295
- commuting phase 293
- computer mediated communications (CMC) 202, 203, 204, 217, 321
- CMC, strengths of 201, 203, 204, 208, 209, 210, 212, 213, 214, 215
- CMC, weaknesses of 201, 202, 203, 204, 208, 209, 210, 212, 213, 214, 215
- computers on wheels (COWS) 310
- consumer relationship management (CRM) systems 293
- consumer to consumer (C2C) initiatives 240
- consumer value 48, 49, 51, 52, 53, 54, 55, 56, 58, 60
- consumer value preferences 48, 49, 51, 52, 53, 54, 55
- consumer Web portals 293
- context awareness 135, 137, 138, 153, 166, 167, 169
- corporate network 305
- corrective control 307
- cryptographic message syntax (CMS) 122, 124, 131, 134, 321
- cyclic redundancy check (CRC) 306

### D
- design and age 173, 174, 178, 180, 184, 185, 186, 328, 188, 329, 189, 333, 195, 335
design and culture 174, 175, 176, 177, 189, 190, 192, 197, 319
design and gender 173, 174, 175, 177, 178, 320, 180, 184, 185, 186, 328, 188, 189, 195, 335, 196, 336, 197, 338, 339, 342
design and satisfaction 173, 314, 174, 176, 177, 319, 179, 320, 180, 322, 182, 184, 185, 186, 187, 328, 188, 191, 332, 193, 194, 334, 195, 196, 339, 341
detective control 306
diffusion of innovations 63, 65, 69

electronic government (e-government) 64, 65, 66, 67, 68, 69, 319, 71, 73, 74, 75, 76, 344
electronic product codes (EPC) 6
electronic signature (e-signature) 116, 117, 118, 119, 120, 121, 123
e-mail, mobile 201, 202, 203, 205, 207, 208, 209, 210, 211, 212, 213, 214, 215, 327, 216, 328, 217, 218
e-mail, PC 201, 202, 203, 205, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216
enterprise information system (EIS) 288
EIS triggers 293
ethernet networking technologies 114
extensible markup language (XML) 297
XML stylesheet language (XSL) 297

F
face to face (FTF) interaction 202, 203, 204
fault tolerance 135, 137, 138, 139, 144, 149, 150, 153, 155, 157, 162, 166, 167, 169
firewalls 114, 307, 310
flaming 203, 204, 216, 219, 341

G
general packet radio service (GPRS) 108, 112, 114
global positioning system (GPS) 294
global system for mobile communications (GSM) 105, 112, 113, 114, 328
government to business (G2B) initiatives 67
government to citizen (G2C) initiatives 67, 68, 75
government to government (G2G) initiatives 67

H
healthcare 304
healthcare environment 303
healthcare network 304
healthcare organization 306
Health Insurance Portability and Accountability Act (HIPAA) (1996) 308
human computer interaction (HCI) perspective 175, 192, 193, 319, 324
hypertext markup language (HTML) 104, 114, 297
hypertext transfer protocol (HTTP) 109, 111, 113, 114, 322
HTTP over secure socket layer (HTTPS) 109, 114

I
implementation 293
information design (ID) 174, 183, 184, 185, 187, 199
information flow 1, 2
Institute of Electrical and Electronics Engineers (IEEE) 305, 309
integrated offering 49, 60
Internet 304–305

J
Java mobile edition platform (J2ME) 111, 114, 120, 123, 132, 133, 134, 335, 340
Java platform 102, 105, 111, 114

L
local area network (LAN) 114, 305
location information 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26
location information, privacy issues of 15, 16, 17, 18, 19, 20, 21, 22, 25, 26
location information, privacy issues of: collection 16, 17, 19, 20, 21, 22, 23
location information, privacy issues of: disclosure 19, 20, 21, 22, 23, 24
Index

location information, privacy issues of: storage 19, 20, 22, 24
location information, privacy issues of: use 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26
location information, privacy reform of 22
location information, regulation of 15, 20, 25, 26

M

macro-payments 240
management orders 293
management requirements 291
management’s perspective 298
matchmaking agent cluster 294
matchmaking phase 292
media access control (MAC) 306
MAC addresses 309
message authentication code (MAC) 125, 134
m-government services, adoption of 342
micro-payments 240
Microsoft .NET 111, 114
mobile commerce (m-commerce) 324
mobile government (m-government) 318, 329
