Index

A
Accidental collapse Limit State (ALS) 167
accidental risk 131
added resistance 28, 31, 40-46, 48-54
Admiralty Raster Chart Service (ARCS) 189
Advanced Marine Coating (AMC) 28
Advance Marine Vehicles (AMV) 10
Aframax tanker 50-51
air lubrication 27, 29
ALAM simulation 282, 284
alternative energy 1-2, 7, 83-89, 94-95
aluminium alloys 70, 146-147, 155
Analytical Hierarchy Process (AHP) 229
Annual Average Cost (AAC) 1, 4, 7
anodic and cathodic polarization 153
Automatic Identification System (AIS) 245-246, 254
Automatic Radar Plotting Aid (ARPA) 280

B
Baltic International Maritime Council (BIMCO) 255
bathymetry setup 115
business sharing 228, 233

C
Carbon Nano Tubes (CNT) 28
CASPER 42, 48
catamarans 11
staggered 24
unstaggered 22, 24, 34, 36
cavitators erosion 71
collisions risk modeling 203
commercial forces 132
corrosion inhibitor 146, 148-149, 152, 154-156
corrosion process 147-148, 152, 154
corrosion resistance 71, 147-148, 151, 154, 156
corrosion study 147
counter electrode 151
counter rotating propeller 32
coupling bolt holes 59
Course Over Ground (COG) 248
cyclic voltammetry 151

drag coefficient 17, 169, 172-173
dye penetrant check 62
dynamic trim optimization 27, 31
eigenfunction expansions 159
electrochemical measurements 146, 150-151
Electrochemical Potentiodynamic Reactivation (EPR) 151
Electronic Chart Display and Information System (ECDIS) 186
Electronic Nautical Charts (ENC) 187
energy consumption
supply and demand 85
Engine Room Simulator (ERS) 283-284
environmental issue 101, 128-129, 131, 133, 144
environmental load 158, 164
Event Tree Analysis (ETA) 265, 268-269, 274-276
evidential reasoning 229, 231
exergy analysis 97-100, 105
Exhaust Gas Recirculation (EGR) 137

F
Failure Modes and Effects Analysis (FMEA) 92, 94, 265, 268, 271
Fault Tree Analysis (FTA) 167, 217, 265, 268-269, 273
Fog Collision Risk Index (FCRI) 218
Formal Safety Assessment (FSA) 94-95
Frequency Response Analyzer (FRA) 150-151
Index

Froude number range 10
Fuel Oil Consumption (FOC) 47
Full Mission Ship-Handling Simulator (FMSHS) 283
fuzzy-link based transformation 230

G
General Purpose Electrochemical System (GPES) 151
Glacier-Herbert system 67
Glass Reinforced Plastic (GRP) 15
Global Warming Potential (GWP) 98, 101, 104
Green House Gas (GHG) 1, 7, 83
green ship technology 127, 136, 139
Gross National Product (GNP) 147
Group of Expert on Scientific Aspect of Marine Environmental Protection (GESAMP) 131

H
Handymax tanker 52
horizontal alignment 78-79
hull and propeller performance 37, 46, 53
hull resistances 27
hull shape optimization 27
Humid Air Motor (HAM) 137
hydrodynamic coefficients 158, 161
hydrodynamic loads 160-161, 163
hydrodynamic simulation 117-118
hydrodynamics model 112
hydroelastic problems 159

I
Incident Command System (ICS) 271
Indonesian Hydrodynamic Laboratory (IHL) 21
Inland Water Transportation (IWT) 193-194, 276
inland waterways system 178, 181
Inland Waterways Transport System (IWTS) 178
Intelligent Decision System (IDS) 229, 238
interference phenomena 11, 14, 22, 25-26
intermediate shafting 56-57, 59, 68, 78, 80
International Hydrographic Office (IHO) 187
International Maritime Organization (IMO) 92, 132, 227, 246, 253, 259

K
keyed/flanged couplings 57-58
Key Performance Indicator (KPI) 48
KOCHIN function 12

L
Linear Polarization Resistance (LPR) 151
linear polymers 29
Liquid Cargo Operation Simulator (LICOS) 284
Lloyd’s Register 65
loose couplings 57
low air resistance 27, 31
low friction coating 27-28

M
main sine shafting alignment 78
main thrust 68
marine biofouling 30, 48
marine corrosion 148
marine simulation curriculum 280
marine simulators 279
Maritime Mobile Service Identity (MMSI) 248
Maritime Pollution (MARPOL) 227
Maritime Safety Committee (MSC) 187
Maximum Continuous Rating (MCR) 38
mega containership 228, 233
Michell-Havelock theory 12
Michell thrust 69
MIKE21 112
Mobile Offshore Base (MOB) 158
mooring force analysis 168
morphodynamic response 110
muff coupling 57-58, 74

N
natural inhibitor 149
Nearshore Spectral Wind-Wave (NSW) module 113
nonpolar tail 28

O
operational risk 220
Ozone Depletion Potential (ODP) 98, 104

P
parametric study 159
Peak to Valley Average (PVA) 72
performance degradation 38, 40
perturbation velocity 13
photovoltaic system 2, 89
plummer block bearings 56
podded propulsion 32-33, 35
polar head 28
Pollution/Emission
Prevention and Control 132
potentiodynamic polarization 146, 151, 153-154
Pre-Swirl Duct (PSD) 32
pre-swirl fins 31
propellers
  controllable pitch 74, 76
  fixed pitch 70, 74
  highly skewed 76
  keyless fittings 74
propulsive efficiency 10, 12, 31-32, 81
Proton Exchange Membrane Fuel Cell (PEMFC) 88

Q
qualitative risk analysis 266
qualitative risk assessment 167, 247, 253, 265, 271
quantitative risk analysis 266
quantitative risk assessments 92
quantitative scientific risk 167

R
Reduction of Ports of Call (RPoC) 228, 233, 240
refrigerated transport 97-99, 107
renewable energy 2, 8, 83, 85-86, 91, 95, 175
resistance characteristics 9, 11, 24, 36
resistance component interferences 15
Revolutions Per Minute (RPM) 41
Risk Priority Number (RPN) 271

S
Safety and Environmental Risk and Reliability Model (SERM) 193, 199
Saturated Calomel Electrode (SCE) 151
seawater corrosion 148
seaweed farming 165
seaweed hydrodynamic coefficients 161
sedimentological characteristic 110-112
sedimentological circumstances 110
sediment transport 109-112, 114, 116, 118, 121-123, 125
  simulation 118
Selective Catalytic Reduction (SCR) 137
Shipboard Oil Pollution Emergency Plans (SOPEP) 256
ship collision control 138
ship navigation
  electronic 186
ship performance
  background 37
  shipping strategy 226, 228, 232, 234, 239-240
  Speed Over Ground (SOG) 248
Standards of Training, Certification, and Watchkeeping (STCW) 258
Stretenskii-Eggers theory 12
Sulfur Emission Control Area (SECA) 129
surface technologies 27-28
surfactant solutions 29
sustainable food processing 99

T
tailshaft examination 67
tailshafts
  continuous liners 61
  oil glands 64
  oil lubricated 63
tanker propulsion 47
  thrust blocks 70
  thrust shaft 55, 68, 70, 78
Traffic Separation Scheme (TSS) 219, 246, 248-249
Transas simulators 282

V
vapor compression refrigeration 99-100, 105
Very Large Crude Carrier (VLCC) 267
Very Large Floating Structure (VLFS) 158
vessel collision 194
Vessel Traffic Management System (VTMS) 269
Vessel Traffic System (VTS) 188
viscous interference 14-15, 22, 27
viscous pressure 14, 17, 22
viscous resistance 14-15, 17, 20, 22, 24, 26-27, 35
  visual intrusion 180

W
water transportation 179, 193-194, 276
waterways accidents
  human error 267
wave radiation 112, 114, 116-117
Wetted Surface Area (WSA) 21
