**Maslin Masrom** is an Associate Professor, Department of Management Science and Humanities, UTM Razak School of Engineering and Advanced Technology, Universiti Teknologi Malaysia Kuala Lumpur. She was the Head of Postgraduate Studies from 2010-2012 at UTM Razak School. She teaches Information Technology Strategy, Management Information Systems, Quantitative Analysis, and Research Methodology. She has published many technical papers in journals, books and conferences. Her main research interests are in Operations Research / Operations Management, Management Information System, IT/IS Management, Information Security, Ethics in Computing, and Knowledge Management.

**Mark Nissen** is Professor of Information Science and Management, and Director of the Edge Center, US Naval Postgraduate School. His research focuses on dynamic knowing and organizing. He views work, technology, organization, and people as an integrated design problem, and he has concentrated for some time on the disparate dynamics of tacit and explicit knowledge flows, looking in particular at (re)designing organizations that balance stability with maneuverability. Currently, he is pursuing a multidisciplinary initiative to understand the potential and limitations of organization and management through virtual environments, cyberspace, and cooperative autonomous systems. Mark’s 150+ publications span information systems, project management, organization studies, knowledge management and related fields. Before his doctoral work at the University of Southern California, he acquired over a dozen years’ management experience in the aerospace and electronics industries.

**Jae-Young Oh** is a doctoral student in supply chain management at the Gatton College of Business & Economics at the University of Kentucky. He holds B.A and M.B.A degrees from Kyung Hee University, Seoul, Korea. His research interests focus on strategic and behavioral issues in operations and supply chain management, including strategic sourcing, buyer-supplier relationships, supply chain integration, and sustainable supply chain management. His research appears in such publications as *Service Business, Information Research, Journal of the Korean Society for Quality Management, e-Business Studies, Health Service Management Review*, and *Journal of Korea Service Management Society*.

**Chih-Hung Peng** is an assistant professor in the Department of Information Systems at City University of Hong Kong. He received his Doctoral degree in Information Technology Management from Ernest Scheller Jr. College of Business, Georgia Institute of Technology. His current research focuses
on persuasion and technology use at the group level. In addition, he is interested in knowledge sharing in online community. He has presented his work at several conferences, including International Conference on Information Systems (ICIS), Academy of Management (AoM), and Interdisciplinary Network for Group Research (INGRoup).

**Helen N. Rothberg** is Professor of Strategy in the School of Management at Marist College, Poughkeepsie, NY. She is principal of HNR Associates, a consultancy and is also on the faculty of the Fulh Herring Gilad Academy of Competitive Intelligence. She holds a PhD and MPhil from City University Graduate Center, and an MBA from Baruch College, CUNY. She has published extensively on topics including competitive intelligence and knowledge management.

**Subbu Sivaramakrishnan** is an Associate Professor in the Asper School of Business at the University of Manitoba. Subbu’s research concerns consumers’ use of information in making judgments, environment-related consumption behavior, online marketing, and knowledge management by organizations. He has received three major federal research grants to support his research. Subbu’s recent publications have appeared in the *International Journal of Research in Marketing*, *Journal of International Consumer Marketing*, *Journal of Product & Brand Management*, *Journal of Interactive Marketing*, and *Journal of Strategic Marketing*. His teaching experience includes Consumer Behaviour, Marketing Research, Global Marketing, Strategic Marketing, and Marketing Management.

**Srinivasan Tatachari** is currently Assistant Professor at Indian Institute of Management Udaipur in the area of Organizational Behaviour and Human Resources Management. He teaches courses on managing people and organizations, organizational learning and knowledge management. His research interests are in the area of Social Identity, Organizational Learning, Spirituality, and Indian IT industry. He has presented his research at conferences like the International HRM. He is currently working on research papers from his doctoral dissertation work on understanding the changes in multiple social identifications in newcomers in the Indian IT industry. He is currently member of the Academy of Management (AOM), USA, and EURAM, Belgium. He has been reviewer for multiple conferences like the AOM conference, EURAM annual conference, the Indian Academy of Management conference (IAM) for a number of years now. Srinivasan has extensive experience in the Indian IT industry, having worked for 13 years in Wipro across various roles and locations. He has played roles from Knowledge Management consultant to Software Project Leader to Area Office coordinator and so on. He completed his MBA from IIM Bangalore while working with Wipro and his interest in conducting research led him to do his doctoral program (FPM), again at IIM Bangalore. At the core, he is an engineer by training, in Electronics and Telecommunication, Mumbai University.

**Ben Tran** received his Doctor of Psychology (Psy.D) in Organizational Consulting/Organizational Psychology from California School of Professional Psychology (formerly known as the Marshall Goldsmith School of Management) at Alliant International University in San Francisco, California, United States of America. Dr. Tran’s research interests include domestic and expatriate recruitment, selection, retention, evaluation, & training, CSR, business and organizational ethics, organizational/international organizational behavior, knowledge management, and minorities in multinational corporations. Dr. Tran has presented articles on topics of business and management ethics, expatriate, and gender and
About the Contributors

Suzanne Zyngier (PhD.) is Associate Dean (International) and is a member of the Faculty of Business, Economics, and Law at La Trobe University, Australia. Dr. Zyngier publishes internationally and has authored and co-authored journal articles, book chapters. Suzanne has held academic appointments at Monash University and Swinburne University of Technology. Her research centers on collaborative knowledge development and on the governance of knowledge management strategies. She is also interested in information ethics, privacy, and security. Prior to joining academia her previous career was as an experienced knowledge management and information services analyst where she conducted her own business as a consultant to the professional, corporate, and not-for profit sectors. Suzanne has been a conference track leader at the Hawaiian International Conference on the Systems Sciences (2011, 2012, 2013) and at International Conference on Information Systems Development (2011, 2012).
