Noor Hazlina Ahmad, Ph.D., is a senior lecturer at the School of Management USM. She joined the university after completing her Ph.D. at the University of Adelaide, Australia. She is currently a Research Associate of the University of Adelaide Business School and Ngee-Ann Adelaide Education Centre research project that endeavors to investigate the impact of incubators on the development of entrepreneurial competencies among nascent entrepreneurs. Hazlina sits on the editorial board of the Asian Academy of Management Journal and has been appointed as a Research Fellow of the Ministry of Human Resources Malaysia. She is currently involved in a research project with the Higher Education Leadership Academy of Malaysia that looks into developing a model for succession planning and academic leadership in higher education institutions. She is also actively involved with consultation programs and served as a facilitator for community, entrepreneurial, and leadership projects. She has published her research works in high impact journals such as Journal of Business Ethics and Journal of Education Technology & Society as well as other international journals including the International Journal of Entrepreneurial Behavior and Research, International Journal of Entrepreneurship and Small Business, International Journal of Entrepreneurial Venturing, as well the Frontiers of Entrepreneurship Research. Hazlina has also presented her research works at various international conferences including Babson College Entrepreneurship Research Conference, International Council for Small Business (ICSB) World Conference, International AGSE Entrepreneurship & Innovation Research Exchange, as well as the Australia and New Zealand Academy of Management (ANZAM) Conference. Her research interests are in the areas of Organizational Behaviour and HRM, Entrepreneurship, and SMEs.
Andreas Ahrens was born in Wismar, Germany, in January 1971. He received the Dipl.-Ing. degree in electrical engineering from the University of Rostock in 1996. From 1996 to 2008, he was with the Institute of Communications Engineering of the University of Rostock, from which he received the Dr.-Ing. and Dr.-Ing. habil. degree in 2000 and 2003, respectively. In 2008, he became a Professor for Signal and System theory at the Hochschule Wismar, University of Technology, Business and Design, Germany. His main field of interest includes error correcting codes, multiple-input multiple-output systems, iterative detection for both wireline and wireless communication as well as social computing.

Badreya Al-Jenaibi is Associated Professor in Mass Communication at the United Arab Emirates University. She has a Ph.D. in International Communication and Public Relations (August 2008) from the University of North Dakota in the USA. Her MA (2004) was in Mass Communication is from the University of Northern Iowa in the USA. Her BA (2001) was in Mass Communication from the University of the United Arab Emirates. Her research interests include international communication, public relations, organizational communication, the uses and effects of mass media, new media, particularly the international level, as well as public relations and communication. She is the author of *The Scope and Impact of Workplace Diversity in the United Arab Emirates – An Initial Study, The Role of the Public and Employee Relations Department in Increasing Social Support in the Diverse Workplaces of the United Arab Emirates, Gender Issues in the Diversity and Practice of Public Relations in the UAE-Case study of P.R. Male Managers and Female P.R. Practitioners, The Use of Social Media in the United Arab Emirates, The Changing Representation of the Arab Woman in Middle East, Advertising and Media, Public Relation Practitioners, Independency, and Teamwork in the UAE Organizations, book chapter in Handbook of Research on Business Social Networking: Organizational, Managerial, and Technological Dimensions 2011, Women in Public Relations and Profit Organizations: How Gender Influences Practice*, book chapter accepted for publication in *Global Knowledge Work 2011*.

Olaf Bassus was born in Wolfsburg, Germany, in January 1956. He received the Dipl.-Oec. degree in Business Administration from the University of Economics, Berlin, in 1981. From 1981 to 1985, he was with the Institute of Business Administration of the University of Economics, Berlin, from which he received the Dr. Oec. degree in 1985. From 1986 to 1990, he worked as the Head of the Operative Planning Division and Deputy Head of the Finance Division in the machine building company NILES in Berlin. From 1990 to 1994, he worked as an assistant scientific director of the Institute of Financing, Taxation, and Auditing at the University of Technology and Economics in Berlin, and as freelance lecturer and management consultant in Berlin and Brandenburg. In 1994, he became a Professor for Accountancy and Auditing at the Hochschule Wismar, University of Technology, Business, and Design, Germany.

Andrea Bencsik, CSc., is a professor of economic and management science at Széchenyi István University of Győr in Hungary and at Univerzita J. Selyeho in Komarno in Slovakia. She is doing research in the fields of knowledge-change-human-and project management and teaching these disciplines at the same time. She is the author of a number of scientific publications as well as a member of some international scientific committees.
About the Contributors

Jamal Abdul Nassir bin Shaari is a Senior Lecturer and Marketing Program Coordinator at the Faculty of Economics and Business, Universiti Malaysia Sarawak. He received his PhD from Reitaku University, Japan, and MBA (TQM) from Marquette, USA. He is also a professional speaker, researcher, and consultant. His activities are oriented towards the field of total quality management, marketing, intellectual capital, and knowledge management. His research publications appeared in various academic journals.

Luísa Carvalho holds a PhD in Management in University of Évora, Portugal. Professor of Management on Department of Management and Social Sciences – Open University, Lisbon, Portugal. Guest professor in international universities teaches in courses of master and PhDs programs. Researcher at CEFAGE (Center for Advanced Studies in Management and Economics) University of Evora, Portugal. Author of several publications in national and international journals, books and book chapters.

Seungwha (Andy) Chung is Professor of Management in the School of Business at Yonsei University, Seoul, Korea, where he has served as Vice Dean of the Graduate School of Business, Chair of the Joint Major Program in Venture Studies, and Director of the Leadership Center. His current work focuses on the development and performance of entrepreneurial companies going public, the collaboration between the for-profit and non-profit sectors, and the corporate adaptation to emerging consumer networks. He has widely published books as well as academic papers and case studies in Strategic Management Journal, Research Policy, Social Networks, Korean Management Review, Korean Journal of Management, Korean Venture Management Review, Korean Small Business Review, and Management Education Review, among others. He received his Ph.D. in management from the Wharton School of the University of Pennsylvania.

Margarietha de Villiers Scheepers, Ph.D., received her doctorate from the University of Stellenbosch on Corporate Entrepreneurship and Innovation Management, where she developed a special interest in the role of innovation and entrepreneurial behaviour in the information and communication technology industry. She is a lecturer in Entrepreneurship and Innovation at the School of Arts and Business at the University of the Sunshine Coast. Her research is focused on innovation and entrepreneurship across various contexts, such as firm size, small, medium, and large, as well as environments such as emerging and developed economies. Her interests in innovation in small firms led her to collaborate with Prof Don Kerr on a project to investigate how small firms use Information and Communication Technology (ICT) and how their general managerial and entrepreneurial orientations shape the use of ICT.
**George Drăgoi** received the B.S. in Electronics and Telecommunications and Dr. Eng. degrees and in Industrial Informatics from University POLITEHNICA of Bucharest, Romania, in 1982 and 1994, respectively. From 1982-1986, he was an Associate Researcher of the Romanian National Research Center in Telecommunication of Bucharest. From 1986 to 1990, he was a Research Assistant, from 1990 to 1993 lecturer, from 1993 to 1998 associate professor and from 2006 to present professor at the University POLITEHNICA of Bucharest. He has been active in the fields of the industrial robots control, industrial informatics, computer integrated enterprise, computer networks and telecommunications, virtual enterprise and collaborative design systems. Since 1998, he has been associated with the Institute National Polytechnic at Grenoble, France, as Associate and Visiting Professor. He received the Romanian Academy Award “Aurel Vlaicu” in 1993 and it has served as a member of the National Council for Technological Education and Innovation after 1999. From 2012 to present, he is Director of the Department of Engineering in Foreign Languages at the University POLITEHNICA of Bucharest.

**Hasliza Abdul Halim**, Ph.D. is a senior lecturer at the School of Management, University Sains Malaysia. She joined the university after completing her PhD at the University of Malaya. She has been lecturing for many years on subjects such as strategi management, HRM, management, organisational behaviour, communication, and others. Her PhD concentrated on utilizing and delivering the human resource activities through outsourcing. Besides, the roles of Business and HRM strategy were examined in detail to understand the management of human resources of the organizations in Malaysia. She is also experienced in the use of modeling and application of software such as AMOS and SPSS. She currently serves as an editorial board member of the *Asian Academy of Management Journal* (AAMJ). She previously worked in corporate sectors and had been involved with various consultation programs which were related to human resource development, compensation, performance appraisal and other related matters. Currently at USM, she is also actively involved with consultation programs and served as a facilitator for community, entrepreneurial, and leadership projects. She has presented her research works at various international conferences in Australia, Singapore, Indonesia, and Thailand. She has also published in high impact journals such as *Journal of Business, Economics and Management, Service Business*, and *Total Quality Management and Business Excellence*. Additionally, she also published in various journals including *Journal of Human Resource Costing & Accounting, Singapore Management Reviews, Business Strategies Series, International Journal of Economics and Management*, and *Journal of International Business and Entrepreneurship*, and received a number of best paper awards. In addition, she received Gold Medal Award from Harvard Business School Alumni Club of Malaysia for her outstanding performance in her study. Her research interests are in the areas of strategic management, organizational behaviour, strategic HRM, outsourcing, business and HRM strategies, as well as organizational performance.
About the Contributors

John W. Hamilton is the Associate Director of the Center for Supply Chain Management Studies since 2004 and Adjunct Assistant Professor in the John Cook School of Business. His undergraduate degree is from Washington University in St. Louis with MBA and doctoral degrees from St. Louis University. Dr. Hamilton has been an Adjunct Assistant Professor in the Departments of Management and Decision Sciences / Information Technology Management teaching at the graduate and undergraduate levels at St. Louis University since 1983. The courses, both professional development and academic, range from supply chain management to strategic management and policy. He retired from UniGroup, Inc., a private multi-billion dollar transportation company, as Senior Vice President and Chief Information Officer in 2002. The Information Technology division of UniGroup was ranked nationally in the Information Week 500, achieved “best in class” recognition in Gartner Group industry benchmarks, and was ranked first in Information Technology in the Logistics and Distribution Report – Quest for Quality Survey for UniGroup’s industry segment. He has published and presented on a wide range of topics including, Lean and the Warfighter, The Turnaround ERP Project: Strategies and Issues to Wireless Communication Systems: A Satellite Based Approach for Competitive Advantage in Logistic and Transportation Support Services. His presentations include, ITV – A Private Sector Approach at a USTRANSCOM Component Commanders quarterly meeting. Some of his applied research includes in-transit visibility for supply chain services providing “real time” access for customers. Robotics and artificial intelligence were primary research areas at Ralston Purina. Dr. Hamilton is a founding member and first Chairperson of the Consortium (now Center) for Supply Chain Management Studies at the John Cook School of Business at St. Louis University. He is also a member of the Mentoring Committee for the St. Louis Minority Business Council. He is and has been active in professional and community organizations including; the Center for the Advancement of Information Technology, Washington University; Academy of Management; Decision Sciences Institute; the National Defense Transportation Association, and a variety of Marine and veteran not-for-profit organizations.

Jean Marie Ip-Soo-Ching is a lecturer in Marketing and Management at La Trobe University, Melbourne, Australia. He has also lectured in Marketing, Management, and Information Systems at Swinburne University and Monash University since 2004. He lectures regularly at universities in Vietnam and China. Jean Marie is currently enrolled in a PhD program in the Faculty of Law and Management at La Trobe University. His thesis has the title “A Knowledge Management Approach to Environmental Sustainability in Tourism.” Jean Marie is a consultant for tourism operators in Australia, Vietnam, Malaysia, and Thailand. His business contacts include Six Senses, Club Med, Alto Hotel on Bourke, Sailaway Port Douglas, Quicksilver, Calypso Cruises, Sipadan Mabul Water Village, Golden Palm Tree, and Borneo Divers.

Beata Jalocha, PhD, earned her doctoral degree from the Jagiellonian University. She also studied Marketing and Management and Project Management and was a stipendist of Bordeaux Ecole de Management in France. Her key research interests are focused on understanding the processes of project, program and portfolio management in public and non-governmental sector. She also has research interests in projectification (of individuals, organizations, and society) and PMOs. Dr Jalocha is a certificated business trainer and has professional experience in business environment, which she gained during her career in international IT and outsourcing corporations.
Tímea Juhasz, PhD, is an economist and she works as an office manager at Lohmann Animal Health Hungaria Kft., Budapest, Hungary. At the same time, she usually gives lectures as an external expert at Budapest College of Management. She passed her PhD exam at Széchenyi István University in 2010, and her research areas are family-friendly workplace policies, knowledge management strategies, etc. Several of her scientific papers were published in Hungary as well as in some European countries.

Don Kerr, PhD, is an Associate Professor of Informatics at the University of the Sunshine Coast. His research interests include the development and evaluation of decision support systems and the evaluation of the implementation of enterprise resource planning systems with particular emphasis on the effect ICT work-a-rounds have on the business analytics capabilities of firms. He has published over 85 peer reviewed papers in both agricultural and management journals and conferences over the past 20 years, including in journals such as Decision Support Systems, Expert Systems with Applications, Knowledge Based Systems, and Agricultural Systems. He has supervised eight PhD students to completion (5 as principal and 3 as associate) and is presently supervising five PhD students. He is currently the president of the Australian and New Zealand chapter of the Association of Information Systems.

Muhammad Khalique is a Senior Lecturer at Faculty of Economics and Business, Universiti Malaysia Sarawak. He earned his PhD degree in Entrepreneurship, Management from Universiti Malaysia Sarawak, Malaysia. His PhD topic was the “Impact of Intellectual Capital on the Organizational Performance of Selected Small and Medium Enterprises (SMEs) in Malaysia and Pakistan.” His research interests include intellectual capital management, knowledge management, entrepreneurship innovation, marketing, SMEs and organizational performance. He is an author of several articles and conference papers on intellectual capital and organizational performances.

Ik-Whan G. Kwon, Ph.D, is a Professor of Decision Sciences and MIS at the John Cook School of Business, St. Louis University. He is also a Director of the Center for Supply Chain Management Studies at the John Cook School of Business since 1998. He received his B.A. in Economics from Korea University and first Ph.D degree in Economics from University of Georgia. His second Ph.D degree in Health Service Research was awarded in 1990 from the School of Public Health, St. Louis University. In 2002, Dr. Kwon was a Fulbright Scholar to Korea Development Institute (KDI) School of Public Policy and Management and Yonsei University both in Seoul, Korea. He is a recipient of the National Defense Transportation Association Distinguished Educator Award in 2006 and 2007. Dr. Kwon is also a recipient of the 2006 Thomas M. Knapp, S.J., Distinguished Faculty Member Award from St. Louis University. Dr. Kwon received his second Fulbright Senior Grant to Korea in 2009 where he taught at the KDI School of Public Policy and Management. He received the 2011 Outstanding Professor of Graduate Program from St. Louis University. He received the National Science Foundation Oversea Scholr Award in 1977 teaching at Yonsei University in Korea. He is a recipient of the Graduate Faculty of the Year in 2011 from the John Cook School of Business at Saint Louis University. He is a recipient of the 2012 Chairman’s Commendation on Product Safety Circle from the United States Product Safety Commission. Dr. Kwon is one of the founding members of the Center for Supply Chain Management Studies in 1998 and assumed the role of Directorship of the Center since its inception. Dr. Kwon has published more than 125 academic articles and professional papers in numerous journals including Journal of Supply Chain Management, Supply Chain Management: An International Journal, International Journal of Physical
About the Contributors

Distribution and Logistics Management, New England Journal of Medicine, American Journal of Medical Association, American Journal of Public Health, and others. He served on various charitable and governmental boards including Missouri Minority Health Care Task Force, St. Louis Regional Health Center, Creve Coure Personal Appeal Committee, etc. He serves on the Editorial Board of Information Systems and Supply Chain Management, Member of Editorial Board of International Journal of Business Innovation and Research, Member of Editorial Board of International Journal of Procurement Management, Member of the Review Board of Supply Chain Management: An International Journal, Member of the Review Board of Managerial Issues, and Member of Advisory Board at Business Innovative Research Center (BIRC) at University of Mass at Dartmouth.

Michael Lang is a Lecturer in Information Systems at the J.E. Cairnes School of Business and Economics, NUI Galway, Ireland. His research interests are principally within the area of IS security and ethics, building on his previous work on IS analysis and design. His work has featured in IEEE Software, Communications of the AIS, Scandinavian Journal of Information Systems, Information & Software Technology, IEEE Multimedia, Information Systems Management, Requirements Engineering, and a number of other prominent journals and conferences.

Ji Sun Lim is a Research Specialist at Yonsei University Planning Division, and a Lecturer at Sangmyung University, Seoul, Korea. She has taught new venture creation, organizational behavior and leadership development. Her current academic work focuses on the development and performance of entrepreneurial firms, business partnerships as a growth strategy, market-driven management of organizations, the organization of marketing force, female leadership, and diversity issues. She has written academic articles in the Journal of Organization and Personnel Management, and a book published by the Yonsei University Press. She received her PhD in management from Yonsei University.

Stefan Linder is an assistant professor at ESSEC Business School in Paris. He holds a doctorate from WHU-Otto-Beisheim School of Management, and worked as a management consultant specialized in the areas of management control and strategy implementation prior to completing a Ph.D. in 2011 at Copenhagen Business School. His research interests include strategic entrepreneurship and strategy formation and their links to rewards and management control, and new forms of planning and budgeting. He has (co-)authored a number of practitioner-oriented articles and short books on these topics and published research articles among others in the European Accounting Review, International Journal of Strategic Change Management, Cost Management, and Journal of Management Control.

Shazali Abu Mansor is a Professor of Faculty of Economics and Business, Universiti Malaysia Sarawak. He received his PhD degree from the University of Salford, UK. His papers have appeared in various academic journals. He is a leading professor and researcher in the field of economic efficiency, entrepreneurship, corporate governance, and international trade.
Malliga Marimuthu, PhD, is a senior lecturer at the School of Management in Universiti Sains Malaysia (USM). She obtained her PhD in management from University of Newcastle, Australia in 2008. Her major research interests are in the area of technology marketing, services marketing, strategic marketing, contemporary marketing, business geographical information systems and research methodology. Her publications have appeared in *Journal of Marketing Development and Competitiveness*, *Business Strategy Series*, *Service Business*, *International Journal of Marketing Studies*, and *World Academy of Science, Engineering and Technology Journal*. She is actively involved in the supervision of postgraduate students and in conducting research for her obtained grants.

Paulo Martins holds a master’s degree in Entrepreneurial Sciences, specializing in small and medium enterprises, Setúbal Polytechnic Institute, Portugal, holds a degree in Accounting and Finance, Setúbal Polytechnic Institute, Portugal, and is a technician in the Tax and Customs Authority, Portugal, since 2007.

Osman Mohamad is currently a distinguished professor in marketing at the Graduate School of Business in Universiti Sains Malaysia (USM). His research expertise is in the areas of internationalization of firms and export marketing. He has published extensively in international and local journals such as *Journal of Business Research*, *Journal of Product and Brand Management*, *Journal of International Business*, and *Entrepreneurship and Multinational Business Review*. He also sits in numerous editorial boards of reputable journals. He was the founding editor of *Asian Academy of Management Journal*.

Ionel-Bujorel Păvăloiu received the B.S. in Automotive Engineering and the B.S. in Electronics and Telecommunications (English language) from UPB in 1995 and 1996, respectively. He graduated the Advanced Studies in Bio-Medical Engineering and the Advanced Studies in Business Administration from UPB in 1997 and 1998, respectively. In 2006, he obtained the PhD title in Electrical Engineering from UPB, and in 2013, he will conclude his Post-PhD grant from the Romanian Academy. He was junior teaching assistant from 1997 to 2000, teaching assistant from 2000 to 2006, and assistant professor since 2006 at DEFL, FEFL, and UPB. He has been active in the fields of the neural networks, bioinformatics, digital signal processing. Since 2010, he is leading the Laboratory of Robotics and Virtual Reality in the framework of DEFL. Since 2012, he is Associate Dean at FEFL, UPB.

About the Contributors

**J.J. Reen** is a graduate of NUI Galway, from where he obtained his M.Sc. in Technology Management. He has over 20 years experience working in the software industry as a systems analyst/programmer and other roles.

**Göran Roos** is chairing the Advanced Manufacturing Council in Adelaide and a member of the Economic Development Board and the Advisory Board of Invest in South Australia as well as of CSIRO’s Manufacturing Sector Advisory Council and the Prime Ministers Manufacturing Leaders Group. He is Honorary Professor at Warwick Business School in the UK; Visiting Professor of Intangible Asset Management and Performance Measurement at the Centre for Business Performance at Cranfield University, UK; Professor in Strategic Design in the Faculty of Design at Swinburne University of Technology, Melbourne, Australia; Adjunct Professor at Mawson Institute at University of South Australia, Adelaide, Australia; Adjunct Professor at ECIC, University of Adelaide, South Australia; Australia; Adjunct Professor at University of Technology Sydney Business School, Australia; Adjunct Professor at Nanyang Business School, Nanyang Technological University, Singapore; and Senior Advisor to Aalto Executive Education Academy in Helsinki.

**Sebastian Marius Roşu** received the B.E. in Aerospace Construction and in Informatics from University POLITEHNICA of Bucharest, in 2000 and University “Dunărea de Jos” of Galaţi in 2002, respectively. In 2009, he obtained doctoral degree in Automatics from University POLITEHNICA of Bucharest. From 2001-2004, he was a Researcher in Machines and Thermal Equipment at the GRUP ROMET Buzău. Since 2004, he was Quality Surveillance Receiving Inspector and Pressure Test Supervisor at the Nuclear Power Plant Unit Two Site of Cernavodă. Since 2006, he is telecommunication engineer at the Romanian Special Telecommunications Service. He has been active in the fields of the thermodynamic, nuclear systems, quality control, risk management, professional risk assessments, computer integrated enterprise, telecommunications networks, networks design, and collaborative design systems. Since 2005, he has been associated with the PREMINV Research Laboratory at the University POLITEHNICA of Bucharest, as PhD Student.

**Keikoh Ryu** is Associate Professor of International Management and Business Ethics at Ritsumeikan University in Kyoto, Japan, and a visiting research scholar at Institute for Transnational Human Resource Management, Waseda University in Tokyo. Prior to graduating from Waseda University with a PhD in public management, Dr. Ryu received his master’s degree in international finance and business from Columbia University in New York City. His research has primarily dealt with cross-cultural research methodology in international business strategy and entrepreneurship. In 2010, Waseda University Press published Dr. Ryu’s monograph, *Creating Public Value: The Challenges of Localization for Japanese Corporations in China*, which was also selected as a winner of the 2010 Emerald/EFMD Outstanding Doctoral Research Awards. He has published in *Corporate Communication Studies, Journal of International Business*, and other scholarly journals. Recently, he served as a member of the editorial board for the *Annals of the University of Bucharest*. 
Anna Szopa. PhD, designs and teaches undergraduate and graduate courses in entrepreneurship and technology commercialization. She holds an MS in Quality Management from Silesian University of Technology and earned her doctoral degree from Jagiellonian University examining innovation strategies of spin-off companies. She has twelve years’ experience in managing companies including research and consultancy. She awarded the fellowship of the The Ryoichi Sasakawa Young Leaders Fellowship Fund (Sylff). She was a visiting researcher at Maryland Technology Enterprise Institute and University of Central Florida. Her primary research interests include university-industry relationships and university spin-offs. She is and editor of books about innovations, and published several articles in management journals and books.

Jasmine A.L. Yeap is a postdoctoral research fellow at the School of Management in Universiti Sains Malaysia (USM). Her research focuses primarily on the use and impact of technological innovations among individuals and organizations as well as the management of IT-based resources. Apart from that, she has also conducted studies in other areas ranging from consumer behaviour in the retailing industry, exporting to foreign markets, knowledge sharing and service quality to instrument validation. Most of her works have been published in journals and presented at both local and international conferences.

Jeļena Zaščerinska received the diploma in Russian Philology in 1994 from the Daugavpils University, Daugavpils, Latvia, Master Degree in English Philology in 2002 from the University of Latvia, Riga, Latvia. In 2011, she was awarded Dr. paed. Degree for her promotion thesis “Development of Students’ Communicative Competence in English studies for Academic Purposes” focused on evaluation of efficiency of the process of the development of students’ communicative competence within English for Academic Purposes studies. In 2012, Jeļena Zaščerinska was bestowed expert rights by the Latvian Council of Science, Riga, Latvia, and by Education, Audiovisual, and Culture Executive Agency, Brussels, Belgium.

Suzanne Zyngier is Associate Dean (International) and is a member of the Faculty of Business, Economics, and Law, at La Trobe University, Australia. She has held academic appointments at Monash University and Swinburne University of Technology. Her research centres on managing knowledge to support innovation, and on the governance of knowledge management strategies. This has resulted in the development of a KM governance framework detailing the relationship of governance to the effective implementation of KM processes, and in defining the roles and tasks involved at each point of governance: planning and development of the KM strategy and the implementation of that strategy. Prior to joining academia her previous career was as an experienced knowledge management and information services analyst where she conducted her own business as a consultant to the professional, corporate, and not-for profit sectors. Suzanne completed her PhD at the School of Information Management and Systems at Monash University. Her earlier research was concerned with knowledge management understandings and practices amongst Australia’s top 1000 companies and as such has a solid understanding of the current status of knowledge management uptake in Australian industry gained on the basis of this survey research and case studies in various contexts. In 2002, she worked on a follow up comparative study of knowledge management status between Australian and European financial services institutions that was commissioned and sponsored by Fuji Xerox Australia. Suzanne has published journal articles in the
About the Contributors

Journal of information Technology, Information Systems Frontiers, Knowledge Management Research and Practice, International Business Review, International Journal of Knowledge Management, and in Information and Knowledge Management. She has also published technical reports, several book chapters, and has presented papers on her research at national and international conferences and at presentations to industry. Suzanne is currently on the editorial board of the International Journal of Knowledge Management, and is track chair at HICCS, and a reviewer for ECIS, ACIS, and ICIS. Suzanne’s research specializations are in the following areas: in the Strategic Alignment of Information Systems, in Information Systems Governance in Knowledge Management Governance, and in the strategic application of Knowledge Management techniques. She supervises a number of PhD students in these and related areas.
