About the Authors

Lorna Uden is the senior lecturer in the Faculty of Computer, Engineering, and Technology at Staffordshire University, UK. She received a BSc from Aston University, UK (1981), a BA from the Open University (1982), and a PhD from Staffordshire University (1999). She has published more than 70 papers in conferences, journals, book chapters, and workshops. Her research interests include learning technology, Web engineering and technology, human computer Interaction, groupware, activity theory, e-business, knowledge management, and problem-based learning (PBL). Dr. Uden is a member of the Higher Education Academy and ACM. She has been researching and using PBL in her teaching since 1996. She is editor of the International Journal of Web Engineering and Technology (IJWET) and the International Journal of Learning Technology (IJLT) (Inderscience, UK). She also serves as an editorial board member for several international journals.

Chris Beaumont is a senior lecturer for the Department of Computing at Liverpool Hope University, UK. He is currently programme leader for Internet technology, where he teaches on undergraduate and MSc computing programs. After graduating as a senior scholar in computer science from Trinity College, Cambridge, he worked in industry with GEC-Marconi (General Electronic Company of England) and Digital Equipment Corporation before returning to higher education. He is a member of the Higher Education Academy, the Society for the Research into Higher Education, and the ACM SIGCSE. He has also held a number of external examiner posts within the UK. He has been practicing and researching problem-based learning since 1997 and has published and presented several papers on PBL.
