# Table of Contents

## Research Articles

1. **Detecting Facial Expressions for Monitoring Patterns of Emotional Behavior**
   Nikolaos Bourbakis, Wright State University, Dayton, OH, USA

29. **An Alarm System for Death Prediction**
   Rüdiger Brause, Computer Science Department, Goethe University, Frankfurt, Germany
   Ernst Hanisch, Department of Surgery, Asklepios Klinik Langen, Academic Teaching Hospital of Goethe University, Frankfurt, Germany

40. **Neuro-SVM Anticipatory System for Online Monitoring of Radiation and Abrupt Change Detection**
   Miltiadis Alamaniotis, Nuclear Engineering Program, University of Utah, Salt Lake City, UT, USA
   Lefteri H. Tsoukalas, School of Nuclear Engineering, Purdue University, West Lafayette, IN, USA

54. **An mHealth System for Monitoring of Children with Suspected Cardiac Arrhythmias**
   E. Kyriacou, Department of Computer Science and Engineering, Frederick University, Lemesos, Cyprus
   D. Hoplaros, Department of Computer Science, University of Cyprus, Lefkosia, Cyprus
   P. Chimonidou, Department of Computer Science, University of Cyprus, Lefkosia, Cyprus
   G. Matheou, Department of Computer Science, University of Cyprus, Lefkosia, Cyprus
   M. Millis, Signal GeneriX Ltd, Lemesos, Cyprus
   A. Kounoudes, Signal GeneriX Ltd, Lemesos, Cyprus
   A. Jossif, “Paedi” Center for Specialized Pediatrics, Lefkosia, Cyprus
   C. Patichisis, Department of Computer Science, University of Cyprus, Lefkosia, Cyprus

72. **Indoor Localization, Tracking and Fall Detection for Assistive Healthcare Based on Spatial Sparsity and Wireless Sensor Network**
   Mohammad Pourhomayoun, Wireless Health Institute, University of California, Los Angeles (UCLA), Los Angeles, CA, USA
   Zhanpeng Jin, Department of Electrical and Computer Engineering, Binghamton University, State University of New York (SUNY), Binghamton, NY, USA
   Mark L. Fowler, Department of Electrical and Computer Engineering, Binghamton University, State University of New York (SUNY), Binghamton, NY, USA
