

# Acknowledgment

The editors would like to thank all people involved in the editing process, without whose efforts the completion of this project would not be possible. Special thanks to all chapter reviewers for their dedicated and consistent work. We would also like to acknowledge the valuable help offered by the editorial content department of IGI Global. The editors are of course thankful to all chapter authors for contributing their qualitative work.

Finally, special thanks to our families and close friends for their steady encouragement and understanding throughout this project.
