

Acknowledgment

The editors would like to acknowledge the help of all involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed. Special thanks also go to the publishing team at IGI Global, whose contributions throughout the whole process, from inception of the initial idea to final publication, have been invaluable. In particular, to Jessica Thompson, Kristin Roth, and Ross Miller, who continuously prodded via e-mail to keep the project on schedule, and to Michelle Potter, who has invited us to take on this project.

Most of the authors of chapters included in this book also served as referees for chapters written by other authors. Thanks go to all those who provided constructive and comprehensive reviews. Other reviewers who provided the most comprehensive, critical and constructive comments include prof. Antonio Carlos da Rocha Costa of Catholic University of Pelotas, prof. Liliana Passerino of Graduate Program in Computer in Education, prof. Toacy Oliveira from Catholic University of Rio Grande do Sul, prof. Renata Vieira of University of Vale do Rio dos Sinos, prof. Eliseo Reategui from University of Caxias do Sul, prof. Nize Maria Campos Pellanda of University of Santa Cruz do Sul, as well also to Edilson Pontarolo and Michelle Leonhardt of Federal University of Rio Grande do Sul.

In closing, we wish to thank all of the authors for their insights and excellent contributions to this book.
