

Acknowledgment

We will like to acknowledge the support of Project FONCICYT 95185, “Dynamic Probabilistic Graphical Models and Applications”, sponsored by CONACYT, Mexico, and the European Union. Several chapters in this volume are related to this project, which concluded in June 2011.

We also acknowledge the professional work of all the reviewers, and the assistance of the publishers in the preparation of this volume.

Finally, we appreciate the support of our institutions during the edition of this book.
