A

advertising 246
agriculture 324
automated valuation model (AVM) 279
automation tool 8

B

baling and stacking logistics 347
binary large object (BLOB) 38
business data 184
business geographics 358
business intelligence 81
business IT 358

C

causal value 215
cognitive fit theory (CFT) 25, 30
competitive analysis 253
computer assisted design (CAD) 8
computer assisted mass appraisal (CAMA)
279
cost-benefit (C-B) analysis 56
customer loyalty 263
customer relationship management (CRM)
81, 359

D

database management systems 38
data management abilities 302
data mining 114
data selection 115
data treatment 115
decision applications 2
decision maker 23
decision-making 175
decision outcome 23
decision performance 22, 31
decision strategy 23
decision support 153
decision support automation 303
decision support systems (DSSs) 2
decision task 30
demographics 238
diffusion of innovations 261
direct marketing 247
discounted cash flow 67
distribution management and energy
management system 304

E

economic geography 183

economic impact 335
 electronic commerce 81
 emergency management 307
 enterprise resource planning (ERP) 63, 81, 360
 equipment guidance 329
 executive information systems (EIS) 3
 explanatory value 215
 exploratory value 215
 extensible markup language (XML) 362

G

geo-business application 204
 geo-coding 267
 geographic identifier 114
 geographic information systems (GIS) 1, 21, 36, 56, 151, 201, 212, 236, 260, 278, 324, 343
 geo-referenced data sets 114
 geospatial analysis 278
 geospatial information 191
 global positioning systems (GPS) 179, 240, 324
 gravity model 36

H

hauling logistics 347
 health care services 212
 hedonic models 283
 hybrid storage model 84

I

image theory (IT) 25
 independent system operators (ISO) 308
 information reporting tool 8
 information systems (IS) 184
 information technology (IT) 1, 22, 333
 intangible costs and benefits 68
 integrated spatial reasoning 122
 Isobord 343

K

knowledge discovery 114

L

land-use information systems (LIS) 156

M

maintenance management 307
 managed service models 89
 management control 214
 management information systems (MIS) 2, 184
 map overlay 43
 mapping classification methods 41
 market segmentation 251
 marketing 236
 monitoring applications 305

N

net-enablement business innovation cycle (NEBIC) 199

O

online analytical processing (OLAP) 155
 operational control 214
 outward spread 269

P

package-specific storage models 88
 Padrão 113
 Padrão system 133
 personal digital assistants (PDA) 360
 personal selling 245
 point of sale (POS) 153, 263
 positive train separation (PTS) 208
 power availability management 306
 power line failures 301
 power utility automation 301
 precision agriculture tools 326
 pricing strategies 244
 product strategies 241
 promotional strategies 245

Q

qualitative spatial reasoning 119

R

real estate valuation model 278
real-time data 95
relational database management systems
 (RDBMS) 343
relationship marketing 252
remote sensing 330
retail marketing 261

S

Sears Roebuck delivery 69
soil sampling 327
spatial data 37
spatial data engine (SDE) 38
spatial data repositories 80
spatial data storage technologies 82
spatial decision support system (SDSS) 3,
 10, 151
spatial decisions 152
spatial relationships 239
spatial technology 361
spatial visualization 5
spatiotemporal information 180
stock-keeping-unit (SKU) 264
strategic planning 214

T

table joins 42
topological spatial relations 127
trade area analysis 48
transaction processing systems (TPS) 158
transactional business data 94

U

u-computing 360
unified storage model 85
urban labor market 44

V

variable rate application (VRA) 328
vector data 188
vertical integration 303
visualization 159

W

Web services 361
wireless location-based services 362
work-in-progress management 364

Y

Yucca Valley 288
