

Acknowledgments

We are indebted to many individuals who contributed to the development of this first scholarly book in Enterprise Systems Education in the world.

First, we would like to thank all reviewers for their constructive comments on and invaluable suggestions to each chapter, which essentially ensure the academic value and quality of this book. Our professional gratitude is directed toward all of our authors from academia to industry for their excellent contributions to this book.

Our special thanks go to the publishing team at Idea Group Publishing, in particular to our development editor, Ms. Kristin Roth, who advised and helped us not only to keep the project on schedule, but also to resolve several tough issues, and Dr. Mehdi Khosrow-Pour who motivated us to take on this pioneering project.

Finally, we would like to give our hearty thanks to Andrew's wife, Irmina, and Michael's wife, Lee, and his lovely children, Charity, Christina, and Michael, for their love and patience to support us for completing this project.
