

Acknowledgments

I'd like to thank the authors for their efforts; they are appreciated, especially when it is considered that book chapters carry little weight in decisions on promotions and tenure. I'd also like to thank the support I received from the publishing staff at Idea Group Inc.; they were helpful and encouraging. Finally, I'd like to thank my family for putting up with the mess around the house (20 chapters spread around the living room isn't a pretty sight) and the inattention I paid to them as I finished the book. I know they appreciate my efforts, and I truly appreciate their love and support.
