

Acknowledgments

The editor would like to acknowledge the help of all involved in the collation and review process of the book. In particular, I would like to acknowledge the enthusiastic responses of the contributing authors, many of whom also served as subject matter experts throughout the review process. Thanks go to all those who suggested topic ideas and provided constructive and comprehensive reviews. Special thanks also go to the publishing team at Idea Group Inc. In particular, I would like to thank our development editor Kristin Roth, who made a valuable contribution in overcoming several obstacles throughout the project, and to Mehdi-Khosrow-Pour, who motivated me to take on this project. In closing, I wish to thank my family for their love and support throughout this project.
