

Acknowledgment

I would like to extend my utmost gratitude to the people who have, in one way or other, inspired, aided and contributed to the successful completion of this book.

First of all, I would like to express my sincere gratitude to Deputy Executive Director (Research) Professor Lye Kin Mun at the Institute for Infocomm Research (I²R) for his strong encouragement of my editing works.

I would also like to thank the A*CAR (A*STAR Capabilities for Automotive Research) taskforce, and the management of Institute for Infocomm Research (I²R) for providing me the opportunity to carry out research into the exciting area of vehicular networks. In particular, I would like to thank Dr. Feng Bao and Dr. Yongdong Wu at I²R for their support.

Special thanks to all reviewers for their expertise, time, effort and timely response throughout the peer evaluation process. In particular, I wish to express my appreciation to the members of the Editorial Advisory Board for their guidance, support and constant encouragement.

I would also like to take this opportunity to thank Tyler Heath and Heather A. Probst for their assistance with this book.

Last but not least, the heartiest gratitude is given to my family for their love and encouragement.
