

Acknowledgment

I would like to acknowledge the help of three anonymous reviewers involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed.

Special thanks also go to the publishing team at IGI Global, whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. In particular to Jan Travers (vice president of editorial) and Heather Probst (assistant executive editor) who have been assigned to work with me. They continuously provided feedbacks and encouragements via e-mail and telephone calls for keeping the project on schedule.

Special thanks to my daughter, Caroline Eom, who has done an excellent job in proofreading the entire manuscript of this book and several other previous books.
