

## Acknowledgment

We are grateful to numerous individuals whose assistance and contributions to the development of this scholarly book either made this book possible or helped to make it better.

First, we would like to thank all chapter reviewers for their invaluable comments, which helped ensure the intellectual value of this book. We would also like to express gratitude to our chapter authors for their excellent contributions to this book.

Special thanks are due to the publishing team at IGI Global, in particular to our Managing Development Editor, Ms. Kristin Roth, who allowed her staff to provide invaluable support to keep the project on schedule and in high quality, and to Dr. Mehdi Khosrow-Pour whose vision motivated the development of this pioneering project. This project would not have been successful without Ross Miller, Deborah Yahnke, and Rebecca Beistline, who tirelessly offered their professional assistance during the development of this project.

Finally, we would like to give our heart-felt thanks to Kuanchin's wife, Jiajiun, and Adam's family for their understanding and encouragement during the development of this book.
