action research 760
actor-network theories 105
actor network theories 759
actor network theory (ANT) 602
adoption of collaborative technologies in global virtual teams 400
advanced placement (AP) courses for e-learners 45
affective community study, overview 366
answering multidimensional informational needs (AMIN) 719
anticipation of future interaction (AFI) 477
asynchronous CMC tools 437
Athabasca University 69
autoethnography 760
axial coding 682

B

behavioral intentions 457
behavioural factors influencing virtual multicultural collaboration 161
beneficence 506
Blackboard information 389
business network architecture 492
business network coordination 488

C

"culture of collaboration", developing 746
case study research 760
co-presence 379
cognitive artifacts 302
cognitive presence, exploring 184
collaboration 206
collaboration, adult learner 334
collaboration across time zones 237–249
collaboration and networks 74
collaboration engineering 197
collaboration in schools 212
collaboration in schools, case study 214
collaboration through municipal motivators 679–694
collaboration tools and systems 436
collaborative action research 349–361
collaborative creativity 86, 90
collaborative creativity techniques 87
collaborative e-learning structures, development 48
collaborative enterprise, information systems and tools 435–451
collaborative integration paradigm 761
collaborative leadership development, technology enhanced 725–740
collaborative learning 88
collaborative learning contexts 295
collaborative partnerships 103–129
collaborative planning forecasting replenishment (CPFR) 444
collaborative practice 333
collaborative supply chain management (SCM) 443
collaborative technologies 402
collaborative technology adoption, instrumental view 402
collaborative technology adoption, social view 403
collective identity 266
collective identity and learning in a virtual team 261–279
collective knowledge 641
collective memory enhancing 637–650
collectivism 38
commonwealth Caribbean 55
communication 206, 490
communication and collaboration 209
communication in organizations 517
communication styles 734

community of practice (CoP) 80, 417
community repository 637
community university collaboration 130–141
computer-mediated communication (CMC) 472
computer mentoring outcomes 378–386
computer supported collaborative learning (CSCL) 297
computer supported collaborative work (CSCW) 297
conflict management 535
conflict theories 602
constructivist theories 758
contextual cognitive activity 303
contract documents 491
cotemporality 379
covert cuing 536
creating synergy 142–158
creative era 86
creativity 87
critical discourse, participating 185
cultural communication norms 149
cultural coordination norms 151
cultural norms 144
curricular context leverages learning 134
customer support, anytime/anywhere 500–515

D

decision confidence (DC) 478
DELFEE case 7
deontics 491
department for education and skills (DfES) 581
developing trust 472
DfES dimensions 584
diabetes tele monitoring, present status 721
digital global frontier 177–191
direct instruction 183
discourse theories 602, 759
discussion forums 96
distance education 56
distance education, institutional collaboration 58
distributed cognition 295–311
distributed cognition, defined 299
distributed cognition in collaborative learning environments, implications 305
distributed learning, case study results 318
distributed learning course description 316
distributed learning model 312–327
distributed work 505

E

e-business, collaborative synergy and leadership 409–434
e-collaboration, support structures 20
e-collaboration and knowledge management 519
e-collaboration in a federated structure 47
e-collaboration in education 16
e-collaboration tool 20
e-collaboration toward social health outcomes 710–724
e-commerce activities 403
e-commerce adoption 452–471
e-discovery 438
e-folio project 335
e-mail discussion group, case study 355
e-mail discussion groups 352
e-mail reflection groups 349–361
e-networking 590
e-portfolio 318
e-portfolio capacity, educational leadership 328–348
e-research, defined 2
e-research collaboration 1–15
e-research communities of practice 5
e-social constructivism 280–294
e-social constructivism, a theory 290
e-social constructivism, principles 291
e-tutors' activities in logs 93
ease of use (EOU) 478
education, east vs. west 31
educational cultural difficulties approaches 34
educational issues facing our digital age 296
educational practices in Japan 33
education for sustainable (ESD) 579
education sector, e-collaboration 205–222
electronic collaboration 209
electronic data interchange (EDI) 443
emergent perspective 632
emergent systems 628
Enterprise 2.0 566
environmental support for collaboration 61, 70
EQUEL case 7
ESD awards, significance 585
ESD definition 583
ESD in the southwest 583
ethnographic research 760
ethnotechnology 92
Every Child Matters (ECM) 585
exogenous, dialectical, and endogenous constructivism 284

F

facilitating discourse 182
faculty awareness, creating 232
femininity 38
formation of networks, interaction 80

G

geographic dispersion 147
global collaborative education 30–42
global e-science, networked experiments 615–625
global footprint, leveraging 547
globalizing a function in a company 546–559
global virtual team 402
global virtual teams, pros and cons 548
GMS features 632
GMS structure 629
GMS system development 629
grounded theory 759
group culture strategy 509
group reflection 351

H

human resources training 669
human resources training in Rwanda 664–678
hybrid synergy 83–102, 90
hybrid synergy analysis 94

I

ICT facilitating emergency response 626–636
ICT in education initiatives 108
ICT in education partnerships 109
ICT integration, school support system 113
ICT in the public sector 699
ICT misconceptions in education 121
ICTs in secondary education, application 103–129
IDT functioning, challenges 143
individual contract strategy 510
individualism 38
individualism vs. collectivism 38
information and communication technologies (ICTs) 238
information communication technology (ICT) 54
institutional collaboration 58
institutionalized isolation 350
institutional learning 70
instructional milieu 288
integrated emergency room system (GMS) 626
inter-business collaboration, supporting 487–499
inter-organizational cooperation, dialectic relationship 695–709
inter-organizational e-collaboration in education 16–29
interactive voice response (IVR) systems 500–515
interdisciplinary collaboration 192–204
interdisciplinary collaboration, engineering effective 198
interdisciplinary teams 195
international e-collaborative groups, trust and synergy 472
internationally distributed teams (IDTs) 142
international planning research 668
intra-organizational cooperation, dialectic relationship 695–709
intraregional collaboration 70

K

Kiwitrails 655, 657
KMmaster editions 525
KMmaster for collaboration and knowledge management 516–530
KMmaster knowledge management platform 522
knowledge co-creation 599–614
knowledge co-creation attributes, study 604
knowledge communication 518
knowledge communication framework 519
knowledge in action 186
knowledge management 133
knowledge sharing 411, 505
knowledge workers 84

L

“linking for a change” 579–598
“linking for a change” process 580
leadership 688
leadership, emergent thinking 731
leadership in e-business 409
leadership program, development and delivery 732
leadership substitutes theory 417
leadership training 669
learning 265
learning community, creating and sustaining 181
learning environments today 296

M

masculinity 38
masculinity vs. femininity 38
mashups 564
memory project 642

mentor efficacy 382
Mindset Network Organization (MSN) 109
mistakes as learning 535
MLQ-5X 415
mobile Internet platform (MIP) 718
model design, theoretical construct 314
MSN partnership structure 117
multifactor leadership questionnaire (MLQ) 411
multilayered cognitive activity 303
municipal motivators, collaboration 679–694

N

NAI's technology implementation 744
NASA Astrobiology Institute (NAI) 744
NASA Astrobiology Institute, creation 743
NASA Astrobiology Institute, lessons learned 741
national writing project (NWP) 251
national writing project (NWP), supports teacher research 252
negotiation as a social process 489
negotiation support system (NSS) 492
negotiation to enactment 493
networked e-science experiments 617
network formation 79
network theories 602, 759
Newfoundland and Labrador 44
new public management (NPM) 696
New Zealand Tourism Research Institute (NZTRI) 652
North Town, ICT reform 702
North Town case 699

O

on-line discussion posting, rubric 387–399
online collaborate learning framework 178
online collaboration, facilitating 188
online collaborative integration 757–768
online video case studies (OVCS) 388
open coding 682
organizational case study, 7-S review 551
organizational change theory 227
overt cuing 536

P

partnership, strategic layers 117
partnership management 118
path analysis 761
personal health profiles 720
police administrative system (BPS) 631
policy network 105
policy network theories 759
power distance 37
primary collaborations, role defining 716
private industry network (PIN) 443
product lifecycle management (PLM) 446
professional portfolio 329
professional writer role 250–260
progressive education, John Dewey 282
project AMIN (answering multidimensional information needs) 712
project method e-course 93
prototype development 718
public management reforms, new 696
public private partnership (PPP) 697

Q

Q method 761

R

radical constructivism 284
randomized control trial (RCT) 716
really simple syndication (RSS) 562
reciprocity 506
reflective conservation, dilemma 351
reflective practice 330
reflective writing 352
relational synergy in international e-collaborative groups 472–486
remote collaboration 742
risk takers 688
rubric to classroom practice, applying 394

S

sales force automation (SFA) 446
scaffolding learning 183
school management and technologies project 75
secondary education in South Africa 106
secondary education in South Africa, challenges 107
secondary education in South Africa, value of ICTs 111
selective coding 683
sequentiality 379
shared identity 509
simultaneity 379
Skype, e-tutors' activity 95
small and medium-sized enterprises (SMEs) 453
small tourism enterprise (STE) collaboration 651
social capital 453, 505
social capital theory 454, 759
social cognition 295–311

social constructionist view 401
social construction of knowledge 518
social constructivism, contemporary interpretations 284
social constructivist theories 758
social learning and action 601
social learning for integrated management (SLIM) project 600
social learning theories 758
social learning theory 284
social network 453
social presence, fostering 180
social tagging 563
sociocognitive constructivism, Jean Piaget 282
sociocultural constructivism, Lev Vygotsky 283
sociotransformative constructivism 284
software-oriented-architecture (SOA) 449
SOX compliance 438
spiral learning and discovery, Jerome Bruner 283
strategic layers of partnership 117
strategic service partnership (SSP) 695
strategic service partnerships, emergence 698
structured collaboration 440
student peer mentoring online 362–377
subject matter experts (SMEs) 548
survey research method 761
synchronous CMC tools 439
synchronous communication via Skype 95
synergy for inter-cultural learning 142–158
synergy supporting 3

T

teacher burnout 358
teaching presence, developing and maintaining 181
team chartering and sponsorship 538
team collaboration factors 534
team collaboration implications 540
team functioning, ultimate performance 531–545
team leadership 536
team virtuality 263
team workspace tools 440
technology-enhanced learning experiences 131
technology acceptance model (TAM) 457
technology development, transfer, and use in higher education 229
technology enhanced collaborative leadership development 725–740
technology leverages 130–141
techscapes, designing 223–236
tertiary education 55
text-based chat (TBC) 378
tourism enterprise collaboration 651–663
transformational leadership 411
transformational leadership scale (TLS) 411
trust 453, 454, 456
trust building 549

U

uncertainty avoidance 38
university techscapes, designing 223–236
unstructured collaboration 436

V

virtual classes in small schools 43–53
virtual contact centers 509
virtual educational structures, support 47
virtual knowledge working 83–102
virtual multicultural collaboration 161
virtual multicultural teams, behavioral factors 159–176
voice over IP (VoIP) 501
VTC 378

W

Web 1.0 intranets 561
Web 1.0 vs. Web 2.0 565
Web 2.0 defined 562
Web 2.0 technologies, integrating 560–578
Web 2.0 technologies, integration 567
weblogs or blogs 562
Western Southland (WS) region 658
