

Acknowledgments

We wish to thank the staff of Idea Group Publishing, most notably Mehdi Khosrow-Pour, Jan Travers, and Michele Rossi, for consistent support during the editing process. A very special thanks is extended to the College of Business and Marketing Program at James Madison University for providing assistance. The *Advances in Electronic Marketing* book project would not have been possible without the hard work and dedication of the contributing authors and reviewers. All chapters appearing in this book were reviewed by the external reviewers through a double-blind review process. The external reviewers did not know the authors' names or affiliations. The chapter selection process was quite competitive and went through several revisions based on comments provided by reviewers and editors. Although we evaluated 33 chapters (70 authors) for the book, only 16 chapters (34 authors) were accepted for final inclusion.
